

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

PREFACE.

It is necessary to state in explanation of the fact that the subjects embraced in this volume are not in chronological sequence with the preceding volumes, that they were not discovered until the papers of those volumes had been calendared. Their value need not be impaired thereby, as they constitute matters of Colonial history, never, it is confidently believed, heretofore given to the public.

The letters of the "Committees of Correspondence" indicate the gradual development of the scheme for National Independence, which inspired the minds and hearts of the Fathers of the Republic. In the perusal of these, no Virginian can fail to feel a just pride in the part acted by his own State, and the position accorded to her by the sister Colonies for patriotism, resolution and wisdom.

The records of the "Committee of Safety" show that upon it devolved mainly the organization and equipment of the army and navy of Virginia, which constituted so large a portion of the force which wrested our land from the dominion of Great Britain after a seven years' war. In these will be found much that is highly interesting to the descendants of those brave ancestors, who contributed to this grand result.

It is proper to state that in the copy made, the language and spelling has been strictly followed.

The preparation of the Calendar in chronological order is resumed at May 16th, 1795, page 240.

LETTERS AND PROCEEDINGS

OF THE

Committee of Correspondence and Inquiry

OF THE

COLONY OF VIRGINIA,

From March 12th, 1773, to April 7th, 1775.

BY THE HOUSE OF BURGESSES, FRIDAY, MARCH 12TH, 1773.

Whereas the minds of his Majesty's faithful subjects in this Colony have been much disturbed by various rumors and reports of proceedings tending to deprive them of their ancient, legal and constitutional Rights; and whereas the affairs of this Colony are frequently connected with those of Great Britain, as well as the neighboring Colonies which renders a communication of Sentiments necessary: In order, therefore, to remove the uneasiness and to quiet the minds of the people as well as for other good purposes above mentioned—

Be it resolved, That a standing committee of correspondence and inquiry be appointed to consist of eleven persons, to-wit: the honorable Peyton Randolph, Esquire, Robert Carter Nicholas, Richard Bland, Richard Henry Lee, Benjamin Harrison, Edmund Pendleton, Patrick Henry, Dudley Digges, Dabney Carr, Archibald Cary, and Thomas Jefferson, Esquires, any six of whom to be a committee, whose business it shall be to obtain the most early and authentic intelligence of all such Acts and Resolutions of the British Parliament or proceedings of administration as may relate to or affect the British Colonies in America; and to keep up and maintain a correspondence and communication with our sister Colonies respecting those important considerations; and the result of such their proceedings from time to time to lay before this House.

Resolved, That it be an instruction to the said committee that they do

without delay inform themselves particularly of the principles and authority on which was constituted a court of enquiry, said to have been lately held in Rhode Island, with powers to transport persons accused of offences committed in America to places beyond the seas to be tried.

Resolved, That the Speaker do transmit to the Speakers of the different Assemblies of the British Colonies on this Continent, copies of the said Resolutions and desire that they will lay them before their respective Assemblies and request them to appoint some person or persons of their respective bodies to communicate from time to time with the said committee

Williams-
burg, March
13, 1773

At a meeting of the Committee of Correspondence and Inquiry, Williamsburg, on Saturday, the 13th of March, 1773:

Present—The honorable Peyton Randolph, Esquire, Robert Carter Nicholas, Richard Bland, Benjamin Harrison, Richard Henry Lee, Dudley Digges, Archibald Cary, Dabney Carr, and Thomas Jefferson, Esquires.

Resolved, That John Tazewell be appointed clerk of this committee and he is to keep a fair record of the proceedings thereof from time to time. Peyton Randolph, Robert Carter Nicholas, and Dudley Digges Esquires, are appointed a select corresponding committee, and they are directed to request of the Speakers of the Assemblies for the Colony of Rhode Island, Massachusetts, Connecticut, and New York, a full account of the principles and authority on which was constituted a Court of Enquiry, said to have been lately held in the Colony of Rhode Island together with an authentic copy of their commission and proceedings.

Also to procure a copy of an Act of Parliament passed in the present year of his Majesty's reign, intituled "An Act for the better preserving his Majesty's Dock-yards, Magazines, Ships, Ammunition, and Stores," and all other Acts of Parliament which now are or may hereafter be passed relating to the affairs of the British Colonies on the Continent of America, and copies of the Journals of the House of Commons from — to the present time, as also of their proceedings in future sessions of Parliament.

The corresponding members above mentioned are empowered to call the meetings of this committee whenever any emergency may require their immediate attention.

Ordered, That copies of the Acts of Assembly intituled "An Act making it Felony to forge the paper currency of the other Colonies," be immediately transmitted to the Speakers of the several Assemblies on this Continent.

Williams-
burg, April
6, 1773

At a meeting of the Select Committee of Correspondence, at Williamsburg, on Tuesday, the 6th of April, 1773:

Present—The honorable Peyton Randolph, Esquire, Robert Carter Nicholas, and Dudley Digges, Esqrs.

The committee came to a resolution to correspond with Mr. John Norton, of London, merchant, and directed a letter to be prepared requesting him to send them a copy of an Act of Parliament, passed in the present year of his Majesty's reign, intituled An Act for the better preserving his Majesty's Dock-yards, Magazines, Ships, Amunition and Stores, the Journals of the House of Commons from the session in 1765-6, and all other Acts of Parliament and proceedings of administration which may affect this or any of the Colonies on the Continent.

Williams-
burg, April
6, 1773

A letter to Mr. Norton being accordingly prepared, was presented to the committee read and agreed to as follows:

WILLIAMSBURG, VIRGINIA, *April 6th, 1773.*

SIR:

At a late session of our Assembly, the House of Burgesses judged it necessary to enter into several resolves, of which we take the liberty of enclosing you a copy, and at a general meeting of the committee they thought proper to appoint us three members of their body a select corresponding committee, with an injunction that we should take the earliest opportunity of procuring such Acts of Parliament and Journals of the British House of Commons, and all other authentic intelligencies which may answer the expectations and further the views of the House of Burgesses. Upon considering of a person in England with whom we could correspond with advantage, our attention was presently drawn to you as a gentleman of integrity and well known attachment to the interest of this Colony. We, therefore, desire the favor of you to procure and transmit to us, by the first good opportunity, a copy of an Act of Parliament, passed in the present year of his Majesty's reign, intituled An Act for the better preserving his Majesty's Dock-yards, Magazines, Ships, Ammunition and Stores, and of all other Acts or Resolutions of Parliament, or proceedings of administration lately passed or entered into, or which may hereafter take place, by which all or any of the Colonies on the Continent of America may be, either immediately or eventually affected. The Treasurer, some years ago, by order of the House of Burgesses, imported Journals in folio down to the Session of Parliament in the year 1765-6, inclusive, and as we are directed to have the collection made complete and continued so from time to time, we desire that you will also send us the whole Journals at large from the period above mentioned. We shall hope to hear from you by the first ship, and desire that your letters on these subjects may be directed to Peyton Randolph, Esq'r.

We are Sir, your mo: ob't Servants,

PEYTON RANDOLPH,
ROB'T CARTER NICHOLAS,
DUDLEY DIGGES.

Williams-
burg, April
6, 1773

Ordered, That the said letter and a duplicate thereof be sent by the first Ships.

Ordered, That letters be prepared to the Speakers of the several Assemblies for the Colonies of Maryland, Rhode Island, Connecticut and New York, requesting an account of the principles and authority on which was constituted a Court of Enquiry, said to have been lately held in Rhode Island, together with an authentic copy of their commission and proceedings.

A letter was accordingly prepared to the Speaker of the House of Representatives for the province of Massachusetts Bay, which being read and approved of by the Committee, is as follows:

WILLIAMSBURG, VIRGINIA, *April 6th, 1773.*

SIR:

The Speaker of the House of Burgesses of this Colony having transmitted to you a copy of the resolutions entered into by their House at their last session, constituting a Committee of Correspondence and Enquiry, permit us to refer you to those resolutions. That committee have appointed us a select corresponding committee, and in pursuance of direction we are now to request the favour of you to transmit us a full account of the principles and authority on which was constituted a Court of Enquiry, said to have been lately held in the Colony of Rhode Island, with powers to transport persons accused of Offences committed in America, to places beyond the seas to be tried, together with an authentic copy of their commission and proceedings.

We have it also in command, to transmit to you a copy of an Act of our Assembly, made at their last session, to prevent counterfeiting the currency of other Colonies. This Colony having of late years sustained the greatest injury by having their paper currency forged, and it having been represented to our General Assembly that the principle author of this mischief is an inhabitant of North Carolina, they judged it necessary, as well to prevent such dangerous practices in future, as to show their regard for other Colonies, to pass this Act.

Our Governor will transmit copies of this law to the different Governors on the Continent with a request that they would be pleased to recommend it to their several Assemblies to enact laws of the same import respecting Virginia, and we are to request your countenance and assistance upon so important an occasion.

We have the honor to be very respectfully,

Sir, your mo: ob't serv'ts,

PEYTON RANDOLPH,
RO. CARTER NICHOLAS,
DUDLEY DIGGES.

Also a letter of the same import to the Speaker of the General Assembly of the Colony of Rhode Island and Providence Plantations in New England. Williamsburg, April 6, 1773

Also to the Speaker of the House of Representatives of the Colony of Connecticut.

Also to the Speaker of the General Assembly of the Colony of New York.

WILLIAMSBURG, VIRGINIA, *April 6th, 1773.*

SIR:

This Colony having of late years sustained the greatest injury by having their paper currency forged, and it having been represented to our General Assembly at their last session, that the supposed principal author of this mischief is an inhabitant of North Carolina, they judged it necessary, as well to prevent such dangerous practices in the future, as to shew their regard for the other Colonies, to pass an Act to prevent counterfeiting the paper currency of other Colonies. Our Governor will transmit copies of this Act to the different Governors on the Continent with a request that they would be pleased to recommend to their different Assemblies to enact laws of the same import respecting Virginia. We have it in command to furnish the Speakers of the different Assemblies with the like copies, and to request the favour of their countenance and assistance in accomplishing our wishes upon so important an occasion. We therefore take the liberty of inclosing you a copy of the Act.

We have the honor to be very respectfully,

Sir, your mo. ob't serv'ts,

PEYTON RANDOLPH,
ROBERT CARTER NICHOLAS,
DUDLEY DIGGES.

Williams-
burg, April
6, 1773

At a meeting of the Select Committee of Correspondence, at Williamsburg, on Thursday, the 6th Jan. 1774:

Present—The honorable Peyton Randolph, Esquire, Robert Carte Nicholas, and Dudley Digges, Esqrs.

A letter received from the Committee of Correspondence in Connecticut was laid before this committee and considered, and the following answer thereto agreed upon:

Williams-
burg, Jan'y
6, 1774

GENT:

WILLIAMSBURG, VIRGINIA, Jan. 6th, 1774.

We have, agreeable to your request, inquired into the proceedings of the General Court of this Colony, on the requisition made to them for Writs of Assistants to the Officers of his Majesty's Customs. We find two applications of this sort have been made by direction of the Commissioners of the Customs in Boston: One in the year 1769, the other in the year 1773, and we now inclose you copies of their Determinations, and also a copy of the Writ approved of by the judges. By the form of this it appears to have been their opinion that the Court was not warranted by the Statutes to grant the general and standing writs which the Commissioners had directed the Attorney-General to move for, but that whenever the officers thought these writs necessary, upon a motion to the Court, and an affidavit pursuant to the Statute, they would direct a proper writ to issue.

In compliance with the latter part of your request, we have attentively considered this Determination of our Supreme Court, and think it strictly conformable to the Statutes, and that the Legislature never had an idea of giving so dangerous and oppressive a power as that now claimed by the Commissioners.

The whole authority for issuing these writs depends on the Stat. 12, Caz. 2, chap. 19. For the 14th Caz. 2, chap. 11, makes no alteration in the manner of obtaining the writ; the 7th and 8th of Will. 3d, only extends the laws relative to the customs to the plantations, and the 7th Geo., 3rd, directs that the Supreme Courts in America shall have power to issue them. That Statute is in these words:

"That if any person or persons at any time after the first day of September, 1660, shall cause any goods for which Custom Subsidy or other Duties are due or payable by virtue of the Act passed this Parliament (intituled a Subsidy granted to the King of Tonnage and poundage and other sums of money payable upon merchandise exported and imported) to be landed or conveyed away without due entry thereof first made and the Customer or Collector, or his Deputy agreed with, that then and in such case upon oath thereof made before the Lord Treasurer or any of the Barons of the Exchequer or chief Magistrate of the port or place where the offence shall be committed, or the place next adjoining thereunto to issue out a warrant to any person or persons thereby enabling

him or them, with the assistance of a Sheriff, Justice of the Peace or Constable to enter into any House in the Day-Time where such Goods are suspected to be concealed, and in case of Resistance to break open such houses and to seize and secure the same goods so concealed, and all Officers and Ministers of Justice are hereby required to be aiding and assisting thereunto."

Williams-
burg, Jan'y
6, 1774

It plainly intends to prescribe a method to the Officers of Customs how they may obtain a power of entering and searching Houses, Shops, and Cellars, of breaking open doors, &c.

This they propose to do by instituting a new writ which they empower the Barons of Exchequer to issue on an information that such and such things have happened, and on an affidavit of the truth of such information. It cannot be doubted that this is a new writ, unknown to the common law, and one that affect the most essential rights and privileges of the subject, and therefore ought to receive in all Courts the most literal and restrained construction. It is well known that the Judges of England have ever considered general search warrants as illegal and dangerous, and Officers who have depended on their authority for protection have ever been disappointed.

We may venture then to affirm that the Court of Exchequer or any other Court to whom this power is transferred in issuing writs of this kind, without these previous requisites, or issuing writs conveying a power of doing these extraordinary acts at all times and on all occasions, cannot be justified under this Statute, nor are they warranted by the judgments of the Courts of Great Britain in any similar instances.

When the motion was made to the Court for these writs, the opinion of Mr. De Grey, who was then his Majesty's Attorney-General in England, was introduced and relied upon. He says:

1. "There can be no doubt but that the Superior Courts of Justice in America are bound by 7th Geo., 3rd, to issue such writs of assistants as the Court of Exchequer in England issues in similar cases to the Officers of the Customs.

2. "He seems surprized that the Chief Justice of Pennsylvania should think he was not warranted by law to issue a writ commanded by the Legislature, founded on the Common Law, enforced by Acts of Parliament, and in daily use in England, and which from the import of the 7th Will., 3rd, ought to have been set on foot from that time in America, and which Statute the late Act only meant to explain.

3. "He thinks the form of the writ issued by the Exchequer should be sent over together with the manner of applying for it and granting it by which they will see that the power of the Customhouse Officers is given by the Act Parliament and not by this writ which does nothing more than facilitate the Execution of his power by making it a contempt of the Court.

Williams-
burg, Jan'y
6, 1774

4. "That it is not granted upon previous information nor to any particular person nor on special occasion. The inconvenience of that was experienced upon the Act of 12. Can: 2, chap. 19, and the present method adopted in lieu of what that Statute had prescribed.

We take the liberty to say upon the first point that the Courts of America are not bound to issue writs of so dangerous a nature, let the practice of the Court of Exchequer be what it will unless they are warranted by law.

To prove that they are not so we refer to what has been said before. The 7th Geo. 3, does not establish the Legality of the Writs of Assistants issued by the Exchequer, and in our opinion does only intend to direct what Courts in America shall be applied to for such writ as the Court in Exchequer may legally issue, a point which remained doubtful: a doubt arising in this case may show the propriety of what has been observed, that this Act must be cautiously confined to the letter. For information, information is to be made to the Court of Exchequer, and there being no Courts of that sort in America strictly speaking, the Legislature thought the end of that Act would be defeated unless they should vest the same power in some Court that did exist among us. Permit us to ask whether this power have ever been controverted in the Courts of Westminster, and whether on such controversy it has been conformed by the Determination of the Judges. We doubt not that Mr. De Grey would have been ready enough to quote the instances if they had ever happened.

As to the 2nd part of his argument when he asserts that these writs are commanded by the Legislature he evidently begs the question. The question between us is not whether any Writs of Assistants are commanded by the Statutes but whether the General and Standing Writ he seems so desirous of imposing on the Colonies is commanded by any Statute. This assertion therefore ought to have followed a proof that this is the writ prescribed by the Statute which he has been prudent enough not to attempt. The position that they are founded on Common Law, is entirely new, as we know of no ancient Laws and Customs that gave Officers of the Customs a right to enter Houses, Shops and Cellars, to break open doors, &c., but have always understood that the secure and unmolested enjoyment of this kind of property was a great object with our ancestors when the Constitution of our mother country was framed, and that whenever any abridgment of this right has been necessary it has always been by Acts of the Legislature, and has been generally attended with the murmurs of the people.

How they have been enforced by Acts of Parliament has been explained, one directs how they are to be procured, another directs this Act shall extend to America, and a third substitutes the Supreme Courts here in the room of the Exchequer where the application is directed to be made by the first Act. Whether they should have been set on foot from the 7th

Will. is not material in the present discussion, but we believe the objection would have been thought a good one, that the power of granting these writs is given to the Barons of the Exchequer in England and cannot be assumed by any other Court.

Williams-
burg, Jan'y
6, 1774

In the third point of this Gentleman's opinion he advises the form of this writ to be sent over to us that we might see the powers given to the Customhouse Officers were given by the Act and not by the writ. A nice distinction, very inapplicable to the present debate. Whether these powers are founded on the Act or the writ is not material in a question what those powers are. However, it had a very different effect than was expected; it alarmed us and made us suspect that it was a poisonous pill prepared for us which the learned Attorney with all his art was laboring to make palatable.

We come to the last part of the opinion and here we think he has destroyed all that he had been endeavoring to establish before. He says that the inconvenience of granting this writ on a previous information to a particular person and on a special occasion had been found under the Act of 12 Caz. 2, and the present method adopted in lieu of what that Statute prescribed. By which we may learn that this is the method prescribed by that Act, and the method which the Exchequer followed at first. Nothing can justify the adoption he talks of but an Act of Parliament allowing the judges to alter the method before prescribed. As there is no such Act, and the whole power of the Court of Exchequer depends on the 12 Caz. 2, which directs the writ to issue in the manner we contend, for we may safely conclude that the Court has been in error and that the America Courts will be wrong in this instance to follow their example.

We are sorry the subject has occasioned our being so tedious, and are with great respect,

Your mo. ob't Sts.,

PEYTON RANDOLPH,
RO. C. NICHOLAS,
DUDLEY DIGGES.

A letter was accordingly prepared to the Committee of Correspondence for Maryland, which, being read and approved by the Committee, is as follows:

WILLIAMSBURG, *May 28th, 1774.*

GENTLEMEN:

The inclosed papers will explain to you our present political state here with respect to the unhappy dispute with our monther country. The propriety of appointing Deputies from the several Colonies of British America to meet annually in general Congress, appears to be a measure extremely important and extensively useful, as it tends so effectually to obtain the united wisdom of the whole in every case of general concern We are desired to obtain your sentiments on this subject, which you will be pleased furnish us with.

Being very desirous of communicating to you the opinion and conduct of the late Representatives on the present posture on American affairs as quickly as possible, we beg leave to refer you to a future letter on these subjects.

We are with Respect,

Your mo: obt. s'ts,

PEYTON RANDOLPH,
ROBERT C. NICHOLAS,
DUDLEY DIGGES.

To the Committee of Correspondence for Maryland.

Also letters of the same import to the Committee of Correspondence for Pennsylvania, New York, New Jersey, Massachusetts Bay, Connecticut, New Hampshire, Rhode Island, New Castle, Kent and Sussex upon Delaware, North Carolina, South Carolina and Georgia.

Ordered, That the said letters be sent by this day's post.

Williams-
burg, May

At a meeting of the Select Committee of Correspondence, on Tuesday, 31st of May, 1774:

Williams-
burg, May
31, 1774

Several letters from Maryland, Pennsylvania and Massachusetts Bay, lately received by the Speaker, were laid before this Committee and read.

Whereupon it is ordered, That a letter be immediately prepared and sent by Express to North Carolina inclosing copies of the letters and papers received by this Committee, and also an account of the steps which had been taken in consequence thereof.

A letter was accordingly prepared and being read and approved of by the Committee, is as follows:

WILLIAMSBURG, *May 31st, 1774.*

GENT:

We take the earliest opportunity of forwarding to you by Express the inclosed papers, which are copies of such as we received last Sunday in the afternoon from Maryland. We wish most earnestly that the sentiments of our sister Colonies could have been known previous to the Association entered into by the late representatives of this Colony, a copy of which, together with the Resolution of our House of Burgesses was transmitted to you last week by post. Our Moderator upon receipt of the dispatches from Maryland, immediately convened as many members of our late House of Burgesses as could be got together upon so short a notice, and we yesterday took the important business under our most serious consideration; the result of our deliberations will best appear from the inclosed which is submitted to your Judgment. It is much to be wished that it had been in our power to have done anything more decisive at present but our situation would not admit of it as you easily see from the reasons suggested. So soon as the late Representatives have fixed their final resolves we will not fail to communicate them to you in the most expeditious manner. At present we must beg the favour of you to forward copies of all the inclosed papers, together with such resolutions as you may think fit to adopt to our friends in South Carolina, with our joint requests that they will be pleased to forward them, together with their own sentiments to Georgia. We shall hope to be favored as soon as possible with the result of all your deliberations, and have the honor to be,

Gent: your mo. ob't serv'ts,

THE COMMITTEE OF CORRESPONDENCE FOR VIRGINIA.

The Committee of Correspondence for North Carolina.

Williams-
burg, May

The following letter was also agreed to and ordered to be sent to the Committee of Correspondence for Maryland:

WILLIAMSBURG, *31st May, 1774.*

GENTLEMEN:

We had the honor of writing the 28th inst. to the Speaker of your Assembly, inclosing him the resolution of our late House of Burgesses and a copy of the Association entered into by the late Representatives of Virginia upon the dissolution of our Assembly. We suppose this letter with the other papers must have to hand and that they have been communicated to you. We have now to acknowledge the receipt of your favor of the 25th inst., the several letters, &c., from Boston and Philadelphia. Our Moderator, without loss of time, immediately convened as many of the late Representatives as could be got together upon so short a notice, and we yesterday took the business under our most serious consideration. The result of our deliberations will best appear from the inclosed to which we take the liberty of referring you, and beg that it may be immediately transmitted through the hands of our friends in Philadelphia to our friends in Boston in the same manner as their sentiments and resolutions have been conveyed to us.

We wish it had been in our power to have done anything more decisive at present, but our situation would not admit of it as you will readily judge from the reasons suggested by our resolutions.

We could wish to have known the sentiments of New York. We found a letter from the Committee of Correspondence in that province mentioned in the Philadelphia letter, but no copy of it inclosed nor the purport of it mentioned.

We shall hope from time to time to be favored with the sentiments and resolutions of all our sister colonies and this in the most expeditious manner.

We have the honor to be with great respect,
Your mo. ob't s'ts,

THE COMMITTEE OF CORRESPONDENCE FOR VIRGINIA.

GENTLEMEN:

Delegates from the different counties in this Colony, composed of the Representatives of the people, met in this city, on Monday last, to consider and deliberate on the present critical and alarming situation of the British America Colonies.

As these matters are still the subject of their deliberation, we cannot at present make you so fully acquainted with their determination as we could wish. The expediency and necessity however of general Congress of Deputies from the different Colonies, was so obvious, that the meeting have already come to the resolution respecting it which we now take the liberty to enclose you, and of which they have directed us to give you the earliest intelligence.

CHAP. CCCLXXVI.

An act to make it felony without benefit of clergy to counterfeit the bills of credit of any of his Majesty's colonies which pass in payment in the colony of New York, passed 3rd July, 1766.

Whereas many evil-disposed and wicked persons have lately counterfeited and circulated in this colony large parcels of bills in imitation of true bills of credit, struck, emitted, and issued in the colony of New Jersey, and have passed the same as good and true bills of credit to the great hurt and damage of his Majesty's subjects of this colony, for prevention whereof and of other like mischiefs in future—

1. Be it enacted by his Excellency the Governor, the Council and the General Assembly, and it is hereby enacted by the authority of the same, that if any person or persons shall hereafter counterfeit any the true bill or bills of credit now or which shall hereafter be struck, emitted, and issued in the said colony of New Jersey, or the bill or bills of credit now or hereafter to be struck, emitted, and issued in any other of his Majesty's colonies, or shall alter any the said bills of credit so that they shall appear to be of greater value than the same by the law of such respective colony are, shall, or may be intended to pass for; or shall pass or give in payment any such counterfeit or altered bill as aforesaid, knowing the same to be counterfeit or altered.

Every person who shall so counterfeit or alter any the said bills of credit, or knowingly pass or give in payment any such counterfeit or altered bill as aforesaid, shall be guilty of felony, and, being thereof convicted, shall suffer the pains of death, as in cases of felony without the benefit of clergy, any law, usage, or custom to the contrary in any wise notwithstanding.

PROVINCE OF MASSACHUSETTS BAY, *June 3rd, 1773.*

SIR:

Province of
Massachusetts Bay,
June 3, 1773

The very judicious and important Resolves entered into by his Majesty's most ancient Colony of Virginia on the 12th March last, together with your obliging letter enclosing the same, have been laid before the House of Representatives of this province.

The wisdom of the measures proposed in those Resolves and the great and good effects that may reasonably be expected to flow from them, not only to the colonies, but to the parent State, were so obvious that the House immediately adopted them and appointed a committee to keep up and maintain a free communication with Virginia and the rest of the Sister Colonies.

That there has been long a settled plan to subvert the political constitutions of these colonies, and to introduce arbitrary power, cannot, in the opinion of this house, admit of doubt.

Those who have aimed to enslave us, like a band of brothers, have ever been united in their councils and their conduct. To this they owe their success. Are they not in this regard worthy imitation? Here it is praiseworthy to be instructed even by an enemy.

The object which the conspirators against our Rights seem of late to have had much in view has been either to lull the Colonies into a state of profound sleep and security which is forever the forerunner of slavery, or to foment divisions among them. How necessary then, how important, is it to counteract and defeat them in the fatal design?

To awaken and fix the attention of all to the common danger—to open

That this may be the happy effect of the truly laudable and generous design of the House of Burgesses of Virginia is the most ardent wish, and it shall be the object of the attention of this House.

In the name and by the order of the House, I have the honor to be with strict truth and regard, Sir,

Your most obedient, humble servant,

THOMAS CUSHING, Speaker.

PROVINCE OF MASSACHUSETTS BAY,
In the House of Representatives, May 27, 1773.

Whereas the Speaker hath communicated to this House a letter from the truly respectable House of Burgesses in his Majesty's ancient Colony of Virginia, inclosing a copy of the Resolves entered into by them on the 12th of March last, and requesting that a committee of this House may be appointed to communicate from time to time with a corresponding committee then appointed by the said House of Burgesses in Virginia;

And whereas this House is fully sensible of the Necessity and Importance of an Union of the several colonies in America at a time when it clearly appears that the rights and liberties of all are systematically invaded, in order that the joint wisdom of the whole may be employed in consulting their common safety—

Resolved, That this House have a very grateful sense of the obligations they are under to the House of Burgesses in Virginia for the vigilance, firmness, and wisdom which they have discovered at all times in support of the Rights and Liberties of the American Colonies, and do heartily concur with them in their said judicious and spirited Resolves.

Resolved, That a Standing Committee of Correspondence and Enquiry be appointed to consist of fifteen members, any eight of whom to be a quorum, whose business it shall be to obtain the most early and authentic intelligence of all such acts and Resolutions of the British parliament or proceedings of administration as may relate to or affect the British colonies in America, and to keep and maintain a correspondence and communication with our Sister Colonies respecting these important considerations, and the result of such their proceedings from time to time to lay before the House.

Resolved, That it be an instruction to the said committee that they do without delay inform themselves particularly of the principles and authorities on which was constituted a Court of Enquiry held in Rhode

Island said to be vested with powers to transport persons accused of offences committed in America to places beyond the seas to be tried.

Province of

Resolved, That the said committee be further instructed to prepare and report to this House a draught of a very respectful answer to the letters received from the Speaker of the honorable House of Burgesses of Virginia and the Speaker of the honorable House of Representatives of the Colony of Rhode Island; also a circular letter to the Speakers of the several other Houses of Assembly on this continent, enclosing the aforesaid Resolves, and requesting them to lay the same before their respective Assemblies, in confidence that they will readily and cheerfully comply with the wise and salutary Resolves of the House of Burgesses of Virginia.

Then the House immediately made choice of the following gentlemen to be the committee of correspondence and communication with the other colonies, viz.:

Mr. Speaker, Mr. Samuel Adams, hon'ble John Hancock, Esqr., Mr. William Phillips, Capt. William Heath, hon'ble Joseph Hawley, Esqr., hon'ble James Warren, Esqr., Richard Derby, Jr., Esqr., Mr. Eldridge Gerry, Jerathmell Bowers, Esqr., Jedediah Foster, Esqr., Daniel Leonard, Esq., Capt. I had the honor of yours of the 19th March enclosing a copy of the Resolves entered into by the House of Burgesses of Virginia upon so interesting a subject as that of an attempt to deprive his Majesty's faithful subjects in America of their ancient and constitutional rights by transporting persons accused of offences beyond the seas to be tried, thereby depriving us of that invaluable blessing of determining the same by the oaths of honest and lawful men of our own vicinage.

I am also favored with yours, Mr. Nicholas, and Mr. Digges' joint letter of the 6th of April, inclosing the copy of an Act of your colony to prevent the counterfeiting the paper money of other colonies, a practice hitherto carried on with great success, but highly injurious, and calls aloud for the interposition of the Legislature; both which matters I shall take care to lay before our House of Representatives, and am hopeful they will join in these and every other measure that may tend to the benefit and advantage of America.

FAIRFIELD, IN CONNECTICUT, *24 June, 1773.*

I have it in command from the House of Representatives of this Colony to acknowledge the receipt of your favor of 19th March last, together with the Resolutions of the patriotic House of Burgesses of the Colony of Virginia, which came to my hand in May last, when the Assembly of this Colony was sitting, which, without delay, I communicated to the House of Representatives of this Colony and received their commands to transmit to you the Resolutions they came into thereupon, and request you, as early as may be, to lay them before that honorable house, by which they will see how readily they approved of, cheerfully adopted the measures proposed to them, and have appointed a committee of correspondence as requested, to and by whom matters relative to the general interest of the Colonies may be communicated. They have expressed themselves so fully in the matters as leave me no room to add anything but that I have the honor to be with great truth,

Sir, your most obt., humble servt.,

EBENEZER SILLIMAN.

The Hon'le the Speaker of the House of Burgesses in Virginia.

IN THE HOUSE OF REPRESENTATIVES OF THE COLONY OF CONNECTICUT,
Friday, 21st May, 13 Geo. 3rd, 1773.

Mr. Speaker having laid before the House a letter from the Speaker of and certain Resolutions entered into by the House of Burgesses of the Colony of Virginia on the 12th of March last, viz.:

Whereas the minds of his Majesty's faithful subjects in this colony have been much disturbed by various rumors and reports of proceedings tending to deprive them of their ancient, legal, and constitutional rights;

And whereas the affairs of this Colony are frequently connected with those of Great Britain as well as of the neighboring Colonies, which renders a communication of sentiments necessary.

In order, therefore, to remove the uneasiness and quiet the minds of the people, as well as for the other good purposes above mentioned—

Be it Resolved, That a standing committee of correspondence and Inquiry be appointed, to consist of eleven persons, to-wit: the honorable Peyton Randolph, Esqr., Robert Carter Nicholas, Richard Bland, Richard Henry Lee, Benjamin Harrison, Edmund Pendleton, Patrick Henry, Dudley Digges, Dabney Carr, Archibald Cary, and Thomas Jefferson, Esquires, any six of whom to be a committee, whose business it shall be to obtain the most early and authentic intelligence of all such Acts and Resolutions of the British parliament or proceedings of administration as may relate to or affect the British colonies in America, and to keep up

and maintain a correspondence and communication with our sister colonies respecting these important considerations, and the result of such their proceedings from time to time to lay before this House. Savannah,
Georgia,
June 5, 1773

Resolved, That it be an instruction to the said committee that they do, without delay, inform themselves particularly of the principles and authority on which was constituted a Court of Inquiry said to have been lately held in Rhode Island with powers to transport persons accused of offences committed in America to places beyond the seas to be tried.

And further resolving, That the Speaker of the said House of Burgesses do transmit to the Speakers of the different Assemblies of the British Colonies on this Continent copies of the said Resolutions and desire that they will lay them before their respective Assemblies and request them to appoint some person or persons of their respective bodies to communicate from time to time with their said committee.

This House taking into consideration the contents of the said letter, the aforesaid Resolutions and the reasons on which they are founded, are of opinion that they are weighty and important in their nature and design, calculating and tending to produce happy and salutary effects in securing and supporting the ancient, legal constitutional rights of this and the Colonies in general, do therefore approve of and adopt the measure.

And thereupon resolved, That a standing committee of correspondence and Inquiry be appointed, to consist of nine persons, to-wit: the honorable Ebenezer Silliman, Esqr., William Williams, Benjamin Payne, Samuel Holden Parsons, Nathaniel Nagles, Silas Deane, Samuel Bishop, Joseph Trumbull, and Erastus Walcott, Esquires, whose business it shall be to obtain all such intelligence, and to keep up and maintain a correspondence and communication with our sister Colonies respecting the important considerations mentioned and expressed in the aforesaid Resolutions of the patriotic House of Burgesses of the Colony of Virginia, and the result of such their proceedings from time to time to lay before this House.

Resolved, That the Speaker of this House do transmit to the Speakers of the different Assemblies of the British Colonies on this continent, copies of these Resolutions, and request that they will come into similar measures and communicate from time to time with said committee on all matters wherein the common welfare and safety of the Colonies are concerned.

The foregoing Resolutions being severally read a third time, were, on the question put, agreed to by the House.

LONDON, 6th July, 1773.

The hon'ble Peyton Randolph, Robert Carter Nicholas, and Dudley Digges, Esquires:

GENTLEMEN:

I have within these few days been honored with your letter of the 6th of April, and think myself under great obligations to you for the confidence you are pleased to repose in me by thinking me a proper person to correspond with on the subject matter recited in your letter.

In consequence thereof I have procured and sent you under favor of my worthy friend, Mr. Benjamin Harrison, the Act of Parliament for preserving his Majesty's Dock-yards, Magazines, Ships, and so forth; also the Journals of the House of Commons from the period of time you mention as far as can at present be had, which shall be continued, and you may be assured I will be diligent in my enquiries after all other Acts or Resolutions of parliament or proceedings of administration lately passed or entered into, or which may hereafter take place, and that may in any degree affect any of the Colonies of America, and like a faithful watchman acquaint you therewith. Our present parliament, who are just prorogued, have made such strides towards despotism for some time past with respect to the East India Company, as well as America, that we have too much reason to dread bad consequences from such proceedings. Some of my friends in the India Direction tell me that they have thoughts of sending a quantity of tea to Boston, New York, Philadelphia, Virginia, and South Carolina, which Government seems to approve, but they suspect their motives are to make a cat's paw of the Company and force them to establish the 3d pr. lb. American duty. I advised the gentlemen not to think of sending their Tea till Government took off the duty, as they might be well assured it would not be received on any other terms. What their Resolution will be time only will discover. When anything offers worthy your notice I shall take the liberty of advising you again

At present remain with great respect, Gentlemen,

Your very obedient servant,

JOHN NORTON.

CHARLES TOWN, SOU. CAROLINA, July 9th, 1773.

SIR: When I had the honor of receiving your letter of the 19th March last the Commons House of Assembly of this province was under an adjournment to the 6th inst. As soon as a House was formed, which was not till yesterday, I laid your letter before them; as a prorogation was expected, which accordingly took effect at noon, the House lost no a moment's time, but instantly proceeded to the consideration of you

Resolutions which you enclosed me, and, unanimously approving them, appointed a committee to correspond with yours, agreeable to your recommendation, being desirous to shew their readiness to co-operate with your House in a measure dictated by such wise councils and directed to such laudable ends: A copy of their Resolutions I now enclose you, by which you will see, Sir, the pleasing task that is assigned me of conveying to you and the rest of the members of the honorable House of Burgesses of your province the thanks of the Commons House of Assembly of this province for communicating the said Resolutions, as well as for their steady attention to the general interests of America by which your province have so nobly and uniformly distinguished itself in the great cause of liberty. You will also be pleased to observe that the House have paid proper attention to the measure recommended and adopted by your House to prevent counterfeiting the paper money of the other Colonies by ordering a bill to be brought in for that purpose; and though the prorogation has prevented at this time the carrying the same into execution, yet the House will certainly take up the matter and proceed upon it as soon as they can go upon business.

The obstacle which has for so long a time past prevented the House from doing business is not yet removed, to-wit: a clause dictated by an instruction which the House is required to insert in the tax bill, but which they never will submit to.

In the Commons House of Assembly the 8th day of July, 1773:

Mr. Speaker reported to the House that he had received a letter from the Speaker of the hon'ble House of Burgesses of Virginia inclosing several Resolutions of that House, and the said letter and resolves were read to the House.

And the said Resolutions being unanimously approved of by the House—

Resolved, That Mr. Speaker and any eight of the other members of the standing committee of correspondence be a committee to inquire for and obtain intelligence upon the several matters mentioned in the said Resolutions, and to correspond with the committee appointed by the said House of Burgesses and Committees appointed or to be appointed in our Sister Colonies respecting the same.

Resolved, That Mr. Speaker do transmit the thanks of this House to

Charles the Speaker and members of the said House of Burgesses of Virginia for
 Town, South communicating the said Resolutions to this House, as well as for their

GENTLEMEN:

The Speaker of the House of Representatives of this Colony having transmitted to the Speaker of the House of Burgesses of your colony a copy of the Resolutions entered into by their House at their last session constituting a committee of correspondence and Inquiry, permit us to refer you to those Resolutions, by which you will see the House of Representatives of this Colony have fully adopted the measures proposed by your patriotic House of Burgesses, and with pleasure follow the lead given, an example set by the fathers of the people in the ancient, free and loyal Colony of Virginia. That committee have appointed us a select corresponding committee.

We have to acknowledge the receipt of your letter directed to the Speaker of our House of Representatives, and in answer say with respect to the Court of Inquiry said to have been lately held in Rhode Island vested with extraordinary unconstitutional powers, that the committee of correspondence in that Colony can and doubtless will give you more full intelligence respecting that matter than we can.

As to the copy of an Act inclosed in yours, our Governor had not received the letter you mention from the Governor of Virginia, nor has he yet received any. We waited for that till it was too late in the session to move it, in expectation of a motion from that quarter. If no letter from the Governor of Virginia should be received before next session, the matter will be taken up without it, and we can imagine no opposition that will be made.

We are directed to request of you the favor to inform us what has been done by the Judge or Judges of the Superior Court in your Colony on the Requisition made for writs of Assistants. That matter is now under the consideration of the Superior Court here, and as it is a matter of very great importance to the Colonies in general, we wish your answer that the proceedings that have been had with you and your candid and free sentiments thereon may be fully known here.

We shall at all times and on all occasions with the greatest pleasure and readiness execute our commission of correspondence and Inquiry as we are firmly persuaded of the utility of the measure so seasonably proposed by the Colony of Virginia and, we hope, universally adopted by the other Colonies, and hope thereby to cultivate and strengthen that harmony and union among all the English Colonies on the Continent of America, which daily appears to us more and more necessary to preserve and secure the safety, peace, prosperity, and happiness of the whole.

GENTLEMEN:

Since our letters of June last, nothing material has occurred worthy transmitting to you from this distance. The extraordinary Court of Inquiry, at Newport, in Rhode Island, is closed without effecting anything, nor can we conceive it to have been projected with other serious view than to establish by precedent the unconstitutional measure.

In our last we took notice of the Act of your honorable House of Burgesses respecting counterfeits of yours and the currency of other provinces, and informed you that his honor, our Governor, expected a letter on the subject. That not coming to hand was the reason no Act passed in our last session of Assembly. The present Assembly at this place have taken up the matter, and by a general act made the counterfeiting of the currency of any of the English Colonies on the Continent equally capital with the counterfeiting our own. The act passed both Houses of Assembly this week, and in our next will transmit you an extract of it. There are no offences in this Colony punished with death except murder, conspiracy against the Government and others of that kind. Robbery, counterfeiting, &c., have heretofore been punished by branding, cropping and imprisonment, but the present act sentences offenders of this kind to to confinement and labor in a copper mine from which we judge an escape is impossible.

The late Resolutions of the minister to permit Teas to be sent by the East India Company to Boston, New York and Philadelphia where they are daily expected, give us the most uneasy apprehensions for the consequences, though we have the utmost confidence in the firmness and virtue of the inhabitants of those capital Towns on this occasion.

It is with the greatest satisfaction we see the seasonable and beneficial example set by your honorable and patriotic House of Burgesses already followed by almost all the Houses of Assembly on the Continent and doubt not that it will be universal soon.

The union of the Colonies is of the last importance and we conceive a regular correspondence the most certain means to effect so salutary a design.

We are with the highest Esteem and respect, Gentlemen,

Extract of an act made and passed by the Governor and Company of the Colony of Connecticut at a General Assembly holden at New Haven on the second Thursday in October, A. D. 1773:

Be it enacted, &c., That whosoever shall presume to forge, counterfeit, or alter any of the Bills of Credit of this Colony or the Bills of Credit of any other of the English Colonies or Provinces on this Continent; or shall utter and put off any forged, counterfeit, or altered Bill or Bills, knowing them to be such; or that shall counsel, advise, procure, or any ways assist in the forging, counterfeiting, imprinting, stamping, altering, or signing of any false, forged, and counterfeit Bill or Bills, knowing them to be such; or that shall engrave any plate or make any Instrument to be used for any of the purposes aforesaid; or that shall stamp or any other ways counterfeit any of the several sorts of coin mentioned in an Act of parliament made and passed on the 6th year of the reign of Queen Anne, &c.—

Such person or persons so offending shall for the first offence suffer imprisonment in said Gaol, mine, or Work-House, and there be kept to hard Labor for a term not exceeding ten years, at the Discretion of the court before which such conviction shall be had.

Any if any such person shall commit the like offence a second time, and be thereof convicted as aforesaid, he or they shall suffer Imprisonment in the said Goal, mine, and Work-House, and there be kept to hard Labor as aforesaid for and during the Term of his or her natural Life.

SIR:

SAVANNAH, IN GEORGIA, 20th Nov., 1773.

I have the honor to transmit the thanks of the Commons House of Assembly of this province to you, Sir, and the other members of the House of Burgesses of Virginia for communicating your intentions firmly to support the Rights and Liberties of America on that most interesting subject contained in your Resolutions.

I am respectfully, Sir, your most obedient Servant,

WILL^m YOUNG.

SIR:

SAVANNAH, IN GEORGIA, 20th Nov., 1773.

We have in consequence of an order of the Commons House of Assembly the pleasure to transmit to you a copy of the Resolutions entered into by them similar to those of the other Houses upon the Con-

inent, and although late as we are in answering your esteemed favor, yet, sir, we are not the less warm in coinciding with the Sister Colonies in every measure that may tend to the preservation of the Liberties and privileges of Americans.

We also beg leave to enclose you a copy of an act passed in our last session for preventing the counterfeiting of the paper currency of other his Majesty's Colonies in America, and are hopeful that laws of the same nature being passed in other provinces will effectually put a stop to the evil so loudly complained of.

We have the honor to be, Sir,

GEORGIA, COMMONS HOUSE OF ASSEMBLY,
Friday, the 10th of September, 1773.

Georgia—
Commons
House of
Assembly,
September
10, 1773

Mr. Speaker laid before the House two letters that he had received from the Speaker of the House of Burgesses of Virginia and also the House of Deputies of Rhode Island, inclosing Resolutions of their respective Houses and also the copy of an Act to prevent counterfeiting the paper currency of other Colonies, which said Resolutions, being severally read, were unanimously approved of.

Resolved, nem. con., That Mr. Speaker and any five of the committee of correspondence be a committee to enquire for and obtain the earliest intelligence of the many important matters contained in the said several Resolutions, and that they likewise do from time to time correspond with the respective committees that are now or may be appointed by the House of Representatives on this Continent.

Resolved, nem. con., That the thanks of this House be transmitted to the honorable the Speaker and members of the House of Burgesses of Virginia, and also the honorable the Speaker and members of the House of Deputies of Rhode Island, for communicating their intentions firmly to support the Rights and privileges of his Majesty's faithful and loyal subjects in America, and also to the honorable Peyton Randolph, Esquire, Robert Carter Nicholas, and Dudley Digges, Esquires, for transmitting to this House a copy of the above-mentioned Act.

The Act enclosed:

An Act to prevent counterfeiting the paper money of other his Majesty's Colonies and provinces in America:

Whereas the want of a sufficient Quantity of circulating Specie to answer the purposes of commerce or the Exigencies of Government hath induced this and most others of the British Colonies in America to circulate certain paper notes as a necessary medium, the counterfeiting of which is usually made felony in the respective Governments where they are emitted; and whereas it is supposed that evil-minded persons may establish presses in this province for counterfeiting the paper currency of other his Majesty's provinces or Colonies in America, and by that means such forged Bills may be thrown into circulation with greater Facility and Security to the authors thereof, and it being judged reasonable that neighboring counties having Intercourse in Trade should provide, as far as in them lies, against the abasing of their medium of Commerce—

We therefore pray your most sacred Majesty that it may be enacted, and be it enacted by his Excellency, Sir James Wright, Baronet, Captain-General, and Governor-in-chief, in and over his Majesty's province of Georgia, by and with the advice and consent of the honorable Council and Commons House of Assembly in general assembly met, and by the authority of the same, that if any person or persons, after the passing of this act, shall within this province prepare, engrave, stamp or print, or cause or procure to be prepared, engraved, stamped or printed the counterfeit Resemblance of any paper money which now is or hereafter may be circulated in payments by legislative authority in any British Colony or plantation in America with Intention that such counterfeit paper shall be passed in payment, whether the same be so passed or not, shall be adjudged a felon, and shall suffer Death without Benefit of Clergy; and if any person or persons shall in this province pay, or tender in payment, any such counterfeit money, knowing the same to be forged or counterfeited, altered, or erased, every such person being lawfully convicted shall forfeit the sum of two hundred pounds, current money of this province, and shall be imprisoned in the common Gaol for six calendar months, and during such Imprisonment shall be publicly whipped three times.

And be it further enacted by the authority aforesaid, that this act shall continue and be in force for the term of five years, and from thence to the end of the next session of the General Assembly, and no longer.

MARYLAND, *Decemb'r 6, 1773.*

SIR:

Maryland,
December 6,
1773

I took the earliest opportunity after the receipt of your letter of the 19th of March to lay the Resolutions of your House of Burgesses before the House of Delegates of this province at their meeting in June last. They then had them under consideration, but before any Resolutions were entered into an unexpected prorogation took place. At their next meeting in October they resumed the consideration, and most readily came to the Resolutions, which I have now the honor to enclose, and which I have in command to transmit to you, requesting you will lay them before the House of Burgesses of the Colony of Virginia.

I am, Sir, with great respect your Ob't serv't,

MATT. TILGHMAN.

Resolves enclosed in the preceding Letter:

By the lower House of Assembly, Friday, Oct'r 15, 1773:

The order of the day being read, the House took into consideration the several letters and other papers communicated to this House by the honorable Speaker and addressed to him by the honorable the Speakers of the several Colonies of Virginia, Massachusetts Bay, Connecticut, and Rhode Island, and resolved unanimously—

That this House most cordially accept the invitation to a mutual correspondence and Intercourse with our Sister Colonies.

Resolved unanimously, That a standing committee of correspondence and Inquiry be appointed, to consist of eleven persons, to-wit: the honorable Mathew Tilghman, Esquire, Speaker, John Hall, Thomas Johnson, William Paca, Samuel Chase, Edward Lloyd, Mathias Hammond, Josias Beale, James Lloyd Chamberlaine, Brice Thomas, Beale Worthington, and Joseph Sim, Esquires, any six of whom to be a committee, whose business it shall be to obtain the most early and authentic intelligence of all such Acts and Resolutions of the British parliament or proceedings of administration as may relate to or affect the British Colonies in America, and to keep and maintain a correspondence and communi-

Maryland, cation with our sister colonies respecting these important considerations,
December 6, and the result of such their proceedings from time to time to lay before
1773 this House.

Resolved unanimously, That the Speaker of this House transmit to the Speakers of the different Assemblies of the British colonies on this Continent copies of the above Resolutions.

Extract from the Journal of the lower House of Assembly of the province of Maryland.

SIR:

NORTH CAROLINA, *Dec'r 26, 1773.*

I have the honor to acknowledge the receipt of your much esteemed favor of the 19th of March accompanying the Resolves of your House of Burgesses, which I lost no time in laying before the House of Assembly of this Colony, who very cheerfully received and adopted them.

I have it in command to transmit you the Resolutions entered into by our House, which you will herewith receive, and am with very great respect and esteem,

Sir, your mo. Ob't Serv't,

JOHN HARVEY.

Resolves enclosed:

NORTH CAROLINA,
In the General Assembly, 8th Decem'r, 1773.

Upon the Speaker's communicating to this House a Letter from the truly patriotic House of Burgesses of his Majesty's ancient Dominion of Virginia, inclosing a copy of certain Resolves entered into by them upon the 12th day of March last, and requesting that this House would appoint a committee to communicate from time to time with a corresponding committee by them then appointed.

And also letters from several of our Sister Colonies expressing the high approbation of and concurrence with so salutary a measure.

This House Resolve—

That the vigilance which the honorable House of Burgesses of Virginia have displayed in attending to every encroachment upon the Rights and Liberties of America, and the wisdom and vigour with which they have always opposed such encroachments are worthy the imitation and merit the gratitude of all their sister colonies, and in no instance more particularly than in the measure proposed for appointing corresponding committees in every colony by which such harmony and communication will be established among them; that they will at all times be ready to exert their united efforts and most strenuous endeavours to preserve just Rights and Liberties of the American Colonies which appear of

to be so systematically invaded; that we heartily concur with their Spirited Resolves.

North
Carolina,
December
26, 1773

Resolved, That a standing committee of Correspondence and Inquiry be appointed, to consist of nine persons, to-wit: Mr. Speaker, Mr. Howe, Mr. Harwell, Mr. Hooper, Mr. Caswell, Mr. Vail, Mr. Ash, Mr. Hewes, Mr. Samuel Johnston, any five of whom to be a committee whose business it shall be to obtain the most early and authentic Intelligence of all such Acts and Resolutions of the British parliament or proceedings of Administration as may relate to or affect the British Colonies in America, and to keep up and maintain a correspondence and communication with our Sister Colonies respecting these important considerations, and the result of such their proceedings from time to time to lay before this House.

Resolved, That it be an instruction to the said committee that they do without delay inform themselves particularly of the principles and authority on which was constituted a Court of Inquiry said to have been lately held in Rhode Island with powers to transport persons accused of offences committed in America to places beyond the seas to be tried.

Resolved, That the speaker of this House write respectful answers to the letters above mentioned, and also a circular letter of thanks to the speakers of the several Houses of Assembly who have so spiritedly adopted the patriotic Resolutions and measures of the truly respectable House of Burgesses of Virginia and for their obliging communication thereof to this House, inclosing a copy of our proceedings and requesting them to lay the same before their respective Assemblies.

By order.

New York,
March 1,
1774

SIR:

Your letter of the 19th of March last, together with the Resolves of the honorable House of Burgesses of the Colony of Virginia inclosed therein, which they entered into on the 12th of said month, I laid before the general Assembly of this colony at the opening of this present session, who being sensible that they are of the utmost importance to the Rights and Liberties of the American Colonies, came to the enclosed Resolutions which they directed me to communicate to you and to desire you will lay the same before your House of Burgesses at their next meeting. I am also directed to return their thanks to the Burgesses of the ancient colony and Dominion of Virginia for their early attention to the Rights and Liberties of America.

I am, Sir, your most humble servant,

JOHN CRUGER, Speaker.

Resolves enclosed:

ASSEMBLY CHAMBER, CITY OF NEW YORK, *20th Jan'y, 1774.*

The House according to order resolved itself into a committee of the whole house upon the letters received from the Speakers of several of the Houses of Assembly on this Continent enclosing the Resolutions entered into by them respectively. After sometime spent therein, Mr. Speaker resumed the chair and Col. Seaman reported from the committee that they had directed him to report to the House the following Resolutions, to-wit:

Resolved, nemine contradicente, That it is the opinion of this committee that a standing committee of correspondence and Inquiry be appointed to consist of the following persons to-wit: John Cruger, Esqr., Speaker, James Delaney, James Jauncey, Jacob Walton, Benjamin Seaman, Isaac Wilkins, Frederick Philips, Daniel Kissam, Zebulon Seaman, John Rapalsi, Simon Borum, John De Noyellis, and George Clinton, Esquires or any seven of them, whose business it shall be to obtain the most early and authentic Intelligence of all such Acts and Resolutions of the British parliament or proceedings of administration as do or may relate to or affect the Liberties and privileges of his Majesty's subjects in the British Colonies in America, and to keep up and maintain a correspondence and communication with our sister colonies respecting these important considerations and the result of their proceedings to lay before the House.

Resolved, also nemine contradicente, That it is the opinion of this committee that the Speaker of this House prepare Draughts of Letters to the Speakers of the Assemblies on the Continent of America enclosing these Resolutions and requesting them to lay the same before their respective Assemblies, and that he do return the thanks of this House to the Burgesses of Virginia for their early attention to the Liberties of America.

Which Resolutions having been read a second time,

Resolved, That this House doth agree with the Committee in the said Resolutions.

By order of the General Assembly for the Colony of New York.

GERARD BANCKER, Ass't Clerk.

Hartford,
March 8,
1774

GENTLEMEN:

HARTFORD, *March 8, 1774.*

We wrote you the enclosed from New Haven, since which yours of the 6th of January last came to hand inclosing a form of a writ of assistants. The Resolutions of your Assembly or General Court since against granting that general one demanded by his Majesty's commissioners of his customs, and your argument on the subject, for which we are much obliged, and consider them at once ingenious and conclusive.

The Officers of the customs here have declined pursuing their motion for this writ, and it is expected the affair will die in silence with us in this Colony. Should it be revived, there is no probability of their obtaining any, as at best such writs are disagreeable and of dangerous tendency, and at this period when the Colonies are so justly alarmed they would not be able to obtain one, though should one be granted yours is as full as a writ of that kind ever in our opinion ought to be consistent with the Liberty of the subject or even the act by which it is demanded.

Hartford,
March 8,
1774

We enclose the act of our Assembly respecting the counterfeiting the currency of our sister colonies, and take liberty to hint that were the laws of the Colonies respecting their currencies and other general concerns of one tenor, so far as particular local circumstances would any way admit, it might have a most happy tendency towards forming and strengthening that union of the Colonies on which their safety and happiness depends.

We consider with pleasure the step taken by your worthy House of Burgesses in appointing a committee to keep up a regular correspondence with your sister Colonies now adopted by nearly all on the Continent as a basis on which the most lasting and beneficial Union may be formed and supported.

No Intelligence has been received from Great Britain or any part of Europe by us for almost four months, and we are anxiously expecting the account how the returned Tea is received and what measures the present session of parliament will adopt respecting that and other American concerns.

We are gentlemen with great respect,
Your most obedient and very humble Servants,

WM. WILLIAMS,
SAM. HOLDEN PARSONS,
SILAS DEANE,
BENJ. PAYNE.

P. S.—Since the above, Intelligence is received from London as late as the 10th of January with which you are doubtless favoured. A quantity of Tea arrived at Boston and met the fate of the former, the particulars of which will be with you before this; enclosed is a paragraph from our last Gazette.

At a Meeting of a Number of respectable Inhabitants of the city of Philadelphia on Friday, the 20th of May, 1774—

Philadel-
phia, May
20, 1774

It was resolved, That John Dickenson, Dr. William Smith, Edward Pennington, Joseph Fox, John Nixon, John Nesbitt, Samuel Howell, Thomas Mifflin, Joseph Read, Thomas Wharton, jun'r, Benjamin Marshall, Joseph Moulder, Thomas Barclay, George Clymer, Charles Thomson, Jeremiah Warden, jun'r, John Cox, John Gibson be a committee to correspond with our sister colonies until some alteration is made in this appointment by a more general Meeting of the Inhabitants of the said city.

That the said Committee be instructed to apply to the Governor to call the Assembly of the Province.

That the said committee be instructed to write to our Friends, the People of Boston, informing them that we truly feel for their unhappy situation; that we recommend to them Firmness, Prudence, and Moderation, and that we shall continue to evince our firm Adherence to the cause of American Liberty.

And that the committee do also inform our Bretheren in New York and the other colonies of the above Resolutions.

BALTIMORE, 25th May, 1774.

Baltimore,
May 25, 1774

GENTLEMEN:

On Tuesday last we received by Express from Philadelphia a letter from the committee of correspondence at that place, inclosing a copy of the vote of the Town of Boston, a letter from the said Town to the Gentlemen of Philadelph'a, advising their present unhappy situation and requesting their Brotherly advice in so Interesting an occasion; copies of which vote and letter, the Reply thereto, and the Resolves entered into at Philadelphia, we now take the liberty of communicating to you, not doubting y'r readiness to take a friendly part in a matter so Interesting to every American.

On receipt of these papers we immediately convened the principal Inhabitants of this place in order to collect in some measure their sense of the matter.

The result was that we appointed a committee (of which you have the names annexed) to correspond with the committees of any neighboring colonies who may consult us on this or any other public occasion, and particularly to promote a general correspondence of sentiments with our Bretheren thro' this Province in such measures as may on mature consideration be thought most advisable to take on this alarming occasion; it has been proposed to convene the principal Gentlemen of our county at large, in order to promote an application for calling the assembly of the Province, but that we have postponed for the present until we have the advice of our Friends in Annapolis on the matter.

Baltimore,
May 25, 1774

We hope and expect that the Gentlemen of your Province will distinguish themselves as the foremost In asserting the cause of American Liberty and opposing the scheme of Parliamentary Taxation—will now exert themselves with spirit and boldness in the cause of Boston now so violently attacked for defending the common cause of America. And we doubt not that the Gentlemen of your Town in particular, will heartily concur in whatever measures may best serve the general good.

We are with much Respect,
Gentlemen, y^r most humble ser^{ts},
In behalf of the committee,

WM. BUCHANAN,
SAM'L PURVIANCE, Jun^r.

The Committee of correspondence for Batimore Town—And^w Buchanan, Rob. Alexander, Wilsⁿ Smith, John Smith, John Moale, Wm. Buchanan, Wm. Lux, Thos. Harrison, Rob^t Christie, Sen^r, Dr. James Boyd, Isaac Van Bibber, Sam^l Purviance.

Annapolis,
May 25, 1774 GENTLEMEN:

ANNAPOLIS, *May 25th, 1774.*

We this morning received a letter from the committee of correspondence of Philadelphia, inclosing their Resolutions with a copy of a Letter and vote of the Town of Boston.

We esteem it a very lucky circumstance that your General Assembly is now sitting, as it affords so good an opportunity of instantly collecting the sense of your Colony on a point on which the Liberties of America must turn; and was it not absolutely necessary that measures should be instantly taken; we should have waited with pleasure your Resolutions which we cannot doubt will be formed on the same generous principles which have hitherto actuated your Colony on every late attempt against American Liberty.

That no time may be lost we shall communicate the papers transmitted to us to every part of our province and endeavor to give the strongest impressions of the Sufferings of Boston in the Common cause. We shall anxiously expect your Resolutions, in the mean time we propose the sense of the people be taken at their meetings on the following heads:

1. That an immediate stop be put to all Exports to Great Britain and that after a short day to be agreed on there shall be no Import from Great Britain till the act for blocking up the harbour of Boston be repealed.

2nd. That the association be on oath.

3rd. That the gentlemen of the law in this province bring no suit for the recovery of any debt due from any inhabitant of this province to any inhabitant of Great Britain until the said act be repealed.

4th. That this province will immediately break off all trade and dealings with that Colony or province which shall refuse or decline to come into similar Resolutions with a majority of the Colonies. Annapolis,
May 25, 1774

We have the most sanguine hope that Maryland will cheerfully co-operate with your Colony to any extent of non-importation and non-exportation. We expect committees will be appointed as soon as possible through which we hope a cordial and free intercourse will be established between your Colony and our province and that the value and consequence of these Colonies to Great Britain will be demonstrated by withholding our Tobacco.

We are gentlemen, your most obedient Servants,

PHILADELPHIA, *May 21st, 1774.*

Philadel-
phia, May

GENTLEMEN:

You will no doubt before the receipt of this, receive a copy of the act of parliament for shutting up the port of Boston on account of the destruction of the Tea sent out by the East India company, and we know that you consider them as suffering in the general cause of America.

What part you may think it your duty to act on the present occasion, we must leave to your own wisdom and that you may be the better enabled to come to a determination, we take the liberty to enclose you copies of the papers which we received from Boston, and also copies of a Resolve passed by a number of the inhabitants of this city last evening, and of the letter we sent to the Town of Boston inclosing the same.

We shall be glad by the first opportunity to know the result of your deliberations on this interesting business, and are with great regard,

Gent., your most humble serv'ts,

Signed in behalf of the Committee of Correspondence.

To Peyton Randolph, Esqr., and others, principal gentlemen of Virginia.

Philadel-
phia, May GENTLEMEN:
21, 1774

PHILADELPHIA, *May 21st, 1774.*

We have received your very interesting letter together with a letter from the Town of Boston and the vote they have passed on the present alarming occasion and such measures as have been pursued as the Shortness of the time would allow.

To collect the sense of this large city is difficult, and when their sense is obtained they must not consider themselves as authorized to judge or act for this populous province in a business so deeply interesting as the present is to all British America.

A very respectable number of the inhabitants of this city was, however, assembled last evening in order to consult what was proper to be done, and after reading the several papers you transmitted to us and also a letter from the committee of correspondence of New York the enclosed resolves were passed in which you may be assured we are sincere, and that you are now considered as suffering in the general cause.

But what further advice to offer on this sad occasion, is a matter of the greatest difficulty, which not only requires more mature deliberations, but also that we should take the necessary measures to obtain the general sentiments of our fellow-inhabitants of this province as well as of our Sister Colonies.

If satisfying the East India company for the damage they have sustained would put an end to this unhappy controversy and leave us on the footing of constitutional Liberty for the future, it is presumed that neither you nor us could continue a moment in doubt what part to act, for it is not the value of the tax, but the indefeasible Right of giving and granting our own money, from which we can never recede, that is the matter now in consideration.

By what means this truly desirable circumstance of a reconciliation and future harmony with our mother country on Constitutional principles may be obtained, is indeed a weighty question, whether by the method you have suggested of a non-importation and a non-exportation agreement, or by a General Congress of Deputies from the different Colonies clearly to state what we conceive to be our Rights, and make a claim or petition of them to his Majesty in firm but decent and dutiful terms, so as that we may know by what line to conduct ourselves in future, are now the great points to be determined; the latter method we have great reason to think would be most agreeable to the people of this province and the first step that ought to be taken, the former may be reserved as the last resource should the other fail, which we trust will not be the case, as many wise and good men in the mother country begin to see the necessity of a good understanding with the Colonies upon the general plan of Liberty as well as commerce.

We shall endeavor as soon as possible to collect the sentiments of the people of this province and the neighboring Colonies on these grand ques-

tions, and should be also glad to know your sentiments thereon. In the meantime with sincere fellow feeling for your sufferings and great regard to your persons, we are,

Voted, That it is the opinion of this Town that if the other Colonies come into a joint resolution to stop all importations from Great Britain, and Exportations to Great Britain, and every part of the West Indies, till the Act for blocking up this Harbor be repealed, the same will prove the salvation of North America and her liberties.

On the other hand if they continue their exports and imports, there is high reason to fear that fraud, Power and most odious oppression will rise triumphant over Right and Justice, Social happiness and Freedom. And moreover that this vote forthwith be transmitted by the Moderator to all our sister Colonies in the name and behalf of this Town.

Boston, May 13th, 1774. Boston, May
13, 1773

SIR:

I am desired by the Freeholders and other Inhabitants of this Town to transmit to our Sister Colonies, an attested copy of this vote passed in Town Meeting legally assembled this day. The occasion of this meeting is most alarming: we have received the Copy of an Act of the British Parliament (which is also enclosed) wherein it appears that the Inhabitants of this Town have been tried and condemned, and are to be punished by the shutting up of the Harbour and other ways, without their having been called to answer for, nay for ought that appears without their having been ever accused of any crime committed by them, for no such crime is alleged in the Act.

The Town of Boston is now suffering the stroke of vengeance in the common cause of America. I hope they will sustain the Blow with a becoming fortitude, and that the Effects of this cruel act intended to intimidate and subdue the spirits of all America will by the joint efforts of all be frustrated.

The people receive this Edict with Indignation. It is expected by their enemies and feared by some of their friends that this Town singly will not be able to support the Cause under so severe a Tryal. As the

Boston, May 13, 1774 being of every Colony, considered as a free People, depends upon the event; a thought so dishonorable to our Bretheren cannot be entertained as that this Town will now be left to struggle alone.

General Gage is just arrived here with a commission to supercede Governor Hutchinson. It is said that the Town of Salem, about twenty miles east of this metropolis, is to be the seat of Government—that the commissioners of the Customs and their numerous Retinue are to remove to the Town of Marblehead, a town contiguous to Salem, and that this, if the General shall think proper, is to be a Garrisoned Town. Reports are various and contradictory.

As this Town has no correspondence with any Gentlemen in the Colony of Virginia, I beg leave to address this letter to you, to be communicated as your Wisdom shall dictate. I shall receive a letter from you as a singular favor.

With very great regard, I am, Sir,
Your most humble serv't,

SAMUEL ADAMS.

ALEXANDRIA, *May 29th, 1774.* Alexandria,
May 29, 1774

GENTLEMEN:

We received yesterday the papers herewith sent, and conformable to the example set us by the Gentlemen of Baltimore, called a meeting of the principal Inhabitants, who chose a committee to correspond with that and the neighboring Towns, for the purpose of communicating to each other in the most speedy manner, their sentiments on the present interesting and alarming situation of America.

Alexandria, May 29, 1774 Deeply interested as we are, in the fate of Boston now suffering the scourge of oppression in the common cause, we decline entering into any resolutions, till the sentiments of the representatives of the people now met at Williamsburg, are known, when we make no doubt that spirit which has distinguished Virginia as the intrepid Guardian of American Liberty, will again shine forth in all its former Lustre.

We likewise transmit you the resolutions of the Inhabitants of Annapolis, together with the Extracts of Letters from London, which came express from Annapolis late last night. However we applaud the spirit shewn in the resolutions of the Inhabitants of Annapolis, we cannot help thinking that the determinations of the Inhabitants of Virginia, when authenticated by the resolutions of their Assembly, will be more decisive than any partial and local resolves.

We are with much respect in behalf of the committee,
Gentlemen, Y'r most humble servants,

At a Meeting of the Freeholders and other Inhabitants of the City of Williamsburg, legally qualified and duly warned in public Town meeting assembled at the Court House of said city, on Monday, the 30th day of May, 1774:

Voted unanimously, that it is the opinion of this city that the Resolutions this day entered into by all the late Representatives who could be convened in this city, entirely coincide with their sentiments, and that they will, upon all occasions, readily co-operate with their countrymen in every measure that may tend to the security of their dearest Rights and Liberties.

A. DAVENPORT, Town Clerk.

At a meeting of 25 of the late Representatives legally assembled by the moderator, it was agreed that letters be wrote to all our sister Colonies, acknowledging the receipt of the letters and Resolves from Boston, &c., informing them that before the same came to hand, the Virginia Assembly had been unexpectedly dissolved, and most of the members returned to their respective counties. That it is the opinion of all the late house of Burgesses who could be convened on the present occasion, that the colony

of Virginia will concur with the other Colonies in such measures as shall be judged most effectual for the preservation of the common Rights and Liberty of British America; that they are of opinion particularly that an association against Importations will probably be entered into as soon as the late Representatives can be collected, and perhaps against Exportations also after a certain time; But that this must not be considered an engagement on the part of this colony, which it would be presumption in us to enter into, and that we are sending Dispatches to call together the late Representatives to meet at Williamsburg on the first day August next, to conclude finally on these important Questions.

DUMFRIES, *31st May, 1774.*

Dumfries,
May 31, 1774

GENTLEMEN:

Inclosed we send you the copies of the Resolves of the cities of Boston, Philadelphia, Annapolis, and Baltimore, as also the copy of a letter from our neighbours of Alexandria on the important subject of the late act of Parliament relative to the Trade and City of Boston in the Massachusetts Bay. We sincerely concur in opinion with the several Committees on the present melancholy occasion, and fully determined to join our fellow subjects in every measure to avert the fatal consequences to us and posterity from principals so destructive to American Liberty, and have not the least doubt but we shall be heartily joined by every individual of the community.

As we have not yet heard what our late Representatives have determined on, our unhappy situation, we have deferred entering into any particular Resolves until next Monday, when we have called the Inhabitants of the County together to warn them of the impending Danger. At which time we fully expect, and it is the determined Resolution of the Inhabitants of this town, that a total stop shall be put to every kind of Importation and exportation to and from Great Britain and the West India Islands. We have nothing farther to add but to implore the divine Goodness to fortify our minds and the minds of our fellow sufferers, with becoming firmness under their great affliction, and that it may please him

Dumfries, not only to change the minds and hearts of our Enemies, but to inspire us
May 31, 1774 to withstand their oppression with the fortitude of men and Christians.

We are, Gentlemen, with very great esteem,
Your affectionate Brothers and fellow-Citizens.

EVAN WILLIAMS, Clk. C.

Dumfries, At a Meeting of the Inhabitants of the town of Dumfries, in the
May 31, 1774 County of Prince William, in the Colony of Virginia, on Tuesday, the
thirty-first day of May, 1774—

Resolved, That it is the unanimous opinion of this meeting, that the Freeholders and others, Inhabitants of this County, be invited to meet on Monday, the sixth day of June next, at the Court-house of the said county, to deliberate on measures the most proper to be taken to avert the dreadful Calamities with which the American Colonies in General, and the city of Boston in particular, are threatened from an unconstitutional act of Parliament lately passed, by which the town of Boston and its Ports and Harbours are to be blocked up by an armed force, which act, it is the opinion of this meeting, is fundamentally subversive of our antient, legal, and vital liberties; and that this Resolve be published by the Minister immediately after divine Service on Wednesday, the first day, and on Sunday, the fifth day of June next.

Resolved, That Messrs. Cuthbert Bullitt, William Grayson, Foushee Tebbs, William Carr, Richard Graham, John Riddell, Cumberland Wilson, Andrew Leitch, and Do'r George Graham be a committee for this town, to correspond with the different Committees that may be appointed for this colony or with the committees of any other colony or Province within America.

Resolved, That Evan Williams be appointed Clerk to this committee.

Resolved, The proceedings of this committee, as well as those of other provinces laid before them, be fairly transcribed by the Clerk in a book to be kept for that purpose.

Copy Per order of the committee:

Fredericks- At a meeting of the Inhabitants of Fredericksburg, in the county of
burg, June 1, Spotsylvania, and Colony of Virginia, at the town House, on Wednesday,
1774 the first day of June, 1774—

Resolved, That it is the unanimous opinion of this meeting to concur

in every proper measure that may be thought expedient by our Sister Colonys on this Important occasion Respecting the Hostile Invasion of the rights and liberties of the town of Boston. Fredericksburg, June 1, 1774

Resolved, That Messrs. Fielding Lewis, Charles Dick, Charles Mortimer, James Mercer, Charles Washington, William Woodford, James Duncanson, William Porter, George Thornton, and Charles Yates be appointed a committee for this town to correspond with the neighbouring towns and countys for the Purpose of communicating to each other in the most speedy manner, Their sentiments on this present Interesting, Alarming Situation of America.

Resolved, That Benjamin Johnston be appointed Cle'k to this committee.

Resolved, That the proceedings of this committee, as well as those of other Provinces and Colonys laid before them this day, be fairly transcribed by the Clerk in a Book to be kept for that purpose.

At a meeting of a number of respectable Inhabitants of the City of Philadelphia, on Friday the 20th, of May, 1774—

Philadel-
phia, May
30, 1774

It was resolved that John Dickenson, Dr. William Smith, Edward Pennington, Joseph Fox, John Nixon, John Nesbit, Samuel Howell, Thomas Mifflin, Joseph Read, Thomas Wharton, Jnr., Benjamin Marshall, Joseph Moulder, Thomas Barclay, George Clymer, Charles Themear, Jeremiah Warden, Jn'r, John Cox, John Gibson be a committee to correspond with our Sister Colonies, until some alteration is made in this appointment by a more general meeting of the Inhabitants of this city. That the said Committee be instructed to apply to the Governor to call the Assembly of the province.

That the said Committee be instructed to write our friends, the people of Boston, informing them that we truly feel for their unhappy situation, that we recommend to them firmness, prudence and moderation, and that we shall continue to evince our firm adherence to the cause of American Liberty.

And that the committee do also inform our brethren in New York and the other Colonies of the above Resolves.

NEW CASTLE ON DELAWARE, May 26th, 1774.

GENTLEMEN:

The alarm which the British act of parliament for shutting up the port of Boston has occasioned amongst us, makes it a matter of duty on this committee to contribute as far as they may to a general

New Castle
on Delaware,

New Castle union of sentiments and measures in the Colonies as the most effectual
on Delaware, method of Relief not only from the present encroachments on the Rights
May 26, 1774 of the Inhabitants of Boston but from future attempts of the like kind.

We consider each Colony on this Continent as parts of the same body and an attack on one to affect all. The people of Boston are singled out upon this occasion by the British Ministry for apparent reasons and if they can succeed so far as to procure a submission, the like or some such experiment will be made on each Colony in turn; if this should happen there would be an end to American freedom for a century at least.

Imports and exports are things undoubtedly within the power of Americans and they are become of great consequence to Britain, a total cessation of both as to that Kingdom for a time would not only alarm in turn but procure applications for our relief from those who, in all likelihood, would be more favorably heard than the Americans; therefore, we apprehend a measure of this sort a necessary previous step in the present Exigency, and from our knowledge of the sentiments of the people within this small government, we can, with confidence say that they would generally approve and firmly support such an Engagement if adopted by the principal Colonies.

The conduct of the British parliament on this occasion, so derogatory to the character which that Senate once had, needs no comment, a shadow of Justice, a cloak of power used for America's scourge, indicates the necessity of a Congress of Deputies from the several Colonies, to determine and agree upon further measures for redress of present or future grievances; and we are confident that if such a proposal shall be made by any one of the principal Colonies, the Representatives of the people here will adopt it and embrace the first opportunity of carrying it into execution.

We have enclosed a copy of the Boston Resolve transmitted to us from Philadelphia as a paper omitted to be sent by their last Express to you for North Carolina.

As the inhabitants of this Government entertain a high opinion of the zeal and firmness of those of your Colony in the common cause of America, we are persuaded that their Resolutions at this important crisis will have great weight here, and we shall be glad to have your sentiments thereon. In the meantime we who are of the committee of correspondence for the Delaware Government,

GENTLEMEN:

By order of the House of Representatives of this province, we enclose you an Act passed in the late session of the British parliament entitled An Act to discontinue in such manner and for such time as are therein mentioned, the landing and discharging, lading or shipping of Goods, wares and merchandize at the Town and within the Harbour of Boston, in the province of Massachusetts Bay, in North America.

We think that the archives of Constantinople might be in vain searched for a parallel. To reason upon such an Act would be Idleness. You will doubtless judge every British American Colony deeply concerned in it, and contemplate and determine upon it accordingly.

BOSTON, June 4th, 1774.

We take the earliest opportunity to enclose you copies of two bills brought into parliament, and before this time probably enacted which we have just received by a vessel in thirty-six days from Bristol.

It is also confidently reported that a third Bill is to be brought into parliament for the better regulating the governments of the other provinces in North America.

These Edicts, cruel and oppressive as they are, we consider as but bare specimens of what the continent are to expect from a parliament who claim a right to make laws binding us in all cases whatever.

GENTLEMEN:

NORTH CAROLINA, 10th June, 1774.

We send you by express copies of sundry Letters and Papers which came yesterday from the Northern Colonies respecting the arbitrary and oppressive proceedings against the town of Boston, in the Province of Massachusetts Bay—Proceedings which must necessarily affect every free inhabitant of British America with the most alarming apprehensions for their dearest rights.

We wish it were in our power to furnish you with the united sense of the Inhabitants of this Province from the votes of their Representative but as this cannot be had on this emergency, we can only give you our

own sentiments and what we believe will be theirs whenever they have an opportunity of expressing them. That the inhabitants of this Province ought to consider themselves interested in the cause of the town of Boston as the cause of America in general.

That they will concur with and co-operate in such measures as may be concerted and agreed on by their Sister Colonies on this occasion.

That in order that there may be a Conformity and unanimity in the Councils of America, it is absolutely necessary and expedient that deputies be appointed by the Several Colonies to meet and deliberate on all measures that may be deemed necessary to the support of the general interests.

That in case the Governors of the different Colonies should refuse or decline to call an Assembly of the Representatives of the people that they should in pursuance of the laudable example of the respectable Members of the late House of Burgesses of Virginia meet and form associations to consider of the most probable means of defeating and counteracting every attack on the rights of the Colonies in general, or any of them, and that in case the act of Parliament, on which our apprehensions are grounded, should be carried into execution, they ought as soon as possible to put a stop to all Commercial intercourse between this Province and Great Britain until the act is repealed.

We join with the committee of Correspondence of Virginia in requesting that you will be pleased to forward copies of the enclosed papers, together with your own sentiments, to our friends in Georgia by express, and that you will favor us with the results of your deliberations on this very important affair as soon as possible.

Have already dispatched Letters to convene the members as soon as possible, and the earliest opportunity will be embraced to take into consideration the important matter to which your Letter and the papers enclosed relate.

A Declaration of our sentiments must be reserved until that can be done; but thought proper thus early to acknowledge the Receipt of your letter, and to assure you of my great attention to matters of such important concern as those you mention.

To the Committee of Correspondence for Virginia.

Withers-
field, Con-
necticut,
June 14,
1774

GENTLEMEN:

The honorable House of Representatives of this Colony at their last sessions which closed the 4th instant, came into a number of Resolutions which you have enclosed.

They also, by a special Act empowered their committee of Correspondence and Inquiry, to join the Committee of their Sister Colonies in holding as early as conveniently might be, a General Congress of the Committees or Delegates by them appointed to take into consideration the present melancholy and alarming situation of America in general, and of our Sister Colony of Massachusetts in particular, pursuant to this the Committee have wrote to Boston, Portsmouth and New-port on the East; to New-York, New Jersies, Philadelphia and Maryland on the West, proposing the last week in July or the first in August for the time, leaving the place to be resolved as may best suit the Colonies that may send Representatives to attend, but at the same supposing New-York or Philadelphia might be the proper centre.

It is, we conceive, of importance that every Colony should be represented at such a general conference and much to be desired, but as the present Exigency presses, and it appearing very necessary to us that some general measures should be adopted, seasonably accasioned our taking the liberty of hinting at the time and place, though some other will be equally agreeable to us if more so to our remote brethern. Your answer in season will much oblige us by which we shall as far as possible, regulate our conduct in this important affair—the wise, spirited and seasonable proceedings of your truly patriotic House of Burgesses, in early proposing a correspondence between and union of the Colonies, has justly merited and universally received the approbation and grateful acknowledgements of British America.

And the manly, pious and humane attention more lately manifested to the distresses of the Town of Boston, reflects equal honor on them as men, as patriots, and as Christians.

The committee have been pleased to appoint me their clerk and whatever letters or commands you shall honor me with, I shall immediately lay before them.

Withers-
field, Con-
necticut,

I am, on their behalf and with great truth and regard,
Gent., your much obliged and h. Serv't,

SILAS DEANE, Clerk
of said Committee.

P. S.—A day of general Fasting and Humiliation was agreed on by both Houses of Assembly; also a general contribution voted throughout this Colony for the relief of the poor in Boston, the Directions of both which are left with the Governor and Council and will take place soon.

Withersfield, Connecticut, June 13th, 1774.

To the Honorable Peyton Randolph, Esqr., R. C. Nicholas, R. Bland, &c., Esqr.. Committee of Correspondence, Williamsburg, Virginia.

The printed Resolves inclosed are filed among the papers of the committee with the original Letter.

SIR:

By order of the Committee I forward to you a copy of the Resolve passed on Saturday last by a very large and respectable meeting of the Freeholders and other respectable Inhabitants of this city and County.

Philadel-
phia, June
13, 1774

Yesterday our Committee met in order to prosecute the great and important business entrusted to them.

All America look up to Virginia to take the lead on the present occasion. Our united efforts are now necessary to ward off the impending blow levelled at our lives, liberty and property.

By our second Resolve you will observe it is the general sentiment of this province that a Congress is the most probable and proper mode of procuring Relief for our suffering brethren, and securing our Rights and Liberties. This will give weight to every measure that may be devised. Such as it appears is the determination of our adversaries, that we have no other choice left but to unite or die. Some Colony must step forth and appoint the time and place. None is so fit as Virginia. You are ancient. You are respected. You are animated in the cause.

It is not to be doubted but a general Congress will alarm and offend the Minister, and it is apprehended by some that the General has or will have orders to interrupt their proceedings—this should be provided against in fixing the place.

Philadel-
phia, June
13, 1774

There are no troops stationed to the southward of this city, and but few here. However, your wisdom will point out the most proper place. The necessity of the times calls for a speedy meeting, nothing can be resolved on to effect until it meets.

The two bills brought into parliament shew with what unrelenting fury the parliament are pursuing their Blow given to Boston and the province of Massachusetts Bay. The rest of the Colonies cannot be too speedy in adopting measures for their relief. Despondency or despair are equally to be dreaded.

These are my private sentiments which I humbly submit to you.

By order of our Committee I am to inform you that it is their desire that all letters for them be directed to Charles Thompson, at or near Philadelphia.

I am, Sir, y'r mo. obt. Serv't,

CHARLES THOMPSON,
Se'ty to the committee.

Peyton Randolph, Esqr.

Newport,
June 20,
1774

SIR:

NEWPORT, *June 20, 1774.*

Agreeable to the directions of the General Assembly, I have the honor to enclose you a copy of certain Resolutions entered into by them respecting the very alarming situation of the Colonies.

I have also to inform you that upon this occasion this Assembly have adjourned to the fourth Monday in August next.

I am with very great regard,
Sir, your mo. humble servant,

METCALF BOWLER, Speaker.

Hon. Peyton Randolph, Esq.

Resolutions enclosed:

Newport,
June 20,
1774

At a General Assembly of the Governor and Company of the English Colony of Rhode Island and providence plantations in New England, in America, began and holden by adjournment at Newport, within and for the said Colony, on the second Monday in June, in the year of our Lord one thousand seven Hundred and seventy-four, and fourteenth of the

Reign of his most sacred Majesty George the third, by the grace of God King of Great Britain, &c.—

Newport,
June 20,
1774

This Assembly, taking into the most serious consideration several Acts of the British parliament for levying taxes upon his Majesty's subjects in America without their consent, and particularly an act lately passed blocking up the port of Boston, which Act, even upon the supposition that the people of Boston had justly deserved punishment, is scarcely to be paralled in History for the severity of the vengeance executed upon them; and also considering to what a deplorable state this and the other Colonies are reduced when by an Act of parliament, in which the subjects in America have not a single voice, and without being heard, they may be divested of property and deprived of Liberty, do, upon mature deliberation, resolve—

That it is the opinion of this assembly that a firm and inviolable union of all the Colonies in counsels and measures is absolutely necessary for the preservation of their Rights and Liberties, and that for that purpose a convention of the Representatives from all the Colonies ought to be holden in some suitable place as soon as may be in order to consult upon proper measures to obtain a repeal of the said Act, and to establish the Rights and Liberties of the Colonies upon a just and solid foundation.

That the honorable Stephen Hopkins and the honorable Samuel Ward, Esquires, be and they hereby are appointed by this Assembly to represent the people of this Colony in a General Congress of Representatives from the other Colonies at such time and place as shall be agreed upon by the major part of the committees appointed or to be appointed by the Colonies in general.

That they consult and advise with the Representatives of the other colonies who shall meet in such Congress upon a loyal and dutiful petition, and Remonstrance to be presented to his Majesty as the united voice of his faithful subjects in America setting forth the grievancies they labour under and praying his gracious interposition for their relief; and that in case a major part of the Representatives of all the Colonies shall agree upon such petition and remonstrance, they be empowered to sign the same on behalf of this Colony.

That they also consult and advise upon all such reasonable and lawful measures as may be expedient for the Colonies; in an united manner to pursue in order to procure a redress of their grievances and to ascertain and establish their Rights and Liberties.

That they also endeavour to procure a regular annual Convention of Representatives from all the Colonies to consider of proper means for the preservation of the Rights and Liberties of the Colonies.

That the Speaker of the lower House transmit as soon as may be, copies of these Resolutions to the present or late Speakers of the respec-

North Carolina,

GENTLEMEN:

NORTH CAROLINA, *June 21st, 1774.*

We have been favored with yours of the 31st of May last, accompanied with copies of several Letters and papers relative to the unhappy Divisions which now prevail between Great Britain and the Colonies, and the ruinous condition in which the Town of Boston is involved as a recent consequence of them.

We sincerely sympathize in the distress of that brave people, and mourn over it as over the common cause of America. We conceive this attempt made on their natural and Constitutional Rights as a presage to a similar or more flagrant violation of the Rights of the rest of the Colonies, and that upon the success of this in a great measure depends the fate of American Liberty.

We are of opinion that the method proposed by you of a general Congress to be held by Deputies from the different colonies will be an expedient, calculated to produce that union in practice and sentiment which is necessary to give success to the measures which may be adopted as Regulations for their conduct at this critical era. As this cannot be effected but by a convention of the Representatives of the several provinces from whom such deputation must proceed, we think that the conduct pursued by the late Representatives of Virginia is worthy imitation when the Governors of the several provinces, in obedience to ministerial instructions or of their own accord, shall decline to convene the people in their Legislative capacity.

We had been happy if we had been now fully authorized to speak the general sense of the people of this province.

Be assured that we will, with all possible expedition, use the best means to obtain it. Should not our Assembly meet on the 26th of July, to which time it now stands prorogued, we shall endeavor in some other manner to collect the Representatives of the people and shall immediately afterwards transmit to you what may be the result of their deliberations.

In the meantime we have the fullest confidence that the share which they may take in this important controversy will not be unworthy of men who have ever been sacredly retentive of their Constitutional Rights, and desirous to hand them unimpaired to posterity.

They will, we flatter ourselves, concur with you that the best expedient to bring about a reconciliation with the mother Country and the Colonies

will be to put a stop to all commercial Intercourse with her and the West Indies, and thus to carry home to Great Britain the calamitous consequences of her own measurers.

North Carolina, June 21, 1774

We cannot enough applaud the generous spirit exhibited by the Colony of Virginia upon this emergency, and wish the example may be as diffusive as it is truly laudable.

NEW YORK, 24th June, 1774.

GENTLEMEN:

We have your letter of June 4th before us inclosing the Resolves of your Assembly, and a Letter to the Committee of Correspondence of Boston. and we agree with you that at this alarming juncture a general Congress of Deputies from the several Colonies would be a very expedient and salutary measure, such a Congress consisting of men of coolness, prudence and understanding, would we conceive be the best means under providence of restoring that peace and harmony between Great Britain and her Colonies, which is the surest foundation of Happiness to both, and which every good man, every well wisher to his Country, ought to labor strenuously to establish. We are sorry therefore that we are not sufficiently empowered to take any steps in relation to so salutary a measure, for we are a Committee of Correspondence only, and can not consistently with good order and prosperity, interfere in a matter of such importance without the appointment and concurrence of our whole House of Representatives. After what has been said it would be needless to mention anything about the place of meeting, only this, that if the other Colonies who may have authority for so doing, should meet in Congress in or near the City, we shall most gladly and willingly assist with our advice &c., if necessary, which circumstanced as we are at present, is all we are enabled to do.

We should be glad however to know before we come to any final determination on this matter, what steps will be taken by the other Colonies who are in the same situation with us, by not having an opportunity of knowing the sentiments of their Houses of Representatives; when the measures proposed to be adopted by them shall be communicated to us, we shall be better able to judge what plan will be most likely to procure a redress of our present grievances, and promote the union and prosperity of the Mother Country and the Colonies, and we expect daily to receive accounts of these matters of which we shall send you the most early intelligence.

GENTLEMEN:

The enclosed Resolutions which we are directed to communicate, contain the sense of this province of a union and general plan of conduct in defence of the Liberties of America, in the present dangerous and truly alarming crisis. We feel ourselves happy in the firm and steady spirit which animates the people of this province, to pursue those means which they judge the most speedy and effectual to prevent the fall of Boston and the Massachusetts Government, and by such prevention to save America from destruction.

It is our most fervent wise and sanguine hope that your Colony has the same disposition and spirit, and that by a general Congress such a plan may be struck out as may effectually accomplish the grand object in view.

We are also directed to propose that the general Congress be held at the City of Philadelphia, the twentieth of September next.

The limits of our province and the number of its inhabitants compared with yours, afforded an opportunity of collecting our general sense before the sentiments of your Colony could be regularly ascertained; and therefore as this province had the first opportunity, it has taken the liberty to make the first proposition.

We request that you will forward our Resolutions and propositions to the Colonies southward of you. If any circumstance unknown to us should render the time or place inconvenient to your Colony, you will oblige us by advising us of it as soon as possible, and mentioning a time and place more agreeable.

We shall be thankful for a speedy communication of everything you may think of consequence.

PROVINCE OF MASSACHUSETTS BAY, *June 17th, 1774.*

SIR:

Agreeable to the directions of the House of Representatives of this province, I have the honor to transmit you a copy of certain Resolves they entered into in their present session, by which you will perceive

Province of

Province of
Massachu-
setts Bay,
June 17, 1774

that it is their opinion that a meeting of Committees from the several Colonies on this continent is highly expedient and necessary, and that they propose that such meeting be at the city of Philadelphia on the first day of September next, and that for the purposes mentioned in said Resolves they have appointed a committee of five on the part of this province whom they have directed to repair to Philadelphia at the time before mentioned.

As this appears to be a measure absolutely necessary for the establishment of the Rights and Liberties of the Colonies upon a just and solid foundation, and for the restoration of union and harmony between both countries, it is not doubted but it will be agreed to in your Colony; if it should, it is desired that as early a notice as possible might be transmitted

To your most obedient, humble serv't,

THOMAS CUSHING, Speaker.

To the Hon'ble Speaker of the House of Burgesses of the colony of Virginia.

Resolves enclosed:

Province of
Massachu-
setts Bay,
June 17, 1774

PROVINCE OF MASSACHUSETTS BAY,
In the House of Representatives, June 17th, 1774.

This House having duly considered and being deeply affected with the unhappy differences which have long subsisted and are increasing between Great Britain and the American Colonies, do

Resolve, That a meeting of Committees from the several Colonies on this continent is highly expedient and necessary to consult upon the present state of the Colonies and the miseries to which they are and must be reduced by the operation of certain acts of parliament respecting America, and to deliberate and determine upon wise and proper measures to be by them recommended to all the colonies for the Recovery and Establishment of their just Rights and Liberties, civil and religious, and the Restoration of union and harmony between Great Britain and the Colonies most ardently desired by all good men.

Therefore Resolved, That the honorable James Bowdoin, Esquire, the honorable Thomas Cushing, Esq'r, Mr. Samuel Adams, John Adams and Robert Treat Paine, Esquires, be and they are hereby appointed a committee on the part of this province for the purposes aforesaid, any three of whom to be a quorum to meet such committees or Delegates from other Colonies as have been or may be appointed either by their respective Houses of Burgesses or Representatives, or by Convention, or by the Committees of Correspondence appointed by the respective Houses of Assembly in the city of Philadelphia or any other place that shall be judged most suitable by the Committees on the first day of September

next; and that the Speaker of the House be directed in a Letter to the Province of
Speakers of the House of Burgesses or Representatives in the several Massachusetts Bay,
Colonies to inform them of the substance of these Resolves. June 17,
1774.

A true Copy.

GENTLEMEN:

We take the liberty to enclose you the Resolutions of this Province entered into by deputies from each County assembled for that purpose at Annapolis. You will observe the Gentlemen appointed Delegates for the General Congress proposed, have orders to transmit the Resolves, and to Correspond with the different Colonies. But least so direct an opportunity should not offer from Annapolis, We embrace the present of forwarding them to you, Satisfied that it will afford real pleasure to the Gentlemen of your Colony to have the earliest information of the Measures proposed here to relieve the town of Boston now suffering in the Common Cause of America.

We are with great Respect,

Your most obedient servants,

Signed in behalf of the Committee of Correspondence,

SAM'L PURVIANCE, Jun'r.

To the Hon'ble Peyton Randolph, Esq'r, and other principal Gentlemen at Williamsburg.

PHILADELPHIA, July 1st, 1774.

Philadel-
phia, July 1,
1774

GENTLEMEN:

Your favor requesting that we would communicate our sentiments on the unhappy dispute with the mother Country has been duly attended to.

We cannot consider the late measures in parliament in any other light than as an additional proof of a Resolution in the mother State to draw a Revenue from the subject in America without his consent. And on this principle we conclude that every British American Colony will esteem themselves intimately concerned in it. Under this idea of the intention of Parliament, it certainly behoves us coolly and dispassionately to meditate on the consequences and to leave no rational or probable means unessayed to avoid them and to obtain that relief which our Rights as English subjects entitle us to demand.

What these means ought to be, we think the several Branches of the American Legislatures in which the people are constitutionally represented,

Philadel- and who are vested with their whole powers ought to determine. We,
phia, July 1, therefore, only presume to give you our private sentiments which must
1774 ever be subject to the amendment and control of the Body of which we
are only members when we again mix with them.

We earnestly hope and recommend that the great cause of American Rights may be left to the management of the Representatives of the people in every Colony, as they alone are vested with a constitutional power of enquiring into and redressing those grievances under which the subject may at any time be oppressed. Until this measure shall be fairly attempted and a failure shall ensue, we cannot conceive the present dispute between Great Britain and the Colonies, can, with any propriety or prudence be assumed by any other persons whatever, or that in other hands any good consequences can be rationally expected. And as we are in a state of society where Order, Reason, and policy ought to prevail, every measure which can only serve to irritate and not convince; every Act of violence or even the appearance of it should be carefully avoided, as they cannot, under our present circumstances, obtain us that relief we desire and have a right to expect, but, on the contrary, may involve all America in difficulties from which no after wisdom or prudence can surmount.

A Congress of Delegates chosen either by the Representatives in Assembly or by them in convention, appears to us the first proper step to be taken. Nor are we dubious that it may be happily effected in a short time, should calm and prudent measures be pursued to obtain it. In this Congress, composed of the Representatives constitutionally chosen of all concerned, and who would, of course, act with weight and authority, something might be produced by their united wisdom to ascertain our Rights and establish a political union between the two countries, with the assent of both of which, would effectually secure to Americans their future Rights and privileges. Anything short of this will leave the Colonies in their present precarious state, disunited among themselves, unsettled in their rights, ignorant of their duties and destitute of that connection with Great Britain which is indispensibly necessary to the safety and happiness of both.

We are, with great regard, y'r assured friends,

JOSEPH GALLOWAY,
SAM. RHOADS,

In behalf of the Committee.

NEW YORK, *May 5, 1775.*

GENTLEMEN:

New York,
May 5, 1775

At a time when the most vigorous exertions of Ministerial power and the blood of our bretheren in the Massachusetts has been actually shed for daring to maintain the Rights of Englishmen, the inhabitants of this city and county have in the most explicit manner, (as you may perceive by the enclosed association) resolved to stand and fall with the freedom of the Continent.

We are confident that our Constituents are sincere in the strong assurances they have given us, that while we continue in office they will be guided by our advice and direction.

We have thought it necessary to advise the withholding supplies from the British Fisheries on the American Coasts, and to cease all Exports to those Colonies which at this alarming Juncture refuse to unite in the common cause. The expedient is too evident to need any elucidation, and will doubtless procure us many hearty advocates in Britain, besides which we have resolved to withhold all provisions from the army and navy at Boston.

New York,
May 5, 1775

Our late Committee of observation thought proper to recommend the appointment of a provincial Congress in consequence of which our Constituents have chosen twenty-one Deputies to meet at this city on the 22d. inst., those who may be appointed for that purpose in the other Counties of this Colony. For your further satisfaction on these matters we beg leave to refer you to the enclosed papers; we request you to communicate the substance of this information to your next neighbours and to assure — that in our Department we shall watch incessantly for the public safety.

By order of the Committee.

I am Gentlemen,

Your most ob't,

HENRY REMSEN, Dep'y Chairman.

Tho' there were not a sufficient number of members to make a comm'ee, yet important advices arriving from North Carolina, the above members thought it necessary for the public service to proceed therein, subject to the future controul of the comm'ee.

Ordered, that 500 lbs. powder and 500 lbs. Lead be delivered to Mr. Wm. Amis for the use of the province of North Carolina, the powder to be repaid in kind, if it can be done, or paid for at the price we give, and an Escort of 4 men thereto is allowed; and the following Letter was written to Colo. Long, &c.:

W'MSBURG, 17th Feb., 1776.

GENT'N:

Your favor of the 14th, came to us late last night, its intelligence is truly alarming, and seems to be the beginning of a scheme mention'd in the papers to be formed by admon. of sending Troops early to attack your province and ours, which Gov'r Martin had promised to second by raising a number of men with you; however this be, it is prudent we should unite in the exertion of all our powers to suppress it as soon as possible. Powder is scarce with us, we could not, however, avoid sending you a part of our small stock, and have delivered ye messenger 500lbs. to be returned in kind, if supplies enable you, otherwise to be paid for at ye price we give. Of lead we have no large quantity here, and besides, apprehend it would retard your messengers return unnecessarily to send your proportionate quantity of that; we therefore only send 500lbs for immediate use, not doubting but every house almost will afford assistance if necessary in that article. Our regulars are raising fast, but none of them imbodyed except ye two old regiments stationed here and at Suffolk, from whence circumstances will not admit of their being sent, and we can only assist you in men from Militia or Volunteers of the counties bordering on you, all of whom we are persuaded, you will find ready to afford you any assistance in their powers from Pitsylvania and Mecklenburg, we

Williams-
burg,
February 18,
1776

had rec'd intimations of their expecting such a call and inclination to go to your assistance, and had our orders to be ready for a march, when you called for them; from the former you may expect some of our best Riflemen. Great as we consider the benefits derived to us from the command of Colo. Howe, we can't think of detaining him a moment when he is so much wanted in his own Country, we shall therefore send an express to him with your dispatches, and request him to repair to yo. with all Expedition.

We wish you success and are,

Gent., Y'r most obed't serv't,

EDM'D PENDLETON, Presid't.

The Committee also sent copies of the said dispatches to Colo. Howe in the following letter:

W^MSBURG, *February 18th, 1776.*

SIR:

We last night rec'e from ye Halifax Town, the dispatches of which I have now the honor of inclosing you copies. We, out of our small stock of Ammunition, could avoid sparing you 500lbs. and some lead, w^{ch} their messenger has received. Our counties bordering on y'r Province, we are persuaded, will chearfully march to their assistance, the moment they are called on, and are the more strongly assured of this from having rec'd intimations of what is now doing, from our counties of Pitsylv'a and Mecklenburg, and their wishes to be allowed to march to ye assistance of their neighbors, w^{ch} we directed them to hold themselves in readiness for and to go whenever called on, these I hope are already wth you, and from the former you'll get some of our best Riflemen. You'll observe, Sir, wth what friendly politeness they request y'r return. We should be wanting in Gratitude, as well as every other feeling, if we impeded this reasonable requisition and cont'd to retain the great benefit of your judicious and experienced command when y'r own country so much requires your assistance; this comm'ee therefore cannot hesitate in beseech'g y'o to repair to them as soon as you can make it convenient, and to accept their reiterated thanks for the eminent services you have rendered the common cause and this colony, in particular during the time we have been fav'd wth y'r assistance, anything you may think of further service you'll please communicate to Lieut. Colo. Scott, upon whom the command will devolve. You'll also judge whether it is most for the common good, to have y'r men or any of them, or carry them home; if you should judge our numbers too small to secure the posts, and on that account leave y'rs for the present, we hope they may soon be relieved, as we have ordered the regular companies designed for that station to repair thither as fast as raised. Or Colo. Scott may perhaps call in militia for

the present, to save the necessity of your men staying, who no doubt will be anxious to return with you. You'll be so obliging as to give our Commissary a proper certificate to entitle us to a credit with the Continent, for any provisions he may have furnished your troops. I wish you health and that you may soon crush those vile wretches, who are endeavoring to destroy a Country which has fostered them. For and by order of the Committee of Safety, I have the honor to be with great regard,

Williams-
burg,
February 18,
1776

Sir, Your most obed't servant,
EDM'D PENDLETON, President.

The following letter was also written to Colo. Scott:

WILLIAMSBURG, *February 18th, 1776.*

Sir:

It gives us concern that an accident has happened which puts it out of our power to gratifie your reasonable request to be indulged with a Furlough for the present. Disturbances in North Carolina have made Colo. Hows's return there absolutely necessary, and, of course, your stay to take the command unavoidable, in discharge of which we doubt not you will exert y'r usual vigilance and prudence. If the arrival of Troops to the Enemy should make it necessary, you'll call in drafts of militia from the neighboring counties, as yo' may judge proper, corresponding regularly with the comm'ee on that, and every other occasion, where information to us may be necessary. The 4th and German Regiments. are, when raised, to be stationed in your quarter, and we have required the officers to repair to it as soon as they can. We imagine it will not be long before Colo. Stephens gets down, and then we shall with pleasure grant your leave of absence, and your future station is between York and Rappahannock. For and by order of the Comm'ee of Safety, I am,

met, Mr. Segar demanding his seat as ye 3d person named in ye Midd'x nomination, but an erroneous certificate being produced, in w'ch he was the 4th p'son named, Mr. Segar was excluded from his seat and Mr. Philip Mountague admitted in his room; in consequence of which, It appears that a different person was chosen for 1st Lieutenant than would otherwise have been chosen. On consid'n whereof, It is the opinion of this Board that Mr. Philip Mountague had not nor hath any right to sit or vote in the District comm'ee but in the absence of one of the other members; that therefore the proceedings of the s'd District comm'ee, on ye 2d of this month, were wholly void, and It is recommended to the s'd comm'ee to assemble again and proceed to ye choice of officers in like manner as if nothing had been done at the former meeting.

Ord., a warrant to John Hunter for £2.15.6 for services in painting the carriage, Guns, &c.

Pork remaining of the Provisions in the hands of Colo. Wm. Brown, and some Beef in the hands of Capt. Judkins, to be deliv'd to the person who victuals the regulars in that county.

Same to same for use Wm. Simmons for 18s. 4d. for sundries settled and allowed by ye comm'rs prior to 1st Nov'r.

The comm'ee being informed that the officers on duty at Hampton have considered themselves as intituled under a former order of this comm'ee to draw Rations of rum daily, according to the Provision regulations, have revised the said order and find it to extend no further than the private soldiers (with the officers whilst on Guard), to whom this allowance was made on account of the Inclement Season, and was never meant to be an established allowance or to Extend to the Field officers, or other officers, except for the time they were actually on Guard. All Rum, therefore, that has been drawn from Mr. Martin Hawkins contrary to this resolution by the officers, they must pay for on their private account; and as better weather may now be expected, the allowance of Rum to the soldiers is to be discontin'd except in cases of mounting Guard in bad weather, to be particularly ordered by the commanding officer at the station.

Mr. Walter Hatton, of Accomac county, being taken up for trial by the comm'ee of that county as having written a Letter to Nathaniel Coffin, Esqu., containing sentiments very unfriendly to the rights of America, an extract from w'ch was published in Mr. Purdie's Gazette of ye 2d Instant, was at his own request refer'd by the s'd comm'ee to the determination of this board. Mr. Hatton accordingly appeared, and being shown the manuscript Extract from the said Letter transmitted from Philadelphia, declared himself well satisfied that it was faithfully taken from the original, and was willing the comm'ee should proceed to his Trial upon that as his L're; he at the same time expressed his contrition for having written the Letter, and his intention in future to conduct himself without offence; whereupon he was desired to retire, and reduce to writing what he was willing to say on that subject, and deliver it in the next morning. He accordingly, the next day, gave in the following paper, viz't: Whereas, &c. (see it filed), which being satisfactory to the comm'ee, Mr. Hatton is discharged, and recommended to ye friends of America to be restored to the peace and protection of Society so long as he observes the rule of conduct he has promised as aforesaid. And it is ordered, that these proceedings be published in the Virginia Gazette.

Ordered, that Benjamin Powell, Richard Morris, and Lieut. Goodrich Crump do examine the several Effects in the Palace, contained in the Inventory formerly ret'd, and report to this comm'ee whether any or what part are missing.

Ord., a warrant to Capt. Robert Anderson for £199.5.0 for the pay of his company.

Joshua Whitehurst appeared before the comm'ee and expressed his contrition for the part he had taken in assisting the Enemies of America, which he was induced to do by the persuasion of some neighbours and the threats of Lord Dunmore. At the same time gave his Parole to give no assistance or Intelligence to the Enemy; whereupon he is discharged.

Ordered, a warrant to Colo. Richard Morris for John Hawkins for £400 on account as commissary of Provisions.

A Certifa of Militia officers in Buckingham County ret'd and ord. to be regist'd.

Mr. John Hardy, Colo. Whitmore Hill and Mr. John Hawkins, this day appeared before the Comm'ee and were heard pursuant to a former appointment, on the subject of Mr. Hill's having sold and delivered to Mr. Hardy, a quantity of Hogs he had engaged to deliver to Mr. Hawkins at Williamsburg for the use of the Army. On hearing the matter, it appears Mr. Hill acted fairly, and was induced to part with his hogs, on a misinformation he had received concerning a parcel he had formerly sent to W'msbu'g. That Mr. Hardy had also purchased fairly, and that Mr. Hawkins had done his duty in the representation he had made of this matter to the Comm'ee. And upon the whole ye Comm'ee think it will be just between the public and Mr. Hill, to accept the terms he mentioned to Mr. Hardy at the time of sale, to allow the public the advanced price Mr. Hardy gave. It is therefore ord'd that Mr. Hardy do retain in his hands for the use of ye public, 3s.4d. p'r cwt. on all ye Pork he purchased

of Mr. Hill, and pay him the residue. And that Mr. Hill be at liberty to receive ye money due to him from Mr. Hawkins, formerly directed to be retained.

Capt. Gregory and Lieutenants Dunn and Gregory and Ensign Bell, of the sixth Battalion, attended, received their comm's, took the oath prescribed by convention, and sub'd the Articles of War.

A Letter of Colonel Grayson, command'g officer of the Forces at Hampton, dated the 8th, considered. Resolved, that this committee approve of the answer given to Capt. Hammond's verbal message. The sentiment of convention expressed in their Resolution of the 29th Dec. on a similar message from Capt. Bellen to the Com'g officer at Norfolk, the committee would not think themselves at liberty to depart from if they did not approve them, w'ch is not the case. That friendly intercourse of affection and hospitality w'ch in times of Tranquility this

colony hath been accustomed to interchange with the off's and seamen of the British navy cannot be continued at this time when we have every reason to be convinced their errand here is of a nature far from being friendly, w'ch makes it our indispensable duty to avoid by all means in our power their coming on those upon any occasion, or being furnished with any necessaries w'ch may enable them to injure us.

The Committee allow cuffs and capes to be added to the hunting shirts of the regulars at the expense of the country.

A commission issued to the Judges of Richmond county p'r cert's.

Present: Mr. Page.

Thomas M. Randolph and Thos. Underwood, Gent., appeared before the Committee and mutually desired their opinion whether the Comm'ee of Goochland county had authority and might with propriety proceed to enquire into the several articles of charge ag't Mr. Randolph mentioned in a summons to Mr. Underwood to appear in Comm'ee the 8th Instant.

This Comm'ee are of opinion they have no power to interfere in the matter, which must be determined by the County Comm'ee according to their own judgments; but if it will give any satisfaction to them or ye

1776

parties, this Comm'ee declare their opinion to be, that Comm'ee should not take cognizance of slanders of private nature which one man may publish of another, but these should be left to the ordinary course of justice. That, however, if any man is charged with what is a breach of the association, or prove him to have principles inimical to the rights of America, in that case the Comm'ee of the county should enquire into it, and if they find it to come within the description of offences contained in the late ordinance, should refer it to the Court of their members for regular trial; if not, to publish the conviction or acquittal of the party according to the rules prescribed by the Association. The charge ag't Mr. Randolph of being "a dangerous man" we think should be inquired into, and if it was explained by conversation at the time, to respect his political principles or parties regarding the present dispute, it will fall within the jurisdiction of the Comm'ee; as we are also of opinion the charge does of his engrossing Salt more than is necessary for his family, to the injury of his poor neighbors. It is therefore recommended to the Comm'ee of Goochland to appoint a day for inquiring into the conduct of Mr. Randolph as to these two charges, and give Mr. Underwood notice to be prepared to make good his allegation.

On examining George Friar, who says he was employed as master of arms on board the other sloop-of-war and was taken at Norfolk, it is ordered he be detained as a prisoner of war, but that he be permitted to walk anywhere within the Capitol Square, and in the Main street from the Capitol as far as to include the house of Mr. James Southall, upon his parole not to depart these limits or correspond with or give intelligence to Lord Dunmore or any of the officers of the navy or their adherents.

On the examination of John Davis, taken at Norfolk and sent up as a prisoner, no witness appeared against him. He says he is a native of Portugal, and was at Norfolk employed as mate on board a small vessel loaded with West India goods designed for North Carolina, but which was stopt by order of Lord Dunmore. That some time after the burning of Norfolk, coming on shore for recreation, he was taken and kept as prisoner, which latter part was confirmed by George Friar. Whereupon the s'd John Davis is ordered to be discharged.

On considering the case of John Carmont, it is ordered that he be sent

to the county of Norfolk to be tried for having been in arms against the Colony and not surrendering himself within two months, according to the directions of the late ordinance.

Williams-
burg,

A pass to David Watson to go to Carolina.

Mr. Leonard Thompson, second Lieutenant of Capt. Jouett's Company from Albemarle county, appeared in Comm'ee and resigned his commission in the s'd Company, not being able from his ill state of health to perform the duties of his office; which resignation was accepted and or'd to be certified.

On considering the cases of Mr. Archibald Ritchie and Captain John Robinson, transmitted for the opinion of this board by the Comm'ee of the county of Essex—It is the opinion of this Comm'ee that the importation of the Goods having been prior to the time of passing the late ordinance of convention for establishing a mode of punishment for the enemies to America in this Colony, no court of admiralty can be held for condemning the vessel or Goods according to the directions of that ordinance. The Convention, in their last Session, in several instances condemned Goods imported contrary to the association before the pass-

burg,

ing of the ordinance, but not the vessels; in one Instance they added a publication, as the original association directs. Whether these examples will incline the Comm'ee of Essex county to condemn the Goods to be sold for the use of the public or they will only publish the offence, or adopt both, must be left to their own Judgment. On reconsidering the subject, it being improper for this comm'ee to give an opinion on the matter unless it be brought before them on an appeal.

A warrant to William Foster for £4.5 for waggonage at Hampton.

Ordered, that James Anderson deliver Capt. Lilly for the use of his cruizer $\frac{1}{2}$ Ton of Iron out of that in his possession belonging to the public.

On consideration of the Comm'ee of Essex County, the following Letter was written to the Comm'ee of that County. (Insert it.)

A representation of the like import with the preceeding being received from Landon Carter, Esq., chairman of Richmond comm'ee, a Letter in the same words (except what relates to the arms taken at Hobsday's hole and the cases of Ritchie and Robinson) was written in answer thereto.

On considering the petition of Wm. Digges, Esq'r, by way of appeal from a sentence of the Court Martial of Warwick County fining him and his son, Cole Digges, for not attending at muster of the militia—The Comm'ee are of opinion they have no right to take cognizance of the subject, no appeal to them from fines laid on private militia men being allowed by the ordinance of convention.

A pass to Rob't Manning to convey any of the Goods of Wm. Digges, Esq'r, up James and Appomattox river.

A Letter written to General Lee as follows: Sir, &c.

The Comm'ee adjourned 'til to-morrow 9 o'clock.

A pass to Richard Noisler to go to Philadelphia.

Upon a pet'on and representation from the comm'ee of the county of P. Anne in behalf of themselves and the inhabitants of said county, setting forth the distresses and ruin w'ch must attend them from the carrying into execution the resolution of this board of the tenth day of April last for their removal, and praying that the same might be revised and rescinded, or in some measure relaxed. On hearing the Gent. appointed to present the s'd pet'on, and advised with Major General Lee, and maturely considering the subject, the Comm'ee are of opinion that many inconveniences would arise from carrying the s'd resolution into execution in its full latitude, and therefore do resolve that Wm. Robinson, Thos. Reynolds Walker, Thos. Old, John Throwgood, James Henley, Erasmus Haynes, and William Wishart, Gent., or any 4 or more of them, having taken an oath before a magistrate or comm'eemen to do equal and impartial justice and keep each other's secrets, do assemble themselves together and make strict inquiry into the temper and former conduct of the inhabitants of the s'd county of Princess Anne and certifie to the Hon. Major-General Lee, or the commanding officer at Suffolk or its neighborhood, which of them have taken an active part in behalf of America, which have remained quiet at home without taking an active part on either side, and who have appeared inimical to America, on which cert'ate the General or commanding officer is desired to suffer all such as have been friends or neutrals to remain at their habitations with their families, but to remove all their live stock except such as the Comm'rs above named, shall judge necessary for their immediate subsistence; and that all the enemies of America in the said county be compelled to remove, with their families and effects, according to the former resolution, and the Comm'rs are desired to return their whole proceedings to this Comm'ee, to be laid before the General Convention.

It being represented to the Comm'ee that the wife of John Goodrich, jun'r, had lately gone on board the Fleet at Norfolk with her child, upon firing the house in Portsmouth: ordered, that her Father, Mr. Wm. Harwood, be allowed to employ a boat to send from Hampton on board the Fleet for their removal, and the commanding officer at Hampton is requested to furnish him with a flag of truce for that purpose.

On considering a verbal proposition formerly made by L'd Dunmore to this Comm'ee, del'd by Colo. Alex'r Gordon, for the exchange of prisoners: Resolved, That the following proposals for such exchange be sent his Lordship by the commanding officer in ye neighborhood of Norfolk, viz: Colo. Alex'r Gordon and Colo. Jacob Elligood for Colo. Anthony

Lawson and Colo. Joseph Hutchings. All other officers of like rank to be exchanged on equal terms, private for private; and if there be not officers on either side to give for such on the other, in order to effect a full exchange as far as may be, that the following rule be observed: In such case to give for a Colonel 8 privates, a Lt. Colo. 7, a Major 6, a Captain 5, a Lieut. 4, an Ensign 3, a Sergeant 2; all other non-commissioned officers to be considered as privates. The prisoners to be exchanged in the order of their captivity, without respect to persons. However, it is to be understood that no prisoner on either side be compelled to return who shall voluntarily desire to remain with the party they are with at present.

Adjourned 'til to-morrow 9 o'clock.

Williams-
burg,
May 8,
1776

Capt. James Cocke for his own use, valued at £10.18.3—This Comm'ee are of opinion that Robert Donald, proprietor of two-thirds of the said Brigg, ought to be paid the sum of £368.9.9 for two-thirds of the whole expense of outfits and Stores after deducting the £48.6.3 for unnecessary stores, and the rest being considered by this comm'ee as the Interest of the Proprietor; of the other third of the said Brigg, which is deemed British property, be retained subject to future order of the convention. And the comm'ee being of opinion that 36 water casks, valued at £19.5.6, part of the £48.6.3 above mentioned, will be useful to this colony for the other armed vessels fitting out, and, Mr. Donald consenting, the Comm'ee should have them at the value aforesaid. It is ordered that they be retained for the use of the colony, and that the remainder of the articles mentioned in that account be ret'd to the s'd Donald, and the sum of £3.3.5 be paid to him to make up his two-thirds of the said articles. And it is further ord'd, that Capt. James Cocke be charged with the articles he has taken on acc't, and that he take into his possession all the stores and prov's now on board of the said Brigg except those now ordered to be delivered to the said Donald, and return an Inventory thereof to this board.

Order'd, a warrant issue to Mr. Rob't Donald for £371.13.2 pursuant to the above resolution.

The Committee took into consideration the case of John Goodrich, junior, referred to them by Convention, and agreed to the following report:

The Committee of Safety, to whom the case of Mr. John Goodrich, junior, taken up and charged with conduct inimical to the rights of America, was referred, have appointed several different days for his examination, and have inquired for witnesses of the officers in the neighborhood of Norfolk, desiring them to have summoned such as they should be informed were acquainted with the conduct of the said Good-

rich, but none have appeared. Whereupon the Committee think it unnecessary and unreasonable to keep him longer in suspense, and that he ought to be discharged from that accusation; but, as he is under a general suspicion of being unfriendly to the interests of the Colony, the Committee are of the opinion that he ought previous to his discharge to enter into bond with sufficient security in the penalty of one thousand pounds, with condition not to give intelligence to or in any manner aid or assist the enemies of America.

Resolved, that the foregoing report be fairly transcribed, signed by the President, and laid before the Convention by a member of this Board.

SAM'L COLEMAN'S REPORT ON SCOUTS' CLAIMS SENT TO SECRETARY OF WAR.

The enclosed papers intended to establish claim for the pay of six scouts, ordered into service by the County Lieutenant of Randolph for the year 1790, go fully to their object, but the Executive of Virginia not having authorized any defence for the Northwestern frontier for the time therein mentioned, have uniformly declined any adjustment of the claims for service then rendered. The mode prescribed by the General Government for the settlement of such claims was an application to the then commanding officer of the Western army.

R. WEST TO THE GOVERNOR.

I wrote to you shortly after the receipt of your letter in answer to one I had previously addressed to you, relatively to certain difficulties I met with as escheator of Fairfax county. Owing I presume to some accident, the letter never fell into your hands. I will therefore beg leave to renew the subject of it, and request the favour of an answer as soon thereafter as convenient. In the opinion that Mr. Marshall gave upon my first letter, it appears to me to be founded upon a wrong construction of my meaning: at least it was different from what I intended.

I there stated that the finding of the Jury was returned by me to the District Court, but that notwithstanding I thought the Commonwealth was entitled to the escheat, altho' they found against it. The Jury, I believe, was regularly constituted, and they found against the Com'w'th, which finding was returned to the Court, as by law I was directed to do. I now ask whether I can or ought to proceed further, after what I wrote you in the first letter.

BEVERLY RANDOLPH.

ARTHUR CAMPBELL TO THE GOVERNOR.

As my statements dated in March and April last, of danger apprehended from the Indians on the frontiers of Lee and Russell, may have had an influence with the Execution to order out Scouts, I conceive it now to be my duty to give further information that the public may not incur unnecessary expense.

May 22,
Lee County

When I wrote, it was believed by everyone that the Indians were approaching to do mischief; it has been since discovered that the author of these alarms, was of the infamous combination that shortly afterwards murdered M. Turbuff. We are assured by one of the agents in the Cherokee country, that no Indians has been on our frontier this Spring. One reason assigned for the pacific temper towards us is, that a difference has taken place between the Cherokees and Chickasaws, so much so that blood has been shed—another restraint may be that the Cherokees wish first to receive their annual donation from the United States, which probably now cannot be delivered before next August.

The intended treaty North-west of the Ohio will have an influence with the Southern Indians. No people are more fond of such meetings, and there is no doubt if there is not public Deputy's at Greenville in June next from the Creeks and Cherokees, there will be envoys from different

Towns to act the part of spys. Old men are generally chosen to act as ambassadors for peace—Young vindictive warriors as Runners or spys.

While we are watchful lest the Indians should inroach upon us, our complaints would be made with an ill grace, were we to countenance conduct in our own citizens worse than the injuries we complain of.

It is with no small regret, I mention that a number of the inhabitants of this county, has lately passed the boundary established by the treaty of Holstein, and are making settlements South-west of the Cumberland Gap. These people made the attempt last fall, but were checked by the threats of the Superintendent and moved off. They are lately gone with increased numbers, and talk of resisting all authority that may attempt to remove them.

Before I close this letter, I can not refrain mentioning to your Excellency a late atrocious attack made by one Berry, a Sheriff in the South-western Territory on a citizen of Virginia.

One of those unfortunate and perhaps depraved men who are now in Jail on suspicion of being an accessory to the murder of M. Turbuff, left behind him a sickly wife and eight small children in indigent circumstances. The unfeeling Sheriff of Hawkins county, took his opportunity to pass our boundary (Walker's line) and violently carry off the few cattle the woman had to give milk to her children, for meat they had none, and of bread very little, on pretence of some old claim of fees. The neighbors say the claim is unjust; be that as it may, surely a citizen of Virginia has a right to a hearing; has a right to a civil process, being first sworn by one of her own officers, before he is mulct to his ruin.

It seems strange why congress, without any substantial reason, should so long delay ratifying the boundary agreed on between our State and that of North Carolina. A number of less striking inconveniencies are frequently taking place both in Washington and Lee, both in execution of the Militia Law, and the serving of civil process.

Men frequently injured and without hope of redress, may resist and a commotion be the consequence.

Randolph County, Virginia:

This day came Edward Jackson, late Colonel of said county, before me, William Wilson, one of the Justices of the county aforesaid, and made oath that the within mentioned Valentine Stalnaker, Phenehas Wells, Jas. Stewart Elliott, Jas. Westfall, Jacob Reger, Jas. Schoolcraft, were called into service by the advice of a council of the field and commissioned officers of said county of Randolph, held some time in February, 1790; that they were under the direction of the County Lieutenant, and that he verily believes they served the full term of time mentioned in the within abstract faithfully and truly.

Given under my hand this 27th day of April, 1795.

WILLIAM WILSON.

At a Council held at the Court-House of the county of Randolph on the first Tuesday after the fourth Monday in February, 1790, for the purpose of contemplating on the present dangerous circumstances of this said county, consisting of Jacob Westfall, County Lieutenant; Cornelius Bogard, Colonel; Edward Jackson, Colonel; John Wilson, Major; James Westfall, Peter Cassity, and William Wilson, Captains; and Jacob Kitt and Matthew Whitman, Lieutenants:

Resolved, That it is the opinion of this Board that it will be expedient for the present defence and safety of this county that six scouts should be admitted to range.

Resolved, That Valentine Stalnaker, Phinehas Wells, John Elliott, James Westfall, Jacob Reger, and Jas. Schoolcraft be appointed scouts to serve three months, commencing from the first of March next; and that the scouts serve on the principles of drawing no pay from this order of their appointment except it be allowed them from the Treasury of Virginia or the United States, and that they be considered as volunteers and this Board under no obligations in consequence of this resolution.

Resolved, That the said scouts, before they enter into service, go before some Justice of the Peace and make oath that they will truly, faithfully, and diligently serve as scouts.

JACOB WESTFALL,
President of the Council.

I, John Wilson, Clerk of the Court-Martial and of the present Board of Officers, do hereby certify the above to be a true copy.

BY THE GOVERNOR OF THE COMMONWEALTH OF VIRGINIA—A PROCLAMATION.

Whereas, from information to be relied on, it appears that the Yellow Fever has spread its baneful contagion so generally over the whole West India Islands, as to excite just ground of apprehension that, without much caution, the disease may be brought into this Commonwealth by vessels arriving from the said West India Islands, including the Bahamas and Bermuda, or from the port of New Orleans, on the Mississippi, or those situated on the Spanish Main: I have thought proper, by and with the advice of Council, to call upon the superintendents of quarantine of

the different ports of entry and delivery of this Commonwealth to use every exertion on their parts to prevent the introduction of so great a calamity among the good people of this State. To effect which they are hereby particularly enjoined to demand of all the masters of vessels coming from any one of the West India Islands, or ports, the requisite declaration of the state of health of their respective crews, &c., according to the law in that case made and provided. And if the result of such inquiry shall satisfy the superintendent that the public safety requires of any such vessel the performance of quarantine, he is hereby required to see that the same be done and made at the anchorage ground off Craney Island for the space of 20 days. And I do hereby most strictly enjoin and require that until such vessels shall be discharged from their quarantine, all persons coming or goods imported therein, come not on shore or go on board any other vessel, or be landed or put on board any other vessel whatsoever within this Commonwealth. And moreover, that no person or persons go on board any vessels ordered to perform quarantine in pursuance hereof, without permission first had and obtained (in writing) from Thomas Newton, Esq'r, in the Borough of Norfolk, who is hereby authorized and empowered to see such quarantine performed, and to procure a proper boat and crew to obtain the most early and accurate information of the situation of all vessels coming within the Chesapeake, with an intention of entering any of the ports, rivers, or harbors within the jurisdiction of this State. And all Pilots are hereby required and enjoined to give notice unto the above-named superintendent, of the arrival of all vessels from any of the aforesaid Islands or ports, and are inhibited from conducting the same into any of the ports of this State until due examination is made as aforesaid.

Given under my hand as Governor, and under the seal of the Commonwealth, at Richmond, this twenty-first day of May, in the year of our Lord one thousand seven hundred and ninety-five, and of the Commonwealth the nineteenth.

Three French ships arrived here last night from Gaudalupe. There was five in the fleet, but met with the Thetis and another British ship off our coast, who captured two of them after a severe action.

The Continental troops leave this on Wednesday next, and only a Sergeant's guard is to remain at one of the Forts. I really consider our situation critical, having so many seamen and French negroes among us, and our militia unarmed. A place of so great resort of shipping, in my opinion, should never be without a garrison of 100 men, with

n experienced officer commanding. We now lay at the mercy of any sudden invader; neither of the forts are finished, and the guns may be piked by a very small force, as it will be impossible for only a sergeant's guard effectually to take care of both Forts. This movement will compel me to keep a boat as a look out, which will cost 5 dollars a day; had thearrison remained the boat would have been discharged. Col. Walke will deliver this to your Excellency; to him I beg leave to refer as to our situation, and am,

RO. QUARLES TO THE GOVERNOR.

In conformity to your instructions I proceeded yesterday to Let the contractor's office for the Supply of Rations at the arsenal for the ensuing year. It was taken by Mr. Wm. Weaver at 6 $\frac{1}{4}$ d. per Ration and 3d. per gill for spirits.

Point of Fork

It has been customary with the Honorable, the Executive, heretofore to make some small advance in cash to the Contractors when first commencing their office, in order to enable them to discharge with punctuality the duties thereof. I will therefore take the liberty of suggesting the necessity of advancing on the present occasion about one hundred dollars.

You will do me the favour to express your opinion on this subject, and if the advance required meets with your approbation, I will notify the contractor therewith, and forward him to Richmond to receive the money.

I am, &c.

THOS. NEWTON TO THE GOVERNOR.

I received your Exc's letter inclosing the proclamations, which are promulgated. Some of the vessels have arrived in port ten days, whose crews are healthy, and think hard of lying ten days more, as I wrote your Excellency that I should confine them to 20 days from leaving their last ports. I shall not dispense with it unless with your leave, and in many cases I think it may be safely done.

May 26

I have misplaced your Excellency's letter with the petition of Moreland and the other Seamen; if not too troublesome, I shall be glad of a copy in case of any ships coming I may demand the men.

A vessel from Bermuda reports that some of Adm'l Murray's Squadron are there.

Replying to charges against him made by George Hammond, British Minister, in a letter to the Secretary of State in regard to the manner in which the deposition of Thomas Butler, a pilot, was obtained. Also inclosing several affidavits:

No. 1.

I do hereby certify that on the 28th ultimo. I accompanied John Cowper and Daniel Bedinger, Esq's, on board the British Frigate Hussar, on business of a public nature, and that among many other things, Captain Cochrane hinted to Mr. Bedinger that he (Cochrane,) had taken a declaration from Butler the Pilot, which contradicted a deposition which it seems Butler have given before Mr. Bedinger—That the latter gentlemen pressed Captain Cochrane to explain himself fully, which however he did not comply with, but only said that Butler denied the principal part of said Deposition, and had been forced to give it. Mr. Bedinger then requested that Butler might be confronted with him, (as the said Butler was at that time on board the Thetis, Captain Cochrane's ship, which lay very near the Hussar): this Captain Cochrane refused to do, and finally that Mr. Bedinger demanded it as an act of Justice, which he thought he had a right to expect from Captain Cochrane but without effect.

Given under my hand this 25th day of May, 1795.

JOHN LURTY.

This day Captain John Lurty, Commander of the Revenue Cutter, the Virginia, appeared before me, and made oath to the truth of the foregoing certificate.

THOMAS NEWTON.

Norfolk Borough, May 25th, 1795.

No. 2.

Personally appeared before me Thomas Newton as alderman of this Borough, Robert Borland, and voluntarily, without compulsion, made oath that he was on board the British ship of war Thetis, Captain Cochrane, some time in April last, when Captain Cochrane asked the Deponent to go into the eating room and witness a paper, said to be a declaration of the Pilots relative to some ship being taken, as the Pilot could not read or write. A paper was produced, but no pilot was present, nor did the deponent see any mark as he recollects to the paper, neither was Captain Cochrane present, nor was the contents read of the declaration, the deponent did not conceive that the paper was any consequence, and only a matter of form, and signed it as required by Captain Cochrane.

ROBERT BORLAND,

No. 3.

Daniel Bedinger, Esquire, having furnished me with an Extract of a paper said to be the Declaration of Thos. Butler, Pilot, taken on board the British Frigate Thetis, on the 23rd of April last, stating that the Mayor of the Town also spoke to him on the same subject* and said, "we must have you before us to take your deposition." I do hereby declare that the transaction alluded to in that declaration, was never known to me until mentioned by Mr. Bedinger, and that so far from my speaking, Butler, I do not recollect, nor do I believe ever spoke to Butler upon that or any other subject but once in my life, and that was when he piloted the French Republic's ship the Concord.

ANONYMOUS—No ADDRESS.

In October last came to Urbanna from South Carolina a man who formerly lived in this State, called French Peter alias Peter Marshall, was in the militia service, and is (I believe it can be proved) a citizen of the United States. He brought with him a good deal of specie and some gold in Ingots. He there said he had been fortunate in privateering, from which source his money probably was derived.

May 27

He purchased in Nov. of Mr. Jonathan Denison, of Urbanna, a schooner called the Delight, and went up the river and got a new register from Mr. Muse's office and then went around to Kingston and fitted her up in the best manner. After this he proceeded to Baltimore, whether to fit her out in a war-like manner or not I cannot affirm.

He is now in Severn River in a fine privateer, as Captain Addison Lewis informed the writer last week in conversation (he knew Marshall formerly in the militia), and he said moreover Marshall told him he had been successful in privateering and had taken 32 prizes. It is supposed that vessel, tho' differently rigged, is the schooner he purchased of Denison, and that he, a citizen of the U. S., is, contrary to the Laws, under a

1795. French commission, acting ag't the powers towards whom it is the present policy of America to observe the strictest neutrality.

May 27 Mr. Christopher Garland and other persons in Gloster, I apprehend, can prove his citizenship.

JOHN STEELE TO THE GOVERNOR.

May 28, Yours of the 22nd inst., and one of a former date enclosed rolls of
Philadelphia Scouts, has been received.

Pryor's account has been suspended for the present, tho' not finally rejected. The account of General Tate has also been suspended until it can be rendered more specifically.

Two or three small accounts have been rejected, and I will make another effort with your letter to aid me.

The account is now copying, and on Saturday will pass thro' the accountant's office. Little time will then be wanting to obtain the Drafts. By having recourse to some papers formerly settled, I was enabled to establish our claim for the 10 cents p'r ration allowed Mr. Pryor.

With very great respect, I have, &c.

W. TATE TO THE GOVERNOR.

May 28, Your letter of March last came safe to hand, requiring me to send
Washington Scouts on the frontiers of my district if it was thought necessary. Also a duplicate to the same effect, which was immediately carried into execution.

The Scouts were mustered on the 5th instant, viz: four in the county of Lee by Major Neil, four in the county of Russell by Colo. Cowan, and the same number in the county of Wythe by Major Maxwell. They were made responsible to the officers already mentioned, and am informed do their duty punctually.

I have taken the liberty to order small detachments of militia on the frontiers, to be held in readiness to march if the approach of the Indians should be discovered.

A number of our hearty backwoods boys have voluntarily offered their service on this occasion, which made a draft unnecessary.

The people of the frontiers are generally pleased with the plan of defence, and no signs of Indians have as yet been discovered by the Scouts that I have heard of.

The officers and soldiers in service last year are anxious about their money. If they are to receive it this year through my hands, I shall do

myself the honor to pay you a visit when I get notice for that purpose. At all events, I have hopes to see my old friends at the meeting of the General Assembly.

1795.

Washington

I have the honor to be with much personal respect and esteem,

Yours, &c.

P. S.—Mr. Tebuff, a French gentleman, and part of his family, who lived in Russell county, were lately murdered by a set of rascals, supposed for his money, three of whom are now in the public goal of this district.

For particulars I refer you to the bearer, Mr. Carson.

JACOB RINKER TO JAS. WOOD, LIEUTENANT-GOVERNOR.

I recollect reading in the Journals of the House of Delegates of their sessions, either in the year 1782, '83, '84 or '85, where Denny Fairfax petitioned the General Assembly of Virginia, for a compensation for the Northern Neck, confessing that he could not inherit (as being an alien), and the General Assembly then took his case into consideration and did what they thought was right.

May 31,
Richmond

Query: Was not the General Assembly of Virginia competent to determine on his case (which I believe they did at that time). Why is the matter brought on again before another tribunal? I took the liberty of mentioning this to you, thinking that if the said Journals were referred to, it might perhaps throw some light on the very important question which is to be argued before the Federal Court this week, for on the decision of this question, in a great measure, depends the welfare or confusion and destruction of the Northern Neck of Virginia, notwithstanding some think but light of it.

I am, &c.

SAM. COLEMAN TO CAPT. CARUTHERS.

I am directed by the Governor to inform you that an order of Council has been made directing 72 stand of the Public Arms at the Point of Fork to be delivered to you or your order, upon your transmitting to the Governor an obligation, with General Bowyer as security, that the said arms shall be returned in the like good order that you receive them, when called for, or that you will pay their value to the Commonwealth in case they should not be so returned.

The slight and unsafe manner in which the Doors and windows of this Office are constructed occasions much risque in the keeping of a great increase of money which passes thro' my hands as Register, for which reason I hope the Honorable the Executive will instruct the Directors of the Public Buildings to have the Office secured similar to the Treasury.

HENRY BANKS TO THE GOVERNOR.

June 4,
Richmond

Being applied to yesterday by an Honorable member of the Board to give information respecting a suit—Hunter Banks & Co. against Mr. Jefferson and others—I do now, in obedience to his request, give the information.

The suit is founded on a claim for some vessels which belonged to Hunter Banks, which were taken into public service, and while in service were captured. Mr. Cunningham's vessel, the Wilks, was among the vessels which were in this predicament; he has prosecuted his claim to effect, and has been paid. My intention was rather to have pressed Congress, but in that I was delayed by the absence of Major Claiborne, who at the impressment was Quartermaster for the State; but he has lately returned from Loudon, and nothing has been done, but as the evil flowed from the instrumentality of the State officers, the claim upon the State was more direct, and hence the persons who were the immediate agents have been resorted to.

I do not suppose it necessary that I should here enter into the whole subject. The tale would be long, yet I will most readily do so, provided it will be taken up and considered by the Executive, or if this should be specially delegated to one or more of their own body. I am disposed to have a fair and candid inquiry into the whole subject, which I could better do verbally than by Letter, and if it could be done before all the members, it would be more satisfactory to myself—more explanatory to the Board; and to incline the Board more to this, I am disposed at this time to invest a greater part of the whole claim in Land Warrants, and perhaps the whole. This I have mentioned that the accommodation so favorable to the State may induce the Honorable Board to have the subject investigated.

I have, &c.

JOHN CLARKE TO THE GOVERNOR.

I had a sale of three tracts of land in Patrick County, the property of James Lyon, late Sheriff of Henry, on the 29th of last month. My assistant, who attended the sale, found that they would not sell for hardly anything Except he forced the sale, and in so doing one of said Tracts fell on our hands at the price of nine pounds in Certificate. It was valued to forty pounds by the Commissioners.

1795.

June 5

I now wait your instructions (by the bearer) how I am to proceed.

Notwithstanding the many obstructions within my district, I am in hopes the balances will be recovered.

I am, &c.

WM. LOWTHER TO THE GOVERNOR.

The payment of the money due the Scouts and Rangers for the years 1793 and 1794 has been so long retarded that they are become very impatient. Many, depending upon punctual payments on the part of Government, have incurred debts, for which they are daily threatened to be harrassed, and indeed some have been sued. And what adds to their disappointment and mortification is, that they have been frequently flattered to expect it in a very short time.

June 7,
Clarksburg,
Harrison Co.

Permit me to entreat your Excellency to use your influence to forward it as speedily as possible, more especially to this county, as partial payments have been made to every other in the district, but not a farthing for either year has come to this. The necessary papers, and, as I understand, in due form, have long since been transmitted.

Should you think it expedient to forward the money by any other person than the paymaster, as I am informed one has been appointed, I could mention none other better qualified than the bearer, Capt. Haymond.

You will confer on me a singular favor if you would be so good as to inform me at least, by Capt. Haymond, at what period we may with certainty look for it.

I am under the necessity of begging your indulgence a few weeks longer for a compliance with the order of Council of the 2nd March, 1795. The extensiveness of the bounds of my Regiment, and the differed situation of the officers, have put it out of my power fully to effect it as yet, altho' I have made several attempts. - But I flatter myself I shall compleat the business shortly.

I have, &c.

JOHN STEELE TO THE GOVERNOR.

1795.
June 8,
Philad'a

I now have the pleasure of announcing to you a close of the account so far as the vouchers have been rendered and admitted, and that the ballance due to the State under the laws of the United States is seventy-eight thousand six hundred and odd dollars. Fifty thousand dollars will be paid immediately, in the following manner, viz: 10,000 dollars in this place; a draft on the Collector at Alexandria for \$14,000, one on Tappahannock for \$3,000, and the remainder in Richmond and Norfolk. The three first sums I will bring with me, provided I can readily negotiate in Fredericksburg the bill on Tappahannock, and have also a prospect of obtaining from three to five hundred dollars in five cent pieces. As soon as the Secretary is advised that the collectors in Virginia are in possession of so much (after paying the present drafts), he will take measures for discharging the ballance.

I had hopes of setting out to-morrow, but am too much indisposed to do anything to-day. You may rest assured I will exert myself to come on with all possible dispatch.

With great respect, I have, &c.,

THOMAS NEWTON TO THE GOVERNOR.

June 9,
Norfolk

Your Exc'y's favors I received, and am sorry I cannot obtain the information you required of the vessels which have been taken by the British Ships on our Coasts. It is generally believed the Thetis and Hussar Frigates captured the two French Ships. The former, it is well known, repaired here, and the latter has been in and out of our Capes from the reports I have had for some time. I shall still endeavor to get information. I will transmit it without delay when obtained. I know of no vessel at present belonging to this port, except the Maria, owned by Mr. Pennock, being taken by Admiral Murray's squadron, and she was captured under the convoy of the Concord on their first arrival. Most of the vessels were from the Northern States, which were taken loaded here on freight.

The Commission for Mr. Reynold is right, and beg it may be sent. Mr. Page has removed from this same time.

Two days ago arrived here from Dominick a vessel with 19 white French citizens and 26 negroes, which they claim as domestic servants, and have sworn that they do not intend to remain here. The vessel being out of my jurisdiction, I informed a county justice thereof, who did his duty as I conceived, but we have doubts that as travellers they have a right to their servants; but under a sanction like this, if 100

whites come in, 200 blacks may attend them. I should be glad of your opinion on this subject.

1795.
June 9,
Norfolk

I have hopes the General Government will give us some force in our exposed situation, for we have too many of the blacks from the Islands among us. I have heard that there is a Murray's Squad. at Bermuda and New York. Some Frigates cruizing off our capes. We have news of the French having got footing in Ireland and of great slaughter in the W. Indies. I keep the look-out boat daily cruizing.

I am, &c.

THOS. NEWTON TO THE GOVERNOR.

I wrote you yesterday, since which a vessel arrived—the Sloop Industry, Elisha Baker, Master—who brought one man and two negro women slaves from Boston; as he was bound to Richmond have desired him to call on your Exc'y for information. He pleads ignorance of the Law, and unless some mode of promulgating it in the Islands and Northern States is fallen on, it will be constantly the plea. The expenses of an individual to publish and attend to these matters are such that it cannot be done without injustice to himself. My time is almost wholly taken up with public affairs, to the great neglect of my private business. It is my wish to serve my country, and I will so long as I can without sacrificing too much.

June 11

The 26 Negroes I mentioned are landed here, and those brought by Capt. Baker he has taken to your place; he calls them domestics of gentlemen coming on by land from Boston. The determination on this case will fix a rule to proceed by hereafter, and I hope the State will direct the Attorney for the District to prosecute for any evasion of the Law. I have paid Clerk's fees, &c., for this business of prosecution, and am abused that I cannot longer stand it. I expected to have had the pleasure of seeing you here before this, that your Exc'y might see many difficulties we are under as a Seaport—the constant resort of Foreigners. We now have six French Ships with a number of negroes on board, three of which arrived lately from the W. Indies. The others have not many, but I expect they will be troublesome, as they are lately freed, and our own negroes are very impertinent, as I believe is generally the case throughout the State. Inclosed is an affidavit of one of the French.

I am, respectfully, &c.

Whereas, William Fedell hath hist day made oath before me, one of the Aldermen of the Borough of Norfolk, that he is a transient person and not a citizen of the United States of America, and that his present removal into the State of Virginia, was with no intent of evading a cer-

tain Act of Assembly passed in the year 1792, for preventing the further importation of slaves, (and that he has not brought with him any slaves in the sloop Greyhound of Boston, whereof James Parsons is master, now riding at anchor in the port of Norfolk,) with an intention of selling them and that his only motion for bringing slaves into this Commonwealth is for domestics and necessary attendance, and to carry them out again.

Sworn to before me this 9th day of June, 1795.

Inclosed is the treaty between France and Prussia, which came by a vessel in 48 hours from New York. Several vessels are arrived from the West Indies but no news, they are all well and most of them bring negroes, which are not permitted to land here, but immediately shipped except in the case I before recited to you. All since are to be sent off.

I am, &c.,

TIMOTHY PICKERING TO THE GOVERNOR.

June 13,
War Office

The application to this office for patents for bounty lands surveyed on the Northwest side of the Ohio, for officers and soldiers of the Virginia line, on Continental establishment, or their heirs or assigns, oblige me to trouble you with a short detail of the proceedings here on the subject, and of the difficulties which still oppose the execution of the Laws of Congress passed the 10th of August, 1790, and the 9th of June, 1794, providing for the issuing of such patents.

In consequence of the first law, the Secretary of War on the 15th of September, 1790, transmitted to the Governor of Virginia, a list of the officers and soldiers of the line of that State on continental establishment, and of the quantity of land they were entitled to, by the Acts of Congress instead of the Laws of Virginia.

This mistake was noticed by Governor Lee in his letter of December the 19th, 1791, who at the same time requested the return directed in the second section of the Act of Congress of the 10th of August, 1790. After the receipt of this letter, the Secretary of War on the 9th of January, 1792, informed the Governor of Virginia, that the muster roll and returns in the war office were defective: that the United States promised lands only to soldiers enlisted during the war: but that Virginia appeared to have extended her bounty to soldiers engaged for more limited periods: and therefore requested the Governor to furnish the authentic documents in the public office in that State, which would exhibit the names of the persons on continental establishment entitled by the laws of Virginia to the lands in question. To this letter no answer appears to have been received.

The following observations will show what steps are to be taken previous to the issuing of patents and why they have hitherto been denied.

1795.
June 13,
War Office

1. The act of the 9th of June, 1794, requires that besides the (land) warrant, or a certified copy thereof, there should be produced to the Secretary of War "*a certificate under the seal of the office where the warrants are legally kept; that the same, or a part thereof, remains unsatisfied.*"

2. There must be produced "*a survey, agreeable to the laws of Virginia, for the tract or tracts to which the applicant is entitled.*"

3. The Secretary of War must endorse upon each patent before the seal of the United States is affixed to it, "*that the grantee therein named or the person under whom he claims, was originally entitled to such bounty lands.*"

4. Several warrants, or certified copies thereof, accompanied with surveys, have been produced to the War office for the purpose of obtaining patents, and Colo. Anderson, who is *supposed* to be the proper officer, has certified that the same warrants, or parts thereof, remained unsatisfied; *but this certificate was not under the seal of his office.*

5. Because the Muster Rolls and Returns in the War office are defective, the Secretary of War cannot certify on the back of the patents that the grantees, or those under whom they claim, were originally entitled to such bounty lands.

6. To supply the defect mentioned in the fourth observation, I have proposed that Colo. Anderson should provide himself with an *official seal*, and that he affix the same to all the Certificates he shall give in future of warrants wholly or in part unsatisfied; 2ndly, that if he can ascertain the certificates which has already given, he should make a list thereof, describing the warrants on which they were endorsed, and to this general list subjoin a certificate applying to the whole and affix his official seal thereto; or 3rdly, and which would be more in *order*, tho' more laborious, make out copies of all the warrants on which he has already given such certificates, and on each make a new certificate under his official seal.

Of the Executive of Virginia the Secretary of War is obliged to request—

1. A Certificate where the land warrants in question are legally kept, and of the name of the officer authorized to give the certificates, that the same, or any parts thereof, remain unsatisfied.

2. Authentic lists of the officers, non-commissioned, and soldiers of her line on Continental establishment, who by her laws are entitled to bounty lands, the lists to specify *the ranks, the times of service, and the quantity of Land to which each individual was entitled.*

The various requisites now mentioned, it is hoped, may before a long time be obtained. There is a fair prospect of peace with the Indians

1795. Northward of the Ohio, and as soon as that event takes place the persons interested will be importunate in their applications for patents.

THOS. NEWTON TO THE GOVERNOR.

June 21, Inclosed your excellency will receive the deposition of Francis Marschal relative to two brigs taken off our coasts by a Bermudian privateer. Norfolk I have not heard of British men-of-war lately. We have had no arrivals within this week, but one from Tobago. The crew all well.

I am, &c.

I, Francis Marschalk, late master of the Brig Washington, of New York, do solemnly swear that I was a passenger on board the Brig Betsy, William Bass master, bound to Philadelphia from Bordeaux; that the

said Brig sailed from the latter place on the 2nd day of May last; that she was the property of William Penrose, of Philadelphia, and was laden with wines for and on account of the said Penrose, as I was informed by Capt. Bass, and as appeared by the bills of lading and other papers which Capt. Bass gave me the perusal of; that I have no reason to suppose any part of the said property belonged to persons other than citizens of the United States. That on Monday last, the 15th instant (being then about 45 miles E. by North from Cape Henlopen, in 28 fathoms water), the said Brig Betsey was captured, together with the Brig Molly, Capt. Messard, of Philadelphia, by a schooner privateer belonging to Bermuda, commanded by Capt. Hutchings, mounting six guns; that the said Brigs were ordered for Bermuda. That shortly afterwards they fell in with and spoke the sloop Greenwich, Capt. Edwards, from Rhode Island bound to Norfolk, on board of which vessel I was put, and in her arrival at this place on Thursday last.

The report of a British Fleet's arrival false. I have heard nothing of them and believe they are not nearer us than New York. I am called on for payment of the wages for the q'r boat men employed. Your Exc'y will oblige me by sending down about two hundred dollars for the purpose. The former boat I gave an order favor of Mr. King, the owner. We have some fears of the French negroes being troublesome, and are now inquiring into the case and will inform you the result. The negroes have the squint of freedom among them, and they are acquainted that our laws are in the favor of those who have been a year here.

There are some jealousies among the whites, which I expect may be the cause of the above business, every inquiry shall be made to get at the truth, tho. I am thoroughly satisfied that they must be sent off in some short day.

We have had no arrival these several days; therefore nothing new. Mr. James Heron will contrive the 200 dollars down to me.

Richmond

I have the honor of laying before you a copy of the account of the State against the United States, as stated in the War Office, with some remarks thereon. The vouchers for charges rejected and suspended.

Such papers as were found unnecessary in the establishment of the claims, and copies of such written communications as I had occasion to make relation to the public business I was engaged in, all of which are submitted for inspection and information of the Board, under a hope that my conduct will meet with their entire approbation.

Of the twenty nine thousand dollars already received, there is 18,100 in Gold, 3,300 in Crowns, and the remainder in Bank Notes of the United States and Alexandria.

The Drafts which I have payable to myself or order, I am ready to endorse over according to the direction of the Board. The ballance still remaining due from the United States, I presume may be drawn for after the end of the present Quarter.

With every sentiment of respect, I have, &c.,

W. WILSON TO THE GOVERNOR.

The inoculation of the Small pox, and the spreading of the infection of that disorder in its natural way, has made this county a mere Hospital in so much that it has prevented my making a board of Officers, pursuant to your Excellency's instructions of the 2nd of March 'til a few days past.

1795.
June 24,
Portsmouth

I now enclose for your Excellency a numerical Rank Roll of the Officers of the 7th Regiment of Norfolk County, together with the wrong numbered commissions of all officers except those whose absence or other disability prevents me from obtaining them.

I must here beg leave to trespass upon the time and patience of your Excellency, while I make a momentary remark upon the conduct of the cidevant minister of Britain, so far as his Don Quixotte attack upon me requires notice as exculpation. When he—Geo. Hammond—complains to the Secretary of State "of the illiberality of expression applied to the conduct of Lieut. Skene" in the deposition of Captain Robert Hatton, I am really at a loss to know with what propriety, (unless he is one of the descendents of the Knight above mentioned), he can apply to me the words of Capt. Hatton in his deposition. He says it "excites neither his surprise nor resentment as coming from Wilson." He will very much excite my surprise if he is in a proper state of sanity.

But perhaps he would insinuate, as he has more than once done, with other gentlemen, that the deposition of Hatton is a forgery of mine; to ward off a blow so replete with falsehood and calumny, I have taken a certificate of Mr. Samuel Shore, who was seated at the table from the beginning to the ending of the deposition.

I should feel pleasure in "exerting" myself, as the Secretary of State requires, in procuring further proof of the persons detained being actually citizens of the United States, did I conceive it would have the salutary effect in emancipating those unhappy victims, or did I not know that the most ample and unequivocal proof has been already adduced, and is now lodged in the hands of the Secretary of State, that John Underwood and John Loyd are impressed and now detained on board the British Ship Lynx, who are actually citizens of the United States as they were impressed from Capt. Hatton, who Identically knew them, and in his deposition he swears they are natives of America. Capt. Hatton is a man of reputation, and I conceive his oath is entitled to credit.

I have not as yet been able to obtain proof of any repairs being made to the Thetis in her implements of war. If it can be had it shall be transmitted.

I have the honor, &c.,

1795.
June 24,
Portsmouth

I hereby certify that at the request of Capt. Robert Hatton of the Ship Harriett, I called on Colo. Wilson to attend him, the said Hatton, (who was then under inoculation), to take his deposition of the cruel treatment he had received from a Lieutenant Skene of the British Lynx Sloop of war. Colo. Wilson was at the time I called on him just going to court, but upon my earnest request he went with me to Capt. Hatton, who in my presence delivered to Colo. Wilson the words contained in the deposition respecting the impressment of three of his men, (two of whom he declared to be natives of America,) and among other things further declared that he could not recollect one half of the ill treatment he had received from the said Skene, but concluded that his conduct betrayed the greatest malignity to the American flag, and his actions were of a piratical nature.

Given under my hand at Gosport, this 26th of June, 1795.

SAMUEL SHORE.

[Apparent error in date of Certificate.—Ed.]

ALEXANDER CAMPBELL TO THE GOVERNOR.

June 25,
Richmond

I have the honor to enclose you a letter which I received this night from Mr. Whitaker at Williamsburg, by which you will observe that the ship which was formerly libeled and is still under prosecution as a privateer, is in a state of equipment which renders her character and purpose no longer doubtful.

The verdict of acquittal which was rendered at Williamsburg, has been set aside and the prosecution against the vessel is proceeding anew, but even if this were not the case, the present situation of the vessel and the proceedings of those who have charge of her, bring her evidently within the meaning and operation of the act of Congress for the fitting out of privateers in the ports of the United States. As an officer of the United States, therefore, it becomes my duty to communicate to your Excellency the information which I have received on this subject, that you may take such measures thereon as to you may appear proper. For myself, I cannot avoid expressing to you the indignation which I feel, knowing the circumstances of this case, in seeing an attempt to array private enterprise against the force and authority of the laws. The act of Congress invests the Executive departments of the State Government with the power of detaining vessels in such circumstances as the present, and it is with a view to this that I have the honor to submit this intelligence to your consideration.

I am, &c.

I have this moment arrived from Gloucester. Obedient to your request, I now give you such information relative to the ship Unicorn as a personal interview with Mr. Warner Lewis has enabled me to obtain.

1795.
June 26,
Williams-
burg

The ship is now in Gloucester, but expected to sail as soon as the officer returns from Norfolk, whither he had gone for recruits. In York I understood he had returned yesterday. It is, tho', highly probable she will not sail in less than eight days. She has 75 men and 16 four-pounders. Mr. Marshall, who commands, informed Mr. Lewis he had heard of the design to seize the vessel, but that any force which might be sent should most certainly be opposed; he states, also, that he means to pay no respect to the colours of any nation—that it is his intention to take Americans as well as others. There exists not a doubt, from the language he held out, but that he means to play the pirate. This circumstance, Mr. Lewis tells me, is so far impressed on the minds of some of the crew as fact, that there appears a considerable disaffection among them, particularly the mate, who has in direct terms expressed to Mr. Lewis his abhorrence of the conduct and probable designs of the Captain.

The stage is now setting out. In haste, I am, with sentiments of respect and esteem,

Yours, &c.

WM. WHITAKER.

P. S.—Sinclair continues to visit the vessel. I have no doubt but that a considerable part, if not the whole of her belongs to him. W. W.

JAMES BRECKINRIDGE TO GENERAL TATE.

I was privy to a settlement made between Gen'l Tate and Capt. Lewis for pay due his company for services done on the frontier in the year 1793, and am confident that in ascertaining and paying off the proportions due to each officer and soldier, Capt. Lewis refused receiving any part in order that the proportion to the soldiers might be the greater.

June 26

I also remember that General Tate granted a certificate showing the balance due, which I once had in my possession, and may now be amongst my papers in Fincastle.

JOHN HAMILTON TO THE GOVERNOR.

I have just received information of two privateers having come down from Baltimore with an intention of proceeding to sea, and being now in the waters of this State. They are both armed and mount guns. The one a ship (supposed to be the Unicorn, built by one Sinclair, of Smith-

 Norfolk, the latter is Elijah Marchant, of Portsmouth. I have to request that
 British Con- your Excellency will be pleased to take such steps as you may judge
 sul's Office proper to prevent these vessels from sailing, they having, as I am
 informed, been equipped contrary to the laws of the United States.

I have, &c.

JOHN STEELE TO ROBERT GOODE, Esq'r.

June 27, I arrived here this evening too late to receive payment on the
 Alexandria Treasurer's Draft on Colo. Fitzgerald for 19,000 dollars, consequently must
 wait for the next return of the stage.

I received 10,000 dollars in Philadelphia, a Draft on Lindsay for 14,000,
 one on Col. Heth for 4,000, and one on Muse for 3,000 dollars. The last
 as I wrote you already, I will endeavor to negotiate in Fredericksburg,
 and will probably be in Richmond on Monday evening.

With great respect, &c.

THOS. NEWTON TO GOVERNOR BROOKE.

June 29, We all continue well and no arrivals with any disease. We this day
 Norfolk had a meeting of Mayor and aldermen respecting our situation with the
 French people of color; came to no final determination thereon, but have
 requested a meeting of the County Justices (as many of them are within
 their boundaries) that we may act in concert on the occasion. Two gen-
 tlemen arrived this morning from N. York, who bring accounts that the
 treaty is adopted by 25 against 5 in the senate. They left that place last
 Thursday.

I am, &c.

AB. PRIOR TO THE GOVERNOR.

June 29, I have lodged in the hands of Mr. Blair a Rec't from Mr. Cavendish of
 Richmond a number of orders lodged in his hands in my favor, for advances made
 to the officers and soldiers in the Volunteer Militia well authenticated.
 On the strength of their being paid, Mr. Blair has advanced me 1,000
 dollars, which sum I most ardently wish might be paid to him, should I
 be under the necessity of waiting till the Paymaster came forward; but
 flatter myself that I shall meet with a more favorable decision of the

Board. That the amount of my orders will be directed agreeable to Mr. Cavendish's Rec't to be paid.

June 29,

I have, &c.

RO. QUARLES TO GOVERNOR BROOKE.

Inclosed you will receive the customary quarterly return of arms and other military stores at the arsenal. I have likewise as usual forwarded the pay rolls for the different characters in the employment of the State under my direction. I have deposited, at the request of the honorable Board, the contractor's bond for the due performance of his office; he now attends for the purpose of receiving the advance formerly requested.

My contractor, thro' me, wishes to represent to the honorable Board the hardship under which he labors from the sudden and to him unexpected rise of the constituent parts of a ration since he became bound to furnish the garrison at the arsenal, and solicits that the Board will take the subject into their consideration, and either make such additional allowance to him for his rations, or suffer the office to be let again.

The honorable board will do me the favor to notify me of their decision on this subject.

I am, sir, yours, &c.,

JOHN HAMILTON TO JAMES WOOD, LIEUTENANT-GOVERNOR.

1795.
July 3,
Norfolk,
British Con-
sul's Office

By this day's post I am favored with the letter you did me the honor to write me, dated in Council the 30th ulto., and I have to express my acknowledgement for the prompt attention shown by the Executive Council to my representation of the 26th of June. I take the liberty to request, sir, that you will have the goodness to acquaint me with the result of the inquiry respecting the legality of equipment of the vessels in question.

I have, &c.

TIMOTHY PICKERING TO THE GOVERNOR.

July 3,
War Office

I have laid before the President of the United States, your letter of the 19th of last month, representing that the concourse of strangers of every description at Norfolk and the neighboring ports, under strong impressions of jealousy and enmity to each other, naturally keep the inhabitants of those places under a general anxiety for the public peace, as well as for the safety of their property, which the withdrawing of the garrisons from the forts in that country has not had a tendency to alleviate. And that in consequence thereof you have been requested to throw a small garrison of militia into those works as a cautionary step, to check the petulance and ebullition of parties, and secure the public property from some risk, which measures you suggest for the decision of the President of the United States.

I am now directed by the President to inform your Excellency, that he does not conceive himself authorized to call out the militia for the preservation of the peace of any place, *because the inhabitants entertain apprehensions that it is in danger*. If the security of public property required a guard of militia, the service of the guard would be confined to that object. Had the federal artillerists remained at Norfolk, their duty must have been equally confined. To suppress a riot, it is presumed the magistrates of Norfolk would have judged it expedient to call forth, not the *regular* troops, but the citizens, the posse of the place or county—in arms if the occasion should so require.

The power of the president to call forth the militia is limited to these objects.

1. To repel the invasion of an enemy.
2. To suppress an insurrection in any State against the government thereof, upon the application of the Legislature of such State, or of its Executive when the Legislature is not convened.
3. When the laws of the United States are opposed, or the execution thereof obstructed, by combinations too powerful to be suppressed by the ordinary course of judicial proceedings.

But even these cases of insurrection, when the President should judge it necessary to call forth the militia, the law requires that he forthwith issue a proclamation commanding such insurgents to disperse.

1795.
July 3,

This statement founded on the law of the United States passed on the 28th of February last, demonstrates that the case exhibited by your Excellency does not fall under the cognizance of the President of the United States.

I am, &c.

LEROY EDWARDS TO GEN'L H. LEE.

The privateer ship you allude to, left Wicomico about fifteen days past. I never could find out her name, or the name of the Captain. I am informed that 10 or 15 men shipped for a bounty of 100 Dollars and 30 Dollars per month.

July 5

I was confined to my bed the whole time the ship was stationed in the River.

I have, &c.

HENRY LEE TO THE GOVERNOR.

The enclosed let'r will explain the cause of my failing in my endeavors to execute the command conveyed to me by the Lt. Governor. Not a moment was lost in my adoption of the measures necessary on the occasion, and I very much regret that offenders so daring and unprincipled should have escaped the vigilance of Gov't.

July 6

I deferred acting at all, respecting the privateer reported to have been in some of the Rivers of Gloucester, inasmuch as I learned from good authority that Brigadier Young had applied his attention to that object, in pursuance of orders received from the Executive.

One express has been employed by me; he rode forty miles, which with his return makes eighty miles. I have paid him for the service in conformity to the established usage, and have, &c.,

THOMAS WILSON AND JOHN HAYMOND TO GOVERNOR BROOKE.

In conformity to the Act of Assembly passed in the year 1792, page 66, Revised Laws, and from the distant situation of the counties of Ohio, Monongalia, Harrison, and Randolph, we request that the Laws appropriated to those counties may be conveyed to the clerks of each county at the expense of the State.

July 6

Your attention to the above will be thankfully acknowledged by

Your obed't servants.

There is a call on the holders of shares in the Dis'l Swamp Canal for 30 dollars on each share, to be paid the 1st instant, and if the Executive would order the payment on the 50 shares belonging to the State to be paid by an order on Major Lindsay, the collector at Norfolk, it would be very convenient to the Directors.

I have, &c.

The State's payment of the subscription to D. S. Canal being now due (since the 1st instant), and being requested to call on you for the same, you'll much oblige by getting a order from the Executive and send it down. Mr. Heron will assist in getting it down. United S. bank notes will do, or an order on the Collector here. Probably Colo. Carrington can negotiate this sum with you for us.

I am, &c.

At a Court held for Fluvanna county on Thursday, the second day of July, 1795, present: Joseph Haden, Samuel Richardson, Robert Quarles Benjamin, Dr. Wells, Michael Atkisson, and Peter H. Ware, Gentlemen Justices.

This Court doth nominate to his Excellency the Governor, John Ware. Duncan McLaughlan, and Robert Quarles, Gent., as proper persons to execute the office of Sheriff of this county; and doth represent that John Peyton, Gent., who stands in the commission of the peace as an older magistrate than Duncan McLaughlan, came into court and desired that he might not be named in the s'd nomination, urging for reason that he conceives himself entitled to the office of Sheriff.

Your starting a few hours yesterday before I got to Columbia, occasions my Brother a ride to Richmond to take with him the necessary documents in order to compel our Court to render that justice which I think

they withhold from me respecting the late nomination. My principle object is to remove Joh. Haden from a seat on the bench, and do away with the effect of the recommendation of Sheriffs and order a second nomination. I wish it represented to your Council that only 7 members composed the Court on that day—2 were sons to Johnny Ware, and that Joh. Haden was thought ineligible by two members at Court, who refused to sett on the bench with him on that account. My objection to stand 2nd in the nomination is not so fully explained in Timberlake's copy of ye order as expressed by me. However, you being so fully acquainted with my pretensions renders it unnecessary repeating them to you; do in the premises what appears best and reasonable, and I shall be contented.

I am, &c.

H. YOUNG TO THE GOVERNOR.

The morning after the receipt of the order of Council of the 29th of last month, I set out for Gloucester, and the next day arrived at the house of Mr. Warner Lewis (who was at Norfolk), from whence I saw the Ship Unicorn at anchor just within the mouth of the river Severn, where she arrived about six or seven weeks ago (and without guns). She remained a short time and then removed, but whither I could not learn. About ten days after she returned to her former station and was armed with sixteen four and two nine-pounders.

July 7,
King &

St. Clair is frequently on board the Ship Unicorn, and the general conjunction of the neighborhood is that he has been the chief instrument in arming, &c., said ship.

I procured an interview with Peter Marshall, who is on terms of the most cordial amity with the most respectable persons in the neighborhood of the ship. As a proof, I will only observe that Marshall has left at Mr. Warner Lewis's his wife and only child, where they are to remain until the return of Marshall. I have mentioned the last circumstance to strengthen Col. Page's conjecture that there must be a mistake in Mr. Whitaker's communication.

Marshall informed that Capt. Lerty, of the Norfolk Cutter, had been on board the Unicorn, and that Lurty had examined the Ship's papers; also that the cutter from Baltimore had frequently been alongside. From the best information I can get, the crew of the Unicorn are all French, and the number does not exceed forty-five men. Marshall says he is not a citizen of the United States.

I demanded of Marshall a surrender of the Ship. He answered that he was nothing more on board the Unicorn than a Passenger, and as a proof that he was not, showed me the enclosed papers, which are literal

copies of the originals. I would have resorted to force to detain the ship Unicorn but from a conviction that any attempt that I could make with the means in my power would have been fraught with extreme temerity, and would have ended in nothing but disappointment and disgrace. I once thought of detaining Marshall, but finding the charges exhibited against him not substantiated, and fearing an encroachment on a power, with me the most sacred (I mean the civil), I declined it.

I shall feel the highest gratification if the steps I have taken in the above business, should meet with your Excellency's approbation.

I have, &c.

These are to certify whom it may concern, that Lt. I do hereby certify that the above is a true copy of a clearance in the possession of the Cap. of the Unicorn.

July 3rd, 1795.

JOHN W. SEMPLE.

WARNER HALL, Severn River, July 3rd, 1795.

SIR:

I am just returned with General Young from collecting information respecting Peter Marshall's vessel and from examining her situation. As to the information, as the General will communicate it himself, I shall only observe that it is such as would lead me to endeavor to prevent her sailing had I the means of doing so; but as I have both small arms and cannon, with proper ammunition, to seek for before I could possibly detain her, and her distance from the shore is such that less than 18-pounders would probably not command her, I conclude that it is impracticable in our situation to carry into effect the standing orders of Government respecting the detention of such vessels.

I had once thought that the detention of Peter Marshall might contribute to the detention of the vessel, but on enquiry I have found that it would have no such effect, but would probably expedite her sailing,

and might drive the officers and crew to some acts of violence which it would be out of the power of the Government to chastise or compensate. To suppose that his detention would stop the ship, is to suppose that his death would prevent her cruise, which we have good reason to believe it would not; besides, the information respecting Marshall's Threat of Piracy appears from the testimony of Mr. John Lewis, who was present when the conversation passed between Mr. Whitaker and his brother Warner, founded on a mistake, as he says that his brother spake of expressions which he had heard the second Captain or Mate use, and not what were used by P. Marshall—the Mate and not Marshall having said that it was Marshall's determination to disregard the Flags of any Nation; and Mr. Lewis adds that this Mate had quarrelled with and been dismissed by Marshall, who solemnly denied the charge, and has threatened to chastise his accuser if ever he can find him. Added to this circumstance, Marshall has landed his wife and only child here, to be left in this State, whilst he shall go on his voyage to the West Indies, or his cruise, as we term it. Leaving property, it is said, and such pledges, I am apt to suppose he can have no thought of committing piracy.

1795.
July 7,
King &
Queen

Were there any proof of a piratical design, I should not be disposed to plead a doubt of legal authority to apprehend him; though I have fallen in with him to-day by accident, under the protection of the sacred laws of hospitality, and in the house of my friend, and the warm friend of the authority, peace, and honor of the United States.

My indisposition confined me at home till I ventured out yesterday with General Young, so that till then I could not personally examine into the case of the other vessel, the object of your former enquiry, but I have issued my orders to the Major of the Battalion most convenient to the place where the vessel was said to lie, directing him to comply with the orders which you had enclosed to me, and which I transmitted to him. Major Cary's patriotism and other qualifications, and that of his officers, led me to rely on him for a due execution thereof. Having received no information from him, I could not write to you; but now, sir, I have been assured that no such vessel has been in the waters of Gloucester, but that there was in East River, in the county of Mathews.

I hope you will excuse this hasty scrawl, and that as my health and public avocations are of a nature incompatible, in my opinion, with my office as commandant of the militia of Gloucester, and will not permit me with promptness to discharge the duties of my office, you will be pleased to accept my resignation thereof.

I have, &c.,

JOHN PAGE.

THOS. NEWTON TO THE GOVERNOR.

July 8,
Norfolk

I have now fitted out a boat for superintending the quarantine, finding that I could not depend on the pilots, and also that some vessels might slip up James River, and as it is impossible to guard against such altogether without the assistance of the Custom House, your Excellency will please to write to Colo. Heath and the officers at Richmond and Petersburg, if any vessel should appear without a certificate of health from Capt. Jno. Baret, to have them examined, he having orders to suffer none to go up without it, but some may get by in the night unperceived.

The sickness begins to rage in the West Indies by the accounts I have had, and you may depend every precaution shall be taken here to prevent its being brought in.

I have not been able to fix on the land yet. I wrote your Excellency and inclosed a copy of a bond. I shall be much obliged for your determination thereon.

I am, &c.

EDWARD CARRINGTON TO THE GOVERNOR.

July 8,
Richmond,
Supervisor's
Office

The unfinished situation in which my agency accounts remain, so far as relates to the expenditures of the Brigadiers of Militia, in forwarding their several quotas to the places of general rendezvous for the late expedition, is to me a disagreeable circumstance, and it is contrary to the punctuality exacted by the accounting officers of the United States as to monies advanced for account. A few days ago I called on Mr. Pendleton on this subject, and found that as many as five or six of those officers are still delinquent in settling their accounts. I am persuaded that the Executive have been urgent with them on this business, but apprehend that nothing less than personal application will shortly bring forward full settlements with them. Under this impression, I am led to request of your Excellency that an express may be dispatched on a circuit to such as remain delinquent in order to obtain their accounts, the expense whereof I will allow on account of the United States, and I beg leave to submit to your judgment the propriety of a conditional notice going at the same time, of motions at the next term of the Court having cognizance of such cases against such as shall continue delinquent.

I have, &c.

GEORGE CLENDENIN TO THE GOVERNOR.

On yesterday I received information from sundry Gentlemen, that came down the Ohio from Fort Pitt, that twenty-five Indians had crossed the Ohio at a place called Ambuson's Island, forty-five miles above the mouth of the Great Kanawha, and fifteen miles below Bellville.

1795.
July 9,
Charleston,
Kanawha

They had crossed the River in four Bark Canoes, and two Rafts, the canoes they had cut holes into so as to render useless, and the Rafts they had cut the vines by which the logs were tied together—The persons who give the information, passed so immediately after the Indians landed, says they presume the Crafts had not time to float away. The perogues and boats that made this discovery were ably manned and put to the shore, and found the Indians had made no stay, but appeared to have directed their course towards our settlements. This happened on Wednesday week—There has also been a considerable body of Indians with horses in the Green Bottom on our side, about twenty miles below the mouth of Kanawha for upwards of four weeks; have frequently been seen by passengers, and have endeavored to bring boats to shore at the mouth of Siottha. They have lately fired on the packet, killed one man, and wounded three others, one of which has since died of his wounds. However, it is unnecessary for me to go on to innumerate the late depredations they have committed, as I suppose they will be reported from every quarter of our Western country.

The Treaty, under some pretence of the Indians not being able generally to collect, is postponed for two months. Sundry persons have arrived from the Treaty, or the place appointed for holding thereof, and are now present at my house, all of which appear to have extreme doubts respecting its confirmation. I expect hourly to have information from Col. Thomas Lewis, who is at the Treaty, and will not return until he knows the issue. In consequence of those circumstances, which I have innumrated to your Excellency, as well as many others, I have, with the advice of the officers of this county, and thro' the solicitations of the exposed inhabitants thereof, ordered two men under the denomination of Scouts, immediately to proceed up Pocatalico River, to cross the headwaters of Mill Creek, and round by the headwaters of the Little Kanawha, to find if the Indians are determined for Elk settlement, the settlement at the falls of Kanawha, or Peter's Creek, or Stroud settlement, in our county.

Mr. Maze, from Stroud's, was at my house (on business) when those different unfavorable informations arrived, who immediately petitioned me to permit two spies from that quarter. This I was induced to do as my own judgment, as well as his, that I could in a great measure depend on, led me to think, that the party that crossed at Ambuson's Island, either intended for his settlement or Peter's Creek. I have also ordered

1795.
July 9,
Charleston,
Kanawha

two others from Point Pleasant to go and endeavor to find out and report, as far as they are able, the disposition of those that have so long continued in the aforesaid Green Bottom, all of which I have strictly enjoined to carry on no hostile or offensive operation, unless they should find the Indians pressing this way towards our settlements.

I have found an opportunity to forward this report to-day by a person as far as the post-office at Greenbrier Court House, from which place I hope it will meet with its intended destination.

I hope your Excellency and honorable Board will take the situation of our affairs under consideration, and grant the present relief, if consistent with the policy of Government, and as soon as possible approve or disapprove.

A. QUARRIER TO THE GOVERNOR.

July 18,

I beg leave to represent to your Excellency that on the return of the company of artillery under my command in August last, I deposited by the order of General Lee, then Governor of the State, two hundred and seventy-five weight of powder in the old Guard House, the property of the State; also two casks of one hundred each, of my own property. They were safe and untouched at the time that Ensign Nice gave up the

keys to Mr. Richard Courtney. That on the 1st instant I had occasion to take out some powder, and after examining the casks, I found that the one left of the two last mentioned, had been broken open and the whole to about five or six pounds taken out, as well as eight or ten pounds out of one of the casks belonging to the State. I would therefore request that your Excellency will cause an inquiry relative to this loss, and take such other steps as may to the Council appear proper, so as to guard me from the loss.

I have, &c.

Wm. Hays' respects to the Honorable Col. Goode, and begs leave to inform him that he has left with Mr. Pendleton the account of the Directors with the Commonwealth, and the vouchers, and he promises to certify it on Monday. The balance of the fund yet to be drawn is £71.4.0, of which £9.10.0 is due to Mr. Dobie, £18.3.8 to Charles Purcell, and £43.10.4 to the Directors for balance of commissions as stated in the account. You will therefore be kind enough to get an order on the Auditor to grant warrants for these respective sums.

On the 13th Instant, on Buckhannon, in Randolph County, the Indians kil'd Two daughters and took the wife and two sons prisoners of a Mr. Boryarth, which is the cause of the enclosed Letter to me from Lieut. Charles Buck. The person who brought me the letter was on the ground within two hours after the murder was done—that this information may be relied on. They also burnt his House and Barn and other Implements, and even endeavored to set fire to the fences.

That part of the county where Mr. Buck writes me from, is altogether a frontier, and has generally been one of the inroads of the enemy to the Head and Little Levels of Greenbrier. Should you conceive it necessary to order out any persons to act as spies for a short time, and leave the choice of them to me, I shall be particularly careful in fixing on those whom I conceive will do their duty pointedly.

The present appearance of Danger from the savages constrains us to request the favor of a couple of spies for a short time. Reports from good authority show that our fears are not groundless. We hope, therefore, as you are acquainted with our situation and danger, you will please to grant the above request and oblige,

July 30,

British Consul's Office

I have anxiously waited a reply to my letter of the 3rd Instant, in which I requested to be informed of the result of the inquiry made into the equipment of the two vessels, represented by one as armed contrary to the regulations of the President of the United States in my letter to the Governor of the 26th of June. Not having heard from you on the

subject, I must take the liberty to call to your recollection that request, for having every reason to believe that my information on the subject of the improper equipment of the vessels complained of by me was correct, I must be allowed to say that I felt much surprize at learning that notwithstanding the instructions dispatched by the Executive Council to Major-General Lee and Brigadier-Gen'l Young, the vessels had been permitted to sail, and that one of them, the Unicorn (now Bouillon), was not only cruising for some time off the Capes of Virginia with twenty-four Guns mounted, but that during that Cruise she had plundered a vessel under Danish Couolors of a large sum of money.

FROM THE FRENCHMEN REFUGEES AT NORFOLK.

NORFOLK, *July, 1795.*

July 30

TO the Governor and Council of the State of Virginia:

You are acquainted with the misfortune of the unhappy inhabitants of St. Domingo—you have known their distress and its cause, and you have not forgot their arrival in this Country, almost naked, wanting every thing, and having nothing but a small number of faithful slaves who have followed them.

In that occurence every thing which might be expected from a people as humane, as generous, was exercised towards us, and our souls filled with gratitude; will never forget how much we are indebted to the good citizens of this town. We were not only assisted with money, vituals and clothes, but moreover with regard to our negroes. The Governor of this State, and the Magistrates of this town, looked on us as being in the exception of the Law which grants a shelter to those who are in a state of shipwreck, and they thought that the moral world, overthrown as it is, did not allow them to follow strictly the ordinary rules which have been made for the common case.

But in the mean time, they have been anxious to provide for the safety of the Country trusted to their care, and by a good policy they have prohibited the meeting of the negroes which were customary every Sunday.

We observe that we are not liable to every regulation for ourselves and our negroes, but moreover we are extremely pleased with the good order and policy maintained in this town by its Magistrates. Nevertheless

1795.
July 30

we are told that there exists a committee of the members of the County Counceal, and Aldermans of this town, which has made a Referrance to you and the Counceal in order to let you know the necessity of sending back our negroes to St. Domingo.

Let it be allowed to us to say, that such a plan is as inhuman as difficult to be executed. At first let us observe, that we get our living by the means of our negroes, and were we deprived of them we should remain helpless and destitute of everything. Thus if it was the case, in order to be just and humane, it should become necessary to give us an allowance equivelant the money we shall be deprived of by sending away our negroes, otherwise we should become beggars, unless you should intend to back both whites and blacks all together. But we cannot suppose such a thing without offending the generous sensibility of the American citizens.

But let us suppose the French Consul should be requested to do such a piece of Execution, do you think Gentlemen, our Minister to whom your Requisition should be sent, should not be offended at it? And tho. he should not be so, the citizens of this town from whom we have experienced so much goodness, should be themselves too afflicted at such a violence. No Gentlemen, no such hardness after so much kindness, cannot be supposed. We would rather believe you would continue to befriend us till the end of the war, than to suppose any other procedure: at which time we take the engagement to return to our own home.

In this occurence we put our plans under the protection of your humanity, and we hope you would not disgrace the Generous welcome with which you have relieved us.

Whatever may happen, we will continue our vows for the prosperity of the American Nation.

We are, &c.

I had the honor to receive yesterday your Excellency's favor of the 10th instant, acquainting me with the steps that were taken relative to the vessels mentioned in my letter to you of the 26th of June. Yours, &c.

JOHN HAMILTON TO THE GOVERNOR.

I have the honor to inform you that I have received intelligence that there is now in Mobjack Bay a Brig lately come down from Baltimore, commanded by one Joseph Brady, which has on board fifty men and wants twenty-five more. The presumption that this vessel is fitted out as a privateer is so strong that I must request your Excellency will take necessary steps to prevent her departure, if her equipment should be found (as I am informed it is) illegal.

J. DAWSON TO THE GOVERNOR.

Some time since I did myself the honor of informing your Excellency in a private letter that some murders had been committed on Buchanan, in the county of Randolph, by Indians. On the last evening I arrived at this place, and this being the court day, I have collected information from this and Randolph counties. There remains not a doubt but there are several parties within the settlement.

Aug. 17,
Harrison
Court-house

On Buchanan they murdered the family of one Bowzier and destroyed the whole of his property. They have frequently been seen in that quarter since, and have committed a number of robberies. About one-third of the inhabitants have moved off, and the rest are fortified. Col. Edward Jackson, who lives on Buchanan, has ordered out two scouts, the payment of which will no doubt be authorized by the Executive.

On Wednesday last they destroyed the house and property of a man by the name of Carpenter on Big Elk, and were seen seven in number about its ruin. On Friday morning Capt. Tanner, with twenty volun-

teers, marched in pursuit of them, and it is expected will give a pretty good account of them. Since then other trails have been seen in different parts of this and Randolph Counties, and the people are unanimous in declaring that they apprehend more danger than for many years.

I believe their apprehensions well founded, and most heartily join Cols. Jackson and Lowther in recommending that the latter may be empowered to call out a Lieut. and Ensign's command untill the danger is over, which will be either increased or diminished by the treaty, the event of which, from what we learn, is very doubtful.

On application from Col. Lowther, I have recommended to him to continue the two scouts in Randolph, and if on going into that county, which I shall do in a few days, I find an increase necessary, I shall order it, well knowing how highly the lives of our fellow-citizens are estimated by every member of the Executive.

The persons to whom money is due as rangers, are exceedingly anxious to receive it, and think it very hard that the payments to them should be delayed by the negligence of the paymaster.

If he has not come down, it really seems right that some other mode should be adopted for the conveyance of the money.

With much respect, I have, &c.

JAMES MONROE TO THE GOVERNOR.

I have lately received your favour of the 6th of February respecting the Statue of General Washington voted by the assembly of Virginia in commemoration of the important services rendered by that citizen in the course of our revolution (the execution of which resolve was committed by the Executive to the care of Mr. Jefferson whilst he was Minister here, but left unfinished upon his departure), and requesting my attention to that object for the purpose of forwarding the original views of the Legislature.

The delay of your letter on the passage, is the cause that an earlier answer was not given to it. I give one at present merely for the purpose of assuring you that I will with great pleasure make the enquiries suggested, and in other respects perform everything you have requested, and advise you afterwards of the result as soon as possible. Permit me further to assure you that I shall at all times be happy to seize every opportunity which occurs to testify the pleasure I feel in forwarding the views of those whom I have so many reasons to regard with sentiments of the highest gratitude and esteem, and that

I am, &c.

J. DAWSON TO THE GOVERNOR.

In a letter which I had the honor to address to your Excellency from this place, I informed you of the situation of the country. The return of Capt. Tanner without effecting the object of his scout has confirmed the apprehensions of danger from the Indians, he having discovered undoubted signs of many being in this and Randolph counties. Two days since, Col. Louther, with several of his officers, met at this place and resolved merely, I think, to call out a full company, to be commanded by Capt. Haymond. They meet here to-day, and in the morning march for Buchannon, in the Valley; for a more full account of the proceedings and the existing danger of the country I refer you to Col. Jackson, who will do me the honor to deliver this letter, and who is perfectly informed.

1795.
Aug. 22,
Harrison
Court-house

On application from Col. Lowther and many citizens, I recommended to him to call out an additional spy in this County for the security of the people at Vienna; the payment will, I am persuaded, be readily made by the Executive.

This afternoon I shall set out for Randolph Courthouse, where I expect to be by the morning. The inhabitants of that county are no doubt making similar exertions to this, as they are the most exposed. How I shall get from thence to Kanawha I cannot say; the path is bad, long, and dangerous.

I cannot fail to mention again the great anxiety of the people to receive the money long since due to them as rangers, &c. The neglect of the paymaster surely ought not to withhold from them what is justly due when we have received it from the continent. Col. Jackson, who has their entire confidence, has offered to take on himself the care of bringing it up. No person can be more proper, and should General Tate not have received it, I presume there can be no objection to entrusting it to him.

With much respect, I have, &c.

CITY OF RICHMOND, }
In Common Hall, August 25th, 1795. }

From various informations received, it appears that precautions have become necessary for preventing the introduction to this city of a malignant fever now raging at Norfolk, which there is great reason to believe is infectious. Therefore,

Resolved, That it be recommended to the heads of families in this city and the vicinity, particularly the keepers of taverns and houses of entertainment, upon any strangers or late comer within their families being ill of any disorder whatever, immediately to communicate the same to the Mayor, in order that he may make such further inquiry and take such steps therein as may be thought necessary.

Resolved, That Mr. Mayor, Mr. Recorder, Mr. Barret, Mr. McRobert, Mr. W. Marshall, and Mr. Cohen, or any three of them, be appointed a committee to engage a proper house to which any person may be sent who may be seized with a disorder considered as contagious, and also if it be necessary to employ health officers, whose duty shall be to examine and report to the committee the state of all travellers who may come to the city, especially by the public stages, and to perform such other duties as the committee may require.

Resolved, That a copy of these resolutions be transmitted to the Governor, accompanied with a request that such measures may be taken by

establishing a guard boat at Hood's or otherwise as to the Executive shall seem advisable for the purpose of guarding against the communication of any infectious disease by water.

WM. LOWTHER TO THE GOVERNOR.

From the repeated depredations committed by the hostile tribe of Indians I have been under the necessity at sundry times to call out parties of the militia, but, by the delay occasioned by that round of order, find it still ineffectual. Therefore, by counsel of others with myself, have thought it best to call out a Lieutenant and company for Harrison, and Ensign and company for Randolph, and have also augmented the number of scouts from six to nine for Harrison and Randolph, and keep them stationed in the most exposed part of each county, to be ready at any call, and to continue while necessity may require, or until I have further instructions from your Excellency, and I flatter myself to meet with your approbation in what I have done. Please to inform me by the bearer, &c.

I am informed by Capt. John Haymond that the money due to the Scouts and Rangers of the Western frontiers is now ready, but through accident or neglect of General Tate is not brought forward, which occasions amongst us (the claimants thereof) a great complaint, who have now to suffer by contracts made on that dependence; therefore, having a good and speedy opportunity, do take the liberty to request your Excellency, with the Council, if propriety will admit, to send by Colo. George Jackson the money due to the different claimants in this country, or at least those who have signed the power given to him; his not having an opportunity of seeing every claimant in this place has, as I think, prevented their sending (not any scruple in the fidelity of Col. Jackson).

Two cases of persons infected with the yellow fever having been within a few days past discovered in this town, and it being well known that these people brought the infection with them from Norfolk, the inhabitants of this place are greatly alarmed by the apprehension of its spreading, and have requested me to write to you to solicit the appointment of health officers, and to establish such regulations to prevent the further introduction of that miserable disease into this place as the Executive of the State may have power to make.

The law for incorporating the town, gives the power to the Common Council to erect hospitals, and to remove to it persons infected with contagious diseases, but it seems that this power cannot be exercised until such disease has made its appearance within the town. This is the construction which some put on the law, while others are of opinion that the law authorizes the Common Council to make use of any means in their power to prevent the introduction of any infectious disease into the town, and to use force for effecting that purpose.

Will you, sir, be so good as to afford us your friendly advice in this alarming situation.

Aug. 29,

but the truth is I did not receive it until within a few days, and when at some distance from home, nor has it been in my power before now to comply with the Secretary of States' request, by furnishing you with my affidavit relative to Samuel Tull's case, not having sufficiently perfect recollection of the few particulars which were communicated to you. It has been necessary to obtain them from Mr. Prentis, the Petersburg printer, to whom I had rather inconsiderately given them for insertion in his Gazette. I say inconsiderately, for altho. I was impelled as well by zeal for the Gallican cause as for the honor of my country, the motives (laudable as they may be in the opinion of true Republicans) will hardly justify my venturing the publication of facts from no better evidence than the tale of a stranger; but his youth, good affect and artless manner would perhaps have given him credit with those who are much better acquainted with human nature than I am—notwithstanding the story of Tull accords well with the flagitious conduct of many British Commanders, particularly the Captain of the Thetis Frigate. I am induced from a single circumstance to think it rather questionable, which is, that the Thetis was several months of the time Tull says he was on board, in Norfolk harbour, and in that time underwent thorough repair when all her men were taken out—how then could more than twenty Americans in bondage be concealed? this question the Patriotic Governor of Virginia may perhaps think furnishes grounds for investigation. It may be superfluous to mention to you that a British guard-house or prison was established at Gosport, where armed men, wearing the livery of the British Monarch mounted guard, and were regularly relieved agreeable to military usage. This it may be was done by license of the Executive of this State, or of the President of the United States, but however it may have been, I will confess to you sir, that the fact appeared to me to be no less an enormity than the march of an armed party of men sent by the Captain of the Thetis from Hampton several miles up the Country, in pursuit of people whom they call deserters. I am not qualified to afford any additional evidence to that contained in my affidavit herewith transmitted to you.

I am, &c.

Samuel Tull, a young man belonging to Somerset county, in Maryland, made his escape from the British frigate Thetis, then at anchor in Hampton Roads, in the night of Friday, the fifth of May last past, by means of a pilot boat. Having been sent to Charleston by his father to receive the proceeds of an Estate in Carolina which had been sold some time before, he was actually in possession of four hundred pounds paid him by Mr. Francis Symonds, merchant of Charleston, when on his passage homewards in the Ca-ira, a schooner belonging to Baltimore, about the latter end of October, 1794, the vessel was boarded by men from the aforementioned British Ship, who deprived him of his freedom and

treasure at the same instant; they likewise made slaves of another passenger and four seamen belonging to the schooner, all of whom were American citizens.

1795.
Aug. 29,
Macox

Tull after being in bondage more than six months, had the good fortune to recover his liberty, as above related, leaving behind him on board the Thetis his five companions, and altogether upwards of twenty Americans, violently detained in service, subjected to the severest duty of the ship, and most inhumanly exposed to the greatest dangers in the time of action, as he had himself experienced.

August 29th, 1795. }

A young man who said his name was Samuel Tull, being at this place on Monday, the fourth day of May last, on his way to Richmond, did then relate to me the foregoing particulars, not in the manner of formal narrative, but by connected answers to my different interrogatories.

DAVID MEADE.

Sworn to before me this 29th day of August, 1795.

EDM'D RUFFIN.

W. FOUSHEE AND AND. LEIPER TO THE GOVERNOR.

In consequence of your letter of last evening to us, we have gone down to the vessel mentioned by Wadrop. From actual inspection of the sick man, and also of the dead body on board, as well as from every other information we have been able to obtain on the spot, are decidedly of opinion that the disease is not the yellow fever, but a remittent fever, attended with nervous and putrid symptoms, which we conceive have been greatly increased by the crowded situation of the people (seven on board a small schooner) this hot season.

Aug. 30,
Richmond

The total want of medical assistance, and of the usual attentions and comforts, indeed almost of common necessities, all which combined will readily account, we think, for the fatal effects of the disorder in this instance.

However, we by no means undertake to say that such accumulated disease may not have produced infection on board this vessel, and altho' we do not consider the disorder by any means infectious as its ravages would seem to justify, yet we beg leave to recommend all the usual precautions on such occasions to be taken with the people on board (now only two in number), the vessel and cargo; and to suggest that a guard, while it aids individual interest, will be most likely to secure that of the public, and serve to calm the present alarming apprehensions.

Inclosed your Excellency will receive the opinion of the Doctors here respecting the decease which has raged among us. I apprehend the same cause will occasion it to prevail very generally throughout the States (heat). Many persons at a distance from this place have had the same decease, and who have had no communication with this place. It has been most among those who were exposed to the sun; very few women or children have been sick. The nurses and carriers have not been infected, which causes me to conclude that the decease is not contagious. Strangers to our climate have mostly fallen victims, and many by imprudence and want of timely assistance. Whatever cause the disorder may have sprung from, I believe cannot be ascertained with certainty, but I am sure it has not been imported, as the vessels have been very healthy which have arrived during this summer. The rains we have had, I am in hopes, will soon set things right again. For my own part I am not apprehensive, nor can I think the decease is catching. From every observation, it is abating fast, and hope ere long to inform you that all are well, and be assured that if anything should ever happen here that would endanger the health of my fellow-citizens, that you Exc'y should be informed of it that proper precautions might be taken to prevent its spreading.

With, &c.

On application to us by Seth Foster, Esq'r, Mayor of the Borough of Norfolk respecting the Fever now prevailing in this Town, we give it our opinion that the Fever is in some degree Epidemic, originating, however, in the lower part of the town, where from the confined situation of the houses and the uncleanness of narrow streets, such diseases are apt to generate.

From the certificate of the Superintendent of the Quarantine and our own observations, we are satisfied the complaint is not an imported one.

The confined situation of the houses, close rooms, with little or no admission of pure air, number of sick, and want of cleanliness, render it perhaps more infectious than any primary principle or putrid tendency in the Fever itself. The deaths are now less frequent, and the attacks of the disease less violent than heretofore. Many families have totally escaped, and it has not always been general, even in those houses where its fatality was most conspicuous. The markets are as well supplied as usual, the surrounding country people being accustomed (yearly) to see the same disease (which now prevails in the counties of Princess Anne and Norfolk, tho' perhaps not in so violent a degree), are apparently little apprehensive of it. Most of the deaths which have taken place have been among strangers and that class of people who are commonly destitute of necessities and proper attendance, or live intemperately. The same disease prevailed here last autumn, and a number of strangers died of it.

At a meeting of the Committee of the Common Hall for the city of Richmond for the purpose of preventing the communication of the contagious disease prevailing in Norfolk to this city, at George Green's Tavern, in the said city, on Tuesday, the first of Sept., 1795:

Resolved as the opinion of this committee, that in consequence of the recent and more alarming information received from Norfolk and elsewhere relative to the said disease, that it is necessary in order to preserve this city from the danger of said disorder extending its baneful effects to this place, that the communication between this place and Norfolk should be restrained by land as well as by water.

Resolved, therefore, that it is essentially necessary that all persons destined from Norfolk to this place by land should be prevented from coming within this city; to carry which into effect—

Resolved, That the Mayor be requested to apply to the Governor for such number of the militia of this State to act as a guard as he may deem sufficient to prevent the entrance of the stages from Portsmouth and Hampton within this city without previous examination, and if on such examination it shall appear that any of the passengers in either of the said Stages are from Norfolk, that such persons be by the said guard prohibited from entering the city.

Resolved, That the Mayor be requested to desire of the Governor that the said guard should be placed at a sufficient distance on the north side of James River from this city to prevent such person destined to this place from Norfolk from coming on foot and in secret after they shall

have been prevented coming in either of the aforesaid stages or otherwise.

Resolved, That if the Governor should from any cause whatever refuse to order such a guard, that this committee will, at the expense of the city, employ a guard, consisting of — men, to be stationed at such places as may be deemed necessary to prevent the entrance of the aforesaid stages within this city, and all passengers from Norfolk, if any there be, shall be discharged therefrom.

Resolved, That the preceding resolutions, except the last, be published in the papers of this city for the general information of all concerned.

CHAS. CAMERON TO THE GOVERNOR.

Sept. 2,

Under the law which provides for calling forth the militia in case of invasion or insurrection for the following reasons, I have ordered on duty a Rifle Company of the militia of this county, of which I have conceived it necessary to give you the most speedy information, that you would point out to me in what manner they shall be furnished with provisions &c. For the present I have directed the Captain to endeavor to billet the men amongst the inhabitants, who are at present badly situated to furnish them, being all collected at a few houses, without almost being able to provide for their families. I have given those assurance that can furnish that they shall receive the customary allowance.

On the 29th last month I went on my own business to the plantation of Mr. Jacob Warwick, on the head of Greenbrier. He informed me that from apprehensions of danger from Indian enemies he had removed all his negroes from the Clover Lick except two men, and that he had that day came from there himself. And that from some apprehension that there was some horse-thieves in the neighborhood, that there was two of his neighbors to go the same day over on Elkwater, about ten miles from the Lick, in order to bring in some horses they had there. The men accordingly went, and about nine miles from the Lick met three Indians late in the evening. The two parties discovered each other about the same time. The men, being on horseback, saw the Indians at the distance of about sixty yards preparing to fire, fled, and came to the Lick in the night, and found that the two negro men from something that they had discovered, had thought it advisable not to lie in the house, for the first time they had left it this summer.

The negroes heard the men and knew them, and came out from where they were hid. The men informed them what they had seen and directed them to go immediately to their master and request him to collect what men he could and meet them the next day as early as possible at the

Lick, and that they would go and collect what they could the other course. Accordingly they came to Mr. Warwick late at night, where I was, and I sent off immediately, and by the next day 12 o'clock, I had 16 men collected at the Lick, with which I went to the place where the Indians were seen, and very plainly discovered what they had told was true, for they were men that I was well acquainted with, and could have placed confidence in their report had I not seen the signs, which were very plain. We got to the place late in the evening and camped on the ground that night. Next morning made a very vigilant search, but could see nothing but their tracks in different places. I then divided the small company and sent nine to come in thro' the mountains in search one way, and myself with the balance would take another route. After we had traveled till about the middle of the day and discovered no sign, having gone down the river at least five miles, I directed that the two scouts with four men should take one course, and that Mr. Warwick and myself would take another and return by the Lick, which we did, and got there about two hours in the night, where we found the Indians had been and burnt every kind of building on the place—even drew up a wagon that stood at some considerable distance from the house and burnt it, laid open the fields, and committed every kind of devastation in their power.

Their sign have been seen in several places since, and I now wait hourly expecting to hear of some unhappy person falling into their hands. We supposed the number at the Lick to be about six, as there appeared sign of that many.

From good information, the Indians have been and are yet on the water of Tygair Valley, Sweet Fork. I have given the two scouts very particular instructions to keep constantly out, and unless they should discover the enemy approaching, not to come in more than once a week, and then immediately to return to their duty. It's my opinion that one company is as many men as can well be furnished with provisions out there, for the people are generally in low circumstances and grain very scarce. Meat can be had the greatest plenty, and think that one company, when divided and stationed along the frontier, tho' upwards of thirty miles, will answer every purpose. I do not think it would be in my power to contract for rations with any person in this part of the country at the former price of 8 cents the ration, and for those reasons Liquor is very scarce, which they would be entitled to, and also grain, and considerable distance of carriage. However, I hope you will direct me in what manner they shall be furnished, and that the company be continued until the appearance of real danger should abate.

I have forwarded this by Express, and informed him he would receive the customary allowance for his service. The distance he will have to travel from this place is one hundred and eighty miles.

I have, &c.

JOHN CHISHOLM TO THE GOVERNOR.

1795.
Sept. 2,
Richmond

On the 22nd of July last I left Philadelphia with ten Indians of the Chickasaw and Chactaw Tribes, bound to Knoxville. On the same day sundry goods, to the amount of six wagon loads, were shipped from thence principally in one vessel, and a small part in a second. It was expected that these vessels would arrive here as early as my party, and that I should proceed taking the goods with me immediately, and my expenditures were calculated accordingly. It has, however, so happened that both these vessels, by the late storms and high waters, have been delayed in their passage, that which contained the great bulk of goods until the 27th of August, owing to her being driven ashore at Norfolk in the first storm, and when she was got off, being prevented from proceeding up James River by the second storm and an high fresh. The other vessel did not get up the River until the 29th, but I should not have waited for her had I not heard of her being near at hand when I had got the goods from on board the first.

When I found the vessels, particularly that which had on board the great bulk of goods, were detained on their passage, I judged it best, with the advice of Colo. Edw'd Carrington, to remain here with the Indians until at least the principal one got up, as it would have been equally injudicious to separate myself from either the Indians or the goods; nor, indeed, was it at first foreseen that repeated impediments would extend the delay so long as they have.

The consequence of these events has been that the Indians and interpreters with their horses have been more than one month longer on expence here than was estimated, and occasions a deficiency of money in my hands to the amount of 1000 dollars. It being impossible for me still to remain here with so great a charge, to obtain a remittance from the War Office, and there being no authority under the federal Government within my reach to which I can resort, I am reduced to the necessity of submitting my situation to your Excellency and the Executive - requesting that, from the urgent necessity of the case, a sum equal to that which I have stated may be advanced me on account, which I will give such receipts for as will obtain from the Secretary of War an immediate reimbursement.

Should it be the wish of the Executive to be furnished with any further information or explanation on the subject, I shall be ready to attend for that purpose to any extent that shall be satisfactory.

I have, &c.

JOHN BARNES TO JAMES WOOD, LT.-GOVERNOR.

On the 14th ult'o I did myself the pleasure of addressing you in answer to your favor of 3rd (to which please refer), and have now the satisfaction of advising you that the annexed four cases were yesterday shipped on board the said Schooner Betsey (a well-formed vessel), already sailed, and by whom I addressed a letter covering Bill of lading to Capt. John Lester at Rocket's landing, to whom consigned.

You will perceive by the statement that 9 copies Acts of the State are wanting. This deficiency was owing to so many being soiled or imperfect. The rest, as well the Military Exercises, have been duly inspected—the former by F. A. Mulenburg, Esq., whose certificate to Mr. Cist I have seen; the latter by Colo. Pickering. For the rest I flatter myself with your approval also, and if at any future period I could be useful, I should be happy in receiving your commands.

With perfect Esteem, I am, &c.

EDWARD CARRINGTON TO THE GOVERNOR.

The case of Capt. Chisholm is one which falls into no latitude of general authority possessed by me, nor has any special instruction or request of the Secretary of War extending to pecuniary advances to him in any event reached me. It would, therefore, be highly improper for me to make him an advance upon any other than a private ground. The only request ever made of me in regard to Capt. Chisholm was, that I should spur Mr. Ball in procuring the wagons for transporting the Indian goods to Knoxville; but so far from being requested to advance money, I was informed that Capt. Chisholm had been fully furnished with that article. It appears to me that discretionary interposition should rest with the best attainable authorities, and that this principle directs Capt. Chisholm to the Executive in this case is certainly not to be doubted. There is a confidence existing between that body and the Federal Government in discretionary instances, which ought not to be calculated on as to the local officers, whose duties are defined. It is highly probable that had the detention of Capt. Chisholm been foreseen, the Secretary of War would have provided for his receiving the further monies thereby required. The detention was not foreseen, and of course no provision was made; the fact, however, is, that he has been detained from the causes mentioned in his letter to your Excellency at least one month longer here than was expected or calculated on; it is also certain that the causes by him stated are within the knowledge of the Executive. That there would be a want of more money than was calculated, appears an inevita-

ble conclusion; that he cannot here obtain an advance from the War Office is equally evident; a discretionary interposition from somewhere follows of course, and that discretion will certainly be more acceptably exercised by the Executive of the State than by a local officer of the Federal Government.

Agreeably to what passed between your Excellency and myself yesterday, Capt. Chisholm is in readiness to exhibit the sum advanced him at Philadelphia and his expenditures, with vouchers. He will also exhibit the objects for which he requires a further sum. I have no doubt that if, upon examination of Capt. Chisholm's account, it shall appear to the Executive that the advance he requires is a reasonable one, as founded upon the circumstances of his case, their judgment thereon will be fully credited by the Secretary of War, and the money advanced, cheerfully refunded.

I have, &c.

Know all men by these presents, that I, John Chisholm, of Knoxville, in the Southwestern Territory of the United States, firmly bound unto Robert Brooke, Commonwealth of Virginia, to his successors, for the use of the ealth, in the just and full sum of two Dollars, and for the payment of which I bind myself, my heirs, executors and administrators firmly by these presents, sealed with my seal, and dated this third day of September, one thousand seven hundred and ninety-five.

The condition of the above obligation is, that whereas the Executive of Virginia have on the written request of the said John Chisholm advanced to him one thousand dollars in addition to the advances made to him by the General Government for the purpose of defraying the expenses incurred and to be incurred by the said Chisholm in conducting certain Indians of the Choctaw and Chickasaw tribes to their respective counties, and in the transportation of certain goods and merchandize from Philadelphia to the said counties; and for the said one thousand dollars the said Chisholm hath drawn a Bill on Timothy Pickering, Esq., Secretary for the Department of War of the United States.

Now if the said Timothy Pickering shall pay or cause to be paid the said Bill of one thousand dollars according to the tenor thereof, then the above obligation to be void, otherwise to remain in full force and virtue.

Signed, sealed, and delivered in presence of Sam. Coleman.

TIMOTHY PICKERING TO THE GOVERNOR.

Colo. John Steele left in my hands nineteen hundred dollars to pay Charles Cist, of this city, for 3,000 copies of the Regulations for the Order and Discipline of the Troops of the United States, and one thousand copies of certain laws of Virginia which were to be translated and printed in the German language. The former have been neatly executed agreeably to contract, and the certificate of F. H. Muhlenberg inclosed will satisfy you that the latter also are entitled to the same approbation. I have, therefore, paid Mr. Cist according to Colo. Steele's request, as by his acc't and receipt inclosed. But the defect of nine copies of the laws leaves three dollars and sixty cents still in my hands subject to order.

Not knowing Colo. Steele's residence, I address you on the subject, as the business wholly concerns the State of Virginia.

To this Information the Defendants, by their attorney, plead not Guilty. Whereupon there was a trial and verdict—that the Defendants are guilty of killing two Deer within the time prohibited. Whereas I have received information that the city of Philadelphia, the Grenades, and the Island of Tobago are infected with the Plague, or other infectious Disease, and it is probable the same may be brought into this Commonwealth—I have therefore thought fit, by and with the advice of Council, to direct that all vessels coming from either of the aforesaid places do make their quarantine at the anchorage ground off Craney Island, near the mouth of Elizabeth River, for the space of twenty days; and I do hereby strictly enjoin and require, that until such vessels shall be discharged of such quarantine, all persons coming, or goods imported, in such vessels come not on shore, or go on board any other vessel, or be landed or put into any other ship, vessel, or boat, in any place within this Commonwealth; and also, that no person go on board any vessel ordered to perform quarantine without licence first had and obtained in writing under the hand of Thomas Newton, in the town of Norfolk, who is hereby authorized and appointed to see such quarantine performed. And all Pilots are hereby desired to give notice to the above-named Superintendant of the arrival of all vessels from the aforesaid places, and to conduct them to the place assigned for their performance of quarantine.

EDMUND WINSTON TO THE GOVERNOR.

The late Sheriff of Compbell County informs me an Execution is sent up against him for about £200 the balance due to the public for Taxes of 1783, and nearly the same sum the Damages on about £1,400, the amount of the Judgment in June, 1784.

1795.
Sept. 17

The Gentleman first appointed in this County resigned his office after one year; the two next declined it altogether, on a supposition the Public Revenue could not be collected. The severity of the winter of 1784, and the general scarcity the next summer, greatly retarded the transportation of our Tobacco to market; besides, the latter circumstance lessened the ability of people who were compelled to give a treble price for grain, and go a great distance for it.

I am entirely persuaded the default of the late Sheriff was occasioned by the utter impossibility of making the collections, and not by the negligence or dishonesty of his deputies, and I should not take the liberty of addressing your Excellency on this subject, but that I am well acquainted with the men and the condition of the county.

Mr. Hunter tells me the judgment, except as to the damages, he has reason to think has been provided against some time ago, but was not paid from some circumstances not foreseen.

Sundry of my fellow-citizens have communicated to me that divers free negroes, who have come from the West India Islands and other places to this State, are ranging at large through the same—a circumstance which forebodes no good, but may be productive of much evil by effecting a change in the views or conduct of the domestics and others of this State.

Upon an examination of the laws I find that the General Assembly has anticipated the subject, and I judge from well-grounded apprehensions have passed a law prohibiting the migration of such persons into this Commonwealth. This law, as it is not confined in its influence nor partial in its effect, requires a general remedy. Permit me, therefore, to refer the Executive to the *law, in order, should they view the matter in the same light as those who have conversed with me, they may cause the same to be published for a limited time for the general information of all, and also judge of the propriety of furnishing each proper officer at the ports of entry in this State with a copy of the law, that none may plead ignorance, the law be respected, and our people remain uncorrupted.

I remain, sir, &c.

P. S.—It might be mentioned that it would be extremely difficult, if at all practicable, to find either the imported master of vessels, or to recover the expense attending any act of a justice under the law.

In reply to the communication you made to me yesterday, I have to observe that orders had been given by the Committee of the Hall on Tuesday last for the burial of the man who died on Monday night at the anchorage ground, but that through the inattention of those whose duty it was it was not done until Wednesday.

I have also to inform you that I communicated to the Committee the desires of the Executive relative to the permitting those belonging to the vessels under quarantine to go on shore, and was told that if done, it must have been by stealth. The officer is strictly enjoined to observe the orders given in writing, one of which does pointedly forbid the privilege to any but the guard, and the necessary supplies are directed to be sent by them.

I now solicit your aid (being the proper person) in that business, for a house of that kind I conceive to be absolutely necessary from the number of disorderly persons which this place is infested with.

British Consul's Office

I must again solicit your attention on that head, as I have just received information, the correctness of which it is not allowed me to doubt, from Baltimore of the sailing from thence about ten days ago of a vessel in every respect equipped as a Privateer save in the article of Guns, which it is intended to put on board her in some part of this Bay, and that three similar vessels, with like views, are about this time ready to come down for the same purpose. As by such means the Proclamation of the President of the United States is contravened, and the before-mentioned regulations are eluded, I must beg leave to request that your Excellency will be pleased to give such directions as to you may seem proper to the officers of the militia of this State, and which may serve to prevent any violation of the strict Neutrality to be observed therein by the illegal equipment of any vessels as Privateers in any of the waters thereto appertaining.

REPORT OF COMMITTEE TO EXAMINE TREASURER'S OFFICE.

The Treasurer being enjoined to close the Accounts of his Office on the 30th day of September, annually, we the underwriters (thereto appointed by the Executive at the request of the Treasurer), repaired to the Treasury on the morning of the First of October, in order to ascertain the amount of Money, Tobacco and other facilities actually in the Treasury received on public account, and constituting the balance due therefrom on the 30th of September, 1795.

Oct. 1

Having examined and carefully counted and weighed the money, we find it amounts to Eighty-six thousand six hundred and thirty four Dollars and sixty-nine Cents—part of which, viz: the sum of Eleven thousand and three hundred and sixty dollars thirty-three cents belonging to the aggregate fund, is reserved as the Law directs for the discharge of aggregate fund Warrants.

We find also Tobacco Notes in the Treasury received on public account since the last sale, viz: for 37 hhds, Quantity 40,514 lbs. of crop, and 1,203 lbs. nett Transfer, which at the rate received by Law amount to One thousand seven hundred and forty-eight dollars and forty-eight cents.

We find also Indents to the amount of Twenty-nine dollars and forty cents, and of one for forty, money to the amount of one hundred and seventy-six dollars, which have been paid into the Treasury in discount for certain Taxes as the Law directs.

Examined and Certified.

W. TRUE TO THE GOVERNOR.

Oct. 2,
Land Office

Having gone through and compleated the records and papers belonging to that part of this office called the Northern Neck, or late Proprietor's office, agreeable to a Resolution of the Gen'l Assembly, passed the 22nd of December last, must beg leave (in order to compleat the other part of the business) to lay before the Executive the said Resolution, and request that the work may be imputed and such compensation allowed as may be thought deserving.

Your most obed't Servant.

JNO. HOPKINS TO JAMES WOOD, LT.-GOVERNOR.

Oct. 3,
Richmond

I am requested to purchase for account of James Watson, Esq'r, of New York, about Five Hundred Thousand acres of Land Warrants, for the payment of which I have bills on New York, but these bills cannot be immediately disposed of. I have, therefore, to request permission to take out these warrants upon making an ample deposit to pay for them in a reasonable time. The deposit will consist in Military Certificates of

this State and in the several species of stock of the United States, and in all cases the deposit shall exceed the amount in value.

THOS. NEWTON TO THE GOVERNOR.

I have now the pleasure to inform you that very few are sick here, and I am of opinion the town never was more in health of a fall than at present.

Oct. 3,
Norfolk

A vessel arrived from New York, the crew in health: the reports from there are alarming, but suppose exaggerated. I should be glad to know whether they are to perform a quarantine of a few days or not; as they are not comprehended in the proclamation, I am at a loss how to proceed.

Your advice will oblige me much.

I am, &c.

At a Court held at the Court House for the County of Princess Anne, the 5th day of October, 1795, in the 20th year of the Commonweeth of Virginia—James Blamise and James Dawley are recommended as proper persons, one of whom to be appointed Sheriff in the room of Thos. Wishart, Ju'r, who failed to give security.

Oct. 3

R. QUARLES TO THE GOVERNOR.

Inclosed I send the usual quarterly return of military stores under my direction. The Honorable Board will observe that there is still a considerable number of the military stores which were Lent to the Continent that are not yet returned.

Oct. 5,
Point of Fork

I have Major Langham's promise that his exertions shall be used in forwarding them, but he apprehends that many of them are irrecoverably lost. As soon as I have obtained as many as the commissary of Military Stores can command, I will transmit a statement thereof to the Board.

I wish to remark that the Executive have heretofore granted rations to Mid. Jordan (a soldier at the arsenal), and likewise to his wife and daughter. The said Jordan is now becoming too old and infirm to discharge the duties of a soldier, and under the circumstances, I wish the advice of the Executive. The man has been an old and, I believe, a faithful soldier in the American Revolution, in the cause of which he received a number of wounds.

I am, &c.

R. QUARLES TO THE GOVERNOR.

Oct. 6,
Richmond

I have to solicit your Excellency's recurrence to my former application to the Honorable Board respecting an increase of the salary of my office. I state no new pretensions on this occasion, having fully exhibited them in my former letter, nor would I trouble the Hon. Board with this Petition were it not from an apprehension that my former applications have not commanded their attention. Under a reliance that the Hon'ble Board are sufficiently acquainted with the fatigue and confinement attendant on my office to determine at first view that my services are at least equal to a captaincy under the Congressional establishment, I trust they will direct that my pay and emoluments be made equal also.

I have, &c.

JOHN HAMILTON TO JAMES WOOD, LIEUTENANT-GOVERNOR.

Oct. 6,
Norfolk

I have to acknowledge the receipt of your very polite favors of the 26th ultimo and the 1st current, the last of which informs me that the Council of State are of opinion that the orders heretofore given to the commandants of the Militia, in conformity to the regulations laid down by the President of the United States, are fully adequate to prevent the illegal equipment in the waters of this State of any vessels of the description of those pointed out in my letter to the Governor of the 24th ultimo. I need, therefore, only express my hopes that no vigilance will be wanting on the part of officers of the militia, in the carrying into execution those orders when circumstances require it.

The clandestine measures made use of by the persons concerned in the Baltimore vessels alluded to, have hitherto frustrated any endeavors to ascertain the places where they propose to take their guns on board. As soon as I am furnished with sufficient information on that subject I shall not fail to communicate it to the Executive of this State, with a reliance that the proper steps will be taken to prevent their purposes from being effected.

I have, &c.

J. AMBLER TO THE GOVERNOR.

Treasury

There are in the Treasury 37 hhds. of Crop, and about 1,200 weight of Transfer Tobacco, which have been received in part of the old arrearages of Taxes. Some of the notes are growing out of date, and there is little prospect of our receiving soon a quantity sufficient to justify incurring

the expense of a public sale. I therefore beg leave to suggest to the Honorable Board whether it will not be advisable to dispose of this small quantity of Tobacco at private sale on the best terms that can be procured for it, to be paid for either in specie or aggregate fund warrants.

AW. DUNSCOMB TO THE LIEUTENANT-GOVERNOR IN COUNCIL.

The inclosed letter was just handed to me from the Committee of the Common Hall. SIR:

The Committee agreeable to the orders of the Lieutenant-Governor, have given orders to the officers commanding the Guard ship to let all vessels from Norfolk proceed up to Rockets or Manchester without delay, but the Committee think it necessary that the Guard should still continue to stop all vessels from New York to this place, as they find by the Enquiries they have made, that the fever still rages in that city. By a private letter from a Gentleman to his brother who is now in this Town we are informed, that on the 26th of Sept., 31 persons died; we observe also that by the report of the Committee of Health of New York as published in the Philadelphia papers, that on the 27th, twenty-seven persons died, and on the 28th, 31 died. We also are informed by a passenger on board a vessel from New York now performing Quarantine, that the disorder had not abated when he left that place 12 days since.

ALEXANDER WELLS TO THE GOVERNOR.

Nov. 2,
Ohio County Impelled by a sense of the indignities that have been offered to the Government under which I am protected, and every good citizen, I feel in a measure constrained to present this address to your Excellency, in hope that these griefs, which we so sensibly feel, may be removed. It is with the greatest pleasure that I can assure your Excellency, that when Riot and Misrule prevailed in this Western country that men of any

degree of good character or understanding were not found among them, and that the number of such was much larger than might be expected. We were then the suffering objects of compassion; our feelings as men of delicacy were insulted; our lives, our property, were the first victims that were to become a sacrifice to this enraged, unruly Monster. But thanks be to the Great Director of all Events, by the vigorous exertions of our Government, we have been delivered from those fears, in part. For what do we now see? Do we not see men who has issued their most pointed threats against individuals for their attachment to order and good rule, and marking their persons and property as the first victims of their fury and revenge, sitting as Judges in our Courts of Justice, and brandishing the Military sword of power over our heads, and judging and commanding the men that were obnoxious to them for their attachment to Government—by the authority of that Government they have contemned and despised!

1795.
Nov. 2,
Ohio County

What hope can there be, should the like tumult be again about to take place, for any opposition to be made by the internal powers of these counties, while the power of the sword, or any part of that power, is in the hands of avowed insurgents, or how will any citizen dare to give information of any attempts of the kind—while it may be with propriety said that the insurgent streaks and the good citizen sneaks; while the insurgent is dignified with the offices of the county, both civil and military, and these men who have been most pointedly obnoxious to them must obey their commands and abide by their decision. Good sir, these things ought not to be so. It may be said that there has none been found guilty in this State. How they have escaped the punishment of the Civil Law we cannot tell. But their actual guilt is too well known to us to need either evidence or discussion. We therefore humbly hope your Excellency will remove all such from all offices of power or trust in these counties, as we who have distinguished ourselves as their opposers are not safe in our persons or properties, setting aside the disagreeable sensations it produces in our feelings. But above all the rest, Wm. McThenley and Wm. Sutherland, these men being naturally overbearing and insulting, and at all times scarcely sufferable, but under the present circumstances most intolerable.

The facts asserted need no illustration of argument, or helps from evidence; they are notoriously known. The consequences attending every one who will give themselves the trouble to suggest themselves in our case will naturally feel the force of our complaint. I speak in the plural tense, for it is not the complaint of one but many. Altho' I have ventured to address your Excellency in my own person, yet if necessary every one who felt their insults will express themselves in the same manner if required. Mr. Wells, a member from this county, can perhaps give some further intelligence, if required.

I remain, &c.

By accounts from N. York, and the vessels which arrive from the West Indies being generally healthy, together with the advanced season of the year, I apprehend there can be no danger of infection from the late prevailing fever being brought into this State, and that the look-out boat may now be safely discharged. Should your Excellency be of opinion that she may, be pleased to write Mr. Theo. Blanchard, who will have it done, as I shall be on my way to the Assembly.

Since writing your Excellency of the 3rd, a vessel is arrived from Martinique with an infectious disease, which I have directed to perform a quarantine of 20 days. The Capt. is dead and the crew all sick.

Capt. Baret, who attends the Q'r, has directions to see it properly performed, and I have directed all necessary supplies. This vessel is a British Bottom called the Betsey, or Capt. Shays, which I have duly published to prevent any persons going on board.

From this circumstance I think a discretionary power should be left

to Q'r to oblige vessels infected to lie some days. I have informed Mr. Thos. Blanchard to attend in my absence, and in a few days I hope to see y'r Excellency and give you a full account of all things necessary in this case.

W. H. CAVENDISH AND THOS. LEWIS TO THE GOVERNOR.

As we feel some degree of anxiety for the payment of the militia stationed in the Counties of Greenbrier and Kanawha in the years 1793 and '94, it is with some regret we learn from Gen'l Tate that Instructions are given him which, if strictly adhered to, will produce great embarrassment in settling the claims of those persons who have given credit to those soldiers in expectation of receiving their demand out of those soldiers.

Nov. 7

As we are in some degree acquainted with the circumstances of Transactions in these parts, permit us to lay a statement thereof before you. The soldier gives an order to the Creditor on the paymaster for the sum due, amounting some time to part, some time to the whole of the pay due him; as there is no prescript form for drawing these orders, no uniform mode has been observed in this respect, nor can the paymaster from the order know whether it be genuine or not; to supply this defect we directed the holders to get these orders proved before a magistrate by some person who saw the giver of such order acknowledge the justice of it. This, we think, will in some degree obviate the inconvenience, but another arises which can by no means be so rectified as to enable the paymaster to judge with precision, and in which he must act from the information of others. The case we mean is that the soldiers employed were at the several periods of their services dismissed without any discharge being given them. They are now generally dispersed into various States and Counties, so that requiring the claimant to produce a discharge of the person under whom he claims will be little less than a denial of payment, and even admitting a discharge had been given them, it could not answer any purpose where the money due the soldier is the property of sundry claimants.

As we understand, the Executive are minded to reconsider this business, and if proper to extend the discretionary power of the paymaster in admitting claims which may appear to be Equitable, tho' not strictly conformable, to the wishes of Government. We have taken the liberty to suggest these hints, and to assure you, Sir, that unless such latitude is allowed, the greater part of those who have made advances to the Soldiers will lose their monies.

British Consul's Office

I am sorry to have occasion again to trouble your Excellency in regard to the vessels arriving as privateers in the waters of the Chesapeake. but the present instance is too glaring to be passed over. A small schooner, purchased by a Frenchman, was cleared out at the Customhouse in this town as French property, and her register being delivered up to the Collector, she proceeded to Mobjack Bay, where she now lies. For several days passed a Pilot Boat has been attending upon her, by which means she has been supplied with four or six carriage guns.

It may also be necessary to mention that a party of Frenchmen were beating up here for volunteers to man the aforesaid vessel. I am, therefore, to request that your Excellency will be pleased to take proper steps to prevent her from sailing.

Nov. 13

I acknowledge the receipt of your favor of the 11th, together with Mr. Hamilton's to you of the 8th instant. I shall immediately repair to the bay, and if it is in my power will prevent schooner from sailing. It may not be amiss to observe to your Excellency, that there is not a man either in Mathews or Gloucester, armed, and if they had arms, from the last return they are totally destitute of ammunition. I acknowledge myself under considerable embarrassment. To embody men without arms or ammunition to put into their hands, appears to me to be doing nothing. However, your Excellency may depend that every exertion in my power shall be used to carry the order of the Executive in effect.

I have, &c.

LEVI MORGAN TO THE GOVERNOR.

Nov. 14,
Morgantown

May it please your Excellency, thinking as I do that every attempt made against the Government, or the particular interest of any of my fellow-citizens should be attended to, and the person or persons who would dare to be guilty in either case ought to be punished agreeably to their demerit. Under these impressions I am constrained as an officer and a citizen (who hath been honored with your confidence,) to inform you Sir, that when I was on my way home from escorting the Indian prisoners, I met with two men who live in Mason County in the State of Kentucky, on the Ohio near a place called Limestone, who told me they were on their way to the Indian Country to steal horses from the Indians. I strove to dissuade them from it, telling them we and the Indians had now made peace, and a conduct like that they were about to engage in, might irritate the Indians, and likely provoke them to distress some helpless families on the frontiers, but they persisted and went on, and before I left that country which was two to three weeks after, (having taken sick and detained there) I saw one of the same two men, who then told me they had taken off three of the Indians, valuable horses, two of which they got into Kentucky and sold them: and they had pushed up the river until the alarm (if any should be made) was over. The men's names are Alexander Buchanan and I think Charles Schoolcraft, both inhabitants of Mason County. I don't suppose that Virginia can punish them, and bring a stranger to the Officers of the General Government, as also to those of Kentucky. I have taken the liberty to state this business to you not doubting but you'll make the proper use of it.

I have, &c.

GEO. CLENDENIN TO THE GOVERNOR.

These comes to acknowledge your Excellency's letter which mentioned that you had received my letter giving information that I had ordered out six scouts for the protection of Kanawha the present year, and that on the receipt of your letter I was ordered thereby to discharge those I had ordered, telling me at the same time you had wrote to Colo. Lewis to appoint others; that from his situation in the county (or words to that effect) he was more competant to s'd appointment.

1795.
Nov. 14,
Kanawha co.

This polite favor of yours I received on the fifth day of last month, two days after I had ordered such of them as were in my reach to be discharged.

Colo. Lewis, Sir, attended the Treaty with the Indians, I presume, as well to satisfy himself as to the validity of the Treaty as to recover such prisoners and other property as had been taken from the county that might be given up agreeable to the articles of the expected Treaty. This fav'r, as above mentioned, I fortunately received in presence of sundry respectable characters, which can justify me in not having most promptly obeyed them. However, had I received them in due time, and had Colo. Lewis been at home, I query if he had been so very officious; but let that be as it may, the curious may easily satisfy themselves, as he will shortly be in Richmond.

But as I always was of a condescending nature, and a wink is as good to a blind horse as a nod, I have herewith enclosed you the commission under which I have acted since I lived in this county in a military capacity, and trust you will most cordially receive it, wax and all, and so dispose thereof as may be most conducive of the happiness of the citizens and the public good.

For my part it is an office I never solicited, and have found it both unthankful and unprofitable, having never received a single Farthing from the public coffers, but on the contrary, have for the protection and support of my country expended many hundred pounds, which the public have shewed very little or no disposition to refund.

Therefore, having the unspeakable Happiness of seeing my Country once more in a peaceable situation, can with great cheerfulness withdraw myself from those public offices as only serve to give the most Extreme trouble and concern without the least shadow of recompence.

You will herewith find enclosed a certificate of the names and time of service of Four of the Scouts that served the present year. The time of service of the other two I cannot tell. However, perhaps Colo. Lewis can, as in all probability Captain Cooper informed him, as he had the ordering of them. But whether he knows or not, I will be shortly informed, and as soon as I have made some domestick arrangements will be in Richmond.

The enclosed letters will show your Excellency the situation of the Sloop Betsey, now performing quarantine. In my opinion the Doctor's report is a convincing proof she ought yet to lie many days. I wrote Mr. Blanchard to continue her until your instructions could be sent down. This is the only instance that I have known of the yellow fever being brought in.

Your Excellency will please inform me the result of your opinion that I may forward it. Every care was taken before I left Norfolk that necessary supplies should be forwarded by the look-out boat.

Sir:

Nov. 17 It has been represented to me that the British Sloop Betsey is performing quarantine at Craney Island without being examined by the officers appointed for that purpose. I am, therefore, to request that the necessary inquiries may be made as soon as possible relative to the health of the crew, in order that measures may be taken to assist them should they be found in a sickly situation. It may also be necessary for me to mention that the sloop is very leaky and otherwise in great distress -

Sir:

Nov. 17 The master of the Quarantine boat has reported that the Captain and one of the Crew of the sloop Betsey have died on board of the infectious yellow fever, and that one man on board is now ill of the same disorder. The said sloop was therefore ordered to remain near Craney Island until such time as the Doctor appointed to examine her should conceive that no inconvenience would be experienced from her being permitted to come up.

I expect a report of his opinion to-day, as he is gone down to the Sloop. In the meantime the Quarantine Boat is ordered to supply the people on board with every necessary Refreshment, Provisions, or Medicines they may be in want of.

Sir:

I have examined the people on board the Sloop Betsey, from Martinique. They are all in good health except one man, who has been ill (I believe) with the yellow fever, but is now recovering and capable of walking about. There is not a doubt existing in my mind but that the Captain and Supercargo have both died of the yellow fever. This makes it necessary that the vessel should be purified previous to her being admitted to come up. I have given the commander instructions for that purpose. After this precaution, as the weather is cool, it appears to me there will not be the smallest risk in permitting the Sloop to come up in the course of three or four days.

 JOHN W. SEMPLE TO THE GOVERNOR.

In the 7th section of the Act of Congress entitled an act for making further and more effectual provision for the protection of the frontiers of the United States, passed in the year 1791, a Brigade Major is allowed in addition to his pay in the line 24 dollars per month, and a Brigade Major under all the laws on the subject of regulating the militia in this country has the rank of Major, therefore it may be thought reasonable that he should have the pay of a Major in the line; but if the Executive should not think so, I bear the commission of captain in the line; the pay of a Major in above recited act is 50 dollars per month, and that of a captain 40 dollars; as to rations and forage, the 8th and 9th sections of the said law refers to other laws passed previous to that, which said laws I cannot obtain here; therefore I hope the Executive will have them examined, and see whether I am right in my account, which I have made out by recollection. The character I acted in will be considered either as aide-de-camp or Brigade Major. In either case, the additional pay is the same. I wish my claim should be laid before the Board, and whatever I am entitled to, that I should have an order for.

Richmond

Agreeable to your request I have examined the account which Mr. Samuel Dobie hath exhibited against the Commonwealth, attested by his oath before Mr. Dunscomb, the 23rd of this month.

I know of no claim which Mr. Dobie hath against the directors, except for the balance of his last contract for superintending and directing the execution of the steps to the outside of the Capitol, and the stair case, the confrence and the other work done on the inside of the Capitol in the years 1793 and 1794, which balance amounts to nine pounds ten shillings, and which I received for him when the final settlement was made with the Auditor of Public Accounts. On that day I called on Mr. Dobie that I was ready to pay the Balance due him and requested him to call at my office to receive the money and pass a Receipt for the same. Mr. Dobie never has called on me and I have neglected to carry the money to him. When Mr. Dobie pleases to call on me for the £9.10 and pass a receipt therefor, it will be in full of all demands which he hath against the Directors, during the time I transacted the Business for the Directors.

SIR:

Inclosed is the amount of balances due me for my services to the Public as architect and surveyor of the Capitol, and from your known candor and love of Justice, induces me to beg the favor of you to present and gitt my account passed, that I may receive what is due to me from the public of so long standing.

And the favor will ever be gratefully acknowledged by your &c.

SAMUEL DOBIE.

Hon. Robert Goode, Esq'r.

Nov. 23rd, 1795.

I also begg the favour that I may have a receipt againa a bond of mine, paid to Mr. T's Buchanan by Mr. Smith Blakey, in part as he told me of his suscription for Building the Capitol.

The bond was drawn for a hogshead and a half of Tobacco, I think in the year 1780, and in the year 1782 I had paid to Mr. S. Blakey in articles he had of me, £10, and the balance was settled by Mr. James Buchanan, and charged to my account with the public as Mr. Wm. Blakey can testify.

1795.
Nov. 28,
Richmond

I know of no receipt on the bond, and it is, or was last in the hand of Mr. Sam'l Paine; he says he does not know how he came by it, and would give it up if he could find it. knowing it of no account, but it is a matter of consequence to me, as it may come against me with accumulated interest for the whole sum.

Robert Goode, Esq'r, Acting Director in the Building the outside steps of the Capitol, Dr., To Samuel Dobie, by his promise to me, made for my directing and extra attendance on the workmen as the attested certificate of the two witnesses he called on will shew; he agreed to pay me, s'd Dobie, forty dollars for the same if I could gitt any man to say I had a right to such extra pay, and on these terms being confident of my rights being supported, I immediately attended the works and afterwards got a certificate of my right signed by Mr. Edw'd Voss and William Giles, bricklayers.

Sir:

As it is to you I must look for the payment of your engagement with me, for my directing and shewing the bricklayers how to turn the arches of the Capitol steps, inclosed in this you have my acc't against you, and hope, as it is of so long standing, you'll see cause to pay or order to me payment without further application to you, as I want the money, and you know it is my just due.

Sir, in complying with the above you'll much oblige,

It appears that the Paymaster did not receive a copy of the pay abstract for Clendenin's company from the 25th of July to the end of the year '93, and of course cannot have drawn from the treasury the amount. I can't account for the omission. I send up a copy of that abstract, and the receipts taken from the Paymaster and Capt. Lewis for the vouchers delivered to them. These papers will be returned when the Executive have done with them.

It is respectfully submitted to the Executive whether any and what compensation shall be made to me for making out a list of the officers, non-commissioned, and privates of the continental line, to whom a bounty in land has been granted, which list has been forwarded by Colonel Anderson to Philadelphia for the information of the Secretary of War.

This was a laborious piece of business, and, I humbly conceive, an extra duty, for which I shall be thankful for proper compensation.

Agreeably to an order of Council authorizing the Treasurer to put into my hands for collection several drafts drawn by the Treasurer of the United States in favor of the State of Virginia, viz't: One for Eleven thousand Dollars on John Fitzgerald, collector at Alexandria; another for fifteen hundred Dollars on James M. C. Lingan, collector at George Town; and a third for four thousand four hundred and twenty-two Dollars and eighty-four cents on David Harris, cashier of the Bank of discount, &c., at Baltimore; and being furnished with those drafts with no other instructions than to procure as much specie in payment as possible, I proceeded with as much expedition as my ill state of health would then permit, calling on and apprizing Colo. Fitzgerald of the Draft on him as I passed through Alexandria, requesting his readiness to make payment in specie on my return. I also by letter acquainted Mr. Lingan of the Draft on him as I passed through George Town, adding a like request that payment in specie might be ready on my return. My arriving at Baltimore on Saturday evening too late to do business with the Bank, compelled me to wait till the returning stage of Wednesday following. In the mean time I presented the Draft on Mr. Harris, requesting specie in payment, but could not obtain it, and was obliged to receive Bank notes. On returning to George Town, Mr. Lingan gave me

a check on the Bank of Columbia to the amount of the Draft on him. That Bank refusing to pay Specie, I concluded to take Alexandria Bank notes, which I converted into Specie on presenting them at that Bank. Considering the magnitude of the Draft on Colonel Fitzgerald if paid in silver, Gold not being to be had, would have been out of my power to have brought down, and unwilling to receive Bank notes, prevailed with me to take drafts on merchants of this city at a few days' sight, thinking thereby to procure more specie in payment than I could have brought from Alexandria. A list of the Drafts are enclosed, together with the receipts of my deposits at the Treasury of the several payments, which will shew as much punctuality as was consistant with the difficulty of procuring specie, which I insisted on in every instance where it was to be had. Hoping that my transaction of this business may be satisfactory to the Executive,

II. YOUNG TO THE GOVERNOR.

In obedience to your orders of the 11th of last month, I proceeded to Mathews county, where I could find no vessel of the description you mentioned. From Mathews I proceeded to Severn, in Gloucester, where I found a schooner answering the description given you by Mr. Hamilton. To use any means in my power to detain a vessel completely equiped for war would, I conjecture, be deemed an act of timerity rather than of prudence. I therefore, in compliance with my best judgment, and by the advice of several of the best-informed officers of Gloucester,

Dec. 6

1736.
1737. 6

concluded to adopt the circular instructions dated 22nd August, 1793; accordingly instructed Major Cary the day after my arrival to order the vessel to depart the waters of this State immediately, but before he could get down to where she lay she had taken her departure, and was out of sight. In case your Excellency should see fit to make further inquiry respecting the aforesaid vessel, I have thought it advisable to inform you that on my arrival at Severn I procured a small row boat and went down the river opposite where the schooner lay. She was in the middle of the river where I thought it a mile wide. I supposed her to be between 60 and 70 tons burden: about three weeks before her departure, the number of men on board was about 80. Thirty more were expected: since which she has been frequently attended by boats. Mr. Stubbs, a citizen of Gloucester and a reputable man, was on board the privateer when a schooner arrived from Baltimore with ammunition and other war-like stores, which were taken on board. Barry, a Pilot from Baltimore, brought from thence a supply of men.

The Schooner is avowedly a Privateer and displays French National colours. She is peared for 12 guns, but has but 10 mounted, which are sixes. The Captain of the Schooner resides at Portsmouth, where he has a family. I could not learn whether he is a Frenchman or not. Mr. Stubbs thought him one.

Your Excellency will please excuse me for acknowledgment. My embarrassment at receiving orders which in the nature of things can't be executed: for since the days of the freebooters ships of war have not been attacked by men in canoes nor then unmanned. I love the Government under which I live because it makes me happy, and I feel infinite mortification in not having it amply in my power to impose its laws.

There is in Gloucester a most excellent company of Artillery. The officers are anxious to have two pieces of cannon, and if furnished, perhaps might answer a two-fold purpose: first, to enable the company to learn the exercise which can't be done without them; and secondly, to deter small vessels from infracting the laws. I conceive it to be hardly necessary to observe to your Excellency the propriety of arming two companies of Militia, one in Gloucester, the other in Mathews. Their exposed situation being so well understood by your Excellency, it would be folly in me to make any observations to induce the measure.

I am, &c.

GLO. TOWN, November 27th, 1795.

Dec. 6

Agreeable to your orders delivered to me on Sunday, the 22d inst - - early the next morning I repaired to Severn River. On my arrival there

I found that the Schooner alluded to had sailed the day before about 11 o'clock A. M., and was entirely out of sight.

1795.

It then only remains for me to give you information thereof, which should have been done immediately had not the post have left this before my return, and no other safe conveyance in the interim having offered.

With respect I remain, &c.

J. PRESTON AND OTHERS TO THE GOVERNOR.

We take the liberty of representing to you, not only the situation of a number of prisoners in the jail of the District of Washington, &c., but also that of William Harston, the Jailor. The prisoners were committed to the Jail early last summer, in order to be tried for capital offences at the ensuing October term. They have from that time been supported at the expense of Mr. Harston, and the circumstance of the non-attendance of the Judges last term, put it out of his power to present or pass his accounts.

Dec. 10

As he is now under the necessity of supporting these prisoners till the May term next ensuing, we beg leave to submit to your consideration, whether he ought not to have some advances made him on account. He is a poor man and barely able to support himself and family.

These unhappy culprits have been denied that speedy trial which the laws of their country entitle them to. Their suffering the ensuing winter, cannot but excite the pity and compassion of every feeling person, and humanity calls aloud for their relief. We beg further to suggest to your Honorable body, whether some plan ought not to be devised to alleviate their situation, and whether it ought not to be laid before the Assembly for their interposition.

Dec. 15

Resolved, That the Senators representing this State in the Congress of the United States be and they are hereby instructed, and the Representatives requested to unite their utmost exertions to obtain in their respective Houses the following amendments to the Constitution, viz:

1st. That no Treaty containing any stipulation upon the subject of the powers vested in the Congress by the eighth section of the first article shall become the supreme law of the land until it shall have been approved in those particulars by a majority of the House of Representatives, and that the President before he shall ratify any such Treaty shall submit the same to the House of Representatives.

2nd. That a Tribunal other than the Senate be instituted for the Trial of Impeachments.

3rd. That the Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof for three years, and each Senator have one vote. Immediately after they shall be assembled, in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the first year, the second class at the expiration of the second year, and of the third class at the expiration of the third year, so that one-third may be chosen at the expiration of every year.

4th. That no person holding the office of a Judge under the United States shall be capable of holding at the same time any other office or appointment whatever.

We the subscribers, members from the District of Monongalia, represent that Scouts and Rangers have been called into service for the defense of the different counties in the district, and most of the vouchers have been forwarded by us for payment. But we have understood that their pay cannot be received until the Executive of the United States is consulted.

Dec. 15

We humbly submit whether by referring to the Militia Law, and the resolution of the Assembly at the last session, you will not be justifiable in embracing this favorable opportunity in making payment without putting the State to the additional expense of a Paymaster, especially as the sum will be small, and whether from the willingness heretofore manifested by the General Government there can exist a doubt but the money will be refunded.

From these considerations we are induced to hope that such of the vouchers as are formal and authentic will be directed to be paid, either to the several persons charged therewith, or such one of us as you shall see cause.

Inclosed is an account of money expended by the corporation of Alexandria for preventing the introduction of the yellow fever last fall, accompanied by a letter from the Mayor. I take the liberty of laying them before the Executive for their consideration, and will only remark that the several expenses were incurred in consequence of apprehensions on account the disease of Norfolk. I was some time ago directed by the corporation to deliver to you the enclosed accounts for moneys expended by them last fall in guarding against the introduction of the yellow fever into this town, but entirely forgot it till this day. The benefit arising from this necessary precaution is well known to have been general to all the neighboring country. The corporation therefore conceive they ought to be reimbursed by the Executive, and have desired me to request the favor of you to make application to them for that purpose. These and some few other accounts relating to this business, amount to about £10, but as they have not yet come in, they could not with propriety be added to the general account.

I am, &c.

Dec. 31,
Point of Fork Inclosed you will observe the customary Quarterly Return of the Military Stores under my direction.

I lament that from the slow manner in which the arms &c., lent to the United States, are returned to this place, I am not yet enabled to lay before the Executive a statement of the losses and injuries sustained in this loan, so as to enable them to demand reparation. I have received only 2897 Muskets and Bayonets, 2425 Cartridge Boxes, 2723 Belts and 1467 Slings. The Muskets and Bayonets having generally past thro. the hands of Smiths since they were in service are not very materially injured, but the whole of the leather work, (viz.) the Boxes, Belts and Slings have been wretchedly handled, in so much that many of them are entirely useless.

The Com. Mil. Stores for that department tells me there are some few stores yet to return which he promises to have in place shortly.

I have to note to the Hon'ble Board, that I still allow Mic'l Jourdan his wife and daughter to draw Rations, notwithstanding the pension allowed him by the Gen'l Assembly, and with their advice respecting the continuance of this indulgence.

I wish the Hon. Executive to take into their consideration, the allowance made to the soldiers at this place in lieu of clothing. The yearly allowance for this purpose to each man is £5.10.4, applied to the purchase of such articles as are expressed in the annexed statement. I am solicited by them to state the insufficiency of this allowance to the Hon'ble Board, with a hope that they will either direct a larger sum to be applied to this purpose, or order that the Superintendent shall purchase such clothing as is common for the use of soldiers on the best terms he can, and debit the State with the amount thereof. I trust the Hon'ble Board will have no objections to my having the shops and other houses at this place repaired and made comfortable.

I have, &c.

ROBERT JOHNSON TO JOSEPH MARTIN, ARCH'D STEWARD, AND CREED
TAYLOR, COMMISSIONERS FOR VIRGINIA.

**Jan. 8,
Kentucky**

The Legislature of this State approves the proceedings of their Commissioners in claiming to the head of the N. E. Fork of Sandy as the Boundary line between the two States, and have directed the Commissioners from the State of Kentucky not to proceed any further in the business, unless the Legislature of Virginia (by their acts) show a disposition to settle the business in an amicable way, for the citizens of each State to suffer as little injury as the nature of the case will admit, doing justice to this State. Therefore you see the necessity of Failing to meet in May next, agreeable to our adjournment, unless we hear from you and the Legislature of your State so as to come up to the ideas above stated. The session was so far advanced before we could be prepared to send by post so soon as we expected, you will excuse our not writing sooner.

PETITION OF GEORGE KEITH TAYLOR:

Jan. 8

To the Governor and the Honorable Members of the Council:

The petition of George Keith Taylor humbly sheweth, that your petitioner, being desirous of purchasing land warrants, lately deposited in the Treasury depart. of the United States and certificates of the State of Virginia to the amount of the purchase pledge for the payment of the purchase money in a few days thereafter, and in consideration of the deposit, obtained his warrants. But from the scarcity of gold and silver which at present prevails, and the small quantity of unfunded State

paper which remains in circulation, your petitioner finds himself unable to make full payment unless he be permitted to discharge a part of the sum in bills of the Bank of the United States. Your petitioner therefore prays that your honorable Board will be pleased to authorize the Treasurer to receive from him in part payment for the said warrants the sum of five thousand dollars in bank bills, a favor which, having been heretofore granted to others, your petitioner trusts will be extended to him.

1796.

And your petitioner, as in duty bound, will pray, &c.

FRENCH MINISTER TO SECRETARY OF STATE OF UNITED STATES.

(Translation.)

Philadelphia, 22 nivose, 4 year of the French Republic, one and indivisible. (12th January, 1796, O. S.)

Jan. 12,
Philadel-
phia

The minister Plenipotentiary of the French Republic, near the United States, to Mr. Pickering, Secretary of State of the U. S.:

SIR:

Letters from the French Consuls at Baltimore, Norfolk, and Alexandria announce to me that the English have purchased a great quantity of Flour in Maryland and Virginia, and that they have laden it on board of American vessels, which they have likewise purchased. This Flour is destined to support the English Army directed against the French Colonies. It is not without the most severe chagrin that I have observed the enemies of my country drawing from yours means of subsistence, without which they must have renounced every species of attempt, and that I have found myself incapable of preventing them. Indeed, who could arrest the exportation of this flour if not the Government of the United States? And if I had solicited it of them, could I have calculated upon their condescending to my request, when they would have regarded that condescension rather as a favor than as a duty rising out of their neutrality? But, sir, there is another circumstance upon which the letters from the consuls leave me no doubt, and to which the laws which the American Government have prescribed to itself for its neutrality oblige it to pay attention. The vessels which the English have purchased, are commanded and manned by American Seamen. If your fellow-citizens are prohibited from serving the cause of France, neither shall they be permitted to range themselves under the British Flag—otherwise the neutrality would be only a vain term, and a certain means of assisting, secretly and without running any risk, a power which it would not be dared to aid openly.

There is also another object, Sir, upon which I should fix your attention. The Consul at Norfolk informs me that the English have caused to

1796.
Jan. 12,
Philadel-
phia

be purchased a great number of horses in Virginia, and that even stables are established near Norfolk for receiving them. These horses are destined for the English Cavalry to be debarked at St. Domingo to attempt the conquest and to endeavour to bring about the ruin of that place. If France be interested in frustrating these projects, should not the United States also, perhaps under certain relations, prevent the execution of them?

Besides, their neutrality impose on them the obligation of arresting the exportation of horses, which constitute the principal force of the English army. The horses are contraband of war; you are sensible of this, Sir, and no contraband of war can be furnished to a power at war without the other power having the right of opposing it in any manner whatever. (So says Vattel, Vol. II., Book III., Chap. VII., S. 113, Amsterdam Edition, 1775.)

"The nation which makes war has the greatest interest in depriving its enemy of every foreign assistance, and therefore has a right to regard, if not absolutely as enemies, at least as people who care very little about injuring them—those who carry to their enemy the things which they require for war. They furnish them by confiscating their merchandize. If the sovereign of the latter should undertake to protect them, it would seem as tho' he himself wished to furnish this kind of succour; a step contrary to neutrality."

It is therefore evident, Sir, from this passage, that no neutral Government can protect contraband of war. But would not the American Government protect it if it should permit to be exported from its territory horses destined for the English army? Indeed, Sir, after being informed of the designs of the English, it could stop the exportation of the horses which they have purchased, and did not do it, it is evident that the omission would constitute a proof of its consent and approbation. And what difference is there in this case between tolerating contraband and protecting it?

It is useless Sir, to spin out this letter any further, I think that the facts are so self-evident, that I now flatter myself with receiving a proof of that friendship, of which the United States have so often given assurance to the Republic.

Accept, Sir, the assurances of my esteem,

P. A. ADET.

In the latter part of the last session of the Gen'l Assembly, I am informed a law was passed, directing the Executive to ascertain and say

what number of clerks it will require to perform the several duties of this office, together with their salaries, which law I presume has by this time been laid before you.

Land Office

Urged by the great necessity of the above assistance, I hope to be pardoned when I express a wish that the business may as soon as convenient be taken up.

In order to shew the great necessity of an augmentation of clerks, owing to a vast increase of Business, I need only observe, that the fees of office have amounted to more within the last twelve months, than they have for four years before.

As some information may be necessary to enable the board to judge of the number requisite to keep up the business of the office, I beg leave to observe, that it will require two issuers of Grants (including the chief clerk), two recorders of Grants, two recorders of Surveys, and one to make the application in the margin opposite the warrants, of the Grants issued by virtue thereof to search and copy.

It may perhaps be asked what the Register is employed in, I will answer, that his time is closely taken up in giving receipts for surveys, entering them, keeping the accounts of the different fees of office, receiving and recording caveats, issuing and recording warrants, and the certificates on which such warrants issue, giving official certificates, and answering letters respecting business in said office.

THOS. NEWTON TO THE GOVERNOR.

In the absence of Gen'l Mathews, I consider it my duty in this place to inform your Excellency of proceedings which I conceive are violations of our treaty with France and Holland, and of a law of the U. S. passed in June, 1794, for punishment of crimes vs. U. S.

Jan. 20,
Norfolk

I have no doubt, from every appearance, that the horses now purchasing by British officers are for mounting their troops in the W. Indies employed against the French Islands. It is reported the vessels which carry them are to be convoyed by British ships of war.

1796.
Jan. 20,
Norfolk

Three are now in Hampton Road, which carries a conjecture with me that the report is true, and I understood one of the owners of the vessels which carries the horses, that she was insured by agreement. This also conveys an idea to me that they are for Government service. I have heard that the French Consul has protested against the clearing of the vessels out, considering it a breach of our neutrality; he has never mentioned anything to me on the subject.

Since writing to you of Thursday last, I received the inclosed from Mr. Oster, French Consul, and immediately forwarded a copy of the same to the British Consul, with a letter I now inclose. We are much at a loss in what manner to proceed, and hope to have full instructions from your Excellency. Undoubtedly the shipment is for military service from the French Consul's statement. There are some of the agents with you in Richmond, who, I judge, might be prosecuted under the act of Congress for punishment of crime vs. U. S.

I am, &c.

The horses are on board citizens' vessels, and unless we have an immediate answer or some process by express to stop them they will be gone. From every report they are to be conveyed by ships of war, Admiral Murray being in Hampton Road. I have wrote to Honorable Judge Griffin on the occasion and hope he will favor me with his opinion.

NORFOLK, *January 23, 1796.*

The Vice Consul of the French Republic to Mr. Newton, Colo. Commandant at Norfolk:

Sir—The numerous agents of the King of Great Britain in this town, and those dispersed thro' this State, being about to make a shipment of horses, which are known to be destined towards the conquest of the French possessions in the West Indies, it has become my duty as Vice Consul of the French Republic in Virginia to state to you that these sort of expeditions or shipments are prohibited by article 24 of the treaty between France and the United States of America, and in consequence to pray for an interposition of your authority, to the end that shipments of horses and furniture now making, may be all of them hindered from leaving any places or ports under your command as Colonel aforesaid. Your patriotism, your attachment to the cause of liberty, and the principles of justice that characterize you being well known to me, I am persuaded that this statement and request will seriously fix your attention, and that until you receive orders that are momentarily expected from the Governor of Virginia, to whom I have written officially on the subject, you will direct the commanding officers of the fort, and all others immediately under your command, to prevent the departure of this expedition of embarcation of horses and furniture by the aforesaid agents.

Accept my respects.

Jan. 23,

Any military expedition or enterprize from this country against powers with whom we are at peace, I conceive by the Laws of the United States, and treaties existing, (which are considered supreme laws of the land) to be a violation of that neutrality which should be observed to the Belligerent powers. That the present shipment of horses (as I am informed) under British Officers, is a military preparation I have no doubt of in my mind, and having wrote to the Executive on this State on the subject, I hope you will desist from carrying on shipments of so hostile an appearance until an answer is obtained from the Governor.

Jan. 23,
Norfolk

I beg leave to enclose for the information of your Excellency, the speculation and complaint made to me as Lieutenant-Colonel of this County, by the Vice-Consul of the French Republic, against the incarceration of a number of Horse now actually about to take place in this port, said to be destined to act as Cavalry against the Islands in the West Indies, belonging to the French Republic.

The feelings of the Consul appear to be much wounded at this procedure, and in the name of the alliance between the two Republics, demands Inhibition of the Armament.

As these vessels are about sailing, I await my orders respecting them, which I beg to be furnished with as soon as the nature of the case will admit.

With much respect, &c.

THOS. NEWTON TO THE GOVERNOR.

Jan. 24,

The inclosed is a copy of a letter received from the B. Consul. I beg your answer by express.

There cannot, I still think, — of the shipment being of a military nature; the Consul does not seem to deny it altogether.

I am, &c.

SIR:

Jan. 24,
Norfolk
British Consul's Office

I have rece'd your letter of this date, inclosing a copy of the representation of the F. vice-consul to you on the subject of the shipment of horses I have directed to be made, and expressing your hopes that I will desist from carrying on shipments of so hostile an appearance until an answer is obtained from the Governor of Virginia, to whom you have written.

I must ask leave to be allowed, Sir, to manifest my surprise at the very late Period in which your Interference in a Business that you could not possibly be ignorant of from its very commencement, is bro't forward. You must have known, even from common Report, that I was some time since engaging vessels to convey Horses from hence to the W. Indies; much more, then, as some of the vessels were procured from your own most intimate connections, and from circumstances, I am inclined to believe, that the Governor himself could not have been unacquainted with the Purchases of horses to be transported from hence to the W. Indies. It is therefore to me a matter of no little wonder, supposing that you had no doubts in your mind, that the shipment alluded to, if carried into effect, would be a violation of that Neutrality which

should be observed to the Belligerent Powers; that you should have hitherto been totally inactive and silent on the subject, and that you should only now come forward when the engagements are made; any little detention you may cause will be productive of heavy Expence and Damage.

1796.
Jan. 24,
Norfolk,
British Consul's Office

I have continued to flatter myself that the attention I have always, since my Residence in Norfolk in my present office, endeavoured to pay both to the local Laws of the Place and the existing treaties have been invariably apparent, at least it has been my study to comport myself, as far as in the Line of my duty I could, conformably to them.

Acting under this impression, I have maturely considered the articles of the Treaty of amity and commerce between the U. States and France, none of which, in my opinion, can be construed so as to authorize any Interference whatever on the part even of the General Government with regard to the Shipment in Question. I deny totally that the present shipment of Horses, as you have been informed under British officers, is a military Preparation, or can be so esteemed, according to the usages of Nations.

The Horses about to be dispatched by my Directions will depart unaccompanied by Furniture and unprovided with any sort of hostile equipments. They will be shipped from hence to a Port subject to Great Britain, a power with whom the U. States are at Peace, and therefore, though I conceive with you that according to the Laws of the U. States no Person within their Jurisdiction can set on foot from hence any military Expedition to be carried on from hence against any foreign Prince or State with whom they are at peace, yet I cannot imagine that those laws are calculated to prevent any Person, either in a public or private capacity, from purchasing within their Jurisdiction and sending in American vessels Horses in their natural state, unattended by hostile equipments to any British Port whatever.

Influenced by this opinion, therefore, the Shipment of the Horses at present about to embark, will be directed to proceed, and should you oppose any impediments to the Progress of the vessels employed to convey them to the place of their Destination, I shall not only consider such obstacles as a violation of the Neutrality of the United States as far as you are concerned, but for any expenses that may accrue, either from such detention or for the extra provender that may be necessary for the Horses, I shall at the same time look upon you as personally responsible.

I remain, Sir, &c.,

JOHN HAMILTON.

Since writing of this date, we have heard a report that furniture for the horses now shipping by the British are preparing and making in Williamsburg by a saddler there. Agreeable to your request by letter, I have examined the ordinance belonging to the public and lying at Hood's. There are twelve pieces in sight, and I am told there are some others buried in the sand.

They lay on the shore at high water-mark, so that a large Flat may come within a few yards of them. There are three 24 pounders, two 18s, and the rest smaller—some of them have the trunnions broken off. I am informed that the probable expense of carrying them to Richmond will be about five dollars each for the whole. Two pieces 4 or 6 pounders were some time since carried from Hood's by Mr. Fureton, who now has them mounted at Prince George Court House.

Your Obed't Servant.

Jan. 28

The Governor laid before the board, certain communications from the F. Vice-Consul at Norfolk, and Col. Newton and W. Wilson the Collector, complaining that shipments of horses from this State, in American vessels to the West Indies, on account of the British Government were about to take place, which would be a breach of our Treaty with France, and a violation of Neutrality; wherefore it is advised that Letters be immediately written to the Colonels commandant of York, Eliz. City and Norfolk, ordering them to take effectual measures to prevent the aforesaid shipments, and the sailing of any vessels on board of which any of the said horses may have been already embarked, until the further orders of the Executive.

British Consul's Office

I have the honor to acquaint your Excellency, that complaint has been made to me that the American Sloop Diana, loaded with British property, and regularly cleared out at the Custom House of this Port, for a British Port in the West Indies, was on the night of the 25th instant, forcibly

boarded in this harbour by a number of armed men from several boats, who confined her crew below, while they cut away her sails and did considerable injury to her running rigging; the former of which they carried away with them, to the manifest detention of the vessel and her cargo, and consequent detriment of the concerned therein; that the said Sloop being refitted in her sails and rigging during the 26th, proceeded below the Fort and came to anchor near Craney Island, and that in the night she was again attacked by a party of armed men in several boats, who towed her up from her anchorage to this side of the Fort, where they left her aground; and being informed that other American vessels now loading here with British property are menaced with similar outrages, it becomes my duty to request that you will be pleased to give such directions to the proper officers here, as may tend to insure through their authority, the persons interested in the before mentioned cargoes from injury, and to prevent any further violations of the laws which have been flagrantly outraged by the illegalities complained of.

Fully satisfied that after a due consideration of the importance of this representation, your Excellency will take the proper steps to put a stop to further violences,

I have, &c.

JOHN HAMILTON TO COL. WILLIS WILSON.

Complaint has been made to me that the American Sloop Diana, loaded with British property, and regularly cleared out at the Custom-House of this port for a British port in the West Indies, was on the night of the 25th instant forcibly boarded in this harbour by a number of armed men from several boats, who confined her crew below while they cut away her sails and did considerable injury to her running rigging, the former of which they carried away with them, to the manifest detention of the vessel and her cargo; that the said Sloop, being refitted in her sails and rigging during the 26th, proceeded below the Fort and came to an anchor near Craney Island, and that in the night she was again attacked by a party of armed men in several boats, who towed her up from her anchorage to this side of the fort, where they left her aground. And being informed that other American vessels now loading with British property are menaced with similar outrages, it has become my duty to call upon you officially to use your authority to secure the peace of this harbour, which has been flagrantly disturbed by the illegal acts complained of, and to prevent a repetition of these violations of your laws in the instance of the vessel before mentioned and of those now loading.

C. B. JONES TO THE GOVERNOR.

Feb. 3,
Brunswick
County

A number of my fellow-citizens have often requested that I would apply for leave to raise a company of Cavalry in this county; this I should have done had not regulations been entered into that would not admit of more than one company to a brigade, and that liberty had been granted to the Town of Petersburg at a very early period. The amendment to the Militia Law having set aside those regulations, permit me (if it be not too late), agreeably to their solicitations, to call your attention to the superiority of our horses, and the advantage an army must derive from well-mounted Cavalry; and to request that you will commission officers of Cavalry, as it will be not only more pleasing to the citizen, but more certain to be effected than any other description of troops recognized by the Law. Your compliance will very much oblige a number of your fellow-citizens as well as him who has, &c.

JAMES INNES TO THE GOVERNOR.

Feb. 3

I have bestowed on the subject of your last communication the consideration it merited, and should have given the result of my deliberations at an earlier period had it not been for the debility of my right hand, which from gouty affections is often incompetent to the use of a pen.

I should suppose that in the discharge of the General Executive power, which by the Constitution devolves on you as the Chief Magistrate of the State, every authority becomes incidental to it (not contravened by any positive law), which may be necessary so to execute the laws of the Commonwealth as that they may most effectually protect the life, liberty and property of its citizens. It is impossible that our legislative code should be so perfectly directory that, by a species of prophetic anticipation, it should be adequate to point out a minute remedy for every casualty that may happen throughout the various vicissitudes of human events. The object of free Government, in the language of our bill of rights, should be to attain common benefits, liberty, and protection for the nation. The power of the Governor of this State as defined by its Constitution, is, with the advice of a Council of State, to exercise the

Executive powers of Government according to the laws of this Commonwealth. The Executive powers of Government hereby invested by the Constitution must be construed to confer every authority necessary to effectuate, according to the axiom recited in the bill of rights, the chief and primary ends of every free Government, which are common benefits, protection, and security, and the words, according to the laws of the Commonwealth, cannot mean (for the reason assigned above) that the legislative acts shall of necessity contain specific directions for the attainment of these ends, but only that no Executive measures for the obtention of them shall be pursued in opposition to positive legal provisions, and where the laws are silent or deficient, then may the Executive power so exert its constitutional authority as to give the necessary aid to other departments of the Government, as emergencies may arise, for the insurance of those objects for which all social compacts were formed. The great mandate of the Constitutive body of a free Government to its magisterial servants is, to take care that no injury happen to the Government, whose salvation should ever be held as the supreme law.

1796.
Feb. 3

By applying these general preliminary observations, which grow out of the consideration of free government institutions in general and of our own in particular, to the case which you have been pleased to submit to my inspection, I presume that the conclusion I have formed from reflecting thereon may readily be anticipated. That is, as the residence of the persons whose presence in this country is necessary for the accomplishment of public justice happens to be in a place where the ordinary authorities of the Judicial Department cannot be enforced, the supreme Executive power of the State may afford any aid, not contravening the Constitution thereof, which may be requisite to give energetic effect to the laws, and to vindicate the violated rights of society. I would not wish that it should be inferred from what I have said, that Government would be authorized to make it an object of lucre with the witnesses to attend on this solemn occasion. That would tend to establish a precedent which might be productive of the most abominable consequences; yet I think that the Executive would be correct and strictly within the limits of their constitutional powers, and duty also, to procure the attendance of those necessary witnesses from the territory south of the Ohio, on a stipulation to pay them any deficiency which might arise from the inadequacy of their legal allowance, requisite for defraying their necessary expenses from and to their homes and during their attendance on the culprit's trial. If apprehensions of using this discretionary and necessary power should arise from the probability of abusing it in its application, it may be answered, that to reason against the use of a thing from the possible abuse of it, would militate towards the non-use of the most estimable of human attributes; but in a Government like ours, such a mode of reasoning would be less sanctionable, because the

1796.
Feb. 3

rotation and responsibility of office established by it will forever protect its citizens against the exercise of unwarranted powers.

The usage of the Executive of this country, under almost every successive administration since the adoption of the present Government, will I believe, when attended to shield me from the charge of novelty of opinion.

I allude to the reiterated practice of issuing proclamations, holding forth rewards for the apprehension and delivery of persons accused of Capital offences, even before a competent Judicial examination had been held—out of many instances which I could cite, I will select one as the strongest among them. I mean the case of one Woodward, the notorious Counterfeiter of Coin as well as of public papers, an Inhabitant of the County of Dinwiddie, who was apprehended under a proclamation of the Governor of this State, in Georgia, and delivered here for the premium of one thousand dollars. Now I can see no difference between exerting the Executive arm of Government, and applying the public treasure for the purpose of bringing an offender from another State, into a jurisdiction where alone he could be brought to Justice for his crimes, and that of using the same means under similar circumstances, for the purpose of obtaining the only testimony by which a most flagrant outrage upon the public peace and security can be ascertained and punished. The Government becomes as much a party against an Individual in one case as in the other—might be equally corrupt and oppressive in one case as in the other, and is actuated equally on the emergency of the case, by motives arising from a due regard to the public weal unfiscued by any express legal directions, and without such Executive interference the penalties with which the laws are armed, to punish the wicked for the commission of vice, would be easily evaded, and the laws themselves with impunity trampled upon and disregarded, by the vilest miscreants that degrade the human species. For the assured enjoyment of life, liberty and property, every member of the social compact contributes a portion of his property to the public funds, which when applied to the maintainance and defence of those inestimable blessings, may justly be considered by the contributors, as constitutionally, safely and properly appropriated by the Governing powers.

Having understood that your objection to pursuing the only means by which Branch, the person alluded to in your letter, an old and dangerous offender, can be brought to make attonement for his repeated breaches of the public security, arises from a fear of being lead into an undue exertion of authority, I have taken the liberty, with great deference, to state in a summary way, the foregoing reasons which induce me to advise you to take such steps as the attainment of Public Justice requires, without hazarding an injury to the constitutional liberties of the people.

With sentiments of perfect Respect and consideration,

I have, &c.

W. WILSON TO THE GOVERNOR.

I should have immediately acknowledged the receipt of your Excellency's letter (dated 29th of Jan'y and handed me the evening of the 1st Instant), but conceived it necessary that the result of my proceeding thereon should accompany the same.

Feb. 3,
Portsmouth

Without delay on that evening I informed the British Consul by letter, the instruction I had received from the Executive of Virginia, requiring of him satisfactory assurance of compliance therewith; but not receiving from him an answer in time, and there being a sloop and ship ready for sea with horses on board (the former having proceeded to Hampton Road) I conceived it my duty to act with promptitude.

I dispatched the Revenue Cutter with a detachment of militia after the Sloop—gave a copy of my instruction to the owner of the Ship, with a request that he would give orders to stop her in conformity thereto, and placed a party of the artillery at the forts to give effect to my instructions.

This morning (9 o'clock) I received the B. Consul's answer to my letter of the 1st Instant, which I beg leave to enclose, at the same time I see the Sloop Diana coming into port. She was anchored very close to Admiral Murray in Hampton Road, who sent his pinnace after her, but made no attempt hostile to reclaim her. On the nights of the 25th and 26th we had some disorder in the Harbour, owing to attempts made on board the Diana to proceed to Hampton Road with her cargo of horses, where lies some British ships of war supposed for a convoy to these vessels. The party were finally prevailed upon to desist and wait the result of Government. I also enclose the B. Consul's letter upon that subject.

With respect, &c.

SIR:

In answer of your letter of yesterday, I have to observe that the only vessels from this Port, as far as I can learn, on board of which horses

1796.

are embarked, are the Sloop Diana and Ship Thomas, both of which are cleared out regularly at the office of the Collector for this Port.

I enclose you a copy of the letter received by the Collector from the Attorney-General of the United States for the District of Virginia, by which you will perceive that the shippers of the horses have not in his opinion contravened any existing laws or treaties by their shipments; such being the case, I consider the vessels already cleared out cannot be detained by any force acting under the orders of the State Executive, without a manifest violation of the laws of the United States, and therefore that they should be allowed to proceed. If they are not permitted to do so, I shall conceive the State Government liable for the extra expence occasioned by such detention.

It has ever been my wish to conduct myself with every possible respect for the local laws and general regulations of the country of my residence, and you will do me the Justice, Sir, to believe that no Endeavours of mine have ever been wanting to reconcile any existing differences of opinion on the present occasion; therefore, I shall give directions that the further prosecution of the Shipments alluded to be discontinued until advices on the subject be received from the Executive of the United States; but as I cannot accord with the principles laid down by the Governor of Virginia on that head, I shall expect that the Government be answerable for any additional expenses that may accrue to the shippers for the detention of the vessels they have engaged to freight.

With respect, I am, &c.,

JNO. HAMILTON.

THOS. NEWTON TO THE GOVERNOR.

I have just received a letter from on board the Resolution, Admiral Murray, from Henry McGeary, an American citizen, impressed. This man your Excellency has been before informed of, and directed an inquiry on May 4th last to be made for him and several others, with a Martin Marland's petition from the Secretary of State. As I before made application to Mr. Hamilton in the case of Rabourn, who solemnly swore he was an American citizen, and brought circumstantial proof sufficient for me, yet these were inadmissable by Mr. Hamilton. Under these circumstances I have not applied to him for this poor man, who appears to me, from every circumstance, to be an American, but lay his case before you to try the effect of Mr. Campbell's advice of a Habeas Corpus, of which you will please to advise, or give such directions as you think proper. McGeary says his family, or Father's he means, lives at present in Loudoun county, 45 miles from Alexandria, 12 miles from Leesburg,

and 15 from the Blue Ridge; that Col. Powell had been County Lieut. but resigned, and Col. Peyton was when he left it, and that his nephew, Fra's Peyton, was a magistrate in Alex'a; that his father has been overseer to Col. Mercer and Col. Carter, on their lands in the same county, and that his s'd father was a soldier last war; that he is now only 22 years old. These, sir, I am of the opinion, are convincing proofs; but as Rabourn's were as good, in my opinion, and other proof required from Santee, S. Carolina, in his case, I think it best for to have a trial before Judges, and not leave so important a point as the detention of a citizen to be determined on by the British officers. The vessels with the horses lie here agreeable to your directions, until we hear further. Col. Hamilton agreed by his letter that no further shipments should be made until we heard from you again.

The very high price of provisions in this place, and I believe throughout the State, is becoming very alarming. I. meal is selling at nine shillings per bushel and rising. Flour is excessively high, 12, 13 and 14 Dollars, and some are of opinion it will be 20 per barrel. If this should be the case, most of the lower part of this country, all the lower parts of North Carolina, will be in as bad a situation as France or Britain has been. The exports and purchases made and making will cause a famine if permitted, I apprehend. I think I can venture to say, with truth, that a large number of families are now destitute of grain of any kind on the seaboard, and those who were not so exposed, did not make one-quarter sufficient to support their families. If there ever was a cause for a prohibition in any country, I think this is the time.

Admiral Murray is gone to sea, so that there will be no occasion to demand Henry McGeary for the present, but if he should come in again it may be necessary to have a process ready if it should be deemed proper to proceed that way by your Excellency. We have no news here. Feb. 9,

DAVID PATTERSON TO THE GOVERNOR.

1796.
Feb. 10,
Richmond

Being in the city of Richmond on Saturday last, I was notified that Captains Railey and Wooldridge had laid before you the proceedings of a General Court-Martial held at Chesterfield Court-House on January 29th last for their tryal in arrest.

On going to Major Coleman's office and examining the papers, I find the order of Major Hill of Mar. 23rd, 1795, and two certificates from the Clerk of the Court-Martial carried forward, which by no means appear to be part of the record, as forwarded to me by Major Burfoot, the presiding officer; indeed, you will see those certificates are not signed by him, but by Mr. Whitworth as Clerk only. The latter part of the 33rd sec'n of the Militia Law expressly declares it to be the duty of the Commandant to furnish the proceedings in cases of appeal.

I therefore had no doubt but that the papers would have been seen by me, or have known of them before they went to the Executive. In that case I should have laid before you the Reg'l Orders of Oct. 12th, 1795, on which the arrest is bottomed, and which is now inclosed. Strip the papers carried up of the order and certificates before mentioned, and then permit me to ask if it does not appear with a different complection.

Sir, thinking and feeling that the reputation of officers of great worth of the Militia, ever ready to obey the constituted authority, and whom I love, and my own is in some measure at stake, duty seems to direct me to lay the orders, &c., which have been issued in this business, and which are now inclosed, before you for consideration.

I am your honor's, &c.

Reg'l Orders.

October 12th, 1795.

The Major and commanding officers of companys of the first Battalion will meet at Chesterfield on Saturday, the 24th inst., and the Major and commanding officers of companys of the second Battalion will meet at a house of Francis Lockett's, Sen'r (on the north side of the road, at or near the ground on which the last Battalion muster was had), on Monday, the 26th inst., for the purpose of holding Courts-Martial for the assessment of fines.

CAPT. RAILEY:

Sir:

You herein have enclosed a copy of R. Orders and the charge against you.

You are now to consider yourself in arrest, and consequently suspended from the exercise of all the powers and authority vested in you by the commission which you have the Honor to hold, until the termination of your tryal.

Commandant, with disobedience of orders in refusing to sit on a Court of Enquiry and assessment of fines for the Second Battalion on Monday, the 26th of Oct'r last, in a House of Fras. Lockett, Sen'r, on the north side of the road.

The said Railey and Wooldridge objected to Cpts. Hezekiah Rudd, Thos. Branch, and Lieut. William Goode sitting on Court, and they refusing to sit, there was not a sufficient number of officers to compose a board.

JOHN HAMILTON TO THE GOVERNOR.

Feb. 15.
Norfolk,
British Consul's Office

I have deferred replying to your Excellency's letter of the 4th instant with the hopes of being informed by you of the result of the reference which it was determined by the Executive of Virginia to make to the President of the United States of the questions arising under the meditated shipments of horses. This reference your Excellency had the goodness to represent would not occasion much delay (the President's answer being expected by the mail due the evening of the date of your letter).

No advices having been received by me from your Excellency, though many days have elapsed since I received your letter, I must, at the same time that I beg leave to express my surprise at the circumstance, request that you will communicate to me, as soon after the receipt by the Executive as possible, the determination of the President on the subject, in order that I may give such directions to the concerned in the projected shipments as may be necessary.

I think it proper to state to your Excellency that they represent to me that the extra cost of keeping the horses detained by the orders of the Executive amounts to a very large sum per diem, and that the damage of the vessels engaged by them will also be ultimately immense, upon what party so ever these expenses may eventually fall. I therefore flatter myself that your Excellency will see the propriety of giving me the earliest intelligence relating to this affair.

With perfect esteem and respect, I have, &c.

P. S.—I have the honor to acquaint your Excellency that I yesterday, after writing the foregoing, received a letter from Colonel Wilson informing me of the revocation of the orders of the Executive issued on the 29th ultimo to arrest the departure of the horses therein alluded to. Colonel Newton not being in town, his son-in-law forwarded to me a copy of your Excellency's letter to that gentleman, dated the 12th current on the same subject.

J. H.

To the Governor or Chief Magistrate of the Commonwealth of Virginia:

1796.
Feb. 15

We, your petitioners, from a consciousness of its not being our intention to injure, trespass on, or in anywise infringe on the Laws or on the Liberties of a certain Mr. Radford, at a time when he drove a parcel of Cattle to a plantation of his in our neighborhood, which before that unhappy period had never experienced the calamity of what is called the Distemper in Cattle. Knowing the operation of the law would not stop the contagion, and he being without a Bill of Health much alarmed us, in consequence of which we assembled the next morning at the plantation of Mr. Radford, with arms (knowing they were drove through Distempered Stocks), and offered him the following terms, which had been offered him by us before he moved his cattle from Hanover: which was, to buy them and sell him cattle clear of all distempers, or to exchange them in quantity and quality, or to destroy them and let him take the course of the Law on us. But Mr. Radford chose to exchange them by the valuation of Col. Randolph and Capt. Lightfoot, both chose by himself, in consequence of which bonds passed from him to us and from us to him, under penalties to meet on a certain day and make the exchange. But, to our great mortification and surprise, the first we heard from Mr. Radford was an indictment in behalf of the Commonwealth, including men who only called by, not living in the neighborhood, to negotiate business with one of us, which means he put it out of our power to defend ourselves on fair grounds, in consequence of which a judgment went against us for sixty pounds and costs, an execution for which is now in the hands of the Sheriff.

This being the Truth of the case, as will further appear from the knowledge of Col. Innes and affidavits which he has in possession, showing that we do daily experience the loss of our Cattle from the causes above cited (which causes some families almost to come on the parish that before lived free from want), we, your petitioners, hope and trust that you in your wisdom, with your Council, will consider the hardships we labor under. and that the small sum before mentioned, will be no object to the State, particularly when recovered from perhaps as good citizens as any, and not able to pay any money except their just debts.

ISAAC SHELBY TO THE GOVERNOR.

Feb. 15,
Kentucky

Since the date of my letter to your Excellency of the 18th of September last, I have received a second letter from Mr. Arthur Campbell on the same subject which was mentioned in the first. I submitted the information which I had received respecting the business to the consideration of the Legislature of this State at their last session, in consequence of which they passed an act empowering the Governor of this State to take such steps as he may judge proper for the permanent establishment of the boundary line between this State and the State of Virginia. I now deem myself the honour of transmitting to you a copy of that Act. The mode pointed out by that Act of doing the business by Commissioners seems to me to be the most eligible one which can be adopted, but if any other way which will be equally expeditious and effectual, and more agreeable to the State of Virginia can be suggested, I shall with pleasure consent to it on the part of this State.

As I consider the speedy establishment of this line a matter of consequence to the peace of both States, I must request that I may hear from you on this subject as soon as your convenience will admit.

I have, &c.

AN ACT CONCERNING THE BOUNDARY LINE BETWEEN THIS STATE AND THE STATE OF VIRGINIA.

Whereas it is represented to this present General Assembly that several persons from the State of Virginia have made encroachments on the territory of this State by entering thereon Land warrants issued by the Register of that State, and it is necessary that the Line between this State and the State of Virginia should be established so as to prevent any doubts in future respecting the said Line—

Be it enacted by the General Assembly, that the Governor of this State be, and he is hereby, directed to open a correspondence with the Governor of the State of Virginia, relative to the said boundary Line, and to appoint three Commissioners, if to him it may appear necessary, or to do whatever else may appear most proper for the permanent establishment of the said Line so as to prevent any doubts in future respecting it. And be it further enacted, that James Thompson and William Croghan

be appointed to ascertain the head of Green River, and then to run the North East Line of the Military Lands.

Last night I received a letter from Judge Griffin, which I enclose: By the proceedings which he requires of the man's swearing &c, we shall be deprived of our seamen. They will never be permitted to come on shore. If application was made to Coll. Peyton, of Fauquier, probably proof sufficient might be adduced to induce the Judge to issue a H. C.

The man's oath with the British cannot be admitted; it was tried in the case of Rayborn without effect, and with strong circumstances in his favor.

We have many vacancies in our Militia, and wish to have the law of last session to fill them up, as I think there is an alteration which effects the promotion of officers.

Capt. Street is dead; his place we are at a loss about, and could wish it to remain until some person could be fixed on, that would fill it with general satisfaction. This your Excellency and Council are empowered to do without recommendation, being a volunteer company.

SIR:

In consequence of a letter from Governor Brooke, I beg leave to inform you that I cannot direct a habeas corpus to issue unless the applicant, MacGeary, will make affidavit before the Mayor of Norfolk, that he is an American citizen, and that he has not voluntarily entered on board the British Ship of War the Resolution, but that he is detained by force on board the said vessel; together with such other proofs as he can adduce to support his petition to me.

A number of young Gentlemen of this place are very anxious of forming themselves in a company of Artillery, under the command of John Cowper, Esq'r. and have requested me to solicit your Excellency, to furnish them with two field pieces for training. In this they are the more emulous, as they have established a company in the Borough, which is furnished with two pieces and have made good progress in training. These two Regiments of this county have not as yet any Artillery Corps, and by granting to this intended Company two small levelling Pieces, (for which I will be responsible) it will greatly add to our Military complement. I wait your answer, and if they can be had, the recommendation for the officers will be sent up.

I received your Excellency's Letter respecting the purchase of two acres of Land for building houses for the reception of the goods and accommodating persons who are under performance of quarantine. I have two places in view, but have not yet seen the owners of either. I shall endeavour to purchase one of them, but suppose three or 4 acres would be better and not cost much more than two.

I'll thank your Excellency for the Law, as these houses are for a permanency. I suppose they ought to be built of good materials, and comfortable for the sick, and the Warehouse strong and safe. In my opinion they will, in course of time, save the State much expence, as there will be no occasion to hire boats; the person who resides at the place will be sufficient guard, and the pilots now having a reward for bringing the vessels too, will prevent the necessity of boats. I shall with pleasure attend to the business, and should be glad to have instructions early respecting the houses, as this is the season for engaging timber, &c.

The Account and Vouchers for the Pay and Subsistence of the Militia, Pay of the Scouts, and Incidental expenses for the Protection of the Frontiers of the State of Virginia in the year 1795, transmitted by your Excellency to this Department on the 26th of January last, as mentioned in your letter of that date to the Secretary of War, have been under examination in this Office, and are now adjusted. The sum appearing due is five thousand five hundred and sixty-one dollars and ninety-eight cents, differing from that stated by Mr. Pendleton, one hundred and sixty-seven dollars and fifty-four cents, owing to sundry deductions as will appear by the enclosed statement. It may be necessary to mention that the above difference, principally arises on account of their claims for services in 1793 and 1794 being rejected; for it was understood that the last settlement with the State of Virginia, for the Pay &c., of her Militia in the Protection of her Frontiers, included all claims of that nature to the latter end of the year 1794, and it would be now very improper to have to revise or re-examine that settlement, which must be the case, if charges are produced that should have been brought forward previous to that settlement. many charges in that account, although not properly authorized or vouched, having been admitted under the idea that it was to be a final settlement up to the date above mentioned.

It will be necessary that you draw an order for the amount now due, which will be immediately paid on your authorizing some person to pass his receipt for the same.

In conversation which I had with the Honorable Colo. Burnley relative to the arms which I contemplate to make for the public, it appeared that specific proposals are expected from me; to make which I am under difficulty, because the honorable Board has not furnished me with a pattern to operate as a rule, nor am I informed of the length and quality which will be required.

Colo. Burnley says that the intention is to have such arms made as those of the United States, which probably is to receive a ball of 18 to the pound; upon this opinion I shall endeavor to form an estimate calculated to execute the Guns essentially in the very best manner.

Supposing the Barrel to be 3 feet 8 inches in length, the Bayonet one foot 5 inches in the blade, a double bridle Lock of the best construction, neat Brass Mountings, Steel Ramrod, neatly Stocked of Black Walnut, a

Cartouch Box suitable to contain 24 rounds, with neat Black Leather Belts, mounted with Brass Buckles, complete; wiper for the pan, and picker for the touch-hole; as well finished and as good in quality as those of the United States.

1796.

Richmond

Yet the Hon'ble Executive may vary this in any respect, grounding their ultimate decision on future information and the principles of this assumed estimation.

That is, for every Gun and accoutrements of the above description, the Band whereof has been duly proved with double charge of powder and ball, in presence of two men for that purpose commissioned, and delivered in cases or chests of Twenty Stand each; to be allowed the sum of Twenty Dollars for each Stand. That I shall have four months allowed to prepare the machinery, procure hands, and fix for the business. After that, to deliver in the course of the next three months at least 750 Stand; in the next three months at least 1,000, in the next three months another 1,000 at least, and in the last three months the residue of the 4,000 Stand, making, in the whole time, sixteen months after the date of the Deeds of the Contract. That on my giving a sufficient security on Lands and Slaves (to be ascertained by commissioned appraisers) to double the amount, the Hon'ble Executive advance me one-fourth the sum contracted for, and that hundred stand, or equal quantity which I shall deliver, to be entitled to receive at the rate of Fifteen Dollars per stand, leaving in reserve at the rate of Five Dollars per Stand, to go in part discharge of the money advanced, and so on in like manner for every other quantity of one hundred or upwards, until the whole amount of the stipulated number of 4,000 Stand be delivered. With all due regard this hasty estimate is submitted to your Honorable Board by

W. WILSON TO THE GOVERNOR.

At the solicitation of Bernard Magnien, Nathaniel Cooper, and John Brookes, John Cowper, Jr., Robert Shelton, and Thos. Emmerson, I take the liberty of naming them as proper gentl'n for officering (as they stand named) two companies of artillery in this place.

March 27,

The three first named gentlemen already command a company denominated Grenadiers, but they and their whole company are very solicitous that your Excellency will indulge them to enter the Artillery Corps by commissioning them therein. This request is the more expedient, as Capt. Magnien and several of his men are experienced in the duties of that Corps. Mr. John Cowper and his officers (if commissioned) will, I presume, soon make up their quotas of recruits.

I am directed by the Inhabitants of this place to transmit to you the inclosed paper. From it it would appear that some person seems determined on the destruction of the Tobacco Warehouses of this Town, to protect which a guard has been out every night since the attempt was made, and one will be continued in hopes of discovering the perpetrator of this inhuman act.

It appears that Mr. Jefferson is indebted to the State on an account he settled with the Auditor in Dec. 1789, £1,934 3-6. J. P. wrote to him on this subject while he resided at Philadelphia, and received for answer that his private papers were all at Monticello, and promising to settle the balance on his return to Virginia, since which S. P. has not reminded him of it. J. P. wishes however that the deduction which Mr. Jefferson proposes of this sum from the claim of Grand & Co., may be considered by the honorable Board as conditional for the present, having a faint idea that Mr. Jefferson talked (at the time of the settlement above mentioned) of balancing the amount by Expenses or Comm's for some public Agency. I will write Mr. Jefferson now and have an explanation and final settlement with him.

T. H. MACON TO THE GOVERNOR.

Agreeable to the directions of the Executive, I have examined the ordnance of the ship-yard and find there are only two 36-pounders and about half a Ton of cannon Ball of different sizes. It has been suggested to me that there was a large number of Balls and Bomb-shells which has been taken away and carried off by several disorderly persons in course of two or three years past. The cannon are spiked up, but independent of that they appear to be good pieces and worth attention. I think it would be advisable to have them taken care of as soon as it can be done with convenience, for they are now exposed to every high Tide, which will tend to injure them very much if they remain in the same situation any length of time.

Besides the 25 Hogsheads of Tobacco that were saved from the fire when Dixon's Warehouse was burnt, 22nd of last Inst., there was a quantity of loose Tobacco, from which the casks were burnt, taken from the flames by some persons in consequence of assurances from us that they should be paid for it. We estimate the quantity to about Ten or Twelve Thousand lbs., and wait for the orders of the Executive respecting its Disposal—viz.: whether we are to purchase casks and prize it up, and when prized whether we are to sell it at public Auction and account with the Treasurer for the money. There are also some articles of less consequence rendered useless here by the fire which belong to the Commonwealth, as the mettle of the standard weights and Iron articles of different kinds which might be sold. We are very desirous to have some instructions respecting the persons who saved the loose Tobacco above mentioned.

The Direction of the James River Company have made requisitions on the holders of shares generally for the subscribed Loan under an act of the General Assembly at their last session of ten Dollars, payable the 15th day of May next, and a like sum on the 15th day of September ensuing. The State will have to pay the above on between 260 and 270 shares. Josiah Vick, William Hines, and Edmund Tyler, Gent'n, were recommended to the Executive as Sheriffs for the county of Southampton in July, 1794, the recommendation forwarded to Richmond, and a commission received by the Clerk, who handed it to Josiah Vick; but Josiah Vick failing to give bond within two months, a certificate was sent under the signature of the Deputy Clerk to the Governor of his refusal, by the mail from Smithfield. Another commission was sent by the Executive, directed to William Hines, Gent'n, bearing date Nov. 26th, 1796; but he also failing to give bond in two months, a second certificate was sent to the Executive by the mail from Smithfield (under the signature of the Deputy Clerk) of said failure. "Inclosed you have the Bill of Lading of three large cases marked SV, containing the statue in white marble of General Washington, scuttled by an eminent artist of this place agreeable to the orders he received from Mr. Thomas Jefferson whilst our Minister in this Country. My next will cover my account of expenditures for having this statue transported from hence to Havre, the packing and shipping of it."

You have inclosed one of the Bills of Lading, which will show the freight and primage, and by this Post I have desired my friends Plumsted & McCall to pay all charges and ship the cases to Richmond, which I presume will be agreeable. We are therefore induced to trouble the Executive with a request, that permission may be given the Treasurer to pass a Receipt, so as to enable us to obtain the warrants from the Register and take a deposit in stock, to secure the pointed payment of the money at the expiration of eighty or ninety days, which would be a great convenience to us, and we trust would not be any disadvantage to the Commonwealth. A great proportion of the money in the public Treasury at this time is in Bank Notes, which very few claimants can be prevailed on to receive in payment, so that we shall in a short time find it extremely difficult to satisfy the public creditors.

I would therefore submit to the consideration of the Honorable Board the propriety of requesting Gentlemen Merchants, and others in whom we can confide, going from time to time to Philadelphia, to take each three or four thousand dollars Bank Notes and exchange them for Gold. Such a sum in Gold, I apprehend, may be brought on their return without much inconvenience and scarce any risk. If something of this sort cannot be done, it will be absolutely necessary to send a person to Philadelphia on purpose, which will be attended with considerable expense as well as risk if the whole sum is to be brought at once.

This day came Alexander Teubeuf before me a Justice of said County, and made oath upon the holy Evangelists of Almighty God, deposeth and saith: that on the day of the election held for Representatives in said County, in the year one thousand seven hundred and ninety-five, that two men passing by the name of Brown and Barrow, came to the house of this deponent's father, and after being invited and partaking of dinner, and after staying some time and loitering about, taking the opportunity as the father of said deponent turned his face from them, one of the said men (which was Brown) gave him a stroke with a gun that he had in his hand, and the cock of the lock sunk appearingly through his scull which sunk him motionless, and in a short time expired—the foresaid not sufficing their fury, with an attempt they further proceeded to murder the whole family, and fell upon the said deponent with a club, and after receiving several wounds, made his escape out of the house, and Miss Drushane at the same time dangerously wounded.

A servant maid attempting from the alarm to cross the river got drowned, and also the house being robbed and the trunks broke open and plundered, and this deponent further saith not.

ISAAC SHELBY TO THE GOVERNOR.

May 6

I have been honored with your Excellency's letters of the 9th and 26th of January last.

By a letter addressed to you on the 15th day of February, I informed you of the steps which had been taken by the Legislature of this State respecting the boundary line between this State and the State of Virginia.

As I find by your letter that the Executive and Legislature of each of these States think alike on this subject, I have appointed William Murray and John Coburn, Esquires, as Commissioners on the part of this State, with full powers, in conjunction with the Commissioners to be appointed by the State of Virginia, to ascertain and establish the boundary line between the two States, in the manner directed by the Act and the Resolution of the Legislature of those States.

You will be pleased to direct the Virginia Commissioners to open a correspondence with those from this State on the subject, that they may be able to make the execution of the business convenient to both parties.

1796.
May 6

I shall with pleasure co-operate with you in any other measure that may be necessary to carry the intentions of the two States fully into effect.

The Resolution of the General Assembly of Virginia, stated in your letter of the 9th of January, evinces their regard to the other States in the Union, and is in my judgment founded in good policy. The intercourse between the States is such as may daily make it necessary not only for the private citizen but for the Executive of each State to be fully informed of the local laws and regulations of the sister States.

I shall with pleasure receive from you the present Virginia Code, and exchange with you annually the laws which may hereafter be enacted in the two States.

I now do myself the honor of transmitting to you all the Acts of the Legislature of this State which have been enacted into Laws since our separation from the State of Virginia. They, with the Laws of Virginia which existed prior to the separation, constitute our Code, as our Constitution declares: "All laws now in force in the State of Virginia, not inconsistent with this Constitution, which are of a general nature and not local to the eastern part of that State, shall be in force in this State until they shall be altered or repealed by the Legislature."

I have, &c.

ALEXANDER SMYTH TO THE GOVERNOR.

I am informed that the question respecting the boundary between Virginia and Kentucky has come before the Executive. As the enclosed papers may throw some light thereon, I transmit them to you under a hope that no step may be taken that may injure those who have decided for themselves that the Lands lie in Virginia, but that they may, if necessary, have the privilege of an unprejudiced investigation. I will only add that two of the most eminent Lawyers of our State have given their opinions in her favor, to-wit: Mr. Marshall and Mr. Wickham.

It is in my power to appropriate a considerable sum in Treasury Land Warrants, and as I expect to have a final decree for a considerable sum at the next Court of Appeals, I am now inclined to receive from the public a great proportion of that demand in Land Warrants, and I will give Bond with security to the public, in case I do not prevail in that demand, to pay the amount of the warrants. I presume the advantage which will be derived to the public by this, may induce the Board to take it into consideration. The quantity which I want is at least 500,000 acres.

I am here the Engineer for the Potomac Company. A variety of characters are employed, who of course are not of the best description. Riots and quarrels are now become so frequent that the exercise of legal power has become absolutely necessary—not only to cheque, but to secure offenders of the public peace.

For these considerations, I respectfully offer my services as a magistrate. Should you, sir, please to appoint me, I shall uniformly pursue that conduct that makes the appointment respectable.

I have no interest in or motive for this application, but a wish to have the power given by law to preserve the peace of this place and neighborhood.

WILLIAM HUSTON TO THE GOVERNOR.

The petition of William Huston, humbly sheweth: That while your petitioner had the charge of the Public Goal in the Washington district, there was delivered to his custody and care several prisoners, charged of Capital offences, namely: Pane, Roberts and Best of being accessory to the murder and robbery of Mr. Tubuff, and John Boyd of horse stealing; which persons on the 30th of July last, broke Goal and made their escape. Your petitioner being impressed with the necessity of making an immediate and speedy pursuit, advertised a reward of twenty dollars for the retaking and delivering each of the prisoners at the Public Goal. In consequence of which, the above named prisoners were taken and safely kept until they were brought to trial, and the rewards paid agreeable to advertise-ment, as will appear by the receipts inclosed.

1796.
May 31

Your petitioner would have stated the matter much sooner to the board, but from a mistaken opinion that the District Judge had cognizance and jurisdiction, and would give relief and redress; but finding it otherwise, your petitioner prays that your honorable body would direct the money so advanced to be reimbursed, or give such relief as you in your wisdom may direct, and your petitioner as in duty bound shall pay.

HENRY BOWYER TO THE GOVERNOR.

A considerable number of men have been engaged for the Troop of Cavalry ordered to be raised in this county, but I apprehend it will be impossible for them to procure swords and pistols, such articles not being to be had in this Country. Perhaps swords and pistols might be obtained from the public magazines upon bond and security given for the safe keeping and return of the arms received; if so, Captain Beale (the gentleman recommended from this County), will willingly do it. I imagine forty swords and as many pistols, with what the men will be able to furnish themselves, will be sufficient. The officers here wish very much to be informed upon this subject.

JOHN PIERCE TO THE GOVERNOR.

June 20,

At the last Court held for this county I was one of the attending members, and was opposed to the nomination then made respecting the office of Sheriff, as by the law, in my opinion, the Court were confined to nominate only three persons, but I was not opposed to the alteration of the system of nomination heretofore pursued, having always considered that system totally repugnant to every principle of Justice. The last three Gentlemen which stands nominated by the last Court were Magistrates

before the Revolution, and the whole of them have (or might of right) enjoyed the benefit of the Sheriff's office. Two of them, to my knowledge, have done so, and afterwards returned to their magisterial office, several years before any of the other members now in office were in commission, consequently were justly entitled to that preferment again before the Junior Magistrates. In the year 1786, if my memory does not deceive me, a General Commission for Justices of this county was issued, comprehending several who were in office before the Revolution as well as those nominated under the present form of government. Under that Commission, the presiding member of right might have claimed the office of Sheriff, and after him every other member in rotation. However, the nominations were continued on the old system—that is, to nominate such as had never held the office of Sheriff—and Mr. Wilkin-son is the only person now living that is comprehended in the Commission above mentioned, but has or might have enjoyed the benefit of the office of Sheriff.

From a view of the account current of the expenditures at this Post, it will be seen that the Superintendent is necessarily obliged to advance a considerable sum of his own money from quarter to quarter, in order to carry on the Publick Business. The old Cartouch Boxes, formerly reported by me to be capable of being repaired and rendered fit for use, remaining still in that unrepaired state, and the Swords being without Scabbards or Belts, I wish the advice of the honorable Board respecting the mode I amr to pursue in order to have these articles placed in a state of repair.

It seems to be the intention of the Law that the Light Infantry companies of this State should not only be better Trained than any other troops, but that they should be better provided with arms, &c. Since the death of Christo. Roane, there has not to my knowledge been a Superintendent of Quarantine for this Port appointed; so that until such an appointment shall be made, I don't see how the execution of the Quarantine and Health Laws of the State can receive the aid of the Revenue officers agreeably to the act of Congress *Relative to Quarantine*, passed the 27th May last. For by this act and the instructions from the Treasury Department of the United States accompanying it, "I am to co-operate with the State authorities in giving full effect to any regulations established by State Laws applying to the objects mentioned in the *act relative to Quarantine*."

How far I should be justifiable under this act, and these instructions, to exercise in the present case the powers vested in a Superintendent of Quarantine under the Laws of Virginia, especially under the 2nd and 3rd Sections of the Act passed the 19th of December last, respecting Quarantine, I will not pretend to say, but feeling an extreme unwillingness to exercise any authority not clearly given to me by Law, I shall wait the decision of the Executive thereon.

It appears to me proper that this vessel should either be compelled to return to Norfolk or its vicinity, or prevented coming so far up the river as to have communication with the vessels of this Port. Yet I do not find any clause in the aforesaid Acts, or in the Acts respecting the Small-pox, which would warrant the Superintendent of Quarantine, if there were one here, in giving such orders.

My duty, as well as my interest, leads me to inform you that in my opinion the Direction of that Company has been very unprofitably managed, and do think that an alteration of the Directors ought to be made at the ensuing election.

The votes of the States have always had great influence, and I mean by this Letter to solicit the proxies of this. Should I be entrusted with them, I flatter myself, yourself and the Council have confided enough in me to believe that my best endeavors will be used to obtain the most fit men for that important office.

I should endeavour to select men not only Honest, Industrious, and Attentive, but men, too, of understanding and such as were interested in the progress of that work, for I think it is the interest of some of those men in the Directorship to retard it. A majority of the Directors at present reside in Alexandria, and nothing can be more clear than that the competition of the navigation will tend to reduce the commerce of that Spot, for the Boats that bring the produce cannot navigate the river so low down. The Alexandrians have obtained an act of Assembly for a Turnpike road from the Great Falls, which is a proof that they wish the navigation to stop there, to which place it is now complete.

I am sorry to inform your Excellency that a resignation almost generally, has taken place with the officers of the 7th Regiment. July 30,

The confusion has arisen from the want of commissions to fill up vacancies, many companies not having more than one commission officer in it, and others not one. In order to fill up these vacancies, the Court about nine months ago entered up an order of recommendations and ordered the Clerk to transmit it to the Executive. The other day I received from Mr. Wood a number of Comm'ns, among which there were but few of them signed. I tendered those that were executed, but being withheld so long, they took it in their heads that they were not the free choice of the Executive and refused.

We have been and are very healthy as yet, having lost only one man with the least appearance of malignant fever this year. A vessel is arrived from Cape N. Mole, who lost a man at sea, from every appearance with the disease of that place, as the Captain says he threw all his bedding and cloaths overboard. I have detained her below; the rest of the crew are well, and the man has been dead 18 or 20 days. She has hides on board, which I conceive are dangerous, and have directed them to be well aired; but I think coming from places highly infected they ought to be prohibited.

Your favor of the 4th ultimo I had the honor of receiving on the 8th, and beg leave to observe that I made it my business to call upon those Gentlemen who had resigned, as well as those who had declined their commissions in the 7th Regiment, and explained to them the cause of their not receiving the commissions in due time—viz., neglect of duty in the clerk of our Court, of which they are perfectly sensible and satisfied.

But as some of them are about to remove from the county, a new arrangement will be necessary, for which purpose I will call a meeting of those in commission and select those most fit and necessary to complete the 7th Regiment, and lay before our next Court for its nomination to the Executive, and will warn the Clerk against a second breach of his duty. At the pressing solicitation again of Capt. Bernard Maguien, I am constrained to repeat my wish (if there is no impropriety in it) that the Executive will be pleased to turn him, his officers (Nathaniel Cooper and John Brooks), and his Company into a corps of artillery. To all persons to whom these presents shall come:

I, John Nivison, Notary Public for the District of Norfolk, by lawful authority, duly admitted and qualified, do hereby certify and make known that Capt George G. Hussey, late master and owner of the Ship Eliza, personally appeared before me, and being duly sworn on the Holy Evangelists of Almighty God, deposed and said, that he is a native of the State of Massachusetts, and a citizen of the United States of America; that he took in a cargo of Salt at the Isle of May, with which he was bound for Norfolk; that the said ship and cargo being bona-fide his property. That on the 16th of August when about three miles distant from Cape Henry, several guns were fired at him by the British Frigate Thetis. He shortened sail. The Frigate came up. He was hailed when it was said on board the Frigate that a boat should be sent along side the Eliza, that a boat was accordingly sent, when the Deponent was desired to go to the Frigate with his papers. He did so; after Capt. Cochran had examined the papers, he observed that he found the Deponent had bought her in Holland; that she had been a prize ship illegally taken, and that as Great Britain did not acknowledge the French Republic, he should consider her a prize to him, that he accordingly ordered the crew from the Eliza, to be brought to the Frigate, and sent a crew with a prize master on board the Eliza, permitting the Deponent to remain on board; that the said Frigate Thetis and the ship Eliza, are now in Hampton Roads. He having been thus deprived of his property.

GEORGE G. HUSSEY.

Wherefore I, the said Notary, at the request of the said deponent, did and do hereby solemnly protest against the said Captain Cochran, commander of the British Frigate the Thetis, his officers, the crew, and all others concerned in the capture of the said Ship Eliza, and also against those or the Government from which he, the said Capt. Cochran, derives his authority, for all the losses, costs, damages, and expenses, suffered or to be suffered by the said George G. Hussey, owner of the Ship Eliza and her cargo, by reason of the premises.

I am very solicitous that the business should be closed as soon as possible.

The money which the Executive sent by me for the Scouts who were in service last year is delivered to them some time past; but the Scouts who were ordered out for the protection of Lee county, have not as yet had any allowance for their services, through their own neglect in not having pay abstracts forwarded to the Executive. Notwithstanding their claim comes late, I make no doubt but that it will appear just that they should now have a compensation for their services as specified in the abstract; and I think the bearer William King would be a safe and convenient opportunity to transmit the money to them, or such other person as you may think proper to entrust with the distribution of the same.

At the last June term in the county of Washington, Mr. Sam'l Edmiston was by the Court recommended to the Governor for our next Sheriff, as being the next Senior Justice, agreeable to the usage and custom which has prevailed time out of mind; but the office is claimed by Col. Campbell, who was a Sheriff in the county of Washington since it became a county, and now thinks he is again entitled to the appointment from his acting again as a Justice of the Peace after his Sheriffalty had expired, before Mr. Edmiston was qualified as a Justice of the Peace.

The accounts of a malignant fever from Charleston are very alarming at this time here. I have directed the look-out boat to examine the vessels coming from thence, and shall be glad of instructions from your Excellency how to proceed in case of any arriving with sickness. The law contemplating only that the vessel should be detained and information sent to the Executive, which would be attended with expenses and delays, to prevent which, if a discretionary power was lodged (as in the case of the W. Indies) with the Sup't of Quarantine, it would answer all purposes. Mr. Clemison, a merchant of this place, died there with the disease, which from accounts rages to a great degree. I should be glad to hear from your Excellency respecting the purchase of a place and building houses for the accommodation of the officers attending Quarantine. The money received from Major Lindsay lies ready, but the exorbitant prices demanded for building, has prevented me from using it or taking the land, and were I to venture an opinion on it, I think it would be best to take at least fifty acres, as at some future day it may be necessary to erect hospitals for reception of the sick on it, and a burying ground is exceedingly wanted, as a trespass is committed in every instance of interring the dead from the vessels. We have only had occasion for a few vessels to be detained as yet, and only two persons have died, which I had interred on my own land.

We are remarkably healthy here, and the crews of the vessels which have arrived have also been healthy.

The people employed in the look-out boat have called for wages, but I did not choose to pay them out of the money received for the purchase of land, &c., without your approbation. Be pleased to say whether I shall make use of any of that, or draw for their pay.

the Boundary Line betwixt Virginia and Kentucky. I have lost no time in dispatching a messenger to Kentucky by the way of Gen'l Martin to fix upon the time and place of meeting with the Commissioners of that State, which I proposed should be on the first of October next as near the junction of the three States as accommodations would admit and proceed westwardly. A suitable person for this purpose could not be had for less than two dollars per day, he finding himself and horse. I am informed ready money will be required for everything we stand in need of in the country where we are going. If my colleague has made no draft for these expenses, the Executive will please deposit with Col. R't Gamble a sum which they may judge necessary, and I can receive ye money from his partner here. I can name no sum, as I am a stranger to disbursements which may be necessary.

J. DAWSON TO THE GOVERNOR.

In compliance with the wishes of the Executive I have made inquiries, with that anxiety which the importance of the subject merits, respecting the arms wanted by the State, and have good reason to conclude that the idea of procuring them on the Continent must be relinquished, and that we must look to Europe for the supply.

Sept. 11,
Boston

The high price of labour and of everything here with us, and wherever I have been, makes it impossible to get them on the terms contemplated by the Legislature.

James Swann, Esq., of this place, who has for some time directed the fiscal arrangements of the French Republic within the United States much to their satisfaction, is willing to enter into a contract for the delivery of them in one and two years, provided it can be extended to the whole quantity contemplated by the law, and the price anyways in proportion to that in Europe and to the difficulty and risque of transportation.

This sum I am persuaded will be much below any at which they have been offered or can be procured on the Continent, and I know no person so well suited to transact this business as Mr. Swann; his responsibility is ample and undoubted, and his knowledge of and advantages in Europe will insure punctuality and good arms. I therefore recommend to your Excellency to open an immediate correspondence with him on the subject, and as I am just about to return to Virginia, I shall expect to meet your letter in answer to this in Philadelphia. Shall with pleasure comply with the wishes of the Board, and shall think myself happy on being in the least instrumental in procuring for our citizens what I deem so essential for all who know how to value and defend their rights.

With much, &c.,

J. DAWSON TO MR. SWAN.

On what terms and when can you furnish the State of Virginia with four thousand musquets of the following description, which quantity will be wanted annually and the payments for them pointed?

The length of the barrel three feet 8 inches, and to carry a ball of the size of 18 to the pound.

The bayonet one foot 5 inches in the blade.

A double bridle-lock of the best construction—neat brass mounting and steel ramrod, to be stocked in black walnut.

The cartouch box to be suitable to the musquet and to contain 24 cartridges, with neat, black leather belts mounted with brass buckles, and a brush-wiper for the pan, and picker for the touch-hole.

After writing my letter of this date to your Excellency I thought it proper to send a note to Mr. Swan, a copy of which, with his answer, I do myself the honour now to enclose.

These will explain the state of the business clearly, and should the proposition meet with the approbation of the board, the contract may at once be formed at Philadelphia, where a person is empowered to act on behalf of Mr. Swan, or a correspondence may be opened, or my return—which will be soon, may be waited for.

I have, &c.

Boston, 12th Sept., 1796.

HON. JOHN DAWSON, Esq.:

Sept. 12

Sir—I received your propositions for supplying the State of Virginia with 4000 stand of arms, Bayonet Belt, and Cartridge Box for the space of five years, making in the whole 20,000. In answer, I will undertake to supply the whole within two years, deliverable 10,000 each year, say in 1797 and 1798, at twelve dollars each, payable on delivery at Richmond, or at eleven Dollars and a half, if half the price be advanced, on my giving undoubted security at Richmond. The musket to be compleat as you describe it—say the barrel to be three feet eight inches long, to receive a ball of eighteen to the pound. The Bayonet to be one foot five inches in the blade, a double bridle lock of the best construction, neat brass mountings, and a steel ram-rod to be stocked in black walnut. The cartridge-box to contain 24 cartridges and every way suitable to the musket, with neat, black leather belts mounted with brass buckles, and a brush-wiper for the pan and picker for the touch-hole.

But that no misunderstanding may arise, I propose that three or four muskets be sealed with the seal of the State and my seal, one of which to be lodged at Richmond and the other to be delivered me as samples, and I condition it that in case so many black walnut stocks be not found, that any other wood of equal strength and goodness be adopted.

1796.
Sept. 12

The price I have fixed, calculating everything, will leave a bare mercantile profit, and I presume the State does not expect to be cheaper furnished. And I engage further, that all the arms shall be proved and none received but such as stand the proof, and this again is an additional charge to me of 20 p. cent. at the manufacturers. As you leave this to-morrow or this day, I propose sending powers to my agent at Philadelphia to contract with you in my behalf, provided the Executive at Richmond approve of these conditions and give you authority to contract with me.

I am very respectfully, &c.,

JAMES SWAN.

I mean that the charge or expence of proving the arms at Richmond shall be at the State expence.

THOS. NEWTON TO THE GOVERNOR.

Your Excellency's favor I duly received and will attend to your instructions, but I apprehend after all I shall be obliged to have recourse to jury to condemn some proper place for the buildings; but no time is lost yet in it. The excessive price of carpenters is such that I think it had better rest awhile, as they are now on a poize, and materials will also fall, that good buildings I expect may be erected in the spring for what very indifferent ones could be now. The money lies ready, and I have tempted many with an advance but without effect, unless double the value is paid for building and the land. The Collector and all the officers of the General Government have instructions and have offered me their assistance if I should want it. The Revenue Cutter is laid up unfit for service. She might have rendered us some benefit.

Sept. 27,

By Mr. Parry I received a letter from the Kentucky Commissioners acceding to our proposal to meet at Cumberland Gap on the first day of October next, and informing us that they had appointed Buckner Thurstont, Esquire, a third Commissioner on their part. General Martin and myself have on our part appointed Creed Taylor, Esq'r, of Cumberland, who we doubt not will be approved by the Executive. Gen'l Martin has gone on to make the necessary arrangements for our accommodation while in the woods, which I understand will not be less than forty days. Mr. Taylor and myself are thus far on our way to the place of meeting.

We are advised from the height and steepness of the Rocks on the summit of a considerable part of the Cumberland mountain it will be impossible to run along the top of it. At such places we shall be compelled to ascertain the distance and course to run as near its base as we can without marking. In such parts no dispute can ever arise as to the boundary as run. Indians have seldom, if ever, been known to cross at them. Wherever the boundary may be doubtful and the mountains are accessible, we propose to run and mark. At present we are unable to form any estimate of the expenses attending this business. For part of our provisions we must depend upon the forest. We are advised there

will be ten or twelve persons with the Commissioners from Kentucky. Our number will probably not be less.

M. HOUDON TO THE GOVERNOR.

The 8th of July, 1785. it was agreed between his Excellency Mr. Jefferson, in the Virginia's State's name, and me, that I should execute in marble the statue of Mr. Washington for the sum of 25,000*l*. French money, to be paid in three times. At the period of the last payment, at the end of 1792 I received 9,000*l*., which would formed the whole sum I ought to received if it had not been paid in assignats, who, losing in that time 60-100, only give the value of 5,625 silver, to remain due thereof 3,375.

Oct. 7

By a letter to his Excellency Mr. Morris, I immediately claim against this sort of payment. I inclose him the answer Mr. Grand make for him to me. Mr. Morris and Mr. Short didn't receive answer from the Virginia State to the several letters they wrote on this account. When at the end of 1795 his Excellency Mr. Monroe ordered the Statute's departure, I renew my claim for being paid of the sum of 3,375, but neither the Minister or the Consul wont take any determination on this object. Them and me wrote to the Virginia's State on this account, but again no answer. Now I adress myself directly to you, sir, and I hope you will find my request as right as did any of the three Ministers above mentioned, and that I shall be honored of a satisfactory answer.

There were circumstances exhibited in this case, which induced a disposition in the Court to set aside the verdict and award a new trial, but the objection in point of Law to a venire de-novo summoned under the authority of the District Court, presented an insuperable obstacle to this mode of proceeding.

The disposition of the Court was produced from some part of the Testimony as delivered by the prosecutrix, which had created doubts in the Court whether the facts necessary to constitute the offence had been fully established.

We therefore recommend the prisoner to the Executive, as a person to whom if they think advisable, their pardon may be extended.

Nov. 15

The Court upon the testimony introduced, declared the prisoner guilty and sentenced him to be hung. This petition represents that the principle evidence brought forward was a confession of the prisoner of guilt of the crime charged. In consequence of the motives which seemed to prevail with the prisoner, inducing him to make this confession, impelled by the apprehension of the cruelty which an inhuman, revengeful master would continue to inflict, (to which death alone promised relief,) these petitioners ask for the pardon of the prisoner.

Counter petitions are also found expressing conviction of the guilt of the prisoner, and grave apprehensions of the danger to his master and several others of the neighborhood by his being again set at liberty. Let-

ROBERT PORTERFIELD TO THE GOVERNOR, OR JAS. WOOD, LIEUTENANT-GOVERNOR.

Permit me to represent to your Excellency that the officers appointed to command the artillery at Staunton have been extremely assiduous in endeavouring to raise their company, and have so far succeeded as to have a considerable proportion of their men in uniform, and could the commanding officer (who I think well calculated to command a company of artillery either in time of peace or war) be furnished with the *Field Piece* contemplated by Law, I have no doubt that the Comp'y would be complete in a short time, and the emulous disposition shewn by the officers afford the most sanguine expectation; that a knowledge of their exercise and duty would very soon be acquired, without which that part of the Militia Law which relates to artillery is rendered nugatory. Therefore, if there are any Pieces of artillery at the disposal of the Executive I hope they will direct one to be sent on to Staunton for the use of the company aforesaid; and altho' it may not be within my particular province to make an application of this kind, yet as I think it would tend to the Public good, and being desirous to see complete the several Corps within the Brigade District which I have the honour to command, I can with the more confidence rely that the representation I have made will not be thought impertinent. I would also beg leave to remind the Executive that the rules of discipline and copies of the Militia Law have not yet come to hand for the 7th Brigade.

Dec. 1 When I contracted to supply the volunteer Militia on the Southwestern frontier of this State for the years 1792, '93 and '94, I was assured that punctuality would be observed on the part of the public in making the advances and payments promised to me. Under this impression I engaged and did for a length of time supply these troops either out of my own purse or credit, both of which were extended for their benefit. Several applications were made by me to Government for the money they had promised, and frequently, notwithstanding the strong assurance given me, I was disappointed. My contract was that, if the public did not always pay me agreeable to our contract, I should be compensated for the disappointments, the time lost, and money expended in going to the seat of Government for it. At four different times did I attend, with much fatigue and expense, and was disappointed each time, from which circumstance I am a considerable loser. As I conceive it was within the power of the Executive to redress me and make me the compensation promised, I do now apply to them with a hope of success. To support the account which is herewith sent, I can produce a sufficient document, and Gen'l Lee, the then Governor, will confirm what I have said above with respect to my contract and the promise given me by the public.

IN THE HOUSE OF SENATORS,
Tuesday, December the 6th, 1796.

The House proceeded according to the orders of the day, by joint ballot with the House of Delegates, to the choice of three members of the Privy Council or Council of State to supply the vacancies occasioned by the resignation of two of that body, and the appointment of James Wood, Esquire, to be Governor or Chief Magistrate of this Commonwealth; and the members having prepared tickets with the names of the persons voted for and deposited the same in the ballot-boxes, Mr. Peyton, Mr. Preston, Mr. Birkett, Mr. Strother, Mr. Bassett, and Mr. Chinn were nominated a committee to meet a committee from the House of Delegates in the Conference Chamber, and jointly with them to examine the ballot-boxes and report to the houses on whom the majority of votes should fall.

Dec. 5

The committee then withdrew, and after some time returned into the House, and Mr. Peyton reported that the committee had, according to orders, met a committee from the House of Delegates in the Conference Chamber, and jointly with them examined the ballot-boxes and found a majority of votes in favor of Meriwether Jones, John Pendleton, and John Mayo, Esquires.

Dec. 20

Being called to the State of Kentucky this fall to examine into the situation of some lands given me for my services during the last war, in the course of the examination I found entered in the books of James Thompson, Surveyor of Lincoln county, a location by General Rogers Clarke of 101,920 acres of land, made the 29th of October, 1781, on behalf of this Commonwealth, by virtue of a balance of warrants remaining in his hands, which had been deposited with him by this State for the purpose of enabling him to recruit men to go against the Illinois. As the land remains in the situation in which General Clarke left it, I presumed the Government of Virginia was either ignorant of or had forgotten the location, and therefore took some pains to ascertain its real state. I inquired of Mr. Thompson, the Surveyor of Lincoln, what had been done with it; he answered that nothing had been done with it that he knew of, and that it remained subject to the disposition of Virginia. I inquired of George Madison, Auditor of Public Accounts for the State of Kentucky, whether the land had been listed according to the laws of the Commonwealth and was informed by him that it had not, of which he gave me a certificate, which, together with a certificate of the entry, is enclosed.

I have taken the liberty of communicating to the Assembly through you, the foregoing information, supposing that honorable body the most proper department of Government to receive it, as they can take such steps as are most proper.

With respect, I am, &c.

George Rogers Clarke, Brig'd'r Gen'l, in behalf of the State of Virginia enters 101,920 acres upon 182 Treasury warrants, five hundred and six ¹/₂ acres each, to be laid off in one or more surveys.

Beginning at the mouth of a creek at the head of the first Island in the Mississippi below the mouth of the Ohio; thence down the Mississippi to the mouth of Mayfield creek coming in at the Town of Clarksville; thence up said creek to the first Highland, bounded thence downwards by the Drowned lands of the Mississippi to the Carolina line, to extend eastwardly on the said line and up the creek began on for Quantity, so that the lands about the Borough of Clarksville shall extend at least eight miles from the river, except that distance should interfere with the Barrens entered the 29th of October, 1781.

Resolved, That the boundary line claimed and insisted on by the commissioners on the part of Kentucky, Beginning at the mouth of great Sandy creek and up the same to the junction of the main North Easterly and westward by the branches thereof; thence up the said North Easterly branch to the dry fork in the great dividing Ridge or mountain between the waters of Sandy and Tennessee near James Rorix's, in the Baptist Valley; thence along the said dividing Ridge or mountain south-westwardly thro' Cumberland Gap to Walker's line, which separates the States of Virginia and Kentucky from the States of North Carolina and Tennessee—is the true boundary line between the States of Virginia and Kentucky agreeably to the intent and meaning of the act "For the erection of the District of Kentucky into an independant State."

Resolved, That the General Assembly do approve the conduct of the said commissioners from this State in their endeavours to execute the business intrusted to them.

Resolved, That it is the wish of this State to adjust the Boundary between the two States in an amicable manner, and so as to do as little injury as possible to the citizens of either State.

Resolved, That the Governor be requested to transmit a copy of the above Resolutions to the Governor of Virginia as early as possible.

Resolved, That the Commissioners on the part of this State proceed no further in the business without the future direction of the Legislature, unless the Legislature of Virginia shall authorize their Commissioners to recede or compromise on terms deemed by them admissable on the part of this State.

Jan. 16,

Your favor of the 9th Inst, enclosing the Resolution of the Gen'l Assembly respecting the employment of an additional number of Artificers at this place, I have before me. In answer to which I have to observe, that we have already more artificers here than the present houses will accomodate comfortably; it will follow of course then that if we add to the present number of Smiths, we shall be under the necessity of erecting houses for their reception. I have calculated that the artificers now employed here, are sufficient to complete the whole of the public work in the course of the present year.

If this will embrace the meaning of the Gen'l Assembly in this resolution, it will be better to complete the work with our present number of hands, than to be at the expense of Building houses to receive others. It has been with great difficulty, I have collected the present number of Gunsmiths from the various parts of the State, nor do I know where others can be obtained.

I consider our present collection of Artificers at this place as a valuable treasure to the State of Virginia, if a manufacture of arms for Public use is contemplated. Now, Sir, if in the time which will intervene between the completion of the work here and the Establishment of the manufactory as contemplated by the Gen'l Assembly, those different characters should either establish themselves in their present occupations in the country, or betake themselves to other Public works, we shall probably at a future day be unable to command their services. I have suggested this idea to you Sir, under a confidence that if you think it worth the notice of the Public, you will treat it so as to render it conducive to its welfare.

In making this estimate I confine myself to the mere record of the Plots and Certificates, without paying any regard to the assignments and other documents belonging thereto. Under this calculation (which is at the rate of one hundred per week) it will employ two persons five and a half years to record and examine the said Plots and Certificates of Survey. reply to them; as I have been prevented from doing so by the late derangement of my household.

With respect to the land entered by Gen^l Clarke in the State of Kentucky on behalf of the Commonwealth of Virginia, the title appears from the documents furnished, to be at present merely inchoate, and from the length of time which has elapsed since any attention has been paid to it, I think it is to be apprehended that it will be necessary to combat many interfering locations, before it can be completely established.

To affect this, I conceive it would be most advisable to employ immediately one of the most eminent and astute attorneys in Kentucky to prosecute the claim, and vest him with competent powers and means to bring it to a speedy completion.

The Resolution of the General Assembly respecting the adjustment of the dividing lines and boundaries between this State and the State of Maryland, shall experience my particular attention, nor shall its object be delayed by a want of my agency to affect it.

Some time past I received a commission from his Excellency, Governor Brooke, dated the 11th of June, 1796, for the purpose of pursuing and apprehending the perpetrators of the murder of the unfortunate Mr. Teubeuf and family.

The commission by some means was detained after it was sent from the post-office a considerable time before it came to my hand. The other person named in the commission (Col. Cowan) declined serving on

account of an indisposition which rendered him incapable (as he thought) of supporting a journey of such length, and likely to be attended with hardship and fatigue. However, Col. Cowan appointed Lieut. Ward to act in his place, and I was happy in the appointment, knowing him to be a good young man and of approved integrity, though this change, together with the delay of the commission and preparing for so extensive a journey, prevented our starting till the time mentioned in our journal.

1797.
Jan. 27,
Russell Co.

Agreeable to my proposition to his Excellency, Governor Brooke, the 3rd of May, 1796, I have herewith enclosed a minute of our proceedings to which I refer you for further information, and hope it will meet with the approbation of Government; and as to compensation for our services we submit it to the proposition already made, and the sum that Government may think proper to allow us might be forwarded in a bank note or notes by mail to Abingdon.

I hope that Mr. Ward's serving instead of Col. Cowan will not be a matter of objection with Government, as I have every reason to know that he has faithfully discharged his duty as far as in his power, and we have only to regret that we have been unsuccessful.

I would esteem it a singular favor if your Excellency would please by some means let us know whether or not Government approves of our conduct in offering a reward to apprehend the murderers, and if they should be taken and confined agreeable to our advertisements whether or not we shall bring them forward.

I have taken the liberty to enclose one of the advertisements to your Excellency, to which Mr. Ward has set his name as an agent, as I conceived that two signatures were required, but provided it should not meet with the approbation of Government, Mr. Ward is willing to advance his part of the reward, provided the murderers are brought to condign punishment.

I can assure your Excellency that nothing could prevail with me to take such another journey, only what at first induced me, (viz) the honour of my country and the dignity of the State, as I had to expose myself to great hardships; the weather in those parts being ten degrees colder than ever known before, the effects of which I now feel in a disagreeable, lingering, disordering state which I despair of surmounting very soon.

the body and property of Francis Peter Teubeuf and family, and have fled and are now fugitives from the justice of that State—

We do therefore as Agents for the Commonwealth of Virginia, (in pursuance of the laws in that case made and provided) by commission bearing date the 11th day of June, 1796, signed by the Governor and sealed with the seal of said State, offer a reward of Five Hundred Dollars to any person or persons who will deliver the said John Brown (alias Bonds) and Richard Barrow to us, in the county where the murder was committed, or to the Jailor of said county, or any person or persons who will confine them in any jail in the United States, so that we can receive them into custody, shall receive a generous reward by us.

The aforesaid John Brown (alias Bonds) and Richard Barrow, are of the following description, to-wit: John Brown (alias Bonds) is about five feet eight inches high, a thick set strong made man, would weigh about 180lbs, black short curly hair, dark colored eyes, of a fresh comely complexion; appears to be a sober sedate man; he hath lost two toes, or one and part of another off one foot, it is said since he committed the aforesaid crimes; he hath a small scar on one of his cheeks, about the size of a grain of corn, and appears as if it were burnt; he hath a very remarkable scar on one of his legs on the inside of the calf; 25 or 30 years of age.

Richard Barrow is nearly the same height and age with Brown; slender built, of a pale complexion, disagreeable countenance, and down look; hath a scald head (it is said it is getting better,) and always wore a handkerchief about it; he speaks thick and fast, and appears of a rattling disposition, hath fair hair.

The aforesaid Brown and Barrow were apprehended in the last month of May, 1796, at the Illinois in New Design for the aforesaid crimes—and broke custody.

The above reward of five hundred dollars will be paid by us at Russell county court house in the State of Virginia, on the delivery of the aforesaid men.

Sealed with our seals and dated the thirtieth day of January, 1797.

The condition of the above obligation is such that whereas the above bound William Price, Sen'r, hath contracted with the Executive to make or cause to be made a fair record of all such grants and plats and certificates of survey remaining in the Land Office as are specified in a resolution of the General Assembly passed in the year 1794, requesting the Executive to call upon John Harvie and Charles Lewis to record the same, and which by law they were bound to have entered of record. Now if the said William Price, Sen'r, shall well and truly perform the duties required of him by the said contract as contained in the advice of the Council of the 25th of January, 1797, and shall safely return to the Land Office all such grants and plats and certificates of survey as shall be delivered to him from time to time by the Register, then this obligation to be void, or else to remain in full force and virtue.

The purport of the present is to inform the Executive of the situation of the Commonwealth's Tenants on the Tract of Land under my management, commonly known as Bristow's Tract. Their rents are in Tobacco. The last was so bad a year for it that they have (as is generally the case in these parts) failed totally in making it, and unless I can be authorized to receive their Tobacco rents in cash, none will be collected

from them this year. The price of Tobacco is now very high, and what little there is the merchants hold and will not part from it. Several of the Tenants have offered me the cash, but I have not thought myself authorized to receive it. I shall be glad to receive some instructions on this head if they are thought to be requisite.

With sentiments of respect and esteem, I have, &c.

Your Excellency's letter of the 20th ult., with the inclosures, I have received.

I apprehend I am not at liberty (being Atto. General for the State of Kentucky) to advocate the claim of this State. This is the result of my present reflections on the subject, altho' I am not so situated as to make up an accurate opinion.

Were not the lands in that quarter ceded by the Gen'l Government to the Chickasaw Indians? I think you will find they were; and if so the legal claim of this State with many others are, I presume, thereby extinguished.

ROBERT BROOKE TO THE GOVERNOR.

Feb. 21 I am honored with your Letter of yesterday with its inclosure, and beg leave to observe that the lands therein referred to are within the Territory ceded to the Chicasaw nation by Treaty, of which, I have no doubt, the legal claim of this State must be extinguished, for to contend for it would be to insist on a right without a remedy, as I presume there is no authority now extant which is competent to complete the title. I am induced also to suppose that the Commonwealth of Virginia has an equitable claim on the Gen'l Government for lands of an equal value or a pecuniary compensation, the cession having been made of her right without her priority or assent. To bring forward, however, their claim with propriety and a prospect of success, it will be necessary to obtain such a description of this entry as to shew unequivocally that it lies within the limits of this cession whether the papers which we already possess are so explicit or not I do not now recollect, as I did myself the honor to return them to your Excellency.

Should the Executive concur with me in opinion that the claim exists against the General Government it will naturally occur that it must be made to Congress through our representatives there.

I find from your instructions to Mr. Wiley, that the Executive "require a letter from the President accompanied with a list of the officers and a certified copy from the Clerk of the two requisitions, before they think themselves authorized to direct payment" on the shares held by the State in the Appomattox Company.

1797.
Feb. 28,
Amelia

In order to comply as nearly as I can with this direction, I have enclosed a copy certified by John Royall, the Clerk of the various requisitions which the Trustees have thought necessary to carry on the work entrusted to their management, and in conformity to the law of 1795, they appointed Richard N. Venable, John Finny, Edward Mumford, John Epperson and myself to act as Superintendents, being of their body. The Superintendents have appointed no President, but as they live dispersed and your letter has been handed to me, I have taken the liberty of giving the information required, on the supposition that it may answer the purposes intended by your honorable board.

When the superintendents were appointed, John Wiley was also appointed Receiver or Treasurer, and John Royall Clerk, being two of the Trustees named in the law.

In the outset of the business it was found difficult to resort to any out of our own number, because men's inclinations were not well known. As the matter has progressed, Mr. Wiley has found it inconvenient to continue the Receiver, and Mr. Thomas Pride, who will deliver this letter, has been appointed in his place, being more disengaged from other business and of course more completely devoted to the service of the company. This will account for the change in the application to the Treasury. On the plan of economy, and thinking the business might perhaps be better done by one man, the Trustees have also appointed Mr. Pride their Clerk, so that any application he may make may safely be attended to without danger of fraud, or I hope of mismanagement. Mr. Pride has directions to draw no more money at any one time than the affairs of the company may make necessary at that juncture, and I hope no inconvenience will be found in complying with his drafts.

With the highest respect, I have, &c.

Altho' I do not hold the appointment which your Excellency seems to suppose (that having been some time since superceded), I have been and always shall be desirous to communicate any information or render any services which your Excellency may think proper to require of me and I can afford.

There are within the town one twelve-pounder and three nine-pounders—the former spiked and without trunnions; the latter standing in the street in place of posts, filled with dirt and other matter. I have not found any person here who had any knowledge in gunnery, and therefore cannot give your Excellency any accurate information as to the con-

dition of them. I have been told that attempts have been made to drill the largest cannon without effect, and the others appeared to be greatly injured by time, and being covered in dirt I rather think they would not be worth the expence of refitting and transportation. If your Excellency shall think proper to direct anything to be done with them I will endeavour to comply with any directions with great cheerfulness.

1797.
March 16

SIR:

Agreeable to your instructions of this morning I caused the schooner-boat Neptune (Capt. Louis Bouquet) to be arrested, hauled into Willock's dock, and stripped of her sails. Capt. John George, the acting Inspector, hath reported to me that, upon the strictest investigation and search, he finds that she was fitted with rails and stanchions around her waist, that she is about 18 tons burthen, and that she had on board two cutlasses and one musket. The cutlasses were owned by two passengers and the musket by the master. That he overhauled the lading and ballast of the said boat and made a minute search, but found no other warlike apparatus or equipment on board.

JAMES SWAN TO THE GOVERNOR.

I rec'd your Excellency's letter of the 3rd Inst., and note that my offer of supplying the 4000 stand of arms at 13 dollars is accepted, but that the Import dutie is not to be born by the State, only that influence shall be used with the Federal Government for a remission of it. This dutie, being 15 per Cent. ad valorem, is what I can't bear. I have no doubt that the State will obtain a remission of it, but I do not chuse to leave it at my risque. It amounts to 7,800 D'srs. March 22, Boston

I believe that import was meant to apply to fowling pieces, side arms, &c., for private use, but never to arms destined for the protection of the States. I have empowered Robt. Pollard, Esq., my particular friend and agent at Richmond to enter into the contract with you in behalf of the State of Virginia with the exception or obligation on your part that the impost be not borne by me if any be demanded; that the expense of proving the arms also be at the State charge; that recommendatory letters be had by you from the Federal Executive to the Belligerent powers now at War for passports for those arms, and that if the war continues and such passports cannot be obtained in consequence of such recommendations, that then the time of delivery at Richmond be prolonged. On this head I presume there will be no difficulty, but if there should,

1797.

and as there is an absolute prohibition against exporting arms from the European States, it is improbable I should act contrary to it.

These are the only things I have mentioned to Mr. Pollard excepting this, that in case 4000 black walnut stocks cannot be had, that good white oak be furnished in their place. This I shall try to avoid, as white oak is dearer than walnut, but it may not be procurable.

I presume, Sir, you will find no difficulty in adopting these. I assure you I wish to go on with the contract, and more so as I expect to have the supply of the whole 20,000 stands, and I think the war must cease this year; otherways the total dissolution of all powers is probably to take place.

With much respect, I have, &c.

HARRY TOULMIN TO THE GOVERNOR.

March 23,

Secretary's
Office

In obedience to the directions of the Governor of this State, I have the honour to inform your Excellency that your letter of the 22nd of December, 1796, inclosing an unauthenticated copy of two resolutions of the General Assembly of Virginia respecting the establishment of a boundary line between that State and the State of Kentucky, have been this week received.

The Governor will do himself the pleasure to communicate the same to the Legislature of this State at their session in January next, and regards it as a subject of regret that owing to the late suspension of our intercourse with the eastern country so long a time must necessarily elapse before a final adjustment can be made of the difficulties arising in the establishment of the boundaries of the sister States.

He charges me to express his hopes that your Excellency has received the resolutions relative to the same subject which were lately adopted by the General Assembly of Kentucky.

I have, &c.

March 25,

Since I had the pleasure of seeing you in Richmond I have been among the Delaware Indians, who treated me with friendship, and from their conduct evince a disposition to continue at peace with the United States, altho' solicited to the contrary by the Spaniards (or their agents) from whom they informed me the nations had received a belt and speech, purporting that the United States had deceived them in the treaty made by Gen'l Wayne, and which they (the United States) would not abide by. I assured them the contrary was the intention of the United States

that they were determined to fulfill the Treaty, for which purpose ample provision had already been made by Congress to carry the same into effect, and further endeavored to show that it was the interest of them (the Indians) to cultivate a lasting peace with the United States, whose friendship they might safely rely on. They appeared well satisfied, and told me they had concluded to plant corn and hunt this season on the Muskingam.

1797.
March 25,
Brooke Co.

I find they are displeased with the people of Muskingam for killing a Delaware Indian last October (which circumstance I think I mentioned to your Excellency when at Richmond). The people of Muskingam says it was some person living on the Virginia side of the Ohio. I assured the Indians that your Excellency would do everything in your power to bring the murderers to justice. Therefore I would beg leave to urge the propriety of issuing a proclamation, which in my opinion will tend to conciliate the minds of the Indians and compel the perpetrators to flee the State or suffer if taken. Should this also be the opinion of your Excellency and Council, I wish you to forward some of the handbills that I may be enabled to show the Indians the friendly disposition of our Government.

An answer by Capt. Sutherland, or otherwise, will be gratefully acknowledged by

1797.
March 28,
Princess
Anne,
Kempsville

There is an evil here which may be productive of considerable inconvenience if not checked in the beginning, and of which my duty calls upon me to inform you. Sailors frequently desert from the English and French ships of war, and as soon as they proceed a few miles into the country the inhabitants facilitate their escape. On Thursday last the British Consul applied to me, as a Justice of Peace, to aid four officers from a ship lying in Hampton Roads who were pursuing seven deserters. In conformity to the President's proclamation, I thought myself bound to see that these men should be given up if to be found, and told a Constable that he should be well rewarded if he would exert himself in apprehending them.

Several citizens collected together in Kempsville, and one of them. I am told, threatened to raise a party and rescue them if taken, and the rest came into one opinion, that the civil officers ought not to interfere. Some of the deserters had arrived at Great Bridge, and I accompanied one officer thither, where a man undertook to arrest them and bring them to Norfolk; but some of the inhabitants there also were disposed to favor their escape. The Captain observed to me that he was now desirous of protecting our trade, but if we did not deliver up his deserters that he would take an equal number of men off of our vessels. This is indeed to be expected as the natural and inevitable consequence.

You and the Council may perhaps judge it expedient to make public your sentiments on this subject. At least let me hear from you.

I consider the Gun Powder at this place a little damaged from having remained so long on hand, and it may not be inexpedient for the Honorable the Executive to direct that it shall be either sold or remade.

I flatter myself that in the course of the next Quarter, I shall begin to decrease the Expenses at this place by discharging some of my Ruff workmen, their work being nearly completed, and in the course of six or eight months I trust the whole of the present arms at the Arsenal will be in a state of complete repair. An advance of one hundred dollars, I presume, will be adequate to the next Quarter's Expenditures.

J. AMBLER TO THE GOVERNOR.

The repeated attempts to break into the public Treasury and its exposed situation render it absolutely necessary to take immediate measures for making it as secure as the circumstances of the building will admit of. A person would be continued constantly to lodge therein, but there is reason to apprehend he may at some time or other be waylaid by villains when going in of an evening and the keys wrested from him. The doors, it is believed, are now pretty well secured, but the window frames being made of thin plank only and kept in place by a very small portion of the brick work, may be taken out with great ease. They are so constructed as scarcely to admit of being made secure; if this could be done the wall itself under them is so thin that it may be penetrated without difficulty and in a few hours. I therefore beg leave to submit for the consideration of the Board the alterations proposed in the annexed paper; if they should be approved, the greater part of the expence attending one window, or two out of the five, may be saved if the light of two can possibly be dispensed with by raising a solid wall of brick May 5,

work within them. There may also be a considerable quantity of iron sold belonging to the present frames, which will lessen the expence.

The Honorable Board will pardon my troubling them on this occasion when they consider my very peculiar situation arising from the high responsibility attached to this department, and from my not being at liberty to take any measures myself for effecting alterations.

I am, &c.

Instead of those now in the Treasury, it is proposed to have solid window frames made of seasoned oak and in the most substantial manner possible, with strong iron bars well secured in them before they are put together, and the frames let so far into the main standing wall, and below into a solid substantial wall to be built up within the present recesses (the whole secured with iron bolts driven into the solid walls), as will effectually prevent their being taken out in the course of a night.

N. B.—Mr. Barrett will give in an estimate of the expence attending the proposed alterations.

I should recommend that ten acres be taken instead of five, which I can have if your Excellency approves of; the public will not lose by it, I think, as our lands rise daily.

A small house will answer all the purposes wanting for the present. The letter to the Escheator shall be delivered. [Translation of a Letter filed with the Original.—ED.]

DUTAIEL, VICE CONSUL OF FRENCH REPUBLIC, TO THE GOVERNOR.

I had the honor of addressing to your Excellency a letter which the Secretary of State has written to the Consul General relative to the blockade of the two French frigates in the port of this town.

May 29,
Norfolk

In placing this dispatch before you I take the liberty of reminding

1797.
May 29,
Norfolk

you of my last letter to your Excellency, to which was joined the billet that I had received from General Mathews, and which remained without answer. I had demanded of this General if he had executed in regard to the English vessels which blockaded the two French frigates, the decision of the Executive power of the 18th of June, 1794, and April, 1795. The General has answered me not that he had executed these decisions, but that he would execute them if there should be occasion. Such at least is the sense of his answer if he wish't that it should have one.

But your Excellency will permit me to represent that yours is the only authority from which I ought to claim the execution of the decisions of the Executive power of the United States in what concerns the French Republic, and that I had nothing to require of the General whom your Excellency had charged with the execution of them, but that he should apprise me of the time of that execution.

Your Excellency will not be surprized that I now pray you to let me know yourself if the decisions in question are executed, because the French frigates ought not to sail until you have given me that assurance.

Receive, sir, &c.

THOMAS MATTHEWS, B. G., TO M. DUTAILLÉ.

As I have received no information of any violation of the rules established by the Executive of the United States for the government of armed vessels belonging to any of the belligerent powers within my jurisdiction. I have not taken any steps respecting those rules; but as I feel the strongest disposition to support the rules established by the United States for the regulation of armed vessels within the jurisdiction of Virginia, I shall immediately communicate to the proper officers of the General Government such statement respecting the armed vessels at present in the waters of Virginia, as their situation from the best information I can receive will warrant.

I am, &c.

THOS. MATTHEWS, B. G. TO TIMOTHY PICKERING.

May 30,
Norfolk

I do myself the honor to enclose you a copy of a letter No. 1. received from his Excellency Governor Wood.

This letter was accompanied with a copy of the Rules established by the Executive of the United States for the Government of Armed vessels belonging to the Belligerent powers, within the jurisdiction of the United States, and the letter of communication from the Department of State on

the same subject, dated the 16th April, 1795. Shortly after the receipt of the Governor's letter, I received one from Mr. Dutail, French Consul of this place, a letter of which No. 2 is a copy. From the best information I have been able to obtain, the situation of the ships within the waters of Virginia stands thus—two ships of the Republic of France are at anchor near Craney Island in Elizabeth River, distance about five miles from this place; their force supposed to be one of 44, the other of 36 Guns; these ships have been in their present station for some weeks—about eight or nine miles from those ships due north are three British ships of war; their force said to be one of 36, one of 32 and the other of eighteen guns at anchor in Hampton Roads—these vary their situation I am informed frequently. From the Station of the ships, I can see no obstacle to either proceeding to sea at their pleasure under the restrictions of Government. Report says, but it is but report, that the British ships will pay no regard to the regulations made by the Government of the United States for the sailing of armed vessels. From their conduct (as far as I am informed) since their arrival here, I should be led to think the report without foundation.

I have given you, Sir, every information in my power respecting this business, in compliance with my letter to Mr. Dutail; but as I have not received any information that the ships of either Nation have *taken their stations in the waters of Virginia, for the purpose of carrying on hostile expeditions from thence*, it appears to me that I am not warranted by the Rules to take any measures officially. I shall be happy in executing any orders you may think proper to forward on this or any other business.

Articles of agreement entered into on the — day of May, 1797, between James Wood, Governor of the Commonwealth of Virginia, by and with the advice and consent of the Council, on the one part, and James Swan, of Boston, of the other part, contains the following stipulations, viz: That the said James Swan engages to deliver to such person as the Executive shall direct in the city of Richmond, within fifteen months from the date of this agreement, four thousand stand of arms with their accoutrements complete, as described in an advertisement made by the Executive, to conform to the model given by the Executive, with the seals of the Commonwealth and Robert Pollard, agent of Swan, stamped thereon. The muskets to be proved by a double charge of powder and ball before received. The stocks to be of black walnut, birch, or cherry. The Governor agrees to pay on delivery and receipt of said arms, Thirteen dollars per stand, to furnish the powder and ball for the proving arms, and to pay the import duties which may be imposed. He further agrees that the Executive shall use its endeavours to obtain from any of

the Belligerent powers from whose territory the said arms may be exported, permission for the exportation, and also a safe passport and protection from the Privateers or cruizers and ships of war of said Powers.

In testimony whereof, the Governor, in behalf of the Commonwealth, and Robert Pollard, in behalf of James Swan, set their hands and seals.

June 1,
Norfolk

I have just received a letter from his Excellency the Governor of Virginia in answer to that which I wrote to him on the 22d ulto., O. S., in order to claim from him the execution of the regulations which were communicated to the Executive of the Commonwealth the 18th of June, 1794, and the 16th April, 1795, by the President of the United States.

The Governor informs me that he has confided to you the carrying into full effect those Regulations.

I beg you, Sir, to let me know the measures which you shall have adopted with regard to the official demand contained in my letter to the Governor, the contents of which he did without doubt communicate to you.

Accept, Sir, &c.

THOS. NEWTON TO THE GOVERNOR.

Since my return from Richmond, I rece'd your Excellency's favor. I have engaged the land, and shall obtain Deeds as soon as I see Mr. Boush. I have also turned my thoughts on such a house that will answer for many years, and if in future it should be necessary to be enlarged it may be done at small expense—viz., a house 24 feet long, 20 wide, with a shed 10 feet wide, two stories high, a cellar of 7 feet deep, a passage 8 feet wide, two rooms above, with fire-places above, and in the cellar will answer for store-house, house of accommodation, and all that may be wanted for many years to come, and last as long as it will be wanted, as it will be built of brick and good timber for about 1000 or 1100 Dollars; the latter I have been offered, and think I can get it for the first. It will make but little difference between this house and a temporary one, as I have contracted the size and made it so that additions may be made hereafter with little trouble. I wait your Excellency's and the Council's pleasure, and could wish to know soon, as I think I could have the whole finished some time in August or Sep'r, when it may be wanted.

I am, &c.

MEMORANDUM OF CANNON BELONGING TO THE STATE AT FORT NELSON.

Fifteen 4-pounders, four 6-pounders (4-inch calibre), one 9-pounder ($4\frac{3}{4}$ calibre)—these I know belong to the State; thirteen 18-pounders ($5\frac{3}{4}$ calibre), 4 12-pounders ($5\frac{1}{2}$ calibre)—I once thought these belong to the United States, but now I have reason to believe they belong to this State. They were brought in by Capt. Boritz, who lives at Edenton. From him your Excellency can get information who purchased them. I know the State was at the expense of bringing them from I. Quay to Nansmond, and from thence here, and if you will look at the charges the time Mr. Ed. Randolph was Governor, and his successor, you will find an account paid for bringing them here. If I can render any service please command me, and if times should require it I will undertake to collect the whole of the cannon and place them in safety, or where you may direct. One 18-pounder lies in Scott's mill-dam.

Your, &c.,

THOS. NEWTON.

WILLIAM PRICE TO THE GOVERNOR.

The contractor (Mr. Wm. Price) for recording the plots and certificates of survey, as mentioned in your order of the 25th day of January last, has made a return of the records compleated under the said order.

June 5,
Land Office

They are in loose sheets and contain four thousand eight hundred and fifty-three plots and certificates of survey unaccompanied by the assignments made thereof except in a few instances. Enclosed are amounts of the stationery, &c., furnished for the above mentioned records.

I am, &c.

EDM. THOMAS TO WILLIAM PRICE.

As the Act of the Virginia Assembly which passed the 11th of November, 1793. made it a part of the Register's duty to examine, certify, and affix the seal of his office to the copies which may be taken by the agent for the State of Kentucky from the records in his office respecting lands within said State of Kentucky, and as a number of transcripts are already taken, it becomes necessary that they should undergo an examination. I have therefore to request you will attend as soon as convenient for that purpose.

June 9

I am, &c.

WM. PRICE TO THE GOVERNOR.

1797.
June 12,
Land Office

Having just received a notification from Edm. Thomas, Esq'r, (of which the above is a copy) to attend the examination of the Transcripts made by him from the records of this office, relative to the Titles of Land within the State of Kentucky, and being altogether unable to comply with the same either in person or by one of my present clerks, without placing the business of my office in a very disagreeable situation, I must therefore beg the advice of the Executive on this subject for my better guide. It may also be necessary to observe that Mr. Thomas has in his present employment eight or nine clerks. To examine and correct their copying will be attended with at least the constant employment of one person from this office, even when assisted by Mr. Thomas.

I am, &c.

WILLIAM PRICE TO THE GOVERNOR.

June 12

Agreeably to your request of yesterday, I have examined the receipt Book containing a list of the plots and certificates of survey, delivered Mr. Wm. Price and others, (by his order) under the advice of the Council, dated the 25th day of January last, and find the number to amount in all to three thousand two hundred and forty—as no part of those Records have been transmitted to this office, I am unable (at present) to give information of their situation.

I am, &c.

THOMAS MATHEWS TO THE GOVERNOR.

June 19,
Norfolk

Shortly after the receipt of your Excellency's letter of the 25th ultimo, I received from M. Dutail, Consul of the French Republic at this place, a letter of which No. 1 is a copy—No. 2 is my answer to M. Dutail—No. 3 is a copy of my letter to Mr. Pickering. As the Rules established by the Executive of the United States, have been communicated to the foreign Ministers, resident at Philadelphia, I did presume that their contents had been made known to the officers of their respective Governments, who visited the Ports of the United States. Under this impression, I did not hold it necessary that any communication should be made by me on this subject. Your Excellency's letter of the 14th, with a copy of a letter from the Department of State of the 6th instant, have determined me to forward to each commander officially, a copy of those Rules, accompanied with a request that they will communicate to me the precise time

they intend to depart from the waters of Virginia: Should this request be complied with, I shall then have it in my power to notify the same to the commanding officer of the adverse party, and by this means ascertain the violations if any should take place of our neutral rights. The intricacy attending this business, from our want of power to enforce obedience to the Rules established, makes it necessary for me to receive every information from your Excellency for my government.

1797.
June 19,
Norfolk

The moment I receive answers from the different commanders, I shall enclose to your Excellency, copies of our correspondence.

I am, &c.

THOS. MATHEWS TO THE GOVERNOR.

I do myself the honor to enclose to your Excellency my letter to the Commanders of the Ships of War within the jurisdiction of our State; likewise copies of their answers. This communication would have been earlier made had it not been for my absence from town when Major Marsh, whom I sent down with my letter, returned.

Circular.

NORFOLK, 21st of June, 1797.

SIR:

I do myself the honor to enclose you a copy of the rule established by the Executive of the United States to be observed by the officers commanding Ships of the Belligerent Powers within the jurisdictional line of the United States. This communication is made for the purpose of preventing any violation of the rights of the United States as a sovereign and independent neutral nation, and to secure to the vessels of either of the Belligerent Powers that protection which they have a right to claim from the Government of the United States.

July 10

Whenever, sir, you shall think it proper to notify to me your intention to depart from the jurisdictional line of the United States, I shall take the earliest opportunity to communicate the same to such officers commanding Ships of War of other powers as may at the time of such communication be within the waters of Virginia.

I am, &c.,

THOS. MATHEWS, Brig'r Gen'l.

To the Commanding Officers of the French and British Ships of War.

NORFOLK, *June 24th, 1797.*

SIR:

1797.
July 10

I have the honor to acknowledge the receiving this day your letter of the 21st inst. by the hands of Major Marsh, inclosing "A rule as to the sailing of Vessels of War of the Belligerent Nations from the United States." Be assured, sir, I shall pay every respect to the neutral situation of the American Nation, and shall conform accordingly.

Any notice to you of my movements would be highly improper. The moment of my departure depends on the respect which the British Ships of War now in the waters of Virginia (where they have been four months) shall pay to the "Rules" of the United States, which no doubt you are directed to have executed.

I am, &c.,

JOSHUA BARNEY,

Commanding the Ships of the French Republic in the Waters of Virginia.

Directed to Brigadier-Gen'l Mathews, Norfolk.

ASSISTANCE, LYNHAVEN BAY, *26th June, 1797.*

SIR:

July 10

I am this morning honored with your letter by Major Marsh, inclosing a copy of the Rule established by the Executive of the United States, which Rule I receive as the law of all Neutral Nations, and which law is so strongly pointed out by the Government of the Country under which I have the honor to serve, and which cannot be violated while I am in execution of my duty.

The ships under my orders were under sail before I received your Notification, and will this day be on the outside of the Neutral line, if the winds and weather do not prevent them.

I have, &c.

H. MOWAT,

Senior Officer of His Britannic Majesty's Ships on the Coast of Virginia.

Directed to his Excellency, Brig.-Gen'l Mathews, Norfolk.

NAT. SHEPARD TO THE GOVERNOR.

July 23,
Treasury

I am unacquainted with the duties of the Treasurer so far as they relate to present situation of the Treasury, such a circumstance not having occurred since I have been engaged in business here; but suppose it not improper, as the Treasurer is absent, that I should inform you of the present state of the funds.

At present there are only about fourteen thousand dollars specie in the Treasury, and but little prospect of receiving any money of considerable consequence until about the middle of September, when we may suppose a considerable part of the Revenue of 1797 will be paid in.

I am, &c.

JAMES McHENRY TO THE GOVERNOR.

I have it in order from the President of the United States to lay before your Excellency the act herein enclosed, entitled "An act authorizing a detachment from the Militia of the United States," passed the 24th June, 1797.

1797.
August 1,
War Office

The object of this law being to provide and have in readiness a select and completely equipped and organized body of Militia fit for action in all respects, the President, in pursuance thereof, requests that you will be pleased to take immediate and effectual measures to organize, arm, equip, and hold in readiness to march at a moment's warning, the detachment required to be organized, armed, and equipped by the State of Virginia, agreeably to the said law, and the act entitled "An act more effectually to provide for the national defense by establishing an uniform militia throughout the United States," passed the 8th of May, 1792.

With a view to expedite the completion of the said detachment, the President has judged it expedient to authorize you to accept any independent corps of Cavalry, artillery, or Infantry as part thereof, provided they shall voluntarily engage as corps in the service.

As it will be desirable to know the measures which your Excellency may be pleased to adopt on this occasion, and from time to time the actual state of the detachment, it is earnestly requested that the Adjutant-General may be instructed to make such returns and communications to this department as may satisfy this object.

With great respect, I have, &c.

THOMAS CALLIE TO THE GOVERNOR.

From information this day received, I have reason to believe that the Honorable the Executive are not acquainted that the foundation of the Penitentiary House has been laid off and dug in a circular form.

August 3

The laying off was done by Mr. Latrobe, and the digging executed by his direction, and, I presumed, without doubt, with the knowledge and approbation of the Executive. Mr. Latrobe continues to consider himself as engaged in the public service as a Director of it. I should be thankful for information of it that I may govern myself accordingly. I cannot myself conceive the necessity of such a character after the appointment which I have had the honor to receive, and can assure the honorable the Executive that I am not conscious of the want of ability to execute the task assigned me by that appointment or I would without hesitation resign it. I am willing to allow Mr. Latrobe all the credit due to his superior abilities, but I do not conceive that they are any further requi-

1797. site in the execution of the business in question. This, however, is
August 3 humbly submitted to the wisdom of the honorable the Executive.

I have for two days past been extremely indisposed, but am to-day much better, and hope I shall in future be able constantly to attend my duty.

Mr. Mims is making preparation to commence the laying of the bricks to-morrow in the square part of the building, and I wait my instructions, which the Board may be pleased to honor me with on that occasion.

I have, &c.

JOHN S. MERCER TO SAM'L COLEMAN.

August 4, Yours of the 5th of July, with its inclosures, was not received by me
Stafford Co. till yesterday, and that of the 7th of February, to which you refer, never came to my hands.

I have not yet been furnished with a list of the Captains of this Regiment, or of the counties in which their troops may be recruited; as yet only four returns have been made me—from Loudoun, Fauquier, Albemarle and Caroline. These troops appear to be full, but it will be hardly worth while throwing them into the form of a Regimental Return.

It may be proper to apportion the Regiment between the two Majors by squadrons—they would be inspected with more care, as these live distantly from each other and conveniently to the troops. If directed, however, to inspect them myself I will do it.

Difficulties have been suggested to me by some of the Captains on two points which may require the directions of the Com'r-in-Chief and the Executive—the one a refusal on the part of the county officers to pay the fines arising from the delinquencies in the Cavalry to the order of the Captains in whose troops they originated; the other I have temporarily solved myself, whether the officers shall enlist in counties within the district of the division of Militia to which they belong and in which there are no Troops, but in which they do not themselves reside. As I saw nothing in the law to prevent this, and as the Regiment seems to be intended to be commensurate in its extent with the Division of Militia, I directed they should make such enlistments till further orders.

This arrangement is perhaps necessary to the completion of the Cavalry, and I deem them of infinite importance to the defence of the State, being in fact the only Troops that will ever be found to act with efficacy in any war likely to be carried on within our country for a century to come. I beg leave to recommend the subject to the attention of the Com'r-in-Chief or the Executive.

I have, &c.

ROBERT QUARLES TO THE GOVERNOR.

In consequence of the Small-Pox being in my family, it has been out of my power to forward the Quarterly Returns and Pay Rolls for the Garrison at an earlier period than the present. I now enclose the Return of Military Stores, accompanied by the usual pay rolls. Since making out the Returns of Military Stores, the 4-pounder therein mentioned has been delivered to Capt. Boyer, of Staunton, by order of the Honorable Executive.

1797.
August 5,
Barracks

I presume the usual advance in money will be deemed necessary by the Honorable Board.

I have, &c.

MR. LATROBE TO THE GOVERNOR.

Mr. Latrobe presents his most respectful compliments to the Honorable the Executive of the Commonwealth of Virginia. Being present in the Lodge of Free Masons at the time when the letter of Postponement of the Ceremony of laying the foundation stone was read, and the Lodge having resolved to adjourn the meeting, if consented to by the Executive, to Saturday, the 12th instant, Mr. Latrobe begs, in conformity to the wish of the Master of the Lodge, to assure the Executive that no delay in the progress of the work will be the consequence of so long an adjournment, as the workmen may proceed with the walls of inclosure connected with the gate.

IN THE RICHMOND LODGE, No. 10, 7th August, 1797.

Whereas the Worshipful Master has given information that the Lodges were convened for the purpose of laying the corner stone of the Penitentiary House, agreeably to the request of the Honorable Executive of the State, but at the same time, from the badness of the weather and other causes, the meeting appears not to be sufficiently numerous to lay the said stone with propriety, and as it seems that no material inconvenience will arise from a postponement thereof,

Resolved, therefore, That the laying of the said stone be postponed until Saturday next.

Resolved, also, That a copy of this Resolution be forwarded to the Worshipful Master of the Manchester Lodge, No. 14, and the Saint John's Lodge, No. 36, and also to the Honorable the Executive.

ROBT. JOHNSON TO ARCHIBALD STUART.

August 9,
Kentucky I have rec'd a copy of the Resolution passed by the Virginia Assembly, last session, concerning the Boundary Line between the two States, advising the Commissioner to recommend to the Legislature of each State to pass similar Laws to secure the claims of Individuals in the Disputed territory, and that the Commissioners meet again for that purpose. The Kentucky Assembly having approved of the proceeding of their commissioners in claiming to the Dividing Mountain between the waters of Clinch and Sandy, and directed her Commissioners not to meet again until the Legislatures authorize their commissioners to Recede or compromise on terms admissible on the part of this State, and as the two States were willing to settle the business so as to injure the claims of Individuals as little as possible, we are therefore willing to correspond with you by Letters, in order, if we can, to bring the business to a close. We are willing to recommend to the Legislature of Each State to pass Laws for establishing the entries of Individuals on the waters of Sandy and Cumberland made prior to the year 1796, provided they do not interfere with Entries made in the offices of Kentucky when it was Virginia; and provided, also, that the State of Virginia, or the claimants, pay to the State of Kentucky two cents per acre for the Land, which is the price the State of Virginia sold said Land warrants for, and if you approve the terms proposed, you will write a few lines to that effect. No meeting can be had till the next meeting of the Assembly. Let us hear from you as soon as possible, and oblige,

In conformity to the above I have issued orders for the immediate organization of the quota assigned to the First Division, and that they hold themselves in the most perfect readiness for duty.

I have sent your express with my dispatches for the Brigadiers Carrington, Martin, and Meade; the latter will be in his route to Richmond from General Martin's. In conformity with our contract with the undertaker to finish the outside of the Capitol, we are to advance him money as he proceeds. Will thank you for an order to receive one thousand dollars in part of the resolution of the Assembly at their last session.

With much respect, we are, &c.

DAN'L L. HYLTON, W. FOUSHEE, AND ROBERT MITCHELL, DIRECTORS
OF PUBLIC BUILDINGS, TO THE GOVERNOR.

August 31,

'Tis with great concern we find that the roof of the Capitol, which has been attempted to be covered with slate, is not only unfinished, but what has been executed is so extremely defective that the building is in great danger of injury. The undertakers will not, and we believe cannot, correct their work so as to make the roof tight. Therefore, as Directors of the Public Buildings, we conceive it our duty to take the advice and opinion of your Honorable Board whether it is not absolutely necessary to have the slate removed, a shingled cover put on, and the shingles covered with such composition to resist fire as you have seen an experiment made with to-day. This appears to us as the best and indeed the only means now left to save the building from ruin. A concurrence of opinion by the Executive will give us great satisfaction.

SAM. SWAN TO THE GOVERNOR.

By the contract which my attorney, Mr. Pollard, made with you for 4000 stand of arms, it is provided that "the Executive of Virginia shall use its best endeavours to obtain from any of the Belligerent powers from whose territory the arms, or any of them, may be exported, permission for the Exportation, and also a safe passport or protection for the said arms from the Privateers, Cruizers, and Ships of war of the power granting such passports or protection."

Sept. 11,
Boston

Agreeably to an article in the said Contract, I notified the Executive by a minute on the Contract the 11th of July last that I should export them from Holland. This, therefore, requests your Excellency to be pleased to inform my attorney what steps are taken to obtain permission to export the arms from thence and to obtain the safe passports. If it be through the President of the United States, you doubtless have employed, or will employ, the members from your State in Congress to obtain the necessary letters to our Minister at the Hague, and that you order those letters to be delivered to me. If it be by the Executive of Virginia directly to the minister in Holland, you will please deliver the letter to my attorney to be forwarded me.

If permission to export the arms from Holland or other Belligerent power, and passports cannot be obtained, the contract is to be void. But I have conceived it is possible, notwithstanding, that I may be able to get them from Hambourg by being at the expense of transporting them thither. In such case, permit me to ask your Excellency if the arms will be received, provided I deliver them agreeably to contract at Richmond within the time limited? The question may appear absurd, as it is certainly the intention of the Government to be supplied with that quantity of arms, but as the condition is express, and as it is possible I

may find means to furnish them, even if the permission be refused in Europe, in the manner and at the expense mentioned. I should wish to be solved on that point.

I am, &c.

Permit me to observe that the Agent for executing my part of the contract, sails for Europe the 18th Inst: it is therefore urgent that I have the necessary papers as speedily as possible, or as is consistent with the convenience of the Executive.

ARCH'D STUART, JOS. MARTIN, AND CREED TAYLOR, TO THE COMMISSIONERS OF KENTUCKY, FOR FIXING THE BOUNDARY LINE.

Sept. 18

We have been duly honored with Col. Robert Johnson's letter of the 9th ultimo, to Mr. Arch'd Stuart, one of our Commissioners for fixing with yours, the boundary line between our States. We have received through our Executive the several Resolutions of the Legislature of your State, as well as those of our State respecting our proceedings last fall. In considering those resolutions as well as Col. Johnson's letter, we have at this time to observe that we are ready to meet and to act in conformity with the said resolutions with you, whenever you shall require our attendance for that purpose. After the next meeting of your Assembly, but as that happens to be late in the year, to proceed immediately afterwards may be disagreeable on account of the weather, we beg leave to suggest, all things being considered, whether the first of October, 1798, will not be the most proper time, but while we suggest this on account of ourselves, we would not wish that it should prevent an earlier meeting if it's more agreeable to you.

At this time we are induced to think that on our next meeting, a compromise will very probably take place as it relates to the line in dispute between us. Since this seems to us to be the disposition of the two States, and should this be the case, we shall think it right that the two States should pass mutual laws securing or confirming all titles to lands appropriated by individuals under a mistake as to the boundary line on either side, but at this time we do not see the propriety in the demand made of Virginia to pay your State two cents per acre for any of the disputed territory—nay, we have no authority to accede to such propositions. and we think that Col. Johnson will recede on his part from them on further consideration. We are ready to receive, and shall duly consider any communications which you may think proper to make between this and the time of our next meeting.

With respect, your, &c.

JAMES McCLURG TO THE GOVERNOR.

The enclosed Resolution of the Common Hall of this city, will explain to your Excellency the occasion of this official communication.

1797.
Sept. 19,
Richmond

The city has such relations to the country in general, and to the whole State by being the seat of government and of the high courts of judicature, that the guarding it from the introduction of diseases both fatal and infectious may well be considered among the objects of Executive care. The measures necessary for this purpose exceed both the power and the revenue of this corporation, which, however, will be always ready to co-operate in any subordinate way.

JAMES ALLAN, JR., TO THE GOVERNOR.

The Yellow Fever, I am informed, is now raging in the towns of Philadelphia, Baltimore, and Norfolk. The inhabitants of this place are very much alarmed from the great intercourse by water between those towns and this. I have had a number of applications made as Superintendent of Quarantine from the most respectable citizens of this town, for vessels coming from those places infected with that disorder to perform Quarantine. I do not conceive I have any authority, as I have not seen a proclamation to that effect. Is you deem it necessary I shall be glad to have your instructions as soon as possible, and whether a guard can be allowed to stop vessels before they get up to the town, to undergo an examination.

By Saturday's mail your Excellency's letter of the 5th came to hand. From the last clause of the 3rd section in the act to which you refer me, I was induced to suppose that an Agent could not with propriety go out of the State for the purpose of recovering public property, unless he had previously been so directed by the Executive, nor was I of opinion that his official duty even then required it of him, especially as there is no compensation for such service prescribed by law, but is left to the discretion of the Executive, whose opinion and that of the Agent might differ as to the amount to be allowed. In the present case, however, anything like a pursuit might perhaps be now wholly nugatory, the delinquent having started the 7th of last month, of which I gave you notice on the same day that I heard it.

every covering has been set aside as fraudulent, except where a bona fide consideration to the full value appears to have been actually paid. This conduct of the juries is the more remarkably commendable as all the executions are against Securities. I have conceived it my duty to afford them every indulgence consistent with the public interest, and from present appearances I have no doubt before the middle of February next to pay into the Treasury on account of the delinquency of one Sheriff for a single year nearly £1480, and if process is regularly attended to with respect to others, a great deal more may yet be obtained for the public.

Having been of the Committee to whom were referred the proceedings and statement of the Commissioners appointed by the Executive to adjust the contested boundary line with the State of Kentucky, we think it may conduce to the public service to express, and we beg leave thus to declare, our strong approbation of the measures pursued by those Commissioners, and our opinions that it is an object of great importance to procure their aid in the prosecution of their business.

Exclusive of the thorough knowledge of the subject displayed in their report, they possess a degree of information as to facts not to be acquired except in the mode by which they have obtained it. It is therefore extremely improbable that any new set of Commissioners by assembling

once only at the place, or relying upon the depositions already taken without viewing the country, can attain a co-extensive fitness for the negotiation with the former gentlemen.

Dec. 14

I am, &c.

JOHN CLARKE TO THE EXECUTIVE.

Having been called upon by your honorable body to examine and report to you the most eligible situation in the city of Richmond or its vicinity on which to erect a public manufactory of Arms, I have accordingly made examination and do report as follows, viz:

Dec. 15

That (in my Judgment) the most eligible seat for such works is a situation contiguous to the west end of Richmond immediately without the limits of the city, lying on the south side of the James River Canal, belonging partly to Mr. Samuel Overton and partly to Col. John Harvie, containing six acres, one rood and seventy-two poles of land, bounded as follows, viz:

Beginning at a large poplar tree standing on the south bank of the James River canal at the west end of the city; thence along the said south bank of the canal south sixty-two degrees and thirty minutes,

1797.
Dec. 15

west fifteen chains and four and a half links to a corner on the canal; thence by a line running from the Canal to the river south ten degrees, east thirteen chains and thirty-five links to a corner at the River; thence along the river bank north seventy-five degrees and thirty minutes, east seven chains and twenty-three links to a corner on the bank of the river; thence along the river bank south seventy-nine and a half degrees, east six chains and seventeen links to a corner at a large rock on the river bank; thence north thirteen degrees and fifteen minutes, west nine chains and thirty links to the beginning.

This situation affords a valley leading from the James river canal excellently formed for erecting therein (to the greatest possible advantage) every species of water-works, and being seated on may receive a never-failing supply of water from the James River canal, which affords not only an abundant fall of water for working the necessary machinery for the hammering, boring, grinding, drilling, burnishing, &c., of small arms, but the water, after operating on and passing from those works, may by its immediate descent afford an eligible situation with an extensive water fall on which water-works for boring and turning of mortars and cannon may be advantageously erected. The fall of water from the James River canal to the River being so great (at this place) that the water may be twice used on water-works between the canal and the river, which will only require that half as much water should be purchased from the James River Company as would be required if it could be used but once. This seat also affords a good situation for a furnace (for casting of mortars, cannon, bombs, and the various kinds of cannon shott) on the declivity of an eminence immediately above the place most proper for the mill for boring and turning the mortars and cannon, and to which (after they were cast) they may be removed with the greatest convenience. The form and extent of this ground affords eligible situations, not only for the water-works, but for work shops and habitations for the artificers, and the earth at and contiguous to this place appears to be of good quality for bricks, and as a considerable number would be required for the different buildings belonging to the works, which may be made on the spot, a considerable expense in that article might be saved. A mill for making of gun powder might also be situated on a remote part of the ground (without endangering the other manufactories), where sufficient room may be afforded for an extensive yard for dying and preparing the powder. Improvements erected on this situation would be quite secure from the highest freshets of the river, and being remote from the thickly inhabited part of the city, and the probable progress of the buildings thereof, the works would not be in danger of being destroyed by the accidental fires which so frequently demolish houses and threaten the town with destruction, but being seated on the bank of the canal from whence the water could be introduced among the different

works in such manner that by the assistance of a simple and cheap machine attached to the other water-works, the water in a moment might be discharged on any of the buildings belonging to the works; and the manufactories in their different branches being situated and carried on convenient to each other might easily be overlooked by one Superintendent. The convenience of this situation to the Penitentiary-house (where much labor beneficial to a manufactory of arms might be done) is also an object which deserves consideration. A Manufactory of arms established on this ground would be conveniently situated to receive materials for manufacture from the city either by land or water carriage, and would also have the benefit of a navigation extending two hundred miles above Richmond by which the raw materials necessary for the manufactory might be easily transported down to this place by water; and as Iron, copper, mineral coal, as well as charcoal, are afforded in great abundance convenient to this navigation, and may be readily conveyed to the works by water, as well as black-walnut wood (for gun stocks) which the low grounds of James river produces in abundance, as also the most profuse abundance of willow wood (charcoal made of which is most preferred for making gun powder), each of which advantages ought, if possible, to belong to a manufactory of the above description, and when joined with the other advantages above enumerated, they cannot fail to give this conveniently situated spot the decided preference, not only to any situation in Richmond or its vicinity, but to any in Virginia.

JOHN HARVIE TO THE GOVERNOR.

Last evening I was honored with your letter informing me that you were desirous of purchasing, on account of the publick, so much of my ground on the James River Comp'y Canal as was included in a survey lately made by Mr. John Clarke.

Jan. 31

That survey includes of my property, not only a considerable length on the Canal, but a deep Valley the best found for the erection of Water Works of any now to be improved upon the Canal, and although the quantity of ground is small, yet it is sufficiently extensive as a site for two sets of Water Works, the Fall being sufficient for the water being used twice between the Canal and the River.

To estimate the value of such a situation is a difficult calculation: the saving of manual labor in putting any other piece of ground into the same favorable form for the erection of Water Works must be considerable.

In addition to this Valley and Border on the Canal, Mr. Overton conveyed to me a Right to a Street or Road below the Canal as a communication with my adjoining ground.

I am loath to fix a price on this property as my judgment may subject me to the Imputation of Excess, with those who have less sanguine claims in the pecuniary advantages that would result upon improvements judiciously made upon a situation so favorable as mine.

In obedience to the wish of the Executive, I submit to you the following propositions:

1798.
Jan. 31

That a road be laid off to me, 60 feet wide on the Basin side and up the Valley that is taken off Mr. Overton. with all the Rights and privileges that I now enjoy in the Street that I am to give up, so as in no respects to interfere with the works intended to be erected by the publick.

To have the privilege of making up the dirt lying on the Canal Bank into Bricks, with a yard to dry and burn them upon Mr. Overton's land agreeably to a privilege that he has some time since granted me. This stipulation arises from a quantity of Bricks that I am agreeing to make for improvements designed on the Tenements I have leased to General Lee.

Upon the above proposals being agreed to, I will take for my property the sum of £300, with a declaration that if the price be thought too much, that the Executive may fix the sum at their own pleasure. If dealing with an individual, my price would be much higher, but I had rather give the property for nothing, than be thought making an unreasonable demand upon the publick.

capable of containing Twelve Thousand stand of arms, and with little expense to contain the Four Thousand additional contracted for. The condition of the Post alarmingly exposed to fire from without. They recommend the erection of a stockade sixty by seventy yards about the Arsenal, and also suggest as a further defence, the improvement of a commanding height about three hundred yards distant from the public buildings.

HENRY TAZEWELL TO THE GOVERNOR.

I wrote you some time since in answer to your two letters, on the subject of Mr. Swan's contract with Virginia, and enclosed you some letters from the Secretary of State in conformity to your request. I hope you have received them. I forwarded to you during the last year, two copies of the Pennsylvania Laws neatly bound, at the request of Mr. Dallis the Secretary of State of Pennsylvania. They were intended as a compliment from this to our State. I have not heard whether you received either—If you have, I beg leave to suggest that a return of the compliment by sending to Pennsylvania a copy of our Laws is expected, and would be peculiarly proper. I shall be very happy to be charged with the means of returning this compliment, and if you forward to me a copy of our Laws for the purpose, I beg the favor of you to send a second copy for the use of the Senate of the U. States. For the latter any expense will be repaid by the Secretary of the Senate.

Feb. 7

The newspapers which I suppose you regularly receive, will detail to you constantly the business which occupies the attention of Congress. It is to be lamented that some of it will not increase their respectability, nor be very satisfactory to their constituents. Our situation with foreign nations becomes daily more gloomy. We have not as yet any official advices from our Envoy's in France, and there is no dependence to be placed on any newspaper accounts which have as yet appeared. It is probable our Envoy's have been received by the Directory, and that if the negotiation has commenced, its progress will be slow and embarrassed.

France appears to consider us as the ally of G. B., and of course her main object will be to weaken or dissolve that connection. G. B., aware of this, appears to be desirous of breaking off the negotiations as speedily as possible. In this state of things, our future fate in the war is at present beyond my powers of conjecture.

I have not heard whether our Assembly at their last session acted upon the subject of their former cession of Western Territory to the U. States. The acceptance of that cession by the U. States reserved to Virginia the right of assenting to the new modification made by Congress of the States to be laid off in the ceded country. Some of those States as laid off by Congress are now almost ripe for admission into the Union. The

want of some act in this respect on the part of Virginia may retard it, and sour the western people. Mr. Mason and myself addressed a letter on this subject to the Assembly in the winter of 1796. Will you be good enough to inform me if anything has been done?

A sufficient number of the States have now ratified the amendment to the Constitution concerning the suability of States, and have returned their ratifications to the President, who has laid them before Congress. That amendment therefore forms a part of the Constitution.

I have the pleasure to inform you that the Supreme Court of the United States have dismissed the suit of the Indiana Company against the State of Virginia upon the principle, that since the amendment of the Constitution they cannot hold jurisdiction of it.

Without noticing all the points of defence on the part of Virginia which would readily occur to counsel, if the suit should be renewed in the State Court, I take the liberty to suggest that by an ancient law of Virginia, to be found in Purvis's Edition, it was unlawful for individuals to buy any lands of the Indians within its chartered limits.

ARCH'D McRAE TO THE GOVERNOR.

The light company which I have the honor of commanding has been for some length of time complete as to numbers, but we labor under inconveniences which can only be removed by Executive authority. Before the appointed musters shall arrive (if the weather shall be sufficiently open) we purpose to be in training. This object, which every individual in the company has at heart, cannot be accomplished without the use of firelocks, the want of which must necessarily detain them in a state of ignorance, and probably abate that military pride which would result from a knowledge of their duty and being properly accoutred.

However, sir, without intruding on you remarks which your knowledge and experience have long suggested to you, I with due deference submit the reasonableness of my application to yourself and the Honorable Board.

I arrived in this city on Friday evening and presented your letter to the Secretary of War on Saturday morning; he assures me that he will with pleasure give me every information in his power, and has promised that within a few days he will furnish me with letters to the manufacturers to the eastward, and I shall then immediately pursue the object of my journey in viewing the Armories at Springfield and some other places. Since my arrival here, I have been endeavoring to be informed where and on what terms the four thousand stand of arms, pistols, &c., advertised for by the Executive of Virginia can be procured, but have not yet received any satisfactory information. I shall continue to make every necessary inquiry, but am induced to think that the chance of procuring those arms will be much better at the manufactories which I am going to visit.

The Secretary of War informed me he had been told that you intended shortly to visit Philadelphia, where he should be very happy to see you.

I have visited the Cecil Iron Works in Maryland, where the iron cannon for the frigates of the United States are cast and bored out of the solid mass, but was astonished to find the works so badly planned, so temporarily built, and the guns so badly made.

I shall continue to make every exertion in my power to gain all information which may tend to enable me to answer the expectations of the Executive.

I am sorry to add that the people here seem much agitated and divided in consequence of the dispatches lately received from our envoys at Paris, some of which were laid before Congress on the 4th ult. by the President of the United States. From these communications it appears that the French Government are about to adopt a decree which, if carried into effect, will render our commerce of but little advantage to us. Our envoys have now no hopes that they will be officially received or of their accomplishing the objects of their mission.

Arming our vessels or an embargo are talked of here as the only alternatives to which we can resort.

Wishing you much happiness, I have, &c.

DIRECTIONS TO THE SUPERINTENDENT OF THE PENITENTIARY.

March 8

Directions to the Superintendent of the Penitentiary house to be followed in case the work should proceed during the absence of Mr. Latrobe, the architect:

Should the weather permit of the progress of the work before the 15th

of April, when I intend to be again in Richmond, it is my wish that no carpenter's work be laid off or executed before my return.

1798.
March 8

The roof of the gate building would have been important to protect the brick work during the winter, but now it may be delayed till May without any inconvenience.

Stone Work.

1. The Superintendent is in possession of compleat directions as to the stone work of the Gateway, both in respect of the scantling and the place of the stone.

2. While the Bricklayers are completing the front wall, the Stone mason will lay the Stone string or Basement course, *which is now at the Building and was prepared for the South front of the East wing*, on the Range of the East cells, to enable the Bricklayer to carry up the wall above it.

3. The place of the string thus used must be immediately supplied, and a sufficient quantity of the same string be provided to go compleately round the outside of both the East and West wings. It is of the utmost importance that this direction be complied with as early as possible, otherwise the progress of the brick work will be delayed.

4. The Pillars of the groins have been already ordered with their caps, and also the Pillars of the South work room and of the Kitchen. It is necessary that they should be as soon as possible brought to the building to be set up immediately upon my return.

Brick Work.

1. It would be much to the advantage of the Public if the Bricklayer could be induced to throw up a very large quantity of mortar previous to the commencement of the work. It is also, *in fact*, an advantage to the Bricklayer, but many Bricklayers deceive themselves in this respect by supposing that because mortar made up from day to day receives into its bulk a larger proportion of Lime (for which the Public pays), and of course consumes less sand (an article which they are to provide), that they can thus make it cheaper. The additional labor, however, necessary to make up and work into smooth substance mortar prepared in small quantities, and the time often lost both by laborers and workmen is much greater in expense than the amount of the Sand, and the mortar is certainly the worse for it.

2. The first work to be done is the front wall from the gate to the West wing—building it in exact conformity to the finished work on the East side.

3. Turn the groins of the porter's lodges.

4. Turn the groins of the *long* West range, leaving the square groins at each end.

5. Carry up the six centre Cells on the East side exactly over those below. The windows come on exactly 6 ft. 6 in. (that is, 26 courses)

1798.
March 8

above the stone string (No. 2, stone work). The East and West walls of the small cells are to be carried one-half brick on to the walls of the work room to the South, and the Turnkey's room to the North (see the 1st drawing of the book of designs), but no part of the walls of the Rooms are to be finished before my return.

6. When the groins of the long West range are turned, the Front and Back Walls may be carried up to them. The centres for all the *windows* are made, and I hope they will be set out from center to center with scrupulous exactness.

As few hands, I presume, can be had during the fishing season, I have no doubt but that a very small progress will be made, if any, before my return.

But at all events, the above directions will be sufficient for one month from commencing work.

ROBERT BROOKE TO THE GOVERNOR.

March 10

I have on revision of the Arsenal Act supposed that it might be most advisable to await the session of the District Court before it is acted on in the way proposed; for altho' Mr. Randolph's reasoning on the subject is satisfactory to my mind, yet it is a serious thing to divest an individual of any part of his property without his consent. I do suppose it would be most safe to pursue the words of the law strictly, and I am the more inclined to offer this advice as the term of session of the District Court is so fast approaching as to prevent any inconvenience from delay.

Found two gentlemen of Birmingham, England, who were willing to contract for manufacturing the said arms, also 600 Pistols, Swords, &c., deliverable at Richmond, at fifteen dollars per stand. A condition precedent to a contract with these men is, that a permit must be obtained through the American Minister from the British Government for the exportation of these arms.

The Secretary of War showed a sample of French muskets and pistols, with various improvements described.

Saw Mr. Jefferson, who thought the best mode of obtaining desirable arms was to import them from France thro' the agency of Col. Monroe. Expected to visit Springfield for further investigation.

The present number of Clerks now in the service of the Public are six. They are employed in the following manner, viz:

One for keeping up the Register of Warrants with References.

One for making out Grants.

One for recording Grants.

One for delivering Surveys to Major Price, taking a Register of them, and also assisting in recording Grants.

One for searching, copying, &c.

One for recording Surveys.

That independent of the foregoing services, the Register will be obliged to select from the general mass of Titles the evidence of about ten thousand, which will be attended with much trouble, and will require the most deliberate and circumspect attention to avoid serious inconvenience and injury to the public.

This business the Register expects will be entered upon this Spring, as he is in the daily expectation of the arrival of the agent on the part of the State of Kentucky.

We are, therefore, decidedly of opinion that the business of the office, as it now appears to us, will not justify the discontinuance of any of the Clerks now engaged with the Register (at least for the present year).

THOMAS HAMILTON & Co. TO THOMAS NEWTON.

Be pleased to take notice that by virtue of a commission issued from the Court of the United States of the Middle Circuit in the Virginia District, in the suit exhibited by us in the said Court, we shall proceed to take the deposition of Phineas Bond, Esq., in the said suit at the dwelling-house of Edw'd Tilghman, Esq., in the city of Philadelphia, on the 21st day of April, 1798, between the hours of ten in the morning and six in the afternoon. March 22

We are, &c.

THOMAS NEWTON TO THE GOVERNOR.

I wrote you this morning that I had notice that Paul Tilghman, Wm. Crammond, and Jno. Simpson's depositions were to be taken in Messrs. Hamilton's suit against Coll. Wilson and me; but I misunderstood Capt. Hamilton. He intended, as your Excellency will observe by the notice, that they were to be Commiss'srs to take the depositions. He was also mistaken in the name of Mr. Tilghman. It was Edw'd instead of Paul. I told him I supposed Edw'd Tilghman lived in Hanover. He said no; he lived in Philadelphia. Coll. Wilson has agreed in part to take the deposition of Mr. Bond at Mr. Tilghman's house, and that it must be done before Justices legally authorized to administer oaths and done in the usual manner, and that agents will attend to propound questions to Mr. Bond. March 22,

RO. QUARLES TO THE GOVERNOR.

March 30 Inclosed your Excellency will receive my usual Quarterly Return of
 Arms and Military Stores at the Arsenal. I have at length closed my
 contract with Mr. Wills for the Timbers requisite in the erection of the
 Stockade Fort at this place, the work of which is already commenced,
 and no exertions on my part shall be wanting to have it completed with
 all possible expedition. I have given Mr. Wills reason to calculate on
 receiving \$100 in advance in order to enable him to prosecute this work
 with greater spirit and energy. I flatter myself the honorable Board
 will deem it expedient to make this advance.

The usual advance of \$100 to meet the incidental expenses of the
 Post will likewise, I presume, receive the sanction of the honorable the
 Executive.

I have, &c.

A Quarterly Return of the Arms and Military Stores at the Arsenal from January to April, 1798.

1 Brass Mortar, 1 Iron 4-pounder, 6,327 muskets in good order, 1,175 muskets with ruff new Bayonets, 1,751 muskets with new ground Bayonets out of repair, 250 Pickers and Brushes, 2,936 musket worms, 129 screw drivers, 765 Artillery Swords, 293 Grenadeer Swords, 7 barrels Powder, 40 Piggs of Lead, 181 Case Shot, 260 Round shot from 4 to 6-pounders, 30 Rheams of Cartridge Paper, 18 barrels of Flints, 1650 lbs. of Ball and Buckshot.

P. JOHNSTON TO THE GOVERNOR.

I beg leave hereby to resign my commission as agent for the Commonwealth in the District composed of the counties of Pittsylvania, Halifax, Charlotte, and Prince Edward.

April 10,

Edward

The commission is inclosed, and I flatter myself it will be accepted.

I have, &c.

Articles of Agreement entered into the tenth day of April, 1798, between James Wood, Esquire, Governor of the Commonwealth, by and with the advice and consent of the Council of State, and on behalf of the Commonwealth of Virginia of the one part, and James Swan, Esq'r, of Boston in Massachusetts, of the other part, contains the following stipulations, viz:

April 10

The said James Swan contracts to deliver to any authorized Agent of the State, in Richmond, within twelve months from the date of this con-

1798. tract, four thousand stand of Muskets and Bayonets as described in the
 April 10 advertisement made by the Executive, and corresponding to the model
 furnished him.

The Muskets are to be proved by a double charge of powder and ball, furnished for that purpose by the State. They are to be stocked with black walnut timber so far as procurable where made, or with birch or cherry tree as a substitute.

On the part of the Commonwealth, the Governor agrees to pay on delivery of said arms, the sum of ten dollars for each musket and Bayonet; to furnish the powder and ball for the purpose of proving the said muskets, and to pay any import duties which may by law be chargable on the said arms.

He further engages that the Executive of Virginia, shall use its best endeavours to obtain from any of the belligerent powers from whose territory any of the said arms may be imported, permission for their exportation, and a safe passport and protection from the privateers, cruizers, and ships of war of the power granting such protection.

In the event of the above named passport or protection not being obtained, it is agreed by the contracting parties, that this contract is to be null and void.

Signed by

JAMES WOOD,
 JAMES SWAN by
 ROBERT POLLARD his
 Attorney in fact.

Signed sealed and delivered in presence of A. Blair.

The arms described to be furnished by the foregoing agreement, will be shipped from Holland.

ROB'T QUARLES TO THE GOVERNOR.

April 12 Having occasion to turn to the laws of last session of Assembly a few days past, I observe that your Excellency was a little mistaken with respect to the number of arms to be obtained, previous to the appointment of the Major commandant of the State Arsenal's. I think, Sir, the law says that this appointment shall take place so soon as the State shall have obtained 15,000 stand of arms.

Your Excellency will do me the favour, whenever this appointment does take place, to name my pretensions to the Honorable Board, in doing of which I have the presumption to hope that I shall once more receive the friendly aid of your countenance and patronage.

I have, &c.

Petition of a large number of the citizens of Richmond city for the pardon of Henry Anderson, convicted in the District Court of this city of the killing a negro man, and condemned to suffer the punishment affixed by law to the crime of manslaughter—viz., burning in the hand.

1798.
April 12

JOHN STEELE TO THE GOVERNOR.

I regret that my success in the settlement of the accounts of the State against the United States has not been so complete as I could have wished, yet there is reason to hope that ultimately the much greater part of her claims will be allowed.

April 12,
Richmond

It appears that the first abstract sent on by the Auditor, amounted to the sum of Six thousand five hundred and thirty-nine dollars and 49 cents; the second to the sum of one thousand two hundred and seventy-six dollars and 24 cents—making together the sum of seven thousand eight hundred and thirty-nine dollars and 93 cents.

Of this sum you will find from a note at the bottom of a rough abstract herewith enclosed, that four thousand three hundred and six dollars and 8 cents, for the pay of militia and scouts, has been reported to the Secretary of War as justly due to the State; that the sum of two thousand seven hundred and fifty-nine dollars and 30 cents, charged as a commission of one and one-half per cent. to the paymaster, and for the expenses attending the holding of certain courts martial, has been referred to the Secretary for his opinion. The accountant did not think himself authorized from the nature of his office to decide upon it, owing to its being the first charge of the kind that had come before him.

That the sum of six hundred and twenty-seven dollars and seven cents for extra pay of two dollars per month allowed the non-commissioned officers and privates, has been deducted as heretofore; and that the sum of one hundred and forty-seven dollars and 28 cents, charged for express hire, for carrying dispatches to the Major-Generals, for sending dispatches on board the British ship Assistance, and for copying certain communications between General Mathews and the French Consuls, has been rejected. When I apply'd to the Secretary for a warrant for the first sum of 4306 dollars and 8 cents, he informed me that on enquiry he found there was no money appropriated out of which it could be paid, but that he would include it in an estimate with such other sums as might be found due to the State and report it to Congress, in order that an appropriation may be made for the payment of it.

He was too much engaged in other business, to find time to look into the Laws and correspondence between his predecessors in office and the Executive of Virginia on the subject of the Western defence so as to enable him to decide on the propriety of allowing the sum of 2759 dol-

1798.

Richmond

lars and 30 cents (the commission to the Paymasters, &c.) before I left Philadelphia. He assured me, however, that he would go into the enquiry and decide on it as early as possible. I detailed to him verbally the causes which produced this expense, and have requested in a letter dated the 31st of March (a copy of which is enclosed) that he may not decide against the claim before he can have time to hear from you on the subject.

The vouchers for the last sum—viz., 147 dollars and 28 cents—are so deficient, and the nature of the dispatches so undefined, that I was unable to give any satisfactory explanation of them to induce the accountant to admit them as a proper charge against the War Department.

I mentioned to Mr. Dawson the situation in which I left the business. I shewed him your letter of the second March to me and mine of the 31st to the Secretary, and requested him to attend to it.

The present Secretary having gone into office long since the arrangements were made relative to the Western defence of this State, he is but little acquainted with it. I therefore take the liberty of suggesting to you the propriety of sending on copies of any documents which may in your opinion tend to explain and strengthen the claim.

My being very much indisposed prevented my writing you early yesterday.

With very great respect, I have, &c.

P. S.—I forgot to mention the claim for the expense incurred by an advance of money for seventeen Catawba Indians. The voucher is in some measure deficient. The Secretary informs me, that it had been the practice to pay the expenses of such Indians as were ordered or required to travel to the seat of Government; it does not appear that there was any such order as to these.

SIR:

If any doubt should exist in your mind, as to the propriety of the claims of the State of Virginia, submitted to you by the Accountant, I have to request that you will be good enough to suspend a decision upon them until you can hear from Governor Wood.

I hinted to you the causes which led to the appointment of a Paymaster—a copy of the instructions given to him, and to the officers at the same time, would show how strongly the Executive were impressed with the necessity of the measure; and believing themselves vested with discretionary power on the subject. they had no doubt of the propriety of charging the expense attending it to the United States.

The letters of Governor Lee (with their enclosures) to the Secretary of State on the subject of the Ship Unicorn would shew fully the nature of the offence for which Colo. Wills was arrested, and perhaps, too, the necessity there was on the part of the Government to punish such

offences, if possible. The claims for the expenses attending the other Courts-Martial rest upon similar ground; of course, the same principle will govern in a decision upon them. I will only remark that the officers were in the service of the United States when they committed the offences for which they were tried.

I will suggest to Governor Wood the propriety of sending you copies of any documents which may, in his opinion, go to a farther explanation and establishment of those claims.

With sentiments of respect, I am, &c.

JOHN STEELE.

The Secretary of War, Philadelphia.

Virginia—Extracts from the Correspondence Between the Department of War of the United States and the Executive of Virginia on the Subject of the Western Defence of this Commonwealth:

WAR DEPARTMENT, *Nov. 16, 1791.*

SIR :

Upon a statement of Mr. Moore, representative from Virginia in Congress, it appears that some doubts exist whether the protection authorized by the President of the United States on the 28th ultimo and transmitted to the Governor of Virginia, should be extended to the exposed parts of the counties of Wythe, Montgomery, and Washington.

I am authorized by the President of the United States to assure your Excellency that it is his desire that the defensive protection for the above mentioned counties should be as effectual as the defence of Russell county; and further to inform your Excellency that the expense of any measures which you may think necessary on the occasion, proportioned to the object and consisting of the militia, and to be supplied with provisions in the manner as pointed out in my said letter of the 28th of last month, will be paid by the General Government on the account and vouchers of the services and supplies being produced at this office.

I have, &c.

H. KNOX, Sec'y of War.

WAR DEPARTMENT, *Dec. 5th, 1791.*

SIR :

The letter of his Excellency Governor Randolph, dated Council Chamber, November 24th, 1791, was received by the last post and submitted to the President of the United States. And I am directed, sir, by the President to inform you that, having confided the defence of the exposed counties of the southwestern parts of Virginia to the Executive thereof, he feels satisfied that the defence will be proportioned to the object, and that the means to be employed will be such only as he is authorized by the laws to use for the defensive protection of the frontiers.

1798.
April 12,
Richmond

In raising, therefore, the company of Militia mentioned in the aforesaid letter of the 24th of November, the President of the United States requests that it may be clearly understood that he conceives the law passed the 30th of April, 1790, authorizes him to call out mere Militia who shall be entitled to receive the same pay and subsistence only as the troops of the United States, which are specified in said law.

To this may be added such means of transportation as shall be indispensable, but he cannot promise either bounties, clothing, or any other compensation than the pay and subsistence before mentioned.

I have, &c.,

H. KNOX, Sec'y of War.

His Excellency Henry Lee, Esq., Governor of Virginia.

COUNCIL CHAMBER,

RICHMOND, *December 12th, 1791.*

SIR:

My predecessor transmitted to you in his letter of the 24th ultimo the act of the Executive providing for the defence of the county of Russell, and stated the reasons which induced a departure from the mode designated in your letter of the 28th of October.

I flatter myself, sir, you will not hesitate to sanction the system adopted as it combines protection with order and economy.

Since information reached this place announcing the late signal defeat of our army, various applications have been made to Government for temporary aid from the representatives of those counties which lay exposed to Indian hostility. We waited for many days in the expectation of being honored with your reply to Governor Randolph's letter of the 24th, as then we should have explicitly known your opinion with respect to that mode of defence which had been established by the Executive, and might have accommodated our future measures thereto.

Being disappointed in this expectation, and longer delay inadmissible, as the General Assembly would soon adjourn, we have adopted our arrangements for the defence of the District of Monongalia and the Counties of Kanawha, Greenbrier, Wythe and Montgomery on the same principles, which regulated the Executive in their act providing for the defence of the County of Russell, with the addition of a patrol to each county consisting of two men, for the purpose of procuring and communicating intelligence.

This expensive species of troops you will discover, Sir, are reduced to a very small number, nor would they have been employed in any degree but from a conviction on the fullest information, that they are indispensably requisite.

Vain indeed would be military preparations, if the means of knowing were inhibited; and really I must consider troops systematically without

those means, who are not allowed the only mode of procuring intelligence in the country in which they are to act.

When you compare the Military events of this year with those of the last, and the temporary aid now given to that furnished them, you will agree that although our prospects are more gloomy, our preparations for defence have not been so expensive, and yet we trust will be found equally effective from the alterations introduced. In so extensive an empire, occasions will occur where the Councils and money of the members of the Confederacy in their state capacities, will necessarily be used for the accomplishment of objects belonging constitutionally to the General Government, nor will the happiness and safety of the people in certain events, permit that delay which must otherwise result was this convenient instrumentality denied. From the evident necessity of such temporary efforts on the part of this Commonwealth, with respect to the defence of our citizens whose safety seems to continue precarious, notwithstanding the zealous and formidable military exertions of the United States, did the General Assembly during the last and present sessions, authorize the Executive to take such measures for the defence of our frontier counties, as in their judgment might be deemed necessary.

Under this authority was the money of the Commonwealth expended last year in defensive operations, which terminated in obedience to the directions received from the Secretary of the department of War?

The expenses accruing from these measures have been discharged in part by the General Government, and some remain yet to be paid. A claim has lately been exhibited from the county of Randolph against the Commonwealth, a copy of which is enclosed, wherein the 2nd of May is fixed as the period from which the General Government considers itself as properly chargeable with the disbursements issuing from the system of defence above mentioned.

I must confess, Sir, I must consider this distinction resulting from misinformation, and hope that the explanation which I now do myself the honor to make will conclude this business in a manner just and satisfactory. The Commonwealth of Virginia is certainly in the first instance liable for monies stipulated to be paid for the services performed during the last year under the authority of the Executive previous to the commencement of the operations of the General Government, and being the only judge of the justice of such claims, propriety demands that they should be presented here for settlement, but at the same time I trust it will not be denied that the monies thus disbursed, being applied in the execution of a duty belonging to the General Government, constitute a proper charge against the United States inasmuch as the protection of the people from an enemy to which they were exposed, was the only end of such expenditures, and that protection from the then existing circumstances could not be afforded in due time without the interposition of the Legislature of this State.

Under these impressions, I have directed the proper officer to prepare an account of these expenses, which I will do myself the honor to forward to you with the requisite documents, and confidently hope that you will, as soon as convenient, inform me when and in what manner the expected restitution will be made.

Permit me to say, Sir, that the Executive of this Commonwealth take very great pleasure to contribute by any efforts in their power towards the successful execution of the measures of the General Government, and more especially when those measures comprehend the safety of a part of this community, in whose welfare we are so deeply interested.

I herewith transmit the act of the Executive of this State, the resolution of the General Assembly, copies of letters from the Lieutenant of the county of Harrison, and of my instructions to the commandants of the troops to be raised, for your further information.

I have, &c.,

HENRY LEE.

To the Secretary for the Department of War.

WAR DEPARTMENT, *24th December, 1791.*

SIR:

I have the honor to acknowledge the receipt of your Excellency's letter of the 12th instant, together with its enclosures, all of which have been submitted to the President of the United States.

The letter of the 24th of November, written by your predecessor, was received by the post on the third and answered on the fifth instant.

The President of the United States has directed me to assure your Excellency that he considers the United States responsible for the necessary expense to be incurred at this time for the defensive protection of the frontiers. That the arrangement which has been ordered by the Executive of Virginia, by their act of the 12th instant, appears judicious and as economical as the state of the case will admit, and that it will therefore be paid by the General Government according to the restrictions stated in my letter to your Excellency of the fifth instant.

It is, however, to be observed that the employment of the scouts were not contemplated, but as they are considered as essentially necessary, and as Congress have within a few days past made appropriations for their pay on a former occasion, the President of the United States assents fully to their adoption.

At the same time, it is conceived that the number for the Ohio county are not sufficient, it having such an extensive frontier.

The County Lieutenant therefore will be permitted to call out a number not exceeding eight for the said county. And if your Excellency should conceive an additional number necessary to any other county, you will please to direct the same and inform me thereof.

As Major-General St. Clair is empowered on this subject, it is presumed he will make an arrangement with Brigadier-General Scott for the temporary defensive protection of Kentucky.

1798.
April 12,
Richmond

I take the liberty to request that your Excellency would be pleased to direct that the County Lieutenants make monthly returns to this office of all Militia or scouts employed at the expense of the United States.

When the accounts for the expenses for the defensive protection of the past year, mentioned in your Excellency's letter, shall be received, they will be examined and the result thereof transmitted to you.

The expenses for the scouts of Randolph county, which you enclosed, shall be paid to the order of the Lieutenant of said county.

The President of the United States has directed me to thank your Excellency for your assurances of the ready concurrence of the Executive of Virginia in the measures of the General Government taken for the defensive protection of the frontiers. Although this assurance had been wanting, he should have entirely relied upon the patriotism of the Executive, of which you are the head, to support every proper measure for the common good of our country.

I have, &c.,

H. KNOX, Sec'y of War.

WAR DEPARTMENT, *October 30th, 1792.*

SIR:

The officers of the Militia called out for the defensive protection will be allowed the pay stipulated in the Act of the 5th of March last since the passing of the same. It is the desire of the President of the United States that only defensive measures should be used. If for this object it should be your judgment that the Militia in the southwestern parts of Virginia should be increased, you will please to order the same under the former regulations.

The accountant has not reported upon the Militia rolls you forwarded, but I have directed him to do it immediately, and arrangements shall be made for transmitting the amount.

I have, &c.

H. KNOX.

The first contract being fifteen months from the delivery of the samples. This time does not embrace it. I must pray your Excellency and the Honorable Council to accord that time, as then it is probable, I shall be barely able to make the delivery, or otherwise prolong it three months from the 16th January next. My reasons for saying that, is that space will barely give me time. I find great opposition from France to granting permission, and Holland dare not do it without her consent. I go for Europe myself within two months, and one great motive is to effect permission to export the 8000 stand. I presume I shall succeed whilst Diplomatic exertion may prove ineffectual.

I beg leave to represent to the Honorable Board that notwithstanding the wish expressed to me by his Excellency the Governor, that as much as possible of the work should be lett to the lowest bidder. I have been under the absolute necessity of continuing to employ the hands hitherto engaged, in order to prevent a total stop to the brick work, and from the nature of the work, and its great uncertainty, I trust it will appear to the Honorable Board how utterly it is impossible to go on without employing some men, at least, by the day, as these men can at the same time that they are employed in the occasional work which is constantly occurring, also execute such work as might otherwise be lett by measurement. I beg leave to submit to the honorable Board an exact estimate of the expence of framing the Roof of the Gateway in order that the same may be compared with the usual charge for such work, and a judgment formed in how far it may be expedient to frame all the pine scantling by the day and to lett out only the Locust Window and door frames and the sashes and doors.

Estimate of the Expence of framing the Roof of Gateway—Employed:

William Callis, 4 days at 10s.,	-	-	-	-	-	-	£2.00.0
William Callis, Jun'r, 4 days at 6s.,	-	-	-	-	-	-	1.04.0

THOMAS BRIDGES to the Governor

Proposing to furnish arms for the 1st and 2nd Battalions

R. WEST to the Governor

In pursuance of the duty assigned me by my deputation as Commissioned Officers of the 2nd Battalion of Fairfax Militia, I take the liberty to enclose their resolution entered into on the 1st inst.

They have learned with real pleasure, your most sympathetic and similar request from the Town of Alexandria, and share this publicly to acknowledge the grateful sense they entertain of your exertions in bestowing upon their neighbors, the means of affording to themselves some degree of protection against any enemy that may assail them.

The Militia of Fairfax County compose the 60th Regiment, and the 2nd Battalion affords five hundred and sixty-three effective men. They deprecate the necessity that may call them from agricultural pursuits which they have enjoyed so long, and accustom them to the dangers of arms; but if it becomes necessary for the protection of American Independence, or to repel a predatory attack upon the Town, they will with alacrity cheerfully forego the comforts of their present situations, and evince to the world that they possess a spirit unconquerable but by death. That America and Liberty are synonymous terms. Your generous care for the safety of the citizens and property in Alex'a, was prompted I presume upon a idea that their situation required it; if so, and it should become necessary to assemble a force to oppose an enemy, the whole Militia of the county no doubt would immediately repair to the scene of action—and for what purpose, unless they have arms in their hands? To look about them and witness the licentious conduct of a ferocious mercenary soldiery! I hope, Sir, you will see the propriety of indulging us with the like number you have given to the 1st Battalion, and allow us the same opportunity to distinguish ourselves in the cause of our Country and friends that our associates have. I have not had the pleasure of a conference with our Commandant Col. Little upon this subject, but I do not hesitate to say, in my opinion that he would feel himself obliged against any probable attack that might be made upon Alex'a, with this force in the county.

I am, &c.

At a Board of Officers of the 2nd Battalion of the 60th Regiment of Virginia Militia at the house of John Young, in Fairfax County, on Friday, the 1st inst., it was unanimously resolved that R. West be requested to write to the Excellency James Wm. Gordon of the Commonwealth.

1798. and solicit his interposition in the procurement on their behalf of 2
June 6 stand of arms for the common defence and under such regulations
may be deemed compatible for the safe keeping or distribution of 1
arms aforesaid as the Governor and Council of State shall adjudge.

WM. AUSTIN TO THE GOVERNOR.

At a meeting of the Richmond Troop of Horse held a few days ago, I was requested to forward to you the underwritten letter, expressive of the unanimous opinion of said Troop.

June 23,
Richmond

With much respect, I have, &c.

TO THE GOVERNOR:

Sir—Informed as we have been by our Colonel Commandant that our Troop will be enrolled in the first requisition of Congress, we deem it proper to acquaint you that we are completely equipped for service, and that we will most cheerfully and readily obey any orders which you may find it expedient to issue. Embodied for the purpose of making ourselves good citizens in acquiring the use of arms, and employing them in obedience to the constituted authorities under which we resolve to act, we are aware that it may be thought unnecessary to make this proffer of our ready services, but at a period perilous as the present certainly appears, we conceive it cannot be displeasing to our chief Magistrate to receive sentiments of attachment to and concurrence with the measures which may be found necessary to be adopted.

June 23

Accept then, Sir, this as the most *solemn promise* of our Troop to hold ourselves at all times in readiness to act alone, or in concert with other forces, when the voice of our Country calls upon us, and that when we cease to entertain a due respect for the authority by which we are constituted, we can no longer consider ourselves proper Members of this or any other Troop. But while we tender these expressions of attachment and obedience to our Laws and Magistrates, we have to lament that our number is small; we beg leave to offer it as an opinion that this defect might in a great measure be remedied if Government could find it convenient to furnish us with a part of those equipments which are purchased by individuals at so great an expense. We have formed this opinion from a conviction that there are many valuable young men in this city and neighborhood whose only objection to joining us would be the difficulty of procuring an equipment.

Office

I forwarded a copy of the General Order issued yesterday to Colonel Lambert, who thereupon has wrote to me as follows:

"SIR:

In answer to your favour of the 26th instant, directing a return to be made of the companies of Light Infantry and Grenadiers of the 19th Regiment of Militia, I am sorry to inform you that no such companies now exist. I am informed that an Infantry Company is about to be raised. So soon as it takes place I will give you the necessary information.

I am, &c.

DAVID LAMBERT, Lt.-Col. Com'r.

Sam'l Coleman, Esq."

Col. Lambert further verbally informs that the officers of the late Light Infantry Company have all resigned, and that the Lieutenant of the Grenadier Company is the only officer remaining of that company.

I have, &c.

Colonel Lambert informs me that he did not notify the resignation of Captain Richardson either to the Governor or to the Corporation Court; he likewise informs that the Captain of the Grenadier Company is dead, and that the Ensign has been promoted in another corps.

He tells me that within a few days past about thirty men have associated to serve in that company, and that it is probable the company will shortly be completed.

LAWRENCE H. WILLS, RO. GWATHMEY, EDWD. JOHNSTON, COMMITTEE, TO THE GOVERNOR.

June 28 At a meeting of a number of the citizens of Richmond, on the evening of the 28th June, 1798—met for the purpose of associating and forming

themselves into a Company of Infantry, the undersigned were appointed a Committee to notify you of the same, and to solicit your appointing and commissioning the necessary officers for commanding them. In pursuance whereof, we have the pleasure of stating to you that the Association is now composed of Fifty-five members, who beg you may recognize them by the name of *The Richmond Light Infantry Blues*—and who also beg leave to recommend to the notice of the Executive, and solicit the appointment of the following persons to the offices respectively affixed to their names:

Inclosed is a return of the arms which have been issued to the Militia agreeably to the orders of the Executive, from time to time, and for which receipts have been filed in my office agreeably to an order of Council of the 25th April, 1794.

Besides, on an examination of the Journals I find the following orders of Council:

That 72 stands be furnished to Capt. Thornton's Light Infantry Company, in Fredericksburg, April 24th, 1795.

July 29th, 1794.—Advised that Capt. Mason's Company, of Stafford, Nelson's Company, of York, and McRae's Company of Artillery, Petersburg, be furnished with arms so soon as they are compleated and Uniformed.

June 2nd, 1795.—It is advised that Capt. James Caruther's company of Rockbridge militia be furnished with arms on the usual terms.

July 27th, 1797.—It is advised that 72 stands be delivered to Colonel Breckenridge for his Regim't, and the like number to Col. Wilson Cary Nicholas for his Regiment.

Mercer of the 2nd Regiment of Artillery, and that the like number of stands of arms and artillery swords be delivered to the order of Capt. Lewis of the same Regiment; each of the commanding officers to enter into bond for their safe keeping and return.

Mar. 7th, 1798.—It is advised that 50 stand of arms, and the like number of Artillery swords, be delivered to Capt. McCreery's Company of Artillery of the 3rd Regiment, the officers of the Company to give bond for their safe keeping and return

May 8th, 1798.—It is advised that 50 stand of arms be delivered to Capt. Tinsley, for the use of his Company of Militia from Fluvanna County, on the usual terms.

May 19th, 1798.—It is advised that Capt. Reynold's Company of Grenadiers, and Capt. Smith's Company of Light Infantry of the 54th Regiment, Norfolk Borough Militia, be furnished with arms upon the usual terms.

I am unacquainted whether in pursuance of these several orders of Council, arms have been furnished.

Yours, &c.

THOMAS MINOR, OF SPOTSYLVANIA, TO SAM'L COLEMAN.

Yours of the 10th of July last a few days ago came to my hand. On inquiry find that Capt. Thornton did not receive any arms in consequence of the Order of Council of the 24th of April, 1795. July 6

In the month of April last, Capt. John Mercer received from Mr. Robert Quarles at the Arsenal, 50 Muskets, 50 Bayonets, 50 Cartouch Boxes with Belts, and 50 Artillery Swords. The Muskets were entirely out of repair, the bayonets without scabbards or belts, the swords without belts, and but few of the scabbards in order.

As Capt. Mercer's company have been fitted up, the arms, &c., have been put in as good order as they are capable of receiving at this place. The officers of the company have procured at their own expense Belts, and Scabbards for the Bayonets, and Belts for the Swords as they have been wanted by the individuals. The Cartouch Boxes were in good order and continue so at this time. I have, agreeable to request, appointed a Field Officer to inspect the said arms, whose reports are herewith sent you.

Yours respectfully.

WM. LUDWELL LEE TO THE GOVERNOR.

The imbecile situation of the company of militia under my command for want of arms, at this alarming and portentous period, induces me to apply to your Excellency for as many firelocks, with their necessary appendages as will be sufficient to arm my company, which consists of 85 men. There are not more than half a dozen firelocks belonging to its members which are fitted for warlike operations; many are totally destitute of any sort of gun. July 9, Green Spring

I am apprised that it will be impossible at this time to furnish all the Militia with arms. but when the defenceless situation of this part of Virginia is considered, I trust the Executive will not be of opinion that my request is ill-timed or improper.

B. HENRY LATROBE TO THE GOVERNOR.

July 9

I have this day most attentively examined that part of the arch of the cellar under the kitchen of the Penitentiary house which has been supposed to have settled, and find that the place where the bricks have been driven down is not at all under the pillar above. Upon inquiry, Mr. Duke could inform me that Beard, the stone mason, occasioned the apparent failure by hammering the base stone there. In no other instance is there the smallest failure. I have marked out upon the arch the exact spot over which the pillar stands, and should be extremely obliged to you to examine it. You will be convinced that the pressure of that stone has done no mischief. In the K. cellar the whole weight of the octagon groin-butments is upon the crown of the lower arch, and no sign of settlement is to be seen. Then there is not even a cap-stone to relieve it. But although I am myself satisfied of the security of the work, I should be very much to blame were I to hold out obstinately against your opinion, and I have requested Mr. Callis, Junior, to point out to you the mode by which every possible danger may be avoided.

I beg leave to express to you my very sincere gratitude for your kind anxiety for the success of my work, and I shall always remember that if I ever arrive at any professional eminence in Virginia I owe it to your early patronage.

I have this day ordered part of the centering of the octagon groin to be struck for your instruction. Everything is going on in the very best manner, and I have left directions in writing and drawings for 6 weeks to come.

Inclosed is the proposed advertisement for carpenter's work and the account of State.

I beg most seriously to represent to you the necessity of thinking soon of supplying the house with water. The well is now empty, and Mr. Mims receives only two Hogsheads per day of bad water from it. Even the Brickmakers have given up their wells. There can be no doubt but that in November we may receive Prisoners.

In Philadelphia there is a natural stream which clears the sewers, and they keep constantly 2 pumps going for the house and the works. To supply water in any way will require two month's preparation, and we cannot well begin the work till August.

I have drawings of all the Philadelphia Machines for making nails.

We ought to think of making some. I am willing to take any trouble and give any assistance.

1798.
July 9

Believe me with sincere respect, &c.

Proposals will be received, &c., for executing the following Carpenters' and Joiners' Work:

1. Laying single joists upon arches.
 2. Framing principal roofs according to directions and drawings to be given by the Architect. A specimen of the mode of framing may be seen over the Gateway.
 3. Planking the walls of cells with $1\frac{1}{2}$ oak plank driven full of clinched nails, and ploughed and tongued.
 4. Laying straight joint pine plank floors as kew-nailed.
 5. Boarding for slate with inch plank, close joint.
 6. Planing and fixing the principal joists of the Galleries in Locust.
 7. Framing the (pine) Floors of the same and boarding them.
 8. Making rebated window frames to all the external openings with timbered heads and sunk cells in Locust.
 9. Making rebated Locust door frames, double heads rebated.
 10. Six-pannelled 2-inch bead and flush doors.
 11. Six-pannelled $1\frac{1}{2}$ -inch Do.
 12. Making six-pannelled 1-inch double doors bead and flush with a plate of iron between them and bolted with 8 bolts to the foot.
 13. $1\frac{1}{2}$ rebated and braded linings.
 14. Superficial moulded work (per foot).
 15. $1\frac{1}{2}$ sashes, dowelled and flanked.
- N. B.—All this carpenter's work must be delivered in its place; the doors must all be hung and the sashes fixed.

Slatting, 200 square.

The plates must hold 18 inches length and show 5. All the eves must be doubled. They are to be laid dry and pointed in the inside.

N. B.—As the building itself cannot be burned, might shingles do for the prison and plates only for the gate and keeper's house.

Executive, a speedy attention to the subject, and to solicit that protection from their Government they deem at present so highly expedient. At a time when sullen torpor and unaccountable apathy so strangely prevades this part of the country, we the undersigned at least suppose it a duty incumbent on us as private individuals, to be mindful of our families and property, and as officers attentive to the necessary means of defence.

The recent intelligence of arrivals in parts of the United States of French West India negroes, has particularly alarmed us, and suggests the propriety which we hope, Sir, you will perceive, of applying for Gallies to protect our Bay of Chesapeake, and a provision of arms, ammunition and accoutrements for our Artillery, Light Horse and Light Infantry Companys, if not for the whole of our Militia. A request from the Governor and Council of Virginia to the President of the United States on the subject of our naval defence, we doubt not would be attended with prompt and immediate success, and we hope, Sir, the Executive will be able to furnish from their own resources, the requisite swords, field pieces &c. for the above mentioned companies.

EDM'D THOMAS TO THE GOVERNOR.

Permit me to address you once again on the subject of my mission, having nearly brought it to a close. I hope occasion will not require me to be again troublesome. On receiving those original papers authorized by law, I find two hundred and upwards in the Register's office, which was not acted on before the separation of Kentucky from Virginia took place, which the Register appears not fully satisfied is comprehended in the law of Virginia, passed in the October session, 1793. These are the papers mentioned in my address in June, 1797, on which the fees of office had been paid and not carried into grant. On taking those papers to the State of Kentucky, without the fees of office, they cannot be acted on, under a law of that State which passed November, 1797, making it the duty of persons having claims to land not as yet patented, to return their plats and certificates to the Register's office by the last of December next. I beg leave to submit this to the consideration of your honorable Board, and if not found consistent to let those fees accompany the surveys on which they have been paid, I beg such a resolution as will remove the difficulty which the Register appears to have in delivering these papers. I farther take the liberty in observing there is now a number of Grants for Land within the State of Kentucky lying in the Register's office of this State which is much wanted by the proprietors, and it will be a great convenience to them if you will admit of my taking them out. July 17,

I wrote you in haste by the last mail and now forward to you by Mr. Tazewell, dollars 4848 33-100, the am't of what I have this morning received from the War Office.

This sum is less than I expected: an appropriation has been made by

Congress to cover the whole claim and yet the Secretary at War cannot "at this moment" determine on that of the paymaster altho' the accounts have been before him several months. It is a pleasant thing to transact business with men of business.

I must pray you to have this money properly receipted for.

I am still of the opinion which I gave in my last as to the meeting of the Assembly. Of this, however, you are better able to judge.

I have, &c.

WAR DEPARTMENT, July 19th, 1798.

SIR:

I have admitted the following claims of the Executive of Virginia against the United States, viz:

1. The expenses incurred by the officers composing a Court-Martial for the purpose of trying Col. Wells, amounting to	-	-	\$264 88
2. Ditto for trying Capt. Caperton,	-	-	166 06
3. Ditto witnesses attending trial of Capt. Hawkins,	-	-	13 33
4. Expenses incurred in arresting the ship Unicorn.	-	-	97 98
			<hr/>
			\$542 25

With respect to the claim on account of payments made to paymasters appointed by the Executive of Virginia to pay Militia employed in the defensive protection of the frontier, it has been thought advisable to defer any decision thereon till such time as the subject can be further investigated, it not being in the power of the Secretary at this moment to make the necessary inquiries to establish the ground for such appointments and expenses. The claim for payments on account of seventeen Catawba Indians cannot be admitted, their visit not being authorized by the General Government nor any of its agents.

I am, &c.

JOHN CLARKE TO THE GOVERNOR.

July 23

By a rough calculation (not having had sufficient time since Saturday evening to make an accurate one) the houses, waterworks, &c., for the manufacturing of small arms, exclusive of ordnance, will amount to upwards of three-fourths of the sum that the whole works would cost; that is to say, if the works for making the ordnance were included.

The stone masons with whom I have conversed, inform me that the stone work which does not require lime may be done for sixteen shillings per perch, and the work which requires lime for eighteen shillings per perch; but I have no certain information as to the price for making or laying bricks, nor the prices for which the materials of wood and iron can be procured. I suppose the prices for the materials cannot be known accurately until the work is contracted for.

By the stone masons and brick makers, who are desirous of undertaking the stone and brick work, I am informed that the stone work and brick work for the whole manufactory may be done in the present year, but the season being considerably advanced they would not have time to do it if the work is not immediately commenced.

JOHN CLARKE TO THE EXECUTIVE.

Finding (since I delivered to you the plan for the Manufactory of arms) that stone work may be done at as little expense as brick work, and it being deemed prudent to have more stone work in the buildings and less brick work than was intended when I delivered the plan, I have made the additions of stone work where it appeared necessary, and deducted from the brick work in proportion, and find that the manufactory will not require more than eighteen hundred and thirty perch of stone work and one million, one hundred and twenty-three thousand bricks. As the season for such work is somewhat advanced, you will pardon me for suggesting the necessity of having this work immediately commenced.

A letter from his Excellency the Governor, and one from John Clarke, the Superintendent of the Manufactory of arms, having been laid before the Board, requesting to be informed at what price the James River Company would furnish one hundred and sixty square inches of water for the use of the public Manufactory of arms, to be taken out of the canal four and a-half feet below the surface at two different places—

Resolved, That the Company will furnish the quantity of water in the manner required, at the rate of Eight Dollars annually per square inch, which they deem moderate, as the fall is sufficient for the water to be used three times over, and that the public may be accommodated with the water whenever they think proper to use it.

August 2, Since I wrote your Excellency, some vessels have arrived from Jamaica.
Norfolk The accounts by them are that the yellow fever rages there, and that
 several people have died belonging to the vessels which had arrived there.
 From the small expense that will attend the examination of vessels com-
 ing in, by the Doct'r of the Port, I think it would be prudent to have it
 done, and shall be glad of your Excellency's opinion thereon.

 There is no occasion for any boat or any person to be employed but
 the Doct'r, unless a vessel should be infected; in that case, it would be
 proper to employ some man as a guard, to see that no evasion happened
 from the vessel. If a Proclamation is necessary, I think a general one

Frankfort
Kentucky Yours of the 3rd May last covering the copy of a letter from two of the Judges of your General Court, contain information of the theft of Jack Cox or Knox by certain persons mentioned in the letter I received about six weeks ago, and immediately instituted an inquiry concerning the said Jack Cox. About three weeks ago I met with Mr. Slone at this place; he informed me he had a boy of that description in his possession that he purchased in Culpeper county, near Normon's Ford; the boy he called Bill, having purchased him by that name. He assured me should he prove to be the boy mentioned by the Judges he will cheerfully give him up; he has further assured me the boy shall not be removed out of the State, nor out of his possession, before his friends can have an opportunity of proving his right to freedom. Inclosed I send you a copy of a letter sent me by Mr. Slone after his return to Nelson county, which may furnish you with a Clue to ascertain the truth of the fact alleged in the Judge's letter.

You will be so good as to give me the earliest information on this subject after you make the necessary enquiries to satisfy yourself respecting the boy, and rest assured I shall contribute everything consistant with my duty to see the boy liberated, should he be the Jack Cox mentioned in the Letter.

Accept, Sir, the expressions of my best wishes, &c.

Office

SIR:

When I had the honor of seeing your Excellency not long since I took the liberty of mentioning the subject of furnishing arms and accoutrements for the company of Light Infantry belonging to the 68th Regiment, with the command of which the Executive had entrusted me.

I had mentioned that I had troubled the Executive upon the subject in the year 1794, and that I had been informed that the honorable Board had made an order that the company should be furnished, which has never yet been done. The exposed situation of this part of the country to depredation and injury from piratical marauders on account of its contiguity and openness to the sea, at that time was, as it now is, and must be, the cause and apology for this application for arms, &c., for the company, which I then made and now take the liberty to make. The necessity for being prepared for defence in such cases seems to be increased, and is at this moment very great. There are accounts that a French privateer has been very lately in Mobjack Bay, and that one of these within two or three nights past has been within Hampton Roads, from whence a large ship was taken and carried off by it.

I have, &c.,

THOMAS NELSON.

B. H. LATROBE TO THE GOVERNOR.

When I made the agreement with Col. Harvie under which the new road to this building has been dug, it was understood that, as the road round the west side of the Prison was useless to the public and that into the Gate useless to Col. Harvie, the laborers supplied by each party should make by joint labor both roads. The former has been completed, but the latter, notwithstanding repeated directions and solicitations on my part, was not attempted.

Sept. 3,
Penitentiary

It has not become absolutely necessary that the contractor should dig the sewers on the west side of the building. The rain water of the whole area of the work has during the last twelve months found its way into the west cellars, and has done very considerable damage, which every day increases. To dig these sewers it is absolutely necessary to finish the road up to the Arch, as they cross the other road. The contractor, however, has pleaded, and I believe with reason, that to make the road is not within his contract. We have no laborers of our own upon the ground, and as the contractor cannot proceed with any work of present importance until this road is completed, I have taken the liberty on my own personal responsibility to engage the laborers of the contractor to finish the road rather than delay any longer a work so urgently necessary

1798. as the means of taking off the water from the west foundations previous
 Sept. 3, to their being further loaded by the story above the Men's Infirmary.
 Penitentiary

I most respectfully lay this matter before your honorable Board, and beg that you will be pleased to authorize the work to proceed. It will be finished in the course of a few days.

I have, &c.

SAMUEL MÜLFORD TO THE GOVERNOR.

According to the Instructions I received from your Excellency, I chartered the Sloop Rachell, Capt. Woodward, he finding himself and one hand for four dollars per day. I likewise have employed three hands at Ten dollars per month, and proceeded and took station at Hayes's Island. Yesterday I boarded the Sloop Johns, Capt. Meredith, from City Point: found the Capt. and two of the hands dangerously ill; immediately forwarded an Express to Dr. Leiper, who has attended and prescribed for the surviving two, one having died previous to his arrival. I have supplied them with some immediate necessities, they being in want of everything.

I wait your Excellency's further instructions for procuring an attendant and such necessities as they may require.

I remain, &c.

D'R SIR:

I am perfectly of opinion the man who died last night must been carried off by the Yellow Fever. The corpse very yellow, with large purple marks.

The sloop from City Point who has now a sick man on board, is getting yellow eyes and neck, has puked up in my presence matter resembling the grounds of coffee. A distressing hiccough; will probably die. Shall call and see you as I return.

Being the owner of a lot on the So. side of the canal opposite to Mr. Paine's Coal yard, it is my wish to erect a Grist-Mill thereon. I therefore take the liberty to ask of you and the Hon'ble the Council, permission that the water from my mill may be suffered to pass down a run

which is discharged into the river, which run is conveyed under the canal by an arch and thro' my lott and a part of the Public Ground to the River. It is presumed the additional water which will be necessary for my mill will not in any manner injure the ground belonging to the Commonwealth, particularly as there is a bottom of rock almost the whole way, and it is not desired that the course of the present run of water should be changed. Should it be thought proper that the ground should be viewed by a person skilled in such business, I will attend at any time and explain my plan and point out the course for the discharge of the water from the mill to the River.

B. H. LATROBE TO THE GOVERNOR.

Having now nearly compleated the Road to the Penitentiary house, the Contractor's workmen are ready to proceed with the sewer. Great progress has been made in the proposed chains for securing the West Wing, which still remains exactly in the state in which it appeared on striking the centers; but for want of another good smith and striker, the Iron work goes on heavily. Mr. Paul is a very good nailer. The Superintendent's illness has prevented the report upon the stone work being in readiness to be submitted to the Executive this day. It will be laid before you next week. I beg leave once more to remind the Executive, of the very great urgency of considering the means of supplying the Penitentiary house with water; and to refer to my reports of the last season upon this subject, I had hoped that the building would have been ready to receive convicts in December. My exertions however have been ineffectual: but as the woodwork may be done during the winter, it cannot be doubted that the square part of the Prison will be compleated early in Spring.

Sept. 8,
Richmond

Without a very copious supply of Water, it will then be unfit to be inhabited.

I received about 14 days ago, the intimation of the Executive that a proposition had been made at the Council, to remove me from my office as Architect to the Penitentiary house. It was my intention to have immediately applied for a decision upon a subject of so much importance to my present and future interests: but as I am convinced that such intimation was given to me from motives of attention and delicacy, I have been unwilling to trust myself with an early expression of my feelings on the subject, lest they might betray me into anything that might not appear consistent with my respect for the Honorable Board.

In the mean time, I hope I shall be pardoned in saying, that conscious as I am, that I have very far exceeded the limits of my precise duty in my exertions to be useful to the public—that I have sacrificed, and am at this moment sacrificing situations infinitely more eligible in point of emolument, to my determination not to forsake the employment in which I first embarked—knowing that I have now educated a set of workmen capable of finishing the work, who when I first met them, were unable to execute anything beyond the commonest arch—that I have done the duties of two situations ever since I was appointed—that it is impossible with justice, to charge me with the slightest infidelity or neglect, and that in fact no such charge has ever been made.

I hope I shall be pardoned in saying, that such a record of disgrace as now appears against me upon the books of the Honorable Council of State, entered without my having the most distant conception of the accusation against me—or knowing against what charge, and against whom I have to defend myself, is to me a punishment which could only be due to some flagrant and proved misconduct. I am unwilling to anticipate the determination of the Executive respecting the day fixed, nor has the anxious and lengthened suspense in which I am held, diminished my zeal to fulfil my duty: but if the Honorable Board would indulge me with a hearing on Tuesday next, I should feel myself infinitely obliged to your Excellency to express such my request.

I am, Sir, &c.

Estimate of the Expense of Altering the Design of the Roof of the Penitentiary House from a Hip Roof to a Gable Roof.

N. B.—If the roof be covered with Slate the Hips of the Hip roof must be leaded and also the valleys.

Sept. 22

If the roof be a Gable roof, the Ridge of the Gable must be leaded, and the fillets of the lower roof where it meets the Gable Wall.

The fillets are equal to the valleys. The Ridge is 29 feet long, the top of the straight cornice is 28 feet long, making in each roof 57 feet. The

1798.
Sept. 22

Hip Rafters are 20 feet long, making in each roof 80 feet, so that there will be in each roof 23 feet more of lead than in the Gable roof. This lead must be 1 foot six inches wide and weigh 6 pounds to the square foot. This will make the Hip roof more expensive in lead, as follows:
33 feet 6 inches sup. ft. at 6 lbs. to the foot, - 201 lbs., say 2 cwt.
Two cwt. of lead at \$8 the cwt. is - - - - - \$16 00
For four roofs, - - - - - 4 00

Total additional expense in lead, - - - - - \$64 00

There will be some more expense in cutting the shingles to the hip, which at the highest calculation may be estimated at \$36, making the Hip roof more expensive than the Gable roof \$100.

In every other respect the Hip roof and the Gable roof are equal. The same number of shingles will cover each, and although the Hip roof is stronger and takes less timber, as it requires no wind braces, no Gable plates, I shall not calculate up this circumstance in favor of the Hip roof.

The Gable will cost beyond the Hip roof the following:

Eight Gables will take 36,500 Bricks, which at \$10 for laying and materials, - - - - - \$365 00
Each Gable or Pediment has 36 feet raking cornice, which in timber, joiners' work, nails, and painting cannot possibly be estimated at less than 7s. 6d. per foot, as it projects 1 foot 6 inches, and cannot now be altered, the roof being framed to that additional space, nor would the very high walls be properly protected by a less projection.
Eight Pediments make 288 of raking cornice at \$1 25, - - 360 00
Waste of timber framed to a Hip roof, new timber for the Gable roof, and new framing cannot be less than - - - 100 00
\$825 00
Deduct saving of lead, &c., - - - - - 100 00
\$725 00

B. H. LATROBE AND THOS. CALLIS TO THE GOVERNOR.

Sept. 22,
Penitentiary
House

We have attentively examined and measured the stone work executed by Messrs. Baird & Robertson at the Penitentiary house from the 25th of July to the present date, and find the same to amount to—

1,802 ft. 1 super. ft. work at 2s.9d., - - - - - £247.16.6
69 " 7 cube aghler at 3s., - - - - - 10.08.9
148 " 10 sup. ft. scapelling to do. at 1s.6d., - - - 11.02.7½
£269.7.10½

These dimensions include every part of the work which is charged in the bill delivered to the Executive on the 1st of Sep'r, amounting to £199.19.9½, and also all that has been wrought and set from the 27th of August up to the 20th of September.

1798.
Sept. 22,
Penitentiary
House

Of this amount only £167.6.4 is accounted for in the estimate laid before the Legislative Assembly in the last session. The remaining sum of £102.1.6½ is a charge for work which was not contemplated at the time of making the Estimate. This extra work consists of Stone Pillars to support the groins of 6 rooms, stone imports to all the external arches, stone Corbels in the spandrels of the arches, and Keystones to the large groins. The tenderness of the Bricks and the rapidity with which the work has been carried on, has rendered it highly necessary to employ stone in all these situations. The expence of Brick work saved by the use of this Extra stone in pillars and in diminished size of arches and Spandrels, amounts to—

18,750 Bricks and laying at £3 per M.,	-	-	-	-	-	£56.5.0
336 ft. of cut splays at 9d.,	-	-	-	-	-	12.2.0
						<u>£68.7.0</u>

So that the extraordinary expense of stone work in the whole estimate up to this day, is £33.14.6½, and the building has thereby gained a solidity in its weakest parts that will forever secure it from danger. Much room has also been acquired by substituting small stone pillars for massy Brick piers.

The work already executed and specified in the Estimate falls rather below the estimated amount, and there still remains somewhat more than 300 pounds worth of work still to be executed.

All the stone which will be required this season is now on the ground, and we are informed that the greatest part of the remainder is ready in the quarry.

In about a fortnight the gate will be completed and the front wall coped.

The particular dimensions of every stone are recorded in the measuring book of the work.

We are, &c.

Whereas by an Act entitled "An Act authorizing the sale of certain parcels of lands in the town of Romney, and for other purposes therein mentioned," it is among other things enacted, that the Executive shall be

authorized, on application of any person making out a title to the said land, to direct the Auditor to issue a warrant payable out of any money in the Treasury to the applicant, he giving bond with approved security to refund the same to any person who may hereafter produce a better title; and whereas James M. Marshall has made out a title to the said land, and has applied for the money arising from the said sales, and the Executive has directed that the same be paid to him on his executing a bond with approved security according to the said act, now the condition of the above obligation is such, that if the above bound James M. Marshall shall well and truly pay the sum of money received by him under the said order, to any person who shall hereafter produce a better title, then the above obligation to be void, otherwise to remain in full force.

THOS. NEWTON TO THE GOVERNOR.

Your Excellency's favor I received and directed Messrs. Willit and O'Cannon to send their Herald. If Norfolk was properly supported by Virginia, it would soon vie with the most flourishing cities in the Union. The resources of N. Carolina would mostly be deposited there, and also the greatest part of the Western Territories of this State as well as Kentucky &c.: but a little distance of a cut will introduce the western waters into the Dismal S. Canal.

I am now of opinion that the expense of Quarantine may safely cease as the cold must have stopped all infection. Your Excellency will please inform me the pleasure of the Executive thereon.

With the greatest respect, I am, &c.

 SAM'L COLEMAN TO THE GOVERNOR.

 1798.
 Nov. 1

At the desire of Mr. Pendleton, I have seen, counted and deposited in one of the large committee rooms in the Capitol, five hundred Cartridge Boxes made and delivered by Joseph Greaves, in pursuance of an advice of Council of the 29th of May last, recognizing the acceptance of proposals from John Tinsley and the said Joseph Greaves, each to furnish two thousand of the said boxes, agreeably to advertisement and the sample delivered at the rate of 4s. 6d. per box.

The Boxes now delivered by Mr. Greaves, appear in shape and size to conform with the sample; but the workmanship on the leather is generally coarse. The woodwork of the sample has not yet been seen by me: of course I cannot decide on the conformity of those delivered by Mr. Greaves with that part of the sample. In many instances the workmanship on the wood of those delivered, appears to be defective as in boring the receptacles for the Cartridges the partition between the two and sometimes more of them are cut away. How far an inconvenience may be suffered from this circumstance can only be determined by experience. I should judge that with ball cartridges it would be but trifling, but with cartridges of powder only, in hastily drawing one, perhaps two or three might be drawn at the same time.

By advertisement to receive proposals for furnishing these boxes, the straps were each to have a trap buckle. Mr. Greaves alleges that the buckles were to be dispensed with, and the straps to be made of different lengths, to accommodate the different sizes of men. I wish for the satisfaction of Mr. Greaves, that some of the members of the Board, would be pleased to examine some of the boxes which he has delivered.

B. H. LATROBE AND THOS. CALLIS TO THE GOVERNOR.

Nov. 28,
Richmond In compliance with your direction—"that the Architect and Superintendent of the Penitentiary report upon the state of the building as to its progress, and furnish an estimate of such materials as may be requisite for the completion of the same"—we beg leave to lay before you the following statement:

1797.—At the close of the last season (1797) the Basement Story of the East Wing, containing six solitary cells, a wash-house and store cellar, had been carried up as high as the ground line (water table); all the arches were turned and the centres struck.

The walls of the West Wing were raised to the springing of the arches, and all the centres were made and put into their situations. The front

walls were built as high as the ground line, and considerable progress had been made in erecting the gate and the offices attached to it.

1798.
Nov. 28,
Richmond

1798.—The late unfavorable spring prevented the workmen from resuming their operations until the first week in May, and the very early and severe frost has obliged them to desist a month sooner than last year; but notwithstanding these disadvantages and the delay and inconvenience occasioned by the uncommonly heavy rains of the months of June and August, the work has proceeded with considerable rapidity, and is at present in a state of forwardness not much short of our expectations.

East Wing.—The east wing, which is intended for the confinement of female convicts, has been carried up from the ground line to the eaves of the roof.

The arches of the ground story and second floor have been turned, and the centers of the third story are made and in their places.

The ground story contains six solitary cells, the guard-room of the women's ward, and one work-room.

The second story contains four work-rooms, and the upper story four dormitories. A staircase is in the northeast angle.

The roof of this wing is finished, ready to be raised as soon as the upper arches shall be turned.

West Wing.—The arches of the basement story have been turned and the story completed.

The ground story has been compleatly carried up and arched. Of the second story every part is erected excepting the north end. The west wing contains in the basement story the common dining-room for the men, to which the access is from their court. The whole wing may be appropriated to this use when their numbers may render it necessary.

The ground floor contains the kitchen, a bake-house, and an open arcade, the use of which is to admit air into the area of the building from the westward, the quarter from which the summer winds most usually blow.

Upon the second story is the infirmary for the men. These apartments are arched over and the wing would have been compleated this season had the weather continued mild as long as is usually the case.

The Gate.—The gateway is carried up to its utmost height and will be perfectly finished during the winter. It contains two lodges for a porter and guards, and on each wing a bath and store room—on the east for the women, on the west for the men.

The south walls are also carried up, and will in the course of the winter receive their coping and iron railing.

Men's Court.—Of the semi-circular building which is to contain the workshops, the dormitories, and the cells of the men, the foundations are laid and the external wall is raised to the height of five feet.

1798.
Nov. 30,
Richmond

The sewers are dug out and a road has been made from the city line to the gateway.

The smiths are at present employed in making the iron grates to the external windows, and during the winter will compleat all the work necessary to render the east wing and south front secure.

The carpenters have already finished a considerable number of window frames, and may during the winter compleat all the work necessary in the east and west wings. It is intended that all the external walls shall be lined with strong oak plank, thickly nailed. Much of the plank is delivered, and this necessary work will also be performed during the winter.

Most of the stone is already quarried, and much of it is delivered upon the spot. The experience of the present season and the nature of the brick has pointed out the necessity of a greater quantity of stone work than was at first intended, to the amount of \$850.

There are ready for the work of the next spring about 750,000 bricks upon the ground.

The expense of completing the work according to the design, will be as follows; we must, however, beg leave to suggest the fluctuating state of the prices of materials and labor, which has been already so much experienced, as liable to occasion uncertainty in our estimate. We have endeavored to be as accurate as possible, calculating from what has been done upon the expense of what still remains to be performed:

Brick work,	-	-	-	-	-	-	-	-	-	£5,324.12.6
Deduct 250,000 brick already paid for at 38s.,										475.00.0
										<u>£4,849.12.6</u>
Stone work,	-	-	-	-	-	-	-	-	-	554.00.6
Carpenters' work,	-	-	-	-	-	-	-	-	-	2,997.00.3
Joiners' work,	-	-	-	-	-	-	-	-	-	1,204.13.1

JOSEPH GALLEGO TO THE GOVERNOR.

A memorial setting forth the faithful services of Dr. Andrew Leiper as the physician of the Quarantine at the port of Richmond, and as his Executor asking a remuneration for his services commensurate with their value.

Dec. 10

Certificate of Gen. Nicholson, Super't of Quarantine at the port of Richmond, that he appointed Dr. Andrew Leiper as examining physician during the late Quarantine, and in consequence of that appointment the Dr. attended punctually to his duty and administered to those unfortunate men who died, every assistance and attention in his power at the risk of his own life.

There was no sum stipulated for his services, and I understand he never made any charge against the State. It is therefore submitted to the Executive to grant such compensation to his Estate as they shall think proper.

Given under my hand this 6th Dec. 1798.

Gen. NICHOLSON,
Supt. Quar. Port, Richmond.

1798.
Dec. 10

The administrator to the Estate of Dr. A. Leiper having requested of me to state the general Tenor of his services while he acted as Port Physician, I certify that on the 4th of Sep'r he visited on Board the sloop John, where there were three persons ill of the Yellow Fever. They had been in that state some days with only a boy to assist them, and who, when the Dr. went on board, were in a state of Filth past description; that he attended them constantly until their decease.

That there were twelve persons afflicted with the prevailing fever, ten of which died; that it generally took Dr. Leiper between three and four hours of time both morning and evening, and several times attended in the night; that he often had to visit on board twelve or fourteen vessels each day. I likewise certify that to relieve those that were ill he often assisted in cleansing and nourishing, and endeavoring by his example to put confidence in those who were to wait on them in his absence.

SAM'L MULFORD.

I certify that I performed Quarantine for 16 days at Hayes's Island; that I had a man on board ill with the then prevailing fever; that he was in so offensive a state that the danger of infection became almost certain. Nevertheless, Dr. A. Leiper attended him with unremitting attention morning and evening, intermixing in all his conduct the kind Friend and humane physician as I lay there. When the fever was most prevalent I had the opportunity of seeing him pay equal attention to all the afflicted.

SAM'L SWAN TO THE GOVERNOR.

[The following was communicated by the Governor to the General Assembly, December 11th, 1798.—Ed.]

Dec. 11

LONDON, *10th September, 1798.*

In October last I sent from Boston Mr. Rodolph Eschmann to Liege, in Germany, where I knew arms were to be got the quickest and best, and made funds at Rotterdam for the purchase of the first 4,000 stands I had the honor of contracting with you for. I received letters early in last spring from Eschmann that the arms could be got immediately, but that as Liege had become a district to France they could not be exported. I then concerted a plan to get them to Holland as Dutch Government property, and then I was disappointed, as the exportation could not be made without the consent of their good allies, the French. Baulked in that second attempt and clothed with the second contract, I came hither in person with funds to purchase both parcels, not doubting the British

1798.
Dec. 11

would countenance the export, since the present urgent circumstances might tend in all appearance to use them against her enemies if France should take in earnest against us. Here again I am disappointed, as not a musket can be exported without consent of Government, and not one be made except for her use, as there is not a gunmaker of any consequence in Birmingham (where I have been) who is not engaged for his Majesty. The sacrifice of a quarter more than on the Continent, I thought nothing of, provided I could supply you in time. Advised by Mr. King, our Minister, I now go for Hamburg, and shall endeavor to get them from Denmark or the eastern parts of Germany, where he has addressed me, and no doubt I shall be fully supplied, but not so early as the first contract specifies.

This therefore prays your Excellency and the honorable Council of State to accord me three or four months for the first 4,000 stands after the 1st of January next, and one or two months prolongation of the second (which probably will not be needed). This I trust you will grant, as the delay has been caused by superior force or act of Government, and the sacrifices I have made in the expense of an extra agent, my own time and expenses, and the advance of a double capital in two countries, entitle me to your consideration, and I hereby notify you that it is probable I shall have before May next, 16,000 stands at Richmond.

I am, with respect, &c.

Enclosed extract of Mr. King's letter:

I could by great interest have obtained of the Government here the quantity of arms out of the town every way conforming to the contract, only the barrel bore 16 to the pound, and not 18, as the pattern carries. Does this make an essential difference, or will you permit me to make this deviation?

Extract of a Letter from Mr. King to Mr. Swan, 1st September, 1798.

I have had the honor to receive your letter of the 27th ult., and am apprehensive that you will find it difficult to procure any considerable quantity of muskets in this country. The manufacture, tho' carried on by private persons, is subjected to such regulations that it must be considered as entirely in the hands of Government, which alleges that its own demands are greater than can be supplied by the English manufacturers, and upon this principle not only refused to permit the execution of foreign orders, but within a few months has imported a large quantity of muskets from the Continent. When we have the pleasure to see you in London it will be in my power to give you such information on this subject as will perhaps turn your attention to another quarter, from whence, as I learn, arms may be procured on good terms, in large quantities, and with expedition. An American convoy has lately sailed, &c.
